NEWSPAPER

Advertising Agents,

120 Gt. West Street,

DETROIT, MICH.

are authorized to contract for

advertising in this

paper. ADVANTAGES

of this paper, containing val-

uable information, sent by mail to applicants.

Canada Royal Benefit Society.

For those of small means as well as for

the rich; for the sober, the industrious and

the provident. It is based upon sound com-

mercial and economical principles, and is

wholly free from secrets and expensive cer-

emonies, with which many of the benevolent

societies of the present day are encumbered.

The benefit branch secures for its members

medical attendance and \$5 per week in case

of sickness or accident, and \$500 in case of

death, with a provision for one half of the

\$500 being paid should a member become

totally disabled through sickness or accident

at an earlier period.

The tables of fees have been drawn up with

the greatest care, making due allowance for

the difference of age at the time of joining the

Society.

From a careful inspection of the Society's

By-Laws, it is seen that the most possi-

ble advantages are offered for the premiums

paid.

The following table of fees will be of in-

terest to those desiring to join this Society:—

Age on Entrance Annual Assessment

Entering Fee. Fee Death of Member

From 16 to 20 \$4.00 \$2.50 30.38

DOMINION PARLIAMENT.

FOURTH PARLIAMENT—SECOND SESSION.

FRIDAY, Feb. 27.

In the House of Commons, after a Bill business, Mr. McCarty introduced a Bill to extend the operation of the principle that persons charged with common assault were made competent as witnesses in stocks.

Mr. Girouard (Jacques Cartier) introduced a Bill to suppress gambling in stocks.

Mr. Casey introduced a Bill relating to Civil Service reform.

The debate on receiving the report of the Committee of the Whole on the resolutions respecting the better administration of justice in British Columbia was resumed by Mr. Blake, who addressed himself at some length to the cost of judicial administration in the Pacific Provinces.

The Minister of Justice, who will be the center of justice, the argument advanced, and after remarks had been made by several British Columbia members, the resolutions were passed.

Sir Samuel Tilley's measure respecting the security to be given by officers of Canada was read a second time.

The Hooper matter was brought before the House by Mr. Kirkpatrick, who desired to read on behalf of the member for Lennox a statement made by him in the report of the proceedings of the committee.

After a brief discussion it was decided, in the absence of Mr. Casey, who presented the petition, to temporarily adjourn the debate. At a subsequent stage of the session Mr. Casey announced that the Government had agreed that the discussion on the petition should be the first order on Wednesday next.

The Insolvency Law Reform Bill was again under discussion, and an amendment by Mr. Blake, providing for the winding up of insolvent banks, and insurance companies, adopted in Committee of the Whole. Progress on the Bill was reported.

After recess the consideration of the Bill was resumed, and an amendment by Mr. Blake providing for the winding up of insolvent incorporated companies was lost on a division. The Government's amendment relative to banking and insurance companies, but after recess the Premier said that as some objections to the amendment had been raised, and the amendment, the Bill as amended had better stand for consideration until Tuesday next.

The consideration of Mr. Mackenzie's motion, that the bringing down of certain fiscal returns at the beginning of each session shall be a standing order, was resumed. Sir Samuel Tilley opposed the motion, which was finally withdrawn.

A debate sprang up on the second reading of the Bill legalizing marriage with a deceased wife's sister. Mr. Girouard (Jacques Cartier) in moving, and Mr. Cameron (North Victoria) in seconding, the motion, spoke strongly to the necessity of Mr. Thompson (Haldimand) objected on scriptural grounds. Messrs. Mills and Abbott both supported the Bill, but on slightly varied grounds. Mr. Blake also approved of its principle, but objected to its provisions as being ultra vires, and an infringement on Provincial rights. Mr. Anglin thought the Bill was a matter to be fought out amongst the Protestant members alone. The Catholic Church deemed such marriages objectionable, but under special circumstances.

The debate was adjourned and the House rose at 10:45 p. m.

Ontario Legislature.

FIRST SESSION—FOURTH LEGISLATURE.

FRIDAY Feb. 27.

Mr. Lauder, with the consent of the House, withdrew a motion he has had for some time past on the notice paper looking to the disqualification of members contracting with the Government for the purchase of Crown lands or timber.

After a number of Bills had been advanced a stage division was taken with reference to the bill introduced by Mr. Lauder to reduce the item for the Lieutenant-Governor's trip by the amount of the bill for "luxuries," which was carried by a majority of 54 to 25 as follows:—

Yates—Appleby, Avery, Badgerow, Ballantyne, Baxter, Belfield, Bonfield, Caldwell, Cascard, Chisholm, Crooks, Deroche, Dryden, Ferris, Field, Fraser, Freeman, Gibson (Huron), Gibson (Hamilton), Graham, Harcourt, Hardy, Hawley, Hunter, Laidlaw, Livingston, Lyon, McCrany, McKim, McLaughlin, McMahon, Mack, Miller, Moray, Murray, Nairn, Sculley, Patterson, Paxton, Peck, Robinson (Cardwell), Robinson (Kent), Ross, Sinclair, Springer, Striker, Waters, Watkinson, Widdifield, Wood—54.

Nays—Baker, Baskerville, Bell, Boulter, Broder, Calvin, Creighton, French, Harlin, Laidlaw, Lees, Long, Macmaster, Meredith, Merrick, Metcalfe, Monk, Morgan, Morris, Near, Parkhill, Richardson, Ross, Sinclair, Springer, Striker, Waters, Watkinson, Widdifield, Wood—25.

Subsequently a motion of Mr. Meredith's condemning the expenditure was voted down by 53 to 27, and a motion by Mr. Ross declaring that in all future official trips, except bills to be charged to the Province was carried by 53 to 27 as follows:—

Yates—Messrs. Appleby, Avery, Badgerow, Ballantyne, Baxter, Bishop, Belfield, Bonfield, Caldwell, Cascard, Chisholm, Crooks, Deroche, Dryden, Ferris, Field, Fraser, Freeman, Gibson (Huron), Gibson (Hamilton), Graham, Harcourt, Hardy, Hawley, Hunter, Laidlaw, Livingston, Lyon, McCrany, McKim, McLaughlin, McMahon, Mack, Miller, Moray, Murray, Nairn, Sculley, Patterson, Paxton, Peck, Robinson (Cardwell), Robinson (Kent), Ross, Sinclair, Springer, Striker, Waters, Watkinson, Widdifield, Wood, Young—53.

The last two motions were voted on in connection, and they therefore disposed of the matter.

A CARD.

To all who are suffering from the errors and indications of youth, use the following early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This recipe was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. John T. Maxwell, Station D, New York City.

AD PLAN. Containing and operating upon orders and instructions of your own mind, with the aid of the following early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This recipe was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. John T. Maxwell, Station D, New York City.

AUGUST FLOWER.

The immense sale and great popularity of the August Flower in all towns and villages in the civilized world has caused many imitators to adopt similar names, expecting to reap a harvest for themselves at the expense of the afflicted. This medicine was introduced in 1868, and for the cure of eye, nose, throat, and liver complaints, with their effects, such as Sore Throat, Coughs, Croup, Stomach, Sick Headache, Indigestion, Painful action of the Heart, vertigo, &c., &c., it never has failed to cure. Three doses will relieve any case of Dyspepsia. Two million bottles sold last year. Price 75 cents. Samples 10 cents.

No more Hard Times.

If you will stop spending so much on fine clothes, rich food and style, buy good, honest food, cheap and better clothing; get more real and substantial things of life every day, and especially stop the foolish habit of employing expensive quack doctors or using so much of the vile humbug medicine that does you no harm, but put your trust in that simple pure remedy, Hop Bitters; that cures always at a trifling cost, and you will see good times and have good health. See another column.

Drive out the Traitor.

Unless the original cause of any given disease be removed, there is no chance of obtaining a permanent cure. On the removal of the original cause, perhaps in nine cases out of ten, nature will cure the disease, and cure the sick man. Ladies suffer from a variety of ailments, resulting from nervousness, which is itself the cause of the disease. It is the nature of the disease, and the cure is the cure of the disease.

The Hooper matter was brought before the House by Mr. Kirkpatrick, who desired to read on behalf of the member for Lennox a statement made by him in the report of the proceedings of the committee.

After a brief discussion it was decided, in the absence of Mr. Casey, who presented the petition, to temporarily adjourn the debate. At a subsequent stage of the session Mr. Casey announced that the Government had agreed that the discussion on the petition should be the first order on Wednesday next.

The Insolvency Law Reform Bill was again under discussion, and an amendment by Mr. Blake, providing for the winding up of insolvent banks, and insurance companies, adopted in Committee of the Whole. Progress on the Bill was reported.

After recess the consideration of the Bill was resumed, and an amendment by Mr. Blake providing for the winding up of insolvent incorporated companies was lost on a division. The Government's amendment relative to banking and insurance companies, but after recess the Premier said that as some objections to the amendment had been raised, and the amendment, the Bill as amended had better stand for consideration until Tuesday next.

The consideration of Mr. Mackenzie's motion, that the bringing down of certain fiscal returns at the beginning of each session shall be a standing order, was resumed. Sir Samuel Tilley opposed the motion, which was finally withdrawn.

BELLEVILLE, TUESDAY, MARCH 2.

RAILWAY AID.—The Ontario Government have withdrawn their resolutions for granting aid to certain railways, and will not at this session grant any further aid to railway enterprises.

A Parallel.

No sooner had the revelations in connection with the late memorable trip of the Lieut. Governor of Ontario and party to Manitoba come to light than the press, with a candor that did them credit, almost unanimously declared the expenditure unjustifiable. We gave them credit for fearlessly speaking the opinion of the people of the Province, and had they rested with a condemnation of the expenditure the public would have credited them with sincerity of purpose, but not content with their condemnation they are now endeavoring to prove the expenditure justifiable by endeavoring to make out a parallel case against the defunct Sandfield Macdonald Government, and recite the *Chicago* trip in 1868 as justifying that of last summer. The facts of the case in the *Chicago* trip are that in 1868 a trip was made in connection with the timber and mineral policy of the Government. The subject of the journey had been discussed on the floor of the House and all the members were invited to attend. About one hundred and ten persons went on the trip, which was certainly non-political when we find that Mr. McKellar, Hon. Mr. McMurrich and Mr. Alex. McKenzie were of the party. The trip occupied nearly two weeks, and the amount expended for liquor and cigars was \$534.39. We do not purpose apologizing for such expenditure, and the Sandfield Macdonald Government were driven from power because the people considered they were not acting in the interests of the country. The Mowat Government were installed in their stead with the understanding that all such useless expenditure would be done away with, yet we find the apologists of the Mowat Government quoting the worse than useless expenditure in connection with the *Chicago* trip, which was undertaken in the interests of the country with the sanction of the House and in which 110 persons uselessly expended \$534.39. As a parallel case and a warrant for the expenditure by the Lieut. Governor and party of a dozen, of \$289.90—according to their own showing—of the people's money for liquor and cigars on a month's pleasure trip to Manitoba, when the whole of the expenses should have been paid out of the pockets of those who participated in the jaunt.

Another Gubernatorial Trip.

The *Owen Sound Times* thus exposes and comments on another trip by Lieut. Governor Macdonald and a party in 1878, the feature of which is Louis Roderich champagne, for which the parties who travel with his Honor appear to have a strong liking. Our contemporary says:—"The celebrated trip to the Northwest has now become matter of history, and as the particulars regarding it have evoked such interest throughout the Province, it may not be out of place to let daylight into the details of another pleasure trip taken the previous year, and on which a proportionately larger quantity of liquors was consumed than in the notorious expedition of the 'Corker' Club' in 1879. In the summer of 1878, His Honor the Lieutenant Governor, attended by his Private Secretary, resolved to take a holiday trip to Thunder Bay. Hon. Mr. Hardy, Provincial Treasurer, accompanied him, on the plea of selecting sites for lock-ups, in the absence of the Commissioner of Public Works, while Hon. Mr. Wood, Provincial Treasurer, went along to keep him company, and Mr. Langmuir, Inspector of Prisons, went to take charge of the party. For this little pleasure trip, the sum of \$546.16 was taken out of the Provincial treasury, one of the items of the bill being the following account for 'supplies,' ordered by Mr. Langmuir, under instructions of the Provincial Treasurer:—

TORONTO, 31st July, 1878.

Dept. of Public Works.

BOROUGH OF FULTON, MICHIGAN & Co.

2 cases Louis Roderich Champagne..... \$50.00

1 " Sparkling Rum..... 12.00

1 " Brandy..... 10.00

1 " Extra Old Rye..... 6.00

2 bottles V. Cognac..... 2.00

4 dozen Sherry..... 7.00

1 bottle Port..... 1.50

2 cases Holland..... 1.50

3 dozen Apples..... 6.75

100 Cigars "H. Clay & Co. Havana"..... 10.00

100 Cigars "Resurrection"..... 5.00

Person's Station..... 2.25

1 tin Ed. Water Blenheim..... 1.50

1 tin Soda..... 1.10

Out Tobacco..... 1.50

2 packages..... 1.00

Total..... \$119.16

Ang. Ist. 1 case "St. Stephen's" Claret..... 11.00

Total..... \$130.16

*This is not had for a simple trip on the steamer to Thunder Bay and return. Hun-

dreds of toniars have undertaken the trip without fortifying themselves with such a variety of liquors, but then it makes a difference when you have the Provincial treasury to draw on. After the experience of such a nice little preliminary trip, it is not at all surprising that Treasurer Wood laid his plans for a bigger jollification at the public expense the next summer. Will the Ministry have the next "rehabilitation" refunded to the Province, as they have a portion of the next year's one, because a fuse has been raised about it?"

Holloway St. C. M. Church.

ANNUAL MISSIONARY MEETING.

There was a small attendance on the occasion of the Missionary meeting in the Holloway Street Church last night. This is to be regretted, as the meeting was one of the best that has ever been held in this Church.

After singing and prayer by Rev. E. H. Dewar, Mr. Jacob Wilson was called upon to occupy the chair.

Mr. Lockie read the annual report, which showed a slight increase of expenditure over income. Resolutions were passed appointing Mr. Wm. Donnelly Treasurer, and I. Diamond Secretary; also, the following Collectors were appointed for the present year: Misses Duimage, Bates, Snell, Flowers, and Lucas. The same Missionary Committee was appointed.

The choir rendered "Who are these in bright array?" The choir is now in a very efficient state, and is entitled to much praise for the selections of both vocal and instrumental music which they rendered.

Dr. Nelles was called upon and said he was very glad to come to Belleville and to find a Cobourg "Boy" in the chair. He said if there was anything for which he would strain a point it is to accept a missionary invitation. He spoke of the amount which Cobourg had subscribed towards the missionary funds, and said there were towns he knew of not a thousand miles away with twice the inhabitants which did not do nearly as much. He regretted that there was not a returned missionary here to tell them of things which had come under his observation, and which Mr. Dewar could tell any savage stories he should expatiate on them. He said it was a long time since the first preaching, about eighteen hundred years, and yet it is a fact that the missionaries are few and but little progress had been made which, after all, is the fault of the church. Demosthenes once said to arouse the Athenians, "If we had not failed in the past by reason of our apathy; in the future by a combination of all our efforts he felt assured that we will have success." There is a slumbering incapacity in the church and also a lack of liberality which he ascribed to a lack of conviction and understanding of the Gospel. There are two great kinds of Christian work, one is Christianity that is in the world, and the other is that of the church. Some will say the Christianity of the church is that of the Bible, we think that is so of the Methodist Church but others think so also of their branch of the Church, but in speaking he meant Christendom and think that the Christianity of the church is and always has been an imperfect and mutilated copy of the true religion of Jesus Christ. We may go back to the beginning; we do not know how hard it was for the apostles, with their Jewish education and habits, to come into the Christian Church. Christianity, after 300 years, converted the Roman Empire, which in return mutilated religion. In our own day we do not stand where we ought to be in connection with the missionary spirit; we do not come up to a Christian stand point in view of liberality and self-denial after what Christianity has done for us. We are thankful we are doing something, but we do not want to despair or become ungrateful, but we should do as much every year as we have done this year and then not be doing too much.

Dr. DEWAR said there was one thought he would protest against, a prevailing feeling among the people of the Church that the Missionary cause was a part of the machinery tacked on to the Church. But no, the Missionary cause is the life of the Church. You may measure the life of a Church in Christ by its liberality, by its attempt to lift the fallen world, to spread the light of the Gospel. He thought there was something in the grandness of the undertaking which would stimulate ourselves. He told an incident that occurred with Nelson, who always in a fight ran his ship between two of the biggest he could see and thundered away at both at once. So they had established their mission at Rome between a convent and a university. There is nothing that will resist the swelling tide of unbelief but the living Church. He referred in glowing terms to our Japan missionaries and believed it quite in sympathy that we ought to help them. It was the duty of the Christian Church to send salvation to all the world. God forbid that they should withdraw from any part of the field, but may there be a desire to go on. An agency has arrived in which God ask you to contribute and God forbid that we retain anything which He has given us. He concluded a very able address with a call for them to give to-night whether it be little or much, but in proportion to our faith in the ultimate success and gratitude to God for what he has done for us.

There were present and occupying seats on the platform, Mr. John Wilson, M. P. B. Robin, Esq., Thos. Hideo, Esq., and Rev. Mr. Mitchell, the latter of whom delivered a very appropriate and short address, and closed the meeting with the benediction.

The collection was \$183.86, which was much more than has been subscribed for the past years.

REVENUE.—The Customs and Inland Revenue returns of Montreal for February show a large falling off compared with the same period last year. This is explained by the large amount that was paid in late February in anticipation of the increase of the tariff. The same falling off will doubtless be observable throughout the country generally.

ATTEMPTED SUICIDE.

Which Will Probably Terminate Fatally.

This morning, shortly before seven o'clock, Robert Ferguson, a tanner, engaged in the tannery of Mr. John Walsh at Canifon, and living in that village, attempted suicide by cutting his throat with a razor.

The only reason assigned for this attempt at self destruction is that yesterday he received some news which greatly depressed his spirits, and with that exception his actions were not those of one who was demented.

The cut in the throat is about three inches in width and penetrated into the larynx, and the probabilities at this writing are that the unfortunate man cannot survive. The services of Dr. Willson were procured and he ministered to the requirements of the sufferer, whom he found pulseless and in a state of collapse. He was restless and faint and no likelihood of a reaction manifested itself.

Ferguson was married and was the father of two children. He was about 30 years of age, and on account of being strictly temperate in his habits and in a worldly sense fair to do, the cause of his rashness is difficult of determination. His parents reside, we are informed, in Madoc.

LATER.

Since writing the above, Dr. Willson again visited the victim of this occurrence and expresses the opinion that the young man cannot survive. He is growing weaker gradually, and his end is not more than a few hours distant. The cause which led him to commit the untimely act which has hastened his decease has not yet been learned.

Legal.

In Common Law Chambers, Toronto, on the 26th:

CLARKE v. FARRELL.—This was an interpleader case for the Sheriff of Hastings. The Sheriff seized the goods under the plaintiff's execution in April, 1879. On 12th May following he obtained an interpleader summons, three claimants having laid claim to the goods. On 10th May the landlord of the premises served the sheriff with a notice that he also claimed the goods, but no attention was then paid to this claim, and three separate interpleaders issues were directed to try the titles of the three claimants who had appeared. These issues were tried and determined in favor of the claimants. In Michaelmas Term following the plaintiff obtained a rule nisi for a new trial, which was discharged. In the meantime the goods had been sold, and the Sheriff had remained in possession of the money until 18th February, when he obtained another interpleader summons to try the right of the landlord to the money in his hands. Judgment was now given discharging this summons with costs, Mr. Dalton holding that the Sheriff had debarred himself from all right to interplead by his conduct in not taking notice of the landlord's claim when the first interpleader application was made.

On the 27th the following cases were heard:—

POWELL v. PRINCE EDWARD M. F. INS. Co.—(Dickson) (Belleville) obtained a summons to strike out pleas as embarrassing.

GLASS v. HASTINGS.—Aylesworth moved absolute a summons for leave to reply and demur. Bell, Q.C., showed cause in the first instance. Judgment reserved.

GOLDING v. MACKIE.—J. B. Clark showed cause to a rule nisi to discharge defendant from custody. G. D. Dickson contra. Reserved.

MORNING DISPATCHES.

AMERICAN.

DES MOINES, March 2.—Parnell, Dillon and Murdoch appeared at the House of Representatives yesterday. The Speaker introduced Parnell to the House. Parnell briefly addressed it.

CHICAGO, March 2.—The total receipts of lumber at Chicago during 79 were 1,467,720,000 feet, an increase for the year of 56 per cent.

BOSTON, March 2.—The employees of the Lancaster Woollen Mills at Clinton have struck. The mills will probably stop, throwing 1,500 out of employment.

MILLERSVILLE, Pa., March 2.—Eugene O'Keefe, formerly of Jamestown, N. Y., while here last fall became ill, and Miss Mary Logan, total stranger, nursed him. O'Keefe died in Texas on Thursday leaving Miss Logan \$25,000.

PITTSBURG, March 2.—A letter from Elliott, the English carman, states that he will come to this country in April. If he cannot row to advantage he will work at his trade, coal mining.

NEW YORK, March 2.—Gideon Frost, a Quaker, aged 82, died at Greenville, L. I., on Wednesday, leaving half a million. He was afraid of being buried alive. He directed that his body should be kept in a warm room five days. He was buried yesterday.

The Herald fund amounts to \$250,600.

The steamship *Hindoo*, abandoned a week ago in a sinking condition, was valued at \$350,000, uninsured. Her cargo included 210 cases, 167,400 lbs. of rice, 16,000 lbs. of wheat, and 90 cases of dry goods.

The steamer *Thamarr* has arrived from Cardiff with the Captain and crew of 18 of the ship *Creig*, bound from Pensacola for Greenock, abandoned in mid ocean.

The Pennsylvania Coal Company have advanced the March prices for lump, steam and grate, and for egg. The Lehigh Valley and Lykens Valley Companies have also advanced prices.

Alfred Goodell, dentist, sustained a fatal fall last evening while practicing at Woods' gymnasium.

THE GATINEAU OUTRAGE.—Dr. Langlois, one of the Gatineau fire-brigs, has been captured. He recently left the country to escape a charge of sedition and abortion. Father Faure has been lodged in jail. The preliminary examination shows a pretty clear case against the prisoners.

Correspondence.

While no correspondence will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

Sir,—By an Order in Council dated the 23rd day of October, 1879, Mr. A. H. Gilbert, Public School Teacher in Tweed, was prohibited from teaching in any public school in this Province, for some alleged impropriety at the intermediate examination, held in Belleville in July last.

The many friends of Mr. Gilbert will be pleased to learn that the above Order in Council has been rescinded by the following, dated February 25th, 1880:

(Copy.)

Copy of an Order in Council approved by His Honor the Lieutenant-Governor the 25th day of February, A. D. 1880.

Upon consideration of the report of the Honorable the Minister of Education dated the 20th day of February, 1880, the Committee of Council advise that the disqualification of Abel H. Gilbert from holding the position of Public School Teacher, as ordered by Order in Council of the 18th day of December, 1879, be rescinded, and that he be restored to his former status as a Public School Teacher and that he be at liberty to present himself for examination for Teacher's certificate at any future period.

Certified J. G. Scott, Clerk Executive Council Ontario.

The Honorable the Minister of Education.

CARD OF THANKS.

Mr. A. H. Gilbert, of Tweed, begs leave to return his sincere thanks to his many friends in this County and elsewhere who kindly rendered him their influence to have him reinstated, to which request the Hon. the Minister of Education has acceded.

Tweed, March 1st, 1880.

To the Editor of the Intelligencer.

Mr. Editor, Dear Sir,—Could you explain how it was that when Dr. Fowler lectured here a short time ago, a streamer was hung across the street, advertising the lecture, but was immediately ordered down by our zealous Chief of Police; one day last week I observed a similar case of advertising was indulged in, but in this case it was allowed to remain flying across Front Street all day. Has the by-law forbidding such things changed, or is our worthy Chief getting weary in well doing?

Yours truly,

Belleville, March 1st, 1880.

IN BRISTOL'S SASSAPARILLA WE HAVE THE most potent and reliable of all purifiers and regulators, and in BRISTOL'S SUGAR-COATED VEGETABLE PILLS we have the best purgative and regulator of the bowels and liver that has, thus far, been discovered by the medical faculty.

MECHANICS' INSTITUTE.

ATHLETIC AND GYMNASIUM ENTERTAINMENT.

At the OPERA HOUSE, Friday Evening, March 5th.

UNDER the patronage of the Ladies of the Institute, by

B. W. JOHNSON, assisted by his Classes.

Programme:

Lightning Drill, by Infant Class.

India Club Exercise, by Infant Class.

Specialty—Club Swimming, Tumbling, Athletic and Acrobatic feats, by Infant Class.

Trapeze Acting, Marble Statuary, Tag of War.

To conclude with a grand

ATHLETIC TABLEAU.

Admission 25 and 35 cts. Plan open at the Library of the Institute. Doors open at 7:30 to commence at 8.

GOD SAVE THE QUEEN.

March 1, 1880.

Established 1850.

HAMBLY,

Baker and Confectioner.

CARD.

THE subscriber requests that his customers will kindly pay up their Bread accounts, which, though small individually, amount to an exceedingly large and very serious sum in the aggregate. It must be understood that where small accounts are permitted to run, they must be paid when the account is presented. It won't do to put it off with Excuses of any sort. It will be exceedingly unpleasant withdrawing from a customer's patronage, but it will be absolutely necessary to check the amount of credit sales, and to withdraw articles from patrons who from whatever reason do not pay their accounts promptly when presented. NO REASONABLE PERSON objects to look upon BREAD AS CASH.

P. H. HAMBLEY.

March 1st, 1880.

Consolidated Bank of Canada.

BILL holders and Depositors are, at the request of the Consolidated Bank, desired to present their claims to the undersigned, at Merchants' Bank, Belleville, on and after 1st March next, for settlement.

by a Chorus of thirty voices, accompanied by Piano, Cornet, and Violin, with Vocal Solos by leading Amateurs.

Tickets 40c, each, to be had at R. Templeton's Drug Store.

Feb. 28.

DISSOLUTION.

THE partnership heretofore existing between Thomas Muir and William C. Lawrence, doing business under the style and firm of Muir & Lawrence, has been this day dissolved by mutual consent.

The business in future will be carried on by Thos. Muir.

THOMAS MUIR,

W. C. LAWRENCE.

Belleville, March 1, 1880.

2t

725 FRONT STREET,

Opposite the Anglo-American.

NOTICE.

ALTHOUGH we have always done what is called a "cash business," yet for several years we have allowed a certain amount of latitude in the matter, some of our most valued customers having fallen into the habit of settling monthly, instead of paying at the time. This, however, we find leads to much more than we intended, as it is often impossible to deny a short credit to doubtful customers, if we are in the habit of allowing it to good ones. Even a short credit inevitably leads to losses, and these losses have to be paid for, in part at least, by those who do pay honestly and promptly. We have long felt this to be unfair, and for our own sake, and that of our customers, we have resolved to entirely abandon it.

Accordingly, from the 1st of March next, we shall not, under any circumstances, sell goods on credit, and we trust that our friends will not give us the painful necessity of refusing them.

In taking this stand we do so with the firm conviction that it will be to the benefit of both buyer and seller; as while on the one hand we shall be saved much loss of money and time, on the other we shall be able to sell at lower prices, certain of getting our money in full.

We are year by year purchasing to better advantage, and to-day the bulk of our stock is bought as cheaply as that of the wholesale houses of Toronto and Montreal, thus enabling us to give our customers the very best value for their money.

F. H. ROUS & Co.

Belleville, Feb. 10, 1880.

Daily Intelligencer.

BELLEVILLE, TUESDAY, MARCH 2.

City and Vicinity.

THE CELLS.—No signature was added to the register of the free hotel last night.

NEW OFFICE.—The Dominion Telegraph Company have opened a new office at Delaware, Ontario.

PERSONAL.—We learn that R. J. Galling, Esq., the inventor of the "Gatling gun" and brother of our esteemed townsman, W. J. Galling, was recently elected an Honorary member of the Reform Club, of London, England.

THE "CITY OF BELLEVILLE."—This steamer, which is now lying at Kingston, has recently been furnished with a new wheel, and supplied with the usual repairs necessary for a passenger steamer. She will ply upon the Georgian Bay during the approaching season, and when navigation permits will proceed to her destination.

THE "WINNIEGO TIMES."—This journal, which responded publication during the early part of last month, has been re-established as a daily morning newspaper by Mr. Amos Howe, formerly of Ottawa, and bids fair to achieve success. The Times is conservative in politics, is ably edited, and will do much to sustain the good cause in the flourishing city of Winnipeg, the Prairie Province and the North-west generally.

THE OPERA HOUSE.—This evening Mr. McDowell's company will present for the first time in this city "H. M. S. Parliament," an extravaganza, written by an ex-Bushman. It abounds with political hints which are said to touch party and affords an almost infinite fund for amusement, to all who witness it, and interspersed merriment, with a great deal of practical hilarious sense and amusing incongruities.

MR. HANMOND IN MONTREAL.—The witness stated that Mr. Hammond began his revival work very successfully in Montreal on Saturday night, and held other largely attended meetings on Sunday. Several letters were read from parties in Belleville giving highly encouraging accounts of the work here, and urging the Protestant ministers to aid in forwarding it in Montreal.

REMARKS.—The recent effort of the ice king has once again gladdened the hearts of curlers as well of those skatorially inclined, as the ice on the rinks has hardened and become fit for the practice of the exercise in each department of sport. A continuation of such weather will afford an opportunity for the practice of the physical culture of which are concerned, and doubtless it will be improved by all who delight in either curling or skating.

TEA MEETING.—A tea meeting in connection with the new M. E. Church, 2nd con. Thurlow, was held on the evening of Wednesday, Feb. 25th, for the purpose of raising funds for the erection of a shed. Notwithstanding the bad roads and the unfavorable state of the weather, the church was comfortably filled. An excellent tea was provided by the ladies, after partaking of which the chair was ably occupied by S. E. Burdett, Esq., L. L. D., of Belleville. Then followed addresses by several local gentlemen, and a few recitations. The proceedings were enlivened with choice music by the Bethel choir of 9th con. Thurlow. Miss Clara Wells presiding at the organ. The proceeds of the evening amounted to \$35.

IT REMOVES WRINKLES & SOFTENS THE SKIN. The regular use of MURPHY & LAMBERT'S PONDUS WATER at the face, to prevent and remove wrinkles, the softness of the skin produced by it taking away the natural inclination of the outline to form ridges and furrows.

DEAD.—Robert Ferguson, who cut his throat this morning, died this afternoon. Dr. Willson considered it unnecessary to hold an inquest.

CROWDED OUT.—The synopsis of Rev. Mr. McLean's sermon, preached in St. Andrew's Church on Sunday, has been crowded out but will appear to-morrow.

BAILED STRAW.—A brisk demand has sprung up this season for bailed straw for shipment to the States. All the straw offered is being purchased for shipment.

PERSONAL.—We regret to learn that Mr. Wm. Hamilton, Collector of Inland Revenue, has been confined to his house for the past week from an attack of inflammation of the kidneys. His early recovery is hoped for by his many friends.

INLAND REVENUE.—The returns for the month of February present the following exhibit: Spirits, \$1,224.87; malt, \$239.13; tobacco, \$1,190.70. Total, \$5,054.70. For the corresponding period of 1879, \$9,650.94; a decrease for 1880 of \$3,996.24.

THE ICE CHOK.—Fears are being entertained that the ice crops will be very insufficient in many parts of Canada and the United States. A telegram was received to-day asking could schooners be loaded with ice for Rochester.

THE FERRY.—Mr. Jellott has a gang of painters, carpenters and an engineer, busily engaged fitting up his ferry so as to be ready in the event of the ice going out under, of which their appears to be every prospect.

OPEN.—Kingston harbor is now open all the ice having been destroyed by the gale on Sunday. Steamers were running about on Monday and the ferries preparing to run. This is the earliest destruction of the ice bridge that has occurred for many years.

FIRE.—Shortly after three o'clock this afternoon the firemen were called out to quench a fire on William Street, north of Hotel Street, occupied by John Daw. As the building was a frame structure it presented itself at the time of writing, a ready element for the flames.

ATHLETIC AND GYMNASIC.—As will be seen by advertisement, the athletic and gymnastic entertainment, held by the pupils of the Mechanics' Institute Gymnasium, assisted by Mr. E. W. Johnston their able instructor, will be given in the Opera House on Friday night. This exhibition of local skill, which is under the patronage of the lady members of the Institute, ought to attract a large audience. The programme is contained in the advertisement and the plan is now open at the Library of the Institute.

THE CARNIVAL.—This event, which took place last night in the Pinnacle Street Rink, was not a financial success. The number of skaters in costume was limited, whilst the attendance of spectators was very small. There was a good sheet of ice; the interior of the rink was profusely bedecked with evergreens and lighted with many colored Chinese lanterns; the Oddfellows' Band presented several musical offerings with their accustomed precision and taste, but these—all these—the people evidently did not care to see and for that reason the venture was unprofitable.

Mrs. SCOTT-SIDDONS.—The following tribute paid to Mrs. Scott-Siddons, by the New York Telegram, will be joined in by the many admirers in this city of her genius:—"In connection with Mrs. Scott-Siddons' appearance here this evening, it may be considered that this is her last tour of America, and the stage and reading career may soon bid farewell to one of the most brilliantly beautiful and talented women by whom a public profession or private life was ever adorned. Few artists have endeavored themselves to the American public as has Mary Scott-Siddons. Unlike many of her countrywomen, who came hither to display physical charms, and who were found to be utterly blank as to brains, Mrs. Siddons' beauty was found to be the exquisite casket enclosing rare gems of genius. Her pure face, immobile as marble in repose, was found to be a marvel of expressiveness in interpreting thought, and every motion of the life form was full of suggestion in giving to a character dramatic life. Other beauties we have had by the dozen, women with faultless forms, fine faces and all the concomitants of feminine loveliness; but not one of them has approached Mrs. Siddons in intellectuality. Their beauty tainted too much of the physical and too little of the mental. They were of the earth, earthly—almost gross. They may have supplied in motion, graceful of gesture and possessed of voices full of melody, but they lacked soul, genius, fire—whatever quality that may be called, which, being added to beauty, surpasses it and makes the physical attractiveness the inferior and the aesthetic the superior. Mrs. Siddons was, and is, not only a beautiful woman, but a great actress, and one whose place on the stage it will be very difficult to fill." The house will doubtless be crowded on her appearance here on Thursday evening next.

Revival Services.

MONDAY EVENING.

The was again a large attendance at the services in the Bridge Street Church last night and unabated interest continues to be manifested in the proceedings. After the regular services, two enquiry meetings were held and a large number of conversions were made.

TUESDAY MORNING.

This morning's services were conducted by Rev. Mr. Willoughby and in the opening consisted of a series of prayers and praise. Subsequently several converts related their experience and uttered expressions of gratitude to God for the mercies extended to them by Him. Mr. Willoughby read chapter from the New Testament and the meeting afterwards closed with the usual exercises.

FOR MANTONIA.—Messrs. Hambley and McTaggart shipped to-day per G. T. R. one car load, consisting of two waggon loads of four sleighs. The car is loaded with car will be attached to the special train which passes here to-night at 9.30.

WATERHOLE REPORTS.

TORONTO, March 2.—Probabilities for the next twenty-four hours: For the lower lakes, partly cloudy, with snow flurries in the evening; no decided change in temperature.

WASHINGTON, March 2.—Indications: For lower lakes, warmer winds, cloudy.

FOR MANTONIA.—Messrs. Hambley and McTaggart shipped to-day per G. T. R. one car load, consisting of two waggon loads of four sleighs. The car is loaded with car will be attached to the special train which passes here to-night at 9.30.

Customs Returns.

Goods entered for consumption during the month of February, 1880 and 1879:

Imports.	Value.	Duty.
Feb. 1880.....	\$ 8,517	\$2,117.45
1879.....	33,329	9,601.00
Decrease.....	\$24,812	\$7,483.55

Exports.	Value.
Feb. 1880.....	\$14,822
Feb. 1879.....	8,717
Increase.....	\$ 6,105

The decrease in imports is owing to the rush on warehouses and early importations during the month of February, 1879, in anticipation of a change in the tariff. The collections for February, 1880, are greater than for the same month of 1878.

Police Court.

(Before A. Diamond, P. M.)

MONDAY, March 1st, 1880.

AFTERNOON SITTING.

ILLEGAL FISHING.

The oft adjourned case of George and William Macdonald, who charged Thomas Macdonald with fishing contrary to the statute—the alleged offence being the blocking by nets of Zwick's and Bell's Creeks in the Township of Thurlow, was again up for hearing.

Several witnesses were examined, after which a proposition from the prosecutors' counsel to amend the information was laid over until Wednesday.

FALSE PRETENCES.

Henry Howard was charged with having on the 20th ult. in this city obtained one dinner set and other goods from F. H. Ross & Co. by false pretences.

Mr. W. J. Diamond appeared for the prosecution and Mr. G. D. Dickson for the defendant.

Mr. F. H. Ross affirmed that the accused came to his store on the 20th of February, and on the strength of a representation made by him that he was employed by the Ontario Government as Inspector of Mines, he procured a quantity of goods on credit.

Mr. Ross, on learning that Howard's statements were false—which information was obtained by telegram from the Hon. C. E. Fraser—went with the Chief and got his goods, which were given up by the defendant's wife. The value of the goods obtained from Mr. Ross was \$41.75.

William Edwards, Secretary of the Public Works Department at Toronto, deposed that his endeavor to ascertain if Howard was in the employ of the Ontario Government, developed the fact that he was not; neither was there such an office as Inspector of Mines.

Chief McKinnon gave evidence to the effect that he saw the prisoner near his house on the 21st ult., but did not recognize him then. On his re-examination with Mrs. Howard she consented to give up the goods procured from Mr. Ross and others.

William Cassidy, of Campbellford, swore that he first knew the prisoner three years ago under the name of Charles E. Stewart; defendant was then peddling patent medicines and procured some goods from his witness, which he had to attach to get his pay.

George Davis testified that he first became acquainted with the defendant five months ago in Peterborough under the name of Proctor; his father's name is Newbold; the accused left there three weeks ago to peddle medicines. The defendant hired two horses and rigs from him (the witness) and sent one horse and harness back from Foxboro; witness found the other here.

James Byrne gave evidence that the accused's name was Newbold, but that he also went by the name of Proctor.

The further hearing of the case was adjourned until to-morrow.

TUESDAY, 2nd March, 1880.

FRAUD.

Henry Howard appeared on remand charged with obtaining a variety of goods from Thomas Ritchie to the extent of \$232. Evidence was adduced to the effect that the accused bought the goods and that he made representations similar to those made to Mr. Ross with the exception that he was in the employ of the Dominion Government instead of the Ottawa Government.

At the close of the evidence His Worship committed the prisoner for trial at the next court of competent criminal jurisdiction.

AFTERNOON DISPATCHES.

TEHRAN, March 2.—The idea of the Persian expedition to Afghanistan, Seistan and eventually to Herat has been abandoned on account of political difficulties likely to result. The construction of the Russian Telegraph Line from Tikhikar to Chat has been commenced.

BALMOR, March 2.—Sergeant General Vaila U. S. N. died, aged 71.

ST. PETERSBURG, March 2.—Decrees granting pardons to prisoners, remitting arrears in taxes owing by the Russian population, and awarding orders of distinction, have been published. All the members of the Empire including Gorchakoff will proceed this morning to the Winter Palace and present a congratulatory address to the Emperor. An official newspaper publishes a letter from Emperor William to the Emperor of Russia congratulating the Czar in the 25th anniversary of his accession, and on his recent escape from injury. Emperor William expresses gratification that the friendship which united their fathers has been maintained, and his confidence that it will continue unchanged to the end of his life. The Czarist gaily decorated, the day being observed as an annual holiday. At ten his morning vast crowds assembled before the Winter Palace. Troops were massed in the centre courtyard of the palace and immediate vicinity. The programme of ceremonies hereafter given was executed. The Czar appeared on the balcony, where he remained 20 minutes saluting the multitude amid great enthusiasm.

FOR MANTONIA.—Messrs. Hambley and McTaggart shipped to-day per G. T. R. one car load, consisting of two waggon loads of four sleighs. The car is loaded with car will be attached to the special train which passes here to-night at 9.30.

Father is Getting Well.

My father says, "How much better I feel to be since he used Hop Bitters. It is getting well after his long suffering from a disease declared incurable, and we are so glad that he used your Bitters—A lady of Rochester, N.Y."

"We are glad to learn that the 'PAIN-KILLER' having so large a sale in our city. We have every reason to believe it to be an almost never-failing cure for pain, and a medicine that no family should be without."—*Montreal Pilot.*

Dr. A. R. SCOVILL, of Cincinnati, says:

"For Coughs and the early stages of Lung complaint, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of a cough, about the Lungs, there would be very few cases of fatal consumption."

Bucklen's Arnica Salve.

An Honest Medicine Free of Charge.

Of all medicines advertised to cure any affection of the Throat, Chest or Lungs, we know of none we can recommend so highly as Dr. Kew's New Discovery for Consumption, Coughs, Colds, Asthma, Bronchitis, Hay Fever, Hoarseness, tickling in the throat, loss of voice, etc. This medicine does positively cure, and that where everything else has failed. No medicine can show one-half so many positive and permanent cures as have already been effected by this truly wonderful remedy. For Asthma and Bronchitis it is a perfect specific, curing the very worst cases in the shortest time possible. We say by all means give it a trial. Trial bottles free. Regular size \$1.00. For sale by JAMES CLARKE & Co.

Canada Royal Benefit Society.

THIS Society is for all insurable persons; for those of small means as well as for the rich; for the laborer, the small commercial, and the professional man, and is wholly free from secret and expensive agencies, with which many of the benevolent societies of the present day are encumbered.
The benefit fund accrues for its members medical attendance and \$5 per week in case of sickness or accident, and \$500 in case of death, with a provision for one half of the \$500 being paid should a member become totally disabled through sickness or accident at an earlier period.
The tables of fees have been drawn up with the greatest care, making due allowance for the difference of age at the time of joining the Society.
A careful inspection of the Society's By-Laws, it will be seen that the greatest possible advantages are offered for the premiums paid.
The following table of fees will be of interest to those desiring to join this Society:
Entrance Fee. Fee. Death Benefit.
From 16 to 20 yrs. \$4.00. \$250.00 \$50.00

THE NEW

CORSET

Meets with Universal Approval and Adoption.

PERFECT ADJUSTABLE FIT.

THE MOST ATTRACTIVE AND LASTING CORSET EVER DESIGNED.

THIS new and improved Corset is adjusted by a semi-circular or Elliptical Lacing over the hips, thus avoiding the disagreeable and sometimes painful side-stitching which is found in the Corsets now in use. The facility with which it adjusts itself to forms of different development and size, and the great comfort and ease with which it may be worn, enable the figure to be displayed to much greater advantage, and cannot but prove a valuable acquisition to the most perfect toilet.

The improved system of lacing employed in the Semi-circular Adjustable Hip Corset, prevents the wear and tear to which other kinds are so liable; and as the wearing strains are equalized and distributed over the entire surface, they will be found to outlast three of the ordinary style of Corsets in present use.

It is only necessary to bring this new and improved style of Corset under the observation of the ladies, to at once win their immediate endorsement and adoption. Ask to see the points of excellence cannot fail to arrest instant recognition and adoption. ASK TO SEE THEM

St. Andrew's Church.

The following is an outline of the sermon preached on Sunday evening last by Rev. Mr. Maclean, minister of St. Andrew's Church. His discourse was based on the 5th chap. 21st verse:-

After a few opening remarks, the preacher proceeded to state that he was well aware that the discussion of the subject of revivals of religion was a delicate undertaking, and was for many reasons, chief among which, was the likelihood, not only of being misunderstood, but of certainly offending the prejudices of many who were doubtless sincere Christians, no matter what conclusions might be arrived at. Nevertheless, it was the duty of the pulpit to consider whatever came within the field of religious life and work.

There are many sincere hard working Christians who daily pray that God would revive His work—who are earnest and disinterested in their desires and efforts for such a reviving of God's spirit as may have fallen from them, and more so, than many who bear the name—who have nevertheless some conscientious convictions that much of what is called revival of religion is not, in the true sense, revivals of religion, whatever else they may be.

These convictions are not the result of the excitement which at times is attendant on such scenes. Incidents in the Life of our Lord teach us that excitement has existed in the midst of a reviving grace. Neither are the results of the method of revival abnormal as they may appear to many; but in the way of revival are conducted, Nor is it because it is characterized by many imperfections glaring though they may be. Imperfection is characteristic of all human action.

None of these elements form the real ground of the Christian's conscientious scruples, although, taken together they may have some influence in swaying his judgment. He may be, and indeed is, painfully conscious of his own shortcomings, his weakness in full development and size, and the great comfort and ease with which it may be worn, enable the figure to be displayed to much greater advantage, and cannot but prove a valuable acquisition to the most perfect toilet.

The improved system of lacing employed in the Semi-circular Adjustable Hip Corset, prevents the wear and tear to which other kinds are so liable; and as the wearing strains are equalized and distributed over the entire surface, they will be found to outlast three of the ordinary style of Corsets in present use.

It is only necessary to bring this new and improved style of Corset under the observation of the ladies, to at once win their immediate endorsement and adoption. Ask to see the points of excellence cannot fail to arrest instant recognition and adoption. ASK TO SEE THEM

LAME BACK, WEAK BACK.

BENSON'S CAPSICUM POROUS PLASTER.

Overwhelming evidence of their superiority over all other plasters. It is every-where recommended by Physicians, Druggists and the Press.

The manufacturer received a special award and the only medal given for porous plaster at the Centennial Exposition, 1876, at Philadelphia.

Their great merit lies in the fact that they are the only plasters which relieve pain at once.

Every one suffering from RHEUMATISM, LAME BACK, OR WEAK BACK, COLD OR CHIEF, COUGHS, or any local pain or ache, should use Benson's Capricum Porous Plaster, and be relieved at once. Price 25 cts. Sold by all Druggists.

CAUTION.

EACH PLUG OF THE MYRTLE NAVY! IS MARKED T. & B. IN BRONZE LETTERS. NONE OTHER GENUINE. WEST BELLEVILLE GRAIN ELEVATOR. Capacity, 60,000 Bushels. BRENNAN & VANDERVOORT Proprietors.

THE undersigned having leased the above premises for a term of years, are prepared to receive, store, and ship all kinds of Grain, at reasonable rates.

The large number of Bins enables us to pay more attention to grading than any other establishment in the City, and being away from Railways and Steamboats, farmers need have no fears of teams being scared or annoyed in any way.

All roads approaching the premises are being put in first class condition.

Having first class facilities for receiving grain, we can take in from wagons 1,000 bushels per hour.

The many years' experience we have had in the grain trade, and the confidence heretofore placed in us by our many friends, has decided us to offer these facilities, surpassed by none on the Bay, and we trust our friends will appreciate the advantages offered.

This Elevator is now ready to receive grain.

BELLEVILLE, WEDNESDAY, MARCH 3.

Political Notes.

The Hamilton Spectator cleverly puts the question of Ministerial responsibility for the gubernatorial whisky bill, thus: "Our esteemed contemporaries of the Grit faith should keep in mind that there is no longer any dispute as to the responsibility of paying out of the public funds the \$350 which the Lieutenant Governor, with the consent of his Ministers, has paid back. The moral quality of the act of paying the money out is absolutely fixed by this act of restitution so soon as the payment comes to light. There is no need for any further discussion upon this point. The Ministers themselves have put their stamp upon the transaction, and it is folly for their organs to dispute their validity or correctness. All that can be said is that the Ministers who have not condemned the paying out of money if they could have helped it. If it is any defence they are entitled to it."

The Montreal Times says of the past year's slackness in the shipbuilding trade: "The prospective opening of the French market to our ships, at the lowest rate of duty, which applies to the most favored nation, is expected to lead to a revival of our shipbuilding industry. That industry, as is well known, has for some time been in a state of great languor. Three causes for this state of things are traceable. First, comes the general depression of the shipping interest; second, the substitution, to a great extent, of iron for wooden vessels; third, the tendency of steamers to supersede sailing vessels. The first cause is, in its nature, temporary; the other two are likely to be permanent. The tendency is for iron vessels, more and more, to take the place of wooden vessels." And the Globe says it was the N. P. which cast its malignant influence over the trade in Canada. Such invented grievances fall flat on the public ear, and the old, stale cry of "wolf," as urged against the Tilley tariff, has all but ceased to attract any attention, and properly so.

Says the Toronto Telegram: "The bill proposed by Mr. Mowat for winding up bankrupt estates when the Insolvent Act shall have been repealed does not meet with approval at the hands of the commercial community. They say it will make bankrupt heirs and successors to the official assignees, and that by the time the estate is wound up and all fees paid, there will be very little left for the creditors. The door will also be opened for relatives or friends of a debtor to file a claim for a heavy debt and gobble up a large share of the estate, and the effect will be to drive many traders into insolvency who might otherwise pull through if not molested by a spiteful creditor. The fact is, it is hard for a lawyer to deal with a commercial subject from a commercial point of view. What is wanted is some cheap and expeditious mode of winding up estates so that the creditors will at least get a fair share of the assets, instead of the bulk of these being wasted on litigation and fees." Just like Mr. Mowat's bungling. He seems fast never to take hold of a measure in a decisive manner for the public benefit.

A Government engineer has been examining the route for a proposed canal between Rice Lake and Port Hope. This route seems impracticable, as the height of Rice Lake above Lake Ontario is upwards of 360 feet. The Trent Valley route is far preferable, not only on account of the gradual descent, shortness of cutting and smaller number of locks, but also because the debouchure of the canal would be at the head of river navigation. The Trent Valley is the natural route for such a canal, and Port Hope's chances of obtaining it are of the slightest description.

The Christian Guardian has the following to say in condemnation of the Lieut.-Governor's whiskey, champagne and cigar bill as presented to the Legislature for payment:—"The placing of liquor, cigars and other doubtful items in the expenses of the Lieutenant Governor's party to Manitoba has attracted a good deal of attention. So much that the Governor had his cheque to cover the amount. The thing deserved that that others pursued the same course formerly, or that some who found fault were making political capital out of it, cannot for a moment justify such an expenditure by any government. We trust that as a result no party will ever put such an item in the estimates in future. The fact that public sentiment will not allow any one from Manitoba to the Governor, to have liquor at the public expense, is, after all, a sign of progress." The only error in the above is in saying that the Lieut.-Governor sent his cheque for the amount. That official paid for his personal expenses only, and that after the matter had been investigated and shown up by the Opposition.

—Prince Gortschakoff has offered his services to General Mollath in the maintenance of order in the Russian capital.

Lithographic Stone.

It is well known that lithographic stone of excellent quality exists in the Township of Marmora, and efforts have at various times been made to bring it into general use. Samples of the stone have been tested by practical lithographers in both Canada and the United States, and the results have shown that as good work can be done on it as on the best German stones. Mr. Wm. Kelly, of Campbellford, who owns the Marmora quarry, has been most indefatigable in his efforts to bring the stone before the public, and it is gratifying to know that in each case where it has been tested it has fully come up to his most sanguine expectations. The following letter from Mr. Charles Hart, of 36 Vesey Street, N. Y., one of the oldest and most reliable lithographers in the city of New York, received by Mr. Kelly on the 1st of March, explains itself. It will be read with pleasure by every one interested in the development of this most important branch of industry, and every one who knows Mr. Kelly, and has watched his hard and earnest struggles to find a market for this stone, will wish him every success in his enterprise. When it becomes generally known that the Marmora Lithographic Stone equals in every respect the German Stone, and that it can be put in the market at a great deal less price, it will not be long before there will be a great demand for it from not only Canada but the principal Lithographic houses in the United States. The following is the letter:—

N. Y. Feb. 27, 1880.

Wm. Kelly, Esq.,
Campbellford,
Ontario.

DEAR SIR,—Please excuse the long delay in answering your letter and sending proofs of engravings from the Marmora Lithographic stone. The fact is, the proofs previously taken had one instance been mislaid and have just been found; in the other case they could not be found at all, and new proofs had to be taken. The map of Cranberry and the view of Gilmore's Garden are the only engravings we have made on the Marmora stone and I could see no difference in the work done on these stones and the same class of work done on German stone. I have frequently used the Marmora stones for transfers, and printed from them in various ways the same as I would have done from German stones with the same results.

Yours truly,
CHAR. HART.
Office of Chas. Hart, Lithographer,

Revival Services.

UNION MEETING.

TUESDAY EVENING.

The attendance this evening was larger than that of the evening before. After singing and prayer, Rev. Mr. Schuster read the 51st Psalm and commented upon it, during which he said the words of the 1st verse were and must be the language of every one desirous of salvation; the Psalmist gives us an acknowledgment of his sin. We may have all the outward forms of religion, but if we have not a contrite heart, all outward is of no avail. Man justifies his own sin, he sees himself not as God sees him; but when he has a broken and contrite heart, then he realizes that he is the sinner whom Christ died to save, and he is in the terror of his heart says, "Oh God, have mercy on me." He knows he has not lived as he ought to have done, and he looks back on his sins and forward to an eternity. No man may blame any but himself for not being saved at the judgment day; when a man has a contrite heart, he is willing to do anything to cast all his sins on Jesus, saying: "there is life for a look at the Crucified One."

Rev. Mr. Lane advised young converts to serve the covenant. Sometimes we begin to serve God indolently to "cut down the bridges behind us"; it is a great mistake to begin to serve God with a feeling of making a compromise with the world or the Devil. He asked all those who were anxious to go down to the basement rooms, and there would be held an earnest enquiry meeting. Nearly every one present went down stairs, and the lecture room was crowded. During the meeting some experiences were heard.

Mr. T. Holden said it was not by his own desire he spoke to-night; but Mr. Lane persisted that he should do so. I have been recently to see the force of Christ's words "if any man be ashamed of me, of him shall I be ashamed." I do not wish any one to think I am standing here as an example. I am thankful that I have strength to say I feel the need of a changed heart. I am ashamed that I have been an unfaithful Christian. If a man wants to be respected he should be out and out Christian, as in a party if you are an out and out partizan you will be respected by both, if not you are despised. I feel humiliated that I have not been an out and out Christian. I have a family, and if there is any man who should be impressed regarding religion it is a man with a family. I pray God that I may be faithful, much more so than I have been in the past.

The enquiry meeting was continued until midnight, and was the largest yet held.

MORNING SERVICE.

The services in the City Hall this morning were conducted by the Rev. Mr. Locke. After a season of prayer and praise, Bishop Carman and Rev. Mr. Turnbull delivered brief addresses, which were followed by the usual enquiry meeting.

FISHERIES.—Pisciculture seems every year to be becoming a more and more successful enterprise on this continent. The fruits of the efforts made by our own Government in this direction have been most satisfactory. Another instance of success is furnished by the State of Maryland, the waters of which were stocked with shad some six years ago. The result is shown by the statement that in one place the catch increased from 7,000 in 1873 to 23,000 in 1879. California also has been most successful in fish-planting. In addition to those which are indigenous to her bays, lakes, rivers and mountain streams, that State has now a large variety of exotic fish, naturalized by artificial means. Notwithstanding what has already been achieved in Canada in this way, there is still room for extensive operations throughout the vast area of the Dominion.

MORNING DESPATCHES.

AMERICAN.

RAID ON INDIANS.

THE TELEGRAPH WAR.

Fearful Murders.

KANSAS CITY, March 3.—Companies are organized here, and concerted measures taken for a successful raid into the Indian territory. Troops are scattered along the frontier. The fear of bloodshed is expressed. The order is modified so as to allow the settlers to go upon coded lands.

KANSAS CITY, March 3.—The seizure of telegraph lines by the Gould party, has caused much excitement, the press here and in Kansas generally denouncing it. The Western Union say they will resort to no revolutionary methods.

PEORIA, Ill., March 3.—Parnell has arrived and held a large meeting at which \$1,000 was raised. Last week Peoria forwarded \$2,500 to the Irish League.

COLUMBIA, March 3.—W. Spearman, a wealthy farmer in the village of Silver Street, on Sunday cut the throat of his younger brother living in the family, and afterwards cut his wife's throat and then his own. All are dead. No explanation can be imagined, except the insanity of Spearman.

CITY OF MEXICO, March 3.—Gen. Grant and party sail from Vera Cruz for Galveston on the 18th.

OMAHA, March 3.—Judge Savage, of the Nebraska District Court, has enjoined the Atlantic and Pacific Telegraph Co. from taking or interfering with the wires now in the hands of the Union Pacific Railroad. A Bill was filed on the Atlantic and Pacific Co. restraining the latter from rearing the retaking of the wires now in its possession.

The Union Pacific Co. claim that an injunction from the court here was granted several hours before the commencement of the suit in Iowa, and that the Nebraska State Court having acquired jurisdiction, first its jurisdiction is exclusive and that the injunction on the Union Pacific Co. passed by Judge McCarty is void for want of jurisdiction. It is understood that they will make a forcible resistance to all attempts of the Atlantic and Pacific Co. to take possession of their wires.

NEW YORK, March 3.—The Herald fund amounts to \$261,600.

Shepherd Cowley was transferred from Blackwell's Island yesterday and put at work in the shoe shop.

Dr. J. Hunt, one of the best physicians of Hoboken, has eloped with a young lady who was visiting his wife.

MAVERICK, Mo., March 3.—On Monday night Geo. Rose, a prominent lawyer, while intoxicated abused his wife, and his son aged 21, fired a revolver to scare his father, but the bullet passed through his father's heart. The son is almost crazy.

News Condensed.

A parade will take place in Montreal on the 17th of March.

The strike on contract 15, Canada Pacific Railway, has terminated.

A load of fine horses was shipped from Brandon to Manitoba on the 1st inst.

About 500 cars of ice have been shipped from Barrie to the United States.

A large number of French Canadians are leaving for Manitoba.

During the last week, 296 horses were shipped from Montreal to the United States.

The Railway between Crookston and St. Vincent, Manitoba, is again open.

The Ontario Legislature is expected to be prorogued on the 4th inst.

The store of Messrs. P. & F. A. Howland, Lambton Mills, was garlanded on the night of the 1st inst. of \$160 worth of goods.

Father Chiniquy is to represent the Synod of Eastern Australia in the Pan Presbyterian Council at Philadelphia.

A Liberal was elected in Drogheda. Ireland, yesterday, defeating the Home Rule candidate.

There is considerable activity in the real estate market, Montreal, and a good deal of property is changing hands at advanced rates.

The contract for conveying the mails from San Francisco to Victoria, B. C., has been given to Messrs. Goodhall, Nelson & Perkins.

The Iowa Legislature has passed a bill prohibiting the manufacture and sale of oleomargarine butter.

The celebration of the twenty-fifth anniversary of Charles Alexander's accession to the throne passed off peacefully at St. Petersburg.

The authorities of Dublin Castle are making representations to the Government to renew the Peace Preservation Act, which expires this year.

The Virginia State Legislature has repealed the Bell-punch liquor law by nearly a unanimous vote, and has re-established the license system in its stead.

A frame building adjoining the locomotive shops of the Toronto, Grey and Bruce Railway, Toronto, was burned on the 1st inst. An engine and other machinery were destroyed.

"CHEMICAL BUTTER."—The Kingston News says:—"We have been informed that an article known as 'chemical butter' is being palmed off in this city on retail purchasers as genuine butter, and also that several car loads of it have lately arrived here by the Grand Trunk. That the article is a fraud we have no doubt, judging by the specimen shown us. We have found and pork inspectors, but for that valuable and much used commodity we have none. Knowing selling such an article should be a misdemeanor, and punished with fine or imprisonment—or both. Numerous complaints have been made about this spurious imitation, and the sooner the remedy is applied the better.

FOR MANITOBA.—Two hundred Canadian farmers left Prescott yesterday for Manitoba. Two other parties left from western sections of the Province—some for the North-West and some for Nebraska.

LUMBER.—The Halifax Herald publishes interviews with lumber dealers, showing the tremendous revivals of that interest; the increased shipments of one dealer alone—DeWolf & Co.—will make a difference of \$100,000 over last year. Lumber mills all over the Province that have been idle for years are now in full operation, and have sold all they can cut at an average increase in price of \$31 per thousand feet. There is great activity in the trade, and there has been a consequent boom in prices. Good cattails have risen \$1 per cwt. twice last week. A dealer from Ontario is now in the Province trying to purchase 1,000 head for export.

FOR MANITOBA.—A special train consisting of 13 freight cars and 4 passenger coaches passed the depot here at 9:30 last night. The freight cars contained the necessary implements for farming purposes, whilst the passenger cars carried 100 people, to which number 25 were added at Port Hope.

THE OSWEGO BELLE.—The Toronto Telegram says: "The propeller Oswego Belle, which was built five years ago, has been sold to the Northern Transportation Company, and is to take the place of the ill-fated Wabano. The price paid was \$13,000, about half the original cost.

A FATAL MISTAKE.—At Kingston on the 2nd inst., the jury at the Coroner's inquest on the body of the late Mrs. David, returned a verdict that she came to her death through unnatural causes in childbirth, hastened through a mistake by Dr. Evans in his treatment of the case. The County Attorney gave it as his opinion that the verdict did not necessarily amount to a charge of manslaughter against the physician, and he was, therefore, acquitted.

NOTICE.

ALL parties indebted by note or book account to the Estate of the late Dr. Higginbotham are requested to settle with the undersigned at once. The Estate is to be closed up without delay, and prompt settlement is necessary.

PETERSON & PETERSON.

RECEPTION

OF THE

Rev. David Mitchell,

IN THE

CITY HALL,

ON

WEDNESDAY EVEN'G, 3RD MARCH.

A SOIRÉE will be held by the Congregation of John Street Presbyterian Church, to welcome their new Pastor.

ADDRESS OF WELCOME

by the Rev. W. M. McLEAN, M. A., and short addresses by the Rev. J. BURTON, B. A., and others.

MUSIC

by a Chorus of thirty voices, accompanied by Piano, Cornet, and Violin, with Vocal Solos by leading Amateurs.

Tea served at 7 o'clock.

Tickets 40c, each, to be had at R. Templeton's Drug Store.

Established 1850.

HAMBLY,

Baker and Confectioner.

CARD.

THE subscriber requests that his customers will kindly pay up their bread accounts, which, though small individually, amount to an exceedingly large and very serious sum in the aggregate. It must be understood that where small accounts are permitted to run, they must be paid when the account is rendered. It won't do to put it off with excuses of any sort. It will be exceedingly unpleasant withdrawing from a customer's patronage, but it will be absolutely necessary to check the amount of credit sales, and to withdraw articles from patrons who from whatever reason do not pay their accounts promptly when presented. No REASONABLE PERSON objects to look upon BREAD AS CASH.

P. H. HAMBLY.

March 1st, 1880.

DOG LOST.

LOST, a dark brindle Bull Pup, about four months old, with cut ears. A reward will be paid by returning to

GRANT & POTTER.

No. 8, Mixed, 11:00 p.m.

GRAND JUNCTION RAILWAY.

On and after Monday, November 3rd, trains will run as follows:

Leave Hastings, 7:30 a.m.

Arrive in Belleville, 10:30 a.m.

Leave Belleville, 3:30 p.m.

Arrive in Hastings, 6:15 p.m.

Trains are run by Belleville time.

BELLEVILLE AND NORTH HASTINGS RAILWAY.

On and after Monday, November 3rd, trains will run as follows:

Leave Hastings, 8:00 a.m.

Arrive in Belleville, 10:00 a.m.

Leave Belleville, 3:00 p.m.

Arrive in Hastings, 5:00 p.m.

Trains are run by Belleville time.

PRINCE EDWARD COUNTY RAILWAY.

On and after Monday, December 22, trains will run as follows:

Leave Pictou, 7:15 a.m. and 1 p.m.

Arrive in Pictou, 9:00 a.m. and 3:15 p.m.

Leave Pictou, 9:30 a.m. and 4:00 p.m.

Arrive in Pictou, 11:15 a.m. and 6:00 p.m.

Trains are run by Montreal time.

STAGE ROUTES.

Stages leave the principal hotels for the undisturbed places at the hours named:

For Stirling, Daily, at 8 a.m. and 2 p.m.

For Macdonald, Daily, at 2 p.m.

For Borden, Daily, at 2 p.m.

For Pictou, Daily, at 3 p.m.

For Pictou, Daily, at 3 p.m.

The stages arrive in Belleville about noon each day.

Local Notices.

Notices under this head, a line each insertion. After five insertions 5 cts. a line.

Coughs and colds of the throat and lungs.

Dr. H. H. Hordhouse's Balsam is one of the most useful cough syrups ever introduced.

It is very pleasant to take and is very effective.

Albert L. Green has been appointed agent. Try it.

The sale of new furniture, crockery and glass ware will conclude at Harrison's block on Tuesday and Thursday, 2nd and 4th, March. Goods at your own prices.

Daily Intelligencer.

BELLEVILLE, WEDNESDAY, MARCH 3.

City and Vicinity.

THE CELLS.—Two tramps and one prisoner registered at the police station last night.

PERSONAL.—John White, Esq., M. P., after leaving a business visit to this district left for Ottawa this morning, to resume his parliamentary duties.

FOR THE MINES.—A boiler shell weighing 4,400 lbs. was forwarded from this city this morning by wagon for the Feigold gold mine at Malone, in the township of Marmora.

THE GAOL.—There are now confined in the County Gaol 10 prisoners, 13 of whom are males and 3 females. Two of the former will put in an appearance at the next assizes.

DELAYED.—The train from the east due last evening at 6:10 was over an hour late. The delay was attributable to the train which carried the English mail having left the track.

FOR THE CENTRAL.—George Belcher and John Potts, convicted on Monday last, of the larceny of some carpenter's tools, from Hanwell's mill, left here this evening to fill a term of one year each in the Central Prison.

THE RAILWAY EXTENSION.—Mr. Fauquier, Manager for Mr. Bickford, went to Hastings on Monday, to make arrangements for getting out ties and timber needed in the Railway extension to Peterboro'. As soon as the season permits, active work will be commenced on the Railway from Hastings to Peterboro'.

A LIGHT BLAZE.—By a fire on Saturday night, which was promptly checked soon after it was discovered, the goods in the north window of Barber, Brignall & Co's store, was injured to a slight extent. The damages, which were assessed at \$25, were promptly met by the Royal Insurance Company.

A MISHAP.—As Robert McCoy, a teamster, was driving along Pinnacle Street yesterday afternoon his horses became frightened by the approach of a passing train, and severing threw him from his seat with violence. He sustained a severe nervous shock to his system but otherwise was not seriously injured.

FOR THE OLD COUNTRY.—Mr. Charles Kelo, a nephew of Mr. Thomas Kelo, and formerly the occupant of a position in the Merchant's Bank here, leaves to-night for the Emerald Isle, sailing by the Germanic, White Star Line, which leaves New York on the 6th inst. He is expected to be absent three months. We wish him a pleasant voyage and safe return.

"LITTLE'S LIVING AGE."—The numbers of the Living Age for the weeks ending February 21st and 28th respectively have the following contents: "The Progress of Taste" and "The Successors of Alexander and Greek Civilization in the East." "The Living Age" is a most interesting and valuable work. It is a most interesting and valuable work. It is a most interesting and valuable work.

MacMillan: "An Imprisoned Princess—Leonora Christina, of Denmark." "Fraser's" "Civil Code of the Jews" and The German Army. "Pall Mall Gazette": "Revolutionary Laughter" and "Children of the Palace." "Tingetivity Mile" "Canon Liddon." "The Living Age" and in the way called, "Charles Lyell," and in instalments of fiction. "Cells, an Idyll," and instalments of fiction. "Cells, an Idyll," and instalments of fiction. "Cells, an Idyll," and instalments of fiction.

Ophiogant, and "Adam and Eve," and the author of "Dorothy Fox," and the usual amount of poetry.

EXPORT OF STRAW.—Two car loads of straw were shipped from this city to-day, per G. T. R., to Troy, N. Y., to which place a number of similar shipments have lately been made.

THIEF.—On Monday evening, between the hours of six and eight o'clock, some person or persons who had a weakness for a particular product of the dairy industry took two kegs of butter from the platform in front of the G. T. R. depot. At present, the participants in the act are unknown.

ACCIDENT.—Robert McCoy—a nephew of the man who yesterday threw from his wagon on Pinnacle Street, was thrown from his own wagon about three o'clock this afternoon, when leaving the bay from which he was drawing ice, and sustained a severe fall, from the effect of which his left leg was broken below the knee. Dr. Allen attended to the injuries of the sufferer.

H. M. S. PARLIAMENT.—This extravaganza was produced at the Opera House, here, for the first time last evening and was witnessed by a large and attentive audience. Of the plot it is unnecessary to remark as it has before been alluded to in these columns; suffice it to say that the acting and singing were excellent and afforded unbounded merriment and pleasure to all who witnessed the production.

RECEPTION.—The congregation of the John St. Presbyterian Church, will tender their newly appointed pastor, the Rev. D. Mitchell, a reception in the City Hall this evening when an address of welcome will be presented by the Rev. M. W. McLean, and short addresses will be delivered by Rev. Mr. Burton and other prominent gentlemen. In addition a musical entertainment will be provided that cannot fail to please all who may attend.

THE STRIKING ELEVATOR.—A By-law, giving a bonus of \$500 to the parties who intend erecting a grain warehouse and elevator at Stirling, is to be voted upon by the municipality on the 20th of March. The people of the village generally seem to be in favor of the grant, and it is likely the By-law will be carried by a large majority. The building, which is to be erected within twenty yards of the station, will have a capacity of 30,000 bushels.

FIRE.—By the fire which occurred on Tuesday afternoon the frame house owned and occupied by Mr. John Daw, was completely destroyed and had it not been for the efforts of the firemen, a building on the north would also have been destroyed. Mr. Daw's loss on the building and contents is \$1,500, insured in the Royal for \$700. The fire is supposed to have originated from a defect in the stove.

LICENSE COMMISSIONERS.—The following appointments of License Commissioners have been made by the Ontario Government:—Hastings (East Riding)—Commissioners—George Phillips, Thomas McCann, Samuel Osborne, Hastings (North Riding)—Commissioners—James S. Sprague, M. D., Thomas Cross, Alexander Harvey, Hastings (West Riding)—Commissioners—W. D. Fuller, Gilbert Vandewater, Samuel D. Farley.

THE CITY HALL.—This hall has been newly decorated for the holding of the introduction of the Rev. Mr. Mitchell to his congregation and the solemn night. The mottoes "God save the Queen" and "Let Christian charity abound" adorn the north and south walls of the hall whilst in the rear of the stage is "Welcome to our Pastor," on either side of which are a number of flags. Festoons of red, white and blue depend from the ceiling, and add greatly to the appearance of the hall.

TEA MEETING IN THURLOW.—A correspondent furnishes the following under date of the 2nd inst:—"On the evening of the 26th of February there was a very successful tea meeting held in the Presbyterian Church, Thurlow; after the tea was served in elegant style as usual at that church, W. P. Hudson, Esq., was called to the chair, and addresses delivered by the following Rev. Gentlemen: Mr. Turnbull, of Melrose; Mr. Anderson, of Canifon; Mr. Turnbull, of Belleville; Mr. Gray, of Stirling; Mr. McLean, of Belleville; Mr. Kelo, of Roslin. Music was furnished by the choir of the C. M. Church, Plainfield, which was rendered in first class style."

TEA MEETING AT BRIDGEWATER.—Our regular correspondent writes from Bridgewater on the 1st inst:—"A tea-meeting was held in this village on Thursday last in connection with the C. M. Church, bountiful tables were provided, there was a large gathering from the village and surrounding country. The chair was taken by Dr. Nash, speeches were delivered by the Revs. Messrs. Smith, Sabine MacCammon and Mr. E. James, interspersed with music by the choir, a very enjoyable evening was spent, and the meeting was a great success, financially and otherwise. On Sunday evening last, the Rev. John Tozland preached an effective sermon upon the death of Dr. Eginbotham, of your city, formerly a resident of this village, and his death was advanced \$100—by the amount of the reduction last year."

On the 2nd the prisoners overpowered the keeper of Warren county gaol, at Belvidere, N. Y., and nine escaped.

Miss Jennie Raymond, of Washington D. C., was Senator Hill, of Georgia, for \$10,000 damages for alleged seduction.

A sharper who swindled an emigrant to Manitoba at Prescott on the 2nd inst. of \$17, was caught in a barn and the money secured.

The first party for the North-West from the district of Ottawa, had been advanced \$100,000, they numbered about fifty in all, but an addition will be made at Brockville. Mr. A. H. Taylor goes through with the emigrants, and Mr. James Birkett and Alderman Lamb of Ottawa, visit Manitoba on a prospecting mission.

Police Court.

(Before A. Diamond, P. M.)

WEDNESDAY, March 3.

ILLEGAL FISHING.

The apparently interminable case of Macdonald vs. Macdonald was again before the Court this morning and was once again adjourned for a week.

Campbellford Notes.

The Rev. Father Casey, of Campbellford, has succeeded in raising the sum of about \$300 in aid of the Irish Relief Fund. Protestants as well as Roman Catholics contributed to the fund.

The Windsor Hotel has put on the route between the Station and the village a handsome "Bus," which gives the place a city air. It is a great convenience as well as comfort to the travelling public. Mr. Morton is proprietor of the bus.

The High School at the village has much more than a village reputation. There are at present some seventy pupils, some of whom come from the villages of Hastings and Warkworth, in the County of Peterboro', and the Township of Brighton. The teachers are Mr. Knight and Mr. Robinson.

The Corporation of Campbellford intend extending a considerable sum of money in extending sidewalks during the coming season. A walk will be built from the station to the village, and also one to Rainy Falls, about a mile south of the village.

The Presbyterians of Campbellford finding their church too small to hold their present congregation, have in contemplation the erection of a new and larger one. At a social held last week, the sum of \$150 was raised for this purpose, Rev. Dr. Neil of Seymour, Rev. Mr. Gray of Stirling, and other prominent clergymen were present.

The business at the Railway Station at Campbellford is rapidly increasing. In addition to large quantities of flour daily shipped en route to Montreal, a considerable amount of other freight is handled at this station.

Mr. Charles Gilechrist, Inspector of Fisheries for the Port Hope District, was at Campbellford on the 2nd, on a tour of inspection. It is said a large quantity of pickled herring have been unlawfully caught at Percy boom recently.

To the Editor of the Intelligencer.

DEAR SIR.—I thought I would inform your many readers and old friends of Mr. Chinnery, the death of Mrs. Lucy Chinnery, "wife of James Chinnery," who died in Amber, Aston Co. Mich. Feb. 15th, aged 75 years. As she neared the river's brink she enjoyed the consolation of religion, and felt that her feet were firmly planted on the "Rock of Ages."

Dearest mother, thou hast left us, Here thy loss we deeply feel; But 'tis God that hath brought us here, He can all our sorrows heal.

JAMES ELLIS.

—Mary Fitzpatrick a young woman working for Mr. John Ottisman, of the town of Simcoe, was on the 2nd inst., probably fatally gored by a buffalo, aged 75 years.

The military trouble at London, and the men of the London Field Battery who made the charges against Major Peters are willing to withdraw them.

—Venno is out again, this time predicting a number of snowfalls on the 2nd, 3th, 6th, 7th, 13th, 15th, 16th, 21st, 22nd, and 27th of the present month.

—During the past few days, several car loads of strawberries from the South, en route for the Northern markets, have passed through Peterborough, Va.

AFTERNOON DISPATCHES.

WILMINGTON, Del., March 3rd.—Henry Pepper, a law partner of Senator Bayard, was found dead in his bed; apoplexy.

LONDON, March 3rd.—By the new anti-slave trade convention between Great Britain and Germany, co-operation between the two powers in the suppression of the slave trade is assured.

The Metropolitan Water Bill introduced into the House of Commons by the Secretary, creates a water trust empowered to create three and a half per cent. water stock, which the water companies have agreed to receive as compensation for their net capital. The sum to be given for the franchise of companies is £22,000,000, six or seven companies to share it.

Griest in accordance with a motion agreed to yesterday, was brought to the bar of the House of Commons at noon to-day. He read a most humble apology. The speaker of the House, and the members, cheered, moved his committal to Newgate, and was adopted without debate or division. Griest will be imprisoned during the pleasure of the House of Commons.

Ayrview, March 3.—Peterson, 18.

BRINKLEY, Ark., March 3.—A large hotel owned by Gunn & Black has been burned. Loss, \$10,000.

MADRID, March 3.—A decree is published fixing the force of the army for the year 1880-81 at 90,000 men for Spain, 30,000 for Cuba, 10,000 for the Philippine Islands, and 3,300 for Porto Rico.

ST. PETERSBURG, 4:30 p. m., March 3.—Gen. Melikov, Chief of the new Supreme Executive Commission, has been taken by a young man with a revolver in the afternoon when alighting from a carriage at his residence. Melikov is not hurt. The culprit was immediately seized by a Cossack.

WEATHER REPORT.

TUESDAY, March 3.—Probabilities for the next twenty-four hours: For the lower lakes, brisk to high, south-easterly, to a rather windy, clear, with a light breeze from the west to morrow by south-westerly to north-westerly winds, and cooler weather.

WASHINGTON, March 2.—Indications: For lower lakes, cloudy, rain or snow; warmer weather.

An Honest Medicine Free of Charge.

Of all medicines advertised to cure any affection of the throat, Chest or Lungs, we know of none we can recommend so well as Dr. Kip's New Discovery for Consumption. It is a most powerful and permanent cure has already been effected by this truly wonderful remedy. For Asthma and Bronchitis is a perfect specific, curing the very worst cases in the shortest time possible. We say by all means give it a trial. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. JOSEPH T. LEMAS, Station 2, New York City. 1y

Father is Getting Well.

My daughter says, "How much better father is since he used Hop Bitters." He is getting well after his long suffering from a disease declared incurable, and we are so glad that he used your Bitters.—A lady of Rochester, N. Y.

"TRABERRY," the new powder for whitening the teeth, stimulating the mouth and purifying the breath; the brightest, best, and costliest toilet gum extant. Ask your druggist for "Traberry." Price 35 cents a daisy.

We are glad to learn that the "Faint-Killer" is having so large a sale in our city. We have every reason to believe it to be an almost never-failing cure for pain, and is a medicine that no family should be without.—Montreal Pilot.

Dr. A. R. SCOVILL, of Cincinnati, says:—"For Coughs and the early stages of Lung complaints, I believe it to be a certain cure; and if every family would keep it by them, ready to administer upon the first appearance of disease about the Lungs, there would be very few cases of fatal consumption."

Bucklen's Aitica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chills, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. N. Y.

BIRTHS.

On Tuesday, the 2nd of March, Mrs. W. R. Northrop of a son.

On Wednesday morning, March 3rd, the wife of Geo. L. Morden of a daughter.

Commercial.

BELLEVILLE MARKETS.

INTELLIGENCER OFFICE, Belleville, March 3, 1880.

The market for grain is steady with an upward tendency. Rye is in good demand at 80c.

WHEAT—\$1.25 to \$1.30.

BARLEY—No. 1, 60c; No. 2, 55c.

RYE—78c to 80c.

BELLEVILLE, THURSDAY, MARCH 4.

The Murray and Trent Valley Canals.

A correspondent, who writes over the signature "Mariner," calls attention to the recent public meeting in Port Hope concerning the Murray Canal, and rightly characterizes as purely selfish the action which was taken by the people of that town at the meeting in question. True it is that the Murray Canal will benefit Belleville, Trenton and the Bay of Quinte, but that it will also be of much advantage to the trade of the country, by providing a safe harbor for vessels calling at the mouth of the lake; facilitate the passage of steamers when contrary winds prevail; develop to an immense extent the trade in iron ore, which without it must remain comparatively small in extent; and open to tourists a beautiful and attractive region hitherto but little visited by them, besides conferring other important advantages upon the country, cannot be denied. Still, the people of Port Hope oppose this enterprise, from the small and narrow standpoint that it will not confer so much benefit upon Port Hope as they would like to see.

In this connection it may be as well to give the principal reasons urged at the Port Hope meeting against the canal. Capt. James, an experienced mariner, was the principal speaker in opposition to the project, and he is reported by the *Times* as saying:

"In ascertaining the bearing of the Murray Canal to Port Hope it was necessary to consider the effects of all routes of probable route of railway which surrounded or affected our trade in any way. For instance there is the Grand Junction railway, which if completed according to contract, would be limited to Peterboro on the 1st of Jan. next, and as a charter had been secured to run the road from Peterboro to Onondaga—which would really then be the western end of the Grand Trunk—he had no doubt the Grand Junction R. R. would seriously tap the trade of the Mohawk.

When the Grand Junction was completed, Onondaga would then be 83 miles from Belleville, and was at present 83 miles from Port Hope. If it was true, the Grand Junction was really controlled by the Grand Trunk, the latter road would in a year or two be through Port Hope, and would take away a cargo from Belleville for 4 cents than it would from Port Hope for 4 cents. The Grand Junction would be through Port Hope, and would take away a cargo from Belleville for 4 cents than it would from Port Hope for 4 cents. The Grand Junction would be through Port Hope, and would take away a cargo from Belleville for 4 cents than it would from Port Hope for 4 cents.

Mr. Vidin—That is not correct; the Grand Trunk would carry for less than 5 cents, but not for 4 to my knowledge.

Capt. James, resuming, said that even at five cents schooners could not compete with a barge, because the latter could be run at a great deal less expense than the former. If a barge came here he believed it would drive all the sailors away. A barge could be manned by five men, and at such wages that a schooner could not compete with it. Mr. Garnett had been asked at the day afternoon meeting what object he had in view in advocating this barge. He answered it was to realize any profit, and deduct from that it was impossible for schooners to compete with barges. Of course, it was ascertained that barges would come here for the purpose of taking away trade; they would take the Montreal trade which we had no share in now. This was all very well; but he had known 60 vessels delayed at Kingston for five weeks waiting for transshipment, their cargoes into barges. He discussed the question of relative distances of Port Hope and Belleville—with and without the Murray Canal being open—and concluded that Port Hope was in a good position as we are in these respects. He was of opinion that it was in the interest of Port Hope to keep Belleville where she was. He next inquired upon the iron ore question. We had expected to have at least 30,000 tons a year, but the snows had been comparatively light, and the Murray Canal would benefit Belleville by giving it one outlet, which the little towing required, would place their ships in the position of an equal position with those of Port Hope. In the lumber trade we have a great advantage over Belleville or any other place, but if you open the Murray Canal the superiority we now have will be gone. So long as Belleville is shut up where she is she will not be able to get one load of the lumber which comes down the Mohawk, but open the Murray Canal and she will be changed. He advised that Belleville be kept in the position she now is, and then the lumber trade is all right. With regard to the grain trade, he was certain that as long as prices were high, buyers would ship as soon as possible, and he did not think, therefore, that the opening of the canal would effect that trade in the least. In speaking of the through trade he said our vessels could not depend on the extent in case the Murray Canal was open, and that the Murray Canal would be a great advantage to us, but he was of the opinion that the through grain trade, which had always gone over our harbor, would to some extent be tapped by the Grand Junction, and he was also under the impression that the Mohawk could not force grain to come here at all. The Grand Junction was virtually the Grand Trunk, and he

would ask Mr. Ross if he knew whether the sale had been completed.

Mr. Ross—I am not aware that any such sale has been effected.

Capt. James, continuing, said whether or no he believed that the Grand Trunk was powerful enough in the control of the smaller lines to compel the Mohawk to take the through grain at such and such figures; or if the Mohawk was really in the matter the G. T. would say, "We will send it by our own line at Onondaga. Our trade could be diverted by the Grand Junction, and we could only depend upon the barley, lumber, and through north-western trade. Of the latter, the Mohawk did not think a load of it would come over the Mohawk after the Grand Junction was completed, so that they could judge accordingly. After announcing that personally it would not trouble him whether the petition was signed or not, he sat down amid considerable applause.

The importance of the above extract must be our apology for its length, and we hope the perusal of the remarks of a gentleman evidently so well versed in the subject as Captain James appears to be will have the effect of inducing the supporters of the project to redouble their exertions to secure its consummation. This certainly ought to be the case, for every argument used by Capt. James as against the construction of the work should show the advantages likely to accrue to the residents of Belleville, Trenton, the Bay region and Prince Edward from the carrying out of the project. We therefore trust that the gentlemen who have the matter in hand will look well to it that the petitions are largely signed, and prepare otherwise to press the matter upon the Dominion Government.

As to the idea of a Port Hope and Rice Lake Canal we look upon it as impracticable. The Trent Valley is the natural route of a canal from the Georgian Bay to eastern waters, and there it will be built unless, indeed, the suggestion to deviate from the Trent Valley to Belleville by a cross country route be found to have merit.

It is not our intention to have any authentic information having been obtained. Our object will be to aid in the construction of both works, and the question of route can best be determined by the present Government, (provided they undertake either or both projects) we are fully confident will make their decision in the public interest, and regardless of mere local feeling.

WELCOME TO REV. MR. MITCHELL.

A large audience assembled in the City Hall last evening to participate in the festivities in connection with the introduction of Rev. Mr. Mitchell to his flock—the congregation of the John Street Presbyterian Church. Prior to this ceremony a sumptuous feast was spread upon the tables in the butter market by the ladies, who paid every attention to the requirements of their patrons with all the necessary skill.

Shortly after 8 o'clock the assemblage proceeded to the City Hall, and all having occupied seats, W. H. Ponton, Esq., who was appointed to fill the chair, came forward and said that the large audience before him was suggestive of sympathy for the effort in which they had engaged, and it should be a happy day for all. To the Rev. Mr. Mitchell he extended a genuine welcome—a welcome which came from the heart—and to a man who was a gentleman, catholic in spirit, liberal, knowing no sect, and filled with an earnest love for the Saviour.

He treated the bonds of brotherhood and sisterhood in the Church would be strengthened and united, and result in the prosperity of the congregation. (Cheers.)

After the singing of an anthem by a choir of 30 voices, Rev. Mr. McLean came forward and was received with prolonged applause. He said that in truth duty which devolved upon him in reason of the recent vacancy in the John Street Church, was under any circumstances a pleasant one, and it afforded him a peculiar gratification to speak for, and in the name and under the authority of the Presbytery.

The present occasion, which was an auspicious one, should long be remembered by all who took part in it. He congratulated the ladies for the material exhibit of their part of the evening's entertainment, as their efforts were very successful. The attendance was certainly large but what would it have been had the weather been better? He congratulated the congregation on the presence of such a large assemblage, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds.

As it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds.

As it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds.

As it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds, as it comprised persons of different minds, of all denominations and different minds.

he lived the more he would find that the people were in favor of what was good and true report, and he was willing to help and support any one who would do so.

What in his line for the spiritual welfare of our fellow men. He welcomed him as a confederate of his own and his brethren, as a fellow laborer in truth and brother in the Lord. He hoped all would bring their minds and hearts closer in affection for the cause of common Christianity, and for the common Lord. (Cheers.)

Messrs. Lamby, Prof. Badgely and Turnbull, also made a few complimentary remarks, after which a chorus was offered, and met with great approval.

Rev. Mr. Schuster delivered a brief address of welcome, and was followed by the Rev. Mr. Turnbull in a recitation, which was well received.

Rev. Mr. Burton said, many memories clustered around as he was addressing the audience. Nine years ago a welcome had been extended to him, and now he had no doubt the same warm welcome would be extended to his successor. He hoped that the bonds binding Mr. Mitchell and his flock would become stronger than national, and tend to keep him in their hearts, and that with a change of life and with the hope of a bright world before them, they would lay hold of things eternal. He had known Mr. Mitchell and esteemed him as a friend, co-worker, and he trusted the young would rally around him as they had around the old (the speaker). We should have sympathy for the great heart who gave his Son to die for us, and when the time came we would enter into that rest where there is no discord.

Rev. Mr. Mitchell was received with unbounded applause. He said he had often heard of Belleville before he came here, and one scene was now called to mind—the official installation of Rev. Mr. Burton in his new charge in Toronto. He had heard of this place from Rev. Mr. Messrs. Gregg, Powis and others, who had preceded him in the John Street Church, and all of these gentlemen had boasted they came from this City. It was a pleasure to see his predecessor on the platform, and the kind words which fell from him encouraged him by the kindness of his reminiscences, and he had much reason to congratulate himself on the call. One pressing thought on his mind was the future work in which he was engaged, and he would pray that they might be one in the cause of the Lord Jesus Christ. There were many things that encouraged him to come here—the unanimity of the call was a very prominent one. He would not promise that his discourses would be eloquent, but they would be natural for their truth, and he would take all possible pains to please the people. A minister should have liberty to do the best he could under the circumstances in which he was placed. A great deal depended on the people for the discharge of the duty of the pastor, and he would depend upon them for their sympathy and prayers. From the compliment paid to Belleville by former ministers of congregations here, he had formed a high estimate of the people; he felt a deep sense of the responsibility resting upon him and he therefore asked their prayers. With reference to his occupancy of the pulpit, what he desired and what was wanted was to hear the words of Jesus Christ, and to direct the way to the Saviour; he would visit the sick, and the sick and also call on the members of his congregation. He would make every family altar a pulpit, and would advocate singing in family worship. He would take a deep interest in the youth of the congregation, and would assist them in looking for the truth. If all unite in seeking the baptism of the Spirit of God, we in Canada will present an element of strength that will grow grander as time comes on. We should rise and do our duty for the advancement, honor and glory of Him, and promote generally the interests of mankind.

Vocal offerings by Miss Christie and the choir completed the programme, which was successfully carried out, and gave unlimited satisfaction.

At the close of the proceedings, a beautiful bouquet of flowers was presented to Mr. Mitchell.

MORNING DESPATCHES.

AMERICAN.

CHILLICOTTE, O., March 4.—John Gatliff, a farmer, shot Jeremiah Webster fatally, yesterday over a dispute.

NEW YORK, March 4.—The *Herald's* San Francisco special says that the Kearneyites' threatings having indignantly subsided. The newspapers have decided not to report Kearney's doings hereafter.

The *World's* Washington special says that Judge Morgan, who recently returned from Egypt and examined the obelisk, says the obelisks are identical with the Masonic emblems of to-day, and arranged in precisely the same position in which they would be placed now by a Masonic lodge.

A hundred Chinese from San Francisco arrived yesterday. Over 300 arrived in the past month, and 500 more are coming.

The *New York Herald's* London telegrams to \$255,500, yesterday's subscriptions included \$5,000 from anonymous New York citizens.

Arrived, the State of Georgia, from Glasgow; and the Bristol City, from Bristol.

Two more prominent citizens of Elizabeth, N. J., a wharfinger and E. E. Brown, have been arrested for conspiracy to defraud the City Treasury.

Judge Freedman yesterday granted an order requiring President Garrett, of the Baltimore and Ohio Railway, to show cause why he should not be punished for contempt in violating the injunction issued on Feb. 28th, restraining his company from interfering with the wires of the A. P. Telegraph Company along its route.

Scribner & Co., publishers, offer to receive and forward subscriptions to the famine sufferers in Brazil.

MARINE NEWS.—A private letter received here from Buffalo states that \$2.00 per day has in anticipation of the early opening of navigation—been offered to sailors to ship from that port. This is a considerable advance on the wages offered during the same period last year, and is an indication of a revival of the carrying trade as well as an incoming of good times.

News Condensed.

—Senator Macpherson will not be able to be out for weeks.

—The Roman Catholic Separate Schools of Toronto cost \$12,223 a year.

—The interest in Mr. Hammond's meetings, Montreal, continues to increase.

—The Prince of Wales was able to sit up on the 3rd inst.

—The Quebec Legislature is to meet on the 2nd of April.

—10,000 cotton spinners at Ashton-under-Lyne, have struck for higher wages.

—Mr. Parent has been elected for Rimouski in the Quebec Local Legislature.

—A Montreal wharfman says that steamers will be in the harbor on the 10th of April.

—70 immigrants arrived by the *Moranian*, all of whom are to settle in Western Ontario.

—Samuel Cole, farmer living near London, committed suicide on the 3rd inst., by hanging himself.

—The capital stock of the *Mail Printing Company*, now seeking incorporation, is \$500,000.

—During the last twenty years no less than seventy-five Presbyterian Churches have been built in Australia.

—In the House on Monday Mr. Calvin spoke against the policy of the Government in withdrawing the railway aid scheme.

—Parrell is to arrive at Montreal on the evening of the 8th inst., and is to be escorted through the streets by a torch light procession.

—British Columbia papers received, to-day contained accounts of great destruction among sheep and cattle on the mainland, owing to the late severe weather.

—Hon. Messrs. Norquay and Brown, members of the Manitoba Government, are en route for Ottawa. The object of their visit is in connection with the erection of new Parliament buildings.

—On the St. Lawrence river on the 1st inst., at Cape Vincent teams were crossing on ice, and foot passengers last evening. At noon to-day no ice was to be seen. Such a sudden disappearance was before unknown.

—Hon. Edward Blake is very severe on the official assignments. In the House yesterday, he expressed the belief that the country would sanction a clause in the naval bill consigning all the assignees to a dungeon cell for a term of five years.

—Mice in stoves (often wrongly called isinglass) are much more readily cleaned by taking it out and thoroughly washing with vinegar, a little diluted. If it does not come off at once, let it soak a while.—*Ex.*

—The *Kingston News* says, Mr. Leslie, of the Collingly Raftering Company, is loading several vessels with ice for the Western United States ports. The demand is great. The ice at Collingly is thicker than it is in the city.

Installation.

At a Regular Convocation of Moira Royal Arch Chapter No. 7, G.R.C., held at Masonic Temple on Tuesday evening, 2nd inst., the following Companions were duly installed by Most Excellent Comp. L. H. Henderson, Esq., Past Grand Z:

V. E. Comp. James Smith, Z.

" G. D. Dickson, H.

" W. L. Hamilton, I.

" D. McLean, S. P.

" J. Farley, S. N.

THE BEST PAPER! TRY IT!

BEAUTIFULLY ILLUSTRATED.
35th YEAR.

THE SCIENTIFIC AMERICAN.

THE SCIENTIFIC AMERICAN is a large First-Class Weekly Newspaper of Sixteen Pages, printed in the most beautiful style, profusely illustrated with splendid engravings, representing the new inventions and the most recent Advances in the Arts and Sciences; including New and Interesting Facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, and all the departments of human knowledge. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.

Any person who has made a new discovery or invention can secure a patent for the same, by writing to MUNN & CO. We will send you our Hand Book about the Patent Laws, and the Caveats, Trade-Marks, their costs, and how to proceed in securing advances on inventions. Address for the Paper, or concerning Patents.

TO LET OR FOR SALE,

THE FOLLOWING CITY PROPERTY.

A COMFORTABLE new 2-story rough-cast house, Moira Street, lately occupied by Mrs. N. Ryan; with all the modern conveniences, &c. The property can be bought or rented very reasonably.

A ROUGHCAST House on Lewis Street, in good repair, with all the modern conveniences, &c. The property can be bought or rented very reasonably.

After recess, several Private Bills were advanced a stage.

Mr. Hooper rose and read a statement, in which he replied to the allegations contained in the petition attacking his claim. He claimed that the matter was still sub judice and he denied all knowledge that there was any deficit in his accounts as treasurer for the county, he withdrew from the chamber. One of the speakers (Victor) spoke strongly against the motion, contending that the proposed reference was unprecedented, that there were not sufficient facts before the House to justify it, that the matter complained of was purely municipal in its character, and finally that the hon. member assailed had denied in the fofo charges. The latter gentleman moved amendment to the effect that the reference should not be made as the petition did not disclose any facts attacking the hon. member to his seat, and because the hon. member denied the allegations. At Mr. Anglin's suggestion the last sentence of Mr. Cameron's amendment was eliminated, and the amendment was carried without a division.

GRAND JUNCTION AND BELLEVILLE & NORTH HASTINGS RAILWAYS.

ON and after Monday, November 3rd, Trains will run daily as follows:—
Leave Belleville at 3 p. m. for Madoc and way stations.
Leave Belleville for Stirling, Campbellford, and Hastings, at 3:30 p. m.
Arrive from Madoc and way stations at 10 a. m.
Trains are run by Belleville time.

R. LUTTRELL,
Gen'l Supt.

The Great Cause of HUMAN MISERY.

WE have recently published a new edition of Dr. Oliver's "Celestial Cure" for the relief and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impotency, and all the diseases resulting from excess.

Price, in a sealed envelope, only 6 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, the almost instantaneous and permanent cure of the most dangerous of all diseases, without the application of the knife, pointing out a mode of cure at once safe, and effective, and by means of which every sufferer, no matter how long he has been afflicted, may cure himself cheaply, privately and radically.

This Lecture should be in the hands of every youth and every man in the land.

DOMINION PARLIAMENT.

FOURTH PARLIAMENT—SECOND SESSION.

WEDNESDAY, March 3.

In the House of Commons, Mr. Shaw introduced a Bill amending the Act establishing the Maritime Court of Ontario.

Several questions by members were put, and among the replies was an announcement by Hon. Mr. Langens to Mr. Hay that the Government were considering a scheme for the preservation and improvement of the coast of Ontario.

THE PACIFIC RAILWAY.

The debate this afternoon took a sudden serious turn. Mr. McLeannan, of Glenagary, spoke at length on the work of the Canadian Pacific Railway, drawing upon his personal experience in the North-West for material to support his allegations as to the present condition of things, and quoting the report and evidence of the Committee on Section 15 to prove past extravagance. Mr. McLeannan's position was, in brief, that the Engineer-in-Chief, Mr. Fleming, had been the cause of a good deal of unnecessary expense to the country in the progress of the work so far. He also criticized the location of the railway in Manitoba, with reference to the interests of Winnipeg and Selkirk. He expressed his confidence that the present Government would avoid them. If not, he, for one, would find himself frail in supporting them. His speech was listened to with much attention and respect, and was plain, of course, that though the speech was friendly in tone and frank in its criticism, it was not such a speech as could be permitted to remain unanswered by the Ministry. It was, of course, largely anticipating the debate on the Pacific railway, and forcing the Minister to speak soon, and apparently to the satisfaction of an answer was necessary, and Sir Charles Tupper replied at once. He took each point of Mr. McLeannan's speech, and replied with some degree of minuteness. The relations of Mr. Fleming to the Government, which began in 1862, and have continued ever since, were stated with all possible frankness. The question of the expenditure was entered upon. The responsibility for the expenditure over the estimates on Section 15 was placed on the shoulders of Mr. Mackenzie. The location of the railway was defended, apparently to the satisfaction of the previous speaker. The Minister expressed his confidence of winning the approbation of the House when he brought down official information on the subject of the Pacific Railway. He spoke for over an hour. Mr. Mackenzie followed in a very temperate speech, which he did not conclude at six o'clock. The debate, however, was continued until eight o'clock, and was very interesting.

After recess, several Private Bills were advanced a stage.

Mr. Hooper rose and read a statement, in which he replied to the allegations contained in the petition attacking his claim. He claimed that the matter was still sub judice and he denied all knowledge that there was any deficit in his accounts as treasurer for the county, he withdrew from the chamber. One of the speakers (Victor) spoke strongly against the motion, contending that the proposed reference was unprecedented, that there were not sufficient facts before the House to justify it, that the matter complained of was purely municipal in its character, and finally that the hon. member assailed had denied in the fofo charges. The latter gentleman moved amendment to the effect that the reference should not be made as the petition did not disclose any facts attacking the hon. member to his seat, and because the hon. member denied the allegations. At Mr. Anglin's suggestion the last sentence of Mr. Cameron's amendment was eliminated, and the amendment was carried without a division.

The House adjourned at 10:30 p. m.

The Ontario Legislature.

WEDNESDAY, March 3.

Yesterday a second discussion was raised by the Ontario Legislature, and the subject of the right of persons to occupy seats in the Assembly while they were in arrears for timber dues. The position of the members referred to was explained by Mr. P. H. P. Miller, called attention to the fact that the arrears are at present smaller than they have been at almost any time since Confederation.

DIVISION COURTS.

When the Division Courts Bill came up for the third reading, an amendment to strike out the section allowing the taxation of lawyers' fees was defeated by a majority of 41 to 24. An amendment by Mr. Meredith, condemning the taking away from the courts of the right to appoint clerks, was defeated by a majority of 44 to 25, and a third amendment, also by Mr. Meredith, to enlarge the jurisdiction in cases where the debt is liquidated, was carried by a majority of 49 to 23. The third reading was then carried.

UPPER CANADA COLLEGE.

After the Municipal Bill had been read a third time, the House ordered, on March 2, that the resolution be adopted that the Order in Council authorizing the expenditure of \$30,000 out of capital for the building of the Upper Canada College, be rescinded.

He explained that he did so simply on account of the complaint that the matter had been sprung upon the House, and that because he was prepared to abandon the position he had taken the day before on the question. The discussion was carried on by Messrs. Laidlaw, Hume, and Hume, and all who had any interest in the matter, and the House adjourned at 10:30 p. m.

CONCURRENCE.

The House then proceeded to concur in the resolution previously allowed to stand over.

RAILWAY AID.

On the motion to go into Committee of Supply for the purpose of appropriating \$10,000 for the payment of expenses that may be incurred in establishing the claims of Ontario to the disputed territory, Mr. Meredith moved an amendment condemning the Government for its attitude towards railway projects applying for aid. After some discussion it was voted down by a majority of 44 to 24. The item was then passed and concurred in.

THE BOUNDARY AWARD.

Mr. Mowat moved last night the resolutions that the Government should, after respecting the boundary award, which after reciting the facts connected with the case, expressed regret at the position taken by the Dominion Government, and instructed the Government of Ontario to make good the claim of this Province. After some discussion a division was taken, when the resolutions were carried by a majority of 64 to one, the sole dissentient being the member for Muskoka and Parry Sound.

MISCELLANEOUS.

Mr. Mowat called yesterday to the Lord Mayor of Dublin authority to draw at sight on the Provincial Treasurer for \$20,000 appropriated by the Legislature for the relief of distress in Ireland.

ASTRONOMICAL NOTES.

OBSERVATORY OF VANAR COLLEGE.

The computation in the following notes are by students of Vanar College. Although merely approximate, they will enable the observer to recognize the planets. M. M.

POSITIONS OF PLANETS FOR MARCH, 1880.

MERCURY.

On March 1 Mercury rises at 7h. 10m. A. M., and sets at 6h. 56m. P. M. It may be found 2° east of Jupiter.

On March 3 Mercury rises at 5h. 25m. A. M., and sets at 6h. 29m. P. M.

Mercury is at its greatest elongation from the sun on March 3, and should be looked for after sunset, in the first half of the month, a few degrees north of the point of sunset. In the latter part of the month it sets too nearly with the sun to be seen.

VENUS.

Venus is still seen in the morning, although nearer the sun and less brilliant.

On March 1 Venus rises at 5h. 5m. A. M., and sets at 5h. 5m. P. M.

On March 3 Venus rises at 3h. 52m. A. M., and sets at 3h. 52m. P. M.

Venus is near the waning moon in the morning on March 3.

MARS.

On March 1 Mars rises at 10h. 12m. A. M., and sets at 1h. 14m. of the next morning. It can be seen north of Aldebaran on the 3d.

On March 3 Mars rises at 9h. 10m. A. M., and sets 33m. after midnight.

The position of Mars is such that it appears to be the time of an occultation of Mars by the moon, on March 17, at 6h. 22m. p

Daily Intelligencer.
BELLEVILLE, FRIDAY, MARCH 5.

Government Aid to Railways.

At the eleventh hour the Ontario Government have forewarned their railway policy, which is that no aid will be granted to railways except in very exceptional cases. The eastern portion of the Province which has contributed so largely towards defraying the cost of railways in the western portion of the Province naturally enquire, what is the reason that the Ontario Government have decided to grant no aid to railways after municipalities have granted bonuses to such enterprises, on the strength of the general policy of the Government.

The Attorney General stated not long since that the Province was still possessed of the magnificent surplus of \$4,000,000.—If such be the case what has become of this hoarded surplus? Surely a government with such a surplus and which can afford to spend thousands of dollars on pleasure trips and half a million for new Government buildings in Toronto, should give some tangible reason for suddenly changing their policy after receiving denunciation after denunciation during the session, who were led to believe that Government aid would be granted to railways.

The only excuse that the Government makes for the policy of withholding aid from railways is that they say that "public feeling is strong in favor of withholding aid to railways." We would ask where has the public opinion opposed to it been exhibited? Surely not in this country, where liberal grants are greatly needed, for an extension of the North Hastings Railway, to develop the mineral wealth of North Hastings and settle the free grants in the County of Addington where large bonuses have been granted in aid of the Napanee and Tamworth Railway, only wanting Government aid to secure completion, and which if built, would have the result of developing extensive mineral deposits in the rear of that county; yet we hear Mr. Deroche, member for that constituency, saying that although the Ottawa and Toronto road and the Napanee and Tamworth roads were worthy of support, he would cordially support the motion to grant no aid to railways.

It is true that the Government, to let themselves down easily, hint that in the "sweet bye and bye" they may aid railways; but if, as is evident, they have already squandered the large surplus left them as a legacy by the Sandfield Macdonald Administration, what guarantee have we that the future will place them in a better position financially to aid railway enterprises than they are at present? Their promises to aid such enterprises at some future time shows plainly that their assertion that "public opinion is opposed to assisting railways" is but a lame excuse to cover a treasury, which is not so full as has been represented by the Treasurer of Ontario. If such be the fact, what will its state be after building a magnificent pile of ornamental buildings in the city of Toronto?

Mrs. Scott Siddons.

Seldom has a Belleville audience had the opportunity of enjoying such a rich literary treat as the readings of Mrs. Scott Siddons in the Opera House last night. The numerous and meritorious entertainments of late had the effect of lessening the audience that always welcome Mrs. Scott Siddons to this city, but never has she appeared to better advantage, nor has the audience greeted her readings and recitations with greater enthusiasm than last evening.

Throughout the programme, whether in reading the touching tale of the "Painter of Seville" the comic "Mormon Lecture" by Artemus Ward, the laughable selection from "Helen's Babies" or reciting the tragic "Potion Scene" in Romeo and Juliet, the same enthusiastic reception greeted her.

When called before the curtain at the close of the entertainment she thanked the audience for her enthusiastic reception, and stated that in the autumn she hoped to again appear before a Belleville audience in dramatic representations.

MR. HAMMOND IN MONTREAL.—Amongst those who assisted Rev. Mr. Hammond on Wednesday at the Crescent St. Presbyterian Church, were Rev. Canon Baldwin, Rev. Mr. Stevenson and Rev. Mr. Beaudry. On Thursday morning the first meeting in Olivet Baptist Church was held, and the *Witness* says, was undoubtedly the best yet has been held yet.

Mr. Hammond was assisted last year by an increase of \$25,330, and omitting the River du Loup line from the calculations of 1880, \$27,056.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on subjects of the day, it must be in all cases understood that the views expressed are simply those of the correspondents themselves.

Belleville Mechanics Institute.

Mr. Editor,—

Sir,—It was my privilege to look through the rooms of this institution last evening, and being thoroughly impressed with the beneficial results flowing therefrom, I desire with your permission to place some facts and figures before the public, with the view of bringing more particularly into notice the workings of this Institution.

At the present time there are 450 members—an increase of 303 since May, 1879. The average daily attendance for five days in the week is 150, and on Saturdays there is an additional number of about 100 pupils from our public schools, whose hours of admission are from 4 to 7 o'clock, p.m.

There are 40 connected with the young men's classes, and about the same number connected with the adult classes. In addition to this there is a gentlemen's class from 9.30 to 10.30 in the morning.

The Institute is open from 9 a.m. to 10 p.m., and is well heated and lighted.

There is a pleasant Library, well stocked with books, and the average number taken out by members daily is 156 volumes. The reading room is large and pleasant, and well stocked with newspapers, periodicals, magazines and reviews.

The recreation room is also a pleasant apartment and well provided with tables for chess, checkers and other pleasant and harmless games.

Arrangements are also completed for the introduction of billiard tables, which in other cities are considered valuable acquisitions to well ordered Mechanics' Institutes.

The gymnasium is a large room in the third story, and is well provided with every thing necessary for a first class gymnasium, and is under the able management of Prof. E. W. Johnston, who has a well deserved reputation, and it is truly wonderful to note the proficiency of his pupils for the short time they have been under his instruction.

The name of the President—the Rev. M. W. McLean, is a sufficient guarantee to the public, that nothing of an improper nature can find a lodgment in the institution, and he is ably seconded by a board of management comprised of our best citizens, as well as by the gentlemanly and attentive Librarian.

The object of the entertainment to be given on Friday evening at the Opera House, is to bring the workings of the Mechanics' Institute more prominently before the public, and I feel sure that all who take an interest in the Institute now, will take a deeper interest, and those who have known but little of it, will be induced to co-operate with their fellow citizens for the advancement of this Institution.

I trust there will be a large attendance on Friday evening at the Opera House to testify to the able management of the Institution, their appreciation of the exertions put forth for accomplishing so much that is good in our city.

Very Respectfully,

Yours,
R. S. PATTERSON.

Belleville, March 3rd, 1880.

To the Editor of the Intelligencer.

Sir,—It is with some reluctance that the writer makes a rejoinder to the numerous replies in respect to his former communication, and one reason of that reluctance is that all those except that of "Civis" offer strong temptations to be severe.

X. Y. Z. in the Ontario deals in false surmises and evil judgments throughout. "A Worker," quoting Nehemiah, 6, 3, says in effect, and this is the whole of his communication, that he is the chief agent in building the walls of the Spiritual Zion, and that he spurns his humble servant as a crafty heathen cunningly conspiring with other wicked men to draw him off from his work and slay him. G. G. utterly perverts my meaning and not only accuses me of making a personal attack, which I did not, but of reflecting upon a branch of the church for which you know I entertain great respect both on account of the good men it contains and the great good it has accomplished. Though G's language would seem to imply that he thinks so, I do not believe that that which is complained of is essential to Methodism or necessarily constitutes any part of it as a system. Indeed, one of the most learned and pious clergymen in the Methodist Church, one who at present occupies most prominent position therein, but a short time since, in conversation with the writer, was deeply deploring the sad effects of this very thing, namely that undue familiarity and dissipation, not to say levity, in dealing with sacred things and with religious experiences, even though combined with a sincere desire to do good.

"Civis" quite pertinently enquires, what are poor sinners to do for, he asks, are not the same themes, in their leading features, presented at those meetings as come to us in the more orderly Christian channels? Let us admit that they are to the fullest extent; it is not the evil of preaching false doctrine that is now deprecated, but the preaching truth in such a form and after such a manner as to cause it to fall of its end and be rejected as error or lightly esteemed. Undoubtedly no human channel is immaculate, but Christian men constituting the church are bound in duty to God and man, to exercise the reason and intelligence with which the Almighty has endowed them to shun offences from this cause, and this is a far more fruitful source of offence than direct attacks on inspiration and Bible teaching.

Whatever good results may come out of these meetings, these results are simply in spite of the evil complained of, and this evil will not thereby cease to be a seed, to yield the bad harvest depicted. Did space permit, it would not be hard to trace the connection between the prevailing want of veneration for the Holy Scriptures and the want of reverence for authority in the family, in the church, and in the state, to this unseemly talking about religion and religious experiences.

Not to say anything about persons who do not recognize in practice even the difference between *mean* and *mean*, talking incessantly about religion, we maintain that even those whose lives are tried and consistent, lessened very materially the influence for good of their

Christian profession by unwisely talking of the principles, motives, and sanctions of religion, in the same way as an honest man would greatly destroy the good influence of his honesty by widely talking about his honesty, and the principles upon which this honesty is founded. The Christian religion is revealed to us as a means to an end, that end being piety and good living. If it is made an end instead of a means it ceases to be a blessing, and proves the reverse; it becomes mere religionism, and then instead of being held in veneration and revered on account of its Author and its design, the thoughtless are compelled to treat it lightly as a thing of naught, to their ruin.

In several of the replies reference has been made to excitement, each denying that excitement had accompanied these meetings, as if this had been laid to their charge against them. This strengthens my position, for it is admitted as a psychological fact that excitement both physical and mental does generally attend genuine revivals; this has been witnessed from the days of Pentecost down to the present time. The apprehension of any important truth by an individual being alone, is always more or less accompanied with nervous excitement, and this is greatly increased if he happen at the time to be in company with a number of other persons. This is especially the case in respect to religious truth particularly when the truth flashes on the mind suddenly. But observing these facts, which are admitted facts, it would yet seem to reflect persons worse than folly to seek to produce conviction by reproducing this ephemeral result of conviction. It is just the folly of trying to produce a cause by an effect and that but an incidental effect. But this is repeatedly attempted, and the results are rather peculiar, analogous to the grim effects of galvanism on a dead body.

It may be permitted me to add in conclusion that there is no disposition to question the motives of those who are of a contrary opinion; rather, on the other hand, the writer holds that if these think they ought to proceed in the way we disapprove of, they are doing wrong by not carrying out their convictions and, *malum malum*, myself with not only a very large number of independent thinkers, but whole bodies of Christian constituency. Various branches of the church, expect the same consideration from those who differ, in fact that they in their turn shall judge us as doing wrong if we should fail in not giving expression in this way to our conscientious convictions.

X.

MORNING DESPATCHES.
AMERICAN.

CINCINNATI, O., March 5.—All the gambling houses in the city except 3 were closed last night by the police.

COSEVILLE, Ky., March 5.—Marsh Dyer, Wm. Wolfe, and W. E. Ames, prominent citizens, and Price Metcalfe, colored, capized in a raid and all were drowned.

CHICAGO, March 5.—There was considerable excitement in the board of trade yesterday by a proposition to make the Milwaukee warehouse, regulate in this market. The result would be to make available Milwaukee's extensive storing facilities and allow 5,000,000 bushels of wheat additional to enter Chicago market, and break the ring by compelling its members to ship or sell.

PORTLAND, Me., March 5.—The Workingmen's Benevolent Association or Miner's Union is being secretly revived, which bodes trouble.

NEW YORK, March 5.—The *Times* Washington special says it is said that the negro Stone, sentenced to death for murdering his wife, but whose sentence has been stayed by the President, will never be hanged, for the reason that the who have been working in his behalf declare that Mrs. Hayes has expressed a desire to have no executions in Washington during her husband's term.

Carl Shreen, son of a wealthy Vienna physician, died in destitution yesterday.

The Booth benefit at the Academy of Music yesterday in aid of the *Herald* fund netted \$2,500.

W. C. C. Branning suicided by leaping from the Pacific on Wednesday, on discovering that his wife had not been divorced from her former husband, as he had claimed.

The *Tribune* says the reports of the intended general strike among the workmen of this city are unfounded.

Manitoba Items.

From the *Times*, March 1.

SAW MILLING.—During the coming year six new saw mills are to be erected within a radius of forty miles of Shoal Lake, N.W.T.

The Indians in the vicinity of Fort Pitt are said to be in a state of starvation.

PISH.—White fish from Lake Winnipeg are finding a ready market in St. Paul and Chicago.

The Indians in the Swan River district have subsisted almost entirely on fish this winter.

It is rumored that the Mounted Police barracks at Shoal Lake are to be removed to Touchwood Hills shortly.

There are in Manitoba only two money order post offices, one at Winnipeg and one at Portage la Prairie, at which the orders issued for the year ending June, 1879, amounted to \$69,986.51.

HOMES.—Mr. Allan arrived from Perth yesterday with a carload of horses for Mr. Harris, of this city. The animals are fine specimens of the equine race, and are much more the worse for their somewhat long trip from Lunenburg.

Complimentary.

Belleville, March 5th, 1880.

At a meeting of Belleville Lodge, No. 81, I. O. E., it was moved by Bro. Geo. E. J. Hanwell, seconded by Bro. Jas. H. Jones, and resolved:

"That it be with heartfelt regret that this Lodge renounce the determination of Bro. John Stewart to deny his debt to the community for a time, but as Bro. Stewart's private affairs necessitate his removal to a distance from Belleville, his Brother John of Belleville, Lodge No. 81, cannot permit him to depart from their midst without giving him an assurance of the high esteem in which they hold him, both as an Odd-Fellow and as a member of society generally, and they wish at the same time to assure him that he carries with him their best wishes for his success wherever his lot may be cast, and should he return at some future time to Belleville, they will gladly welcome him as a Brother, who during the whole time of his connection with the I. O. E. F. has proved himself worthy of the obligations and of the trust confided in him."

ANTI CHINESE ASSOCIATION.—An Ottawa despatch says: "The Anti-Chinese Association of British Columbia have sent to Mr. DeCosmos for presentation to Parliament a petition asking a measure to prevent the increase of the Chinese population of the Province of British Columbia. It will also be submitted from the Corporation of Victoria."

News Condensed.

—Only two full schooner cargoes of ice have as yet been secured at Kingston.

—A gang of eight gamblers was captured in Hamilton on the 3rd inst.

—The proposed procession on St. Patrick's Day in Montreal, has been abandoned.

—The snow has almost disappeared in Montreal.

—The corner stone of a glass factory at Thorold was laid on the 4th inst.

—The Morrison paper mills are now lighted with electric light.

—Great destitution on the island of Ionian, County of Mayo, Ireland.

—The Easter recess in the British Parliament will commence on the 25th March and terminate on the 5th of April.

—700 persons went by Patterson's train which left Paris for Manitoba on the 2nd inst.

—The *Enterprise* arrived at Toronto with stone on the 3rd inst, being the first schooner of the season.

—At the English fair on the 3rd inst., a large number of cattle changed hands at \$3.50 to \$4.00 per 100 lbs.

—A large number of farmers in Seymour and Percy, are selling out, preparing to go west.

—The town of Peterboro has raised \$723, in aid of the Irish Relief Fund by private subscription.

—It is said the Dominion Telegraph Company will soon make a further reduction in rates.

—The Public School Board of Toronto has made a general increase in the teachers' salaries.

—The preliminary trial of the Biddulph prisoners was resumed at London on the 4th inst.

—There is a good prospect of a large French Canadian immigration to Manitoba this year.

—People of the rural classes in England are beginning to emigrate to America with the opening of spring, and it is anticipated that after Easter there will be an unusual rush.

—The first shot of the Saugun Valley Railway was turned yesterday. This road is intended to extend from Walkerton to Mount Forest, there to connect with the Toronto, Grey and Bruce line.

—The Nova Scotia Legislature is proposing to memorialize the Dominion Government for a grant to Nova Scotia out of the fishery award made by the Halifax Commission.

—Haulan says if Trickett goes to England, as he announces his intention to do, he (Haulan) will certainly make the trip too, to meet him on English waters.

—The Canadian art exhibition will be opened at Ottawa on the 6th by the Governor-General. Among the paintings are some by the Prince of Wales.

—The Presbytery of Toronto has sustained the "call" of Knox Church, Toronto, to the Rev. Mr. Parsons, of Buffalo, the salary to be not less than \$3,500, according to the agreement of the congregation.

—Cook Harvey, late City Clerk of Urbana, Ohio, and alleged to be a defaulter, to the amount of \$60,000 to that municipality, has been arrested near London by Detective Fawcett, of St. Thomas, and taken to that town for examination, which comes off on Tuesday next.

CAPE BRETON MINES.—It is announced that large amounts have been made by mines in Cape Breton, and next summer will in all probability witness a revival in the coal trade such as we have not had since the summer of 1873. Two gentlemen are negotiating for the lease of the Victoria Mines, C. B., with the intention of resuming operations at an early day.

NOTICE.

ALL parties indebted by note or book account to the Estate of the late Dr. Higginbotham are requested to settle with the undersigned at once. The Estate is to be closed up without delay, and prompt settlement is necessary.

PETERSON & PETERSON.
Dated 2nd March, 1880. d3w3v

STREET RAILS.—Eight cars of steel rails

for the Canada Pacific Railway passed west

over the Grand Trunk this morning.

SHIPING.—Buyers from the States

are busily engaged in this section purchas-
ing all the scrap iron that can be bought.
Several car loads have been shipped from
here.

RAILWAY TO MILL POINT.—The Napano

Standard says that surveys employed by
Messrs. H. B. Rathbun & Son, have com-
menced surveying a route for a railway
from Napano to Mill Point.

THE ICE TRADE.—The schooner Edward

Blake, which was damaged in the autumn
of last year by going out of Presque Isle
in a storm, and was taken to Mill Point
and repaired, is now loading ice at that
place.

THE INQUEST.—We learn that the evi-

dence taken at the inquest on the unfor-
tunate squaw who was killed on the Grand
Junction on Wednesday disclosed the fact
that the whiskey which she had taken was
procured from two men who had been in
her company. The jury's verdict was in
accordance with the facts.

LUMBERING.—The season is far enough

advanced to be able to make an estimate
of the winter's cut. The weather has been
unfavorable for the trade, so much so that
a few of our lumbermen will leave a portion
of the winter's cut of logs in the woods.
The number of logs banked that will come
down the Moira is about 200,000. They
will make about 25,000,000 feet of lumber.

EXHIBITION.—An exhibition consisting

of gymnastic and athletic displays will be
given in the Opera House here, this even-
ing, by the members of the classes of the
Mechanics' Institute gymnastics.

THE MURRAY CANAL.—We have received

a copy of a map showing the position of
the proposed Murray Canal, and also
that of existing railway routes. Accom-
panying it is an interesting paper on the
canal, showing what the cut will do, for
navigation as well as its general and
local benefits, taken from the special cor-
respondence of the *Globe*, together with
extracts from the local press and the *Mail*.
The map and accompanying paper cannot
fail to be highly serviceable to the cause of
the promoters.

THE FERRIES.—Mr. Jellott is hurrying

on his preparations to get the *Prince Ed-*
ward ready for business so soon as a chan-
nel can be opened. The ice where the up-
per ferry steamer, the *Mary Ethel*, wintered
is still thick, as it is also on the track which
the boat follows between her landing places.
However, we are informed that the ice will
be cut around the boat and for a short dis-
tance, when it will be attempted to
break the ice with the steamer, which has
proved to be a good ice breaker.

LEGAL.—In the Queen's Bench and

Common Pleas, Toronto, on the 2nd;
Grand Junction v. Pope.—Judgment for
the plaintiff on all the pleas demurred to,
with leave to the defendant to apply in
Chambers to amend. In the Court of
Appeal the same day: Davidson v. Bel-
leville and North Hastings Railway Co.
—Plaintiff to have the option of having the
appeal dismissed with costs, and then enter
judgment for \$120, with whatever con-
sequences attach to it, or he may elect to
have the appeal allowed, on ground that the
claim exceeds the jurisdiction of the Coun-
ty Court.

NO SMALL POX.—There is an impression

in the country that small pox is prevalent
in the city, and erroneous reports as to its
existence have been widely circulated. In
conjunction with Mr. James Smith, Chair-
man of the Board of Health, we learn that
there is no truth in these reports. The only
case of small pox is on the island adjoining
Zurich's Island in the Bay, where the
Board of Health have erected an hospital,
and that case is a case of small pox, and
no case within the city limits, and there is
not the slightest danger in people coming
to the city.

POLICE COURT.

(Before A. Diamond, P. M.)

FRIDAY, March 5th, 1880.

DUNK.

Lewis Smith, charged with this offence,
was fined \$2.00 and costs, or in default 15
days in the common jail.

This was the only case before the Court.

"TEABERRY." The new powder for whitening

the teeth, stimulating the mouth and
purifying the system, is a most valuable
and useful article. It is sold by the
distributor, at Belleville, in the Shop formerly
occupied by Charles Green, on the south side
of the street, near the corner of the
Market.

Also having purchased the business hereto-

fore carried on by John Whitson as a butcher
in the shop in Lister's Block, on the south
side of Front Street will carry on the business
in the same place under the firm name of Green
& Curtis, from this date, and hope for the con-
tinuance of public support in both stands.

CHARLES GREEN, & CURTIS.

Dated Belleville, March 5, 1880. dlm

Notice of Partnership.

THE undersigned have this day entered
into partnership as Butchers, and will
carry on the business under the firm name of
Green & Curtis, at Belleville, in the Shop formerly
occupied by Charles Green, on the south side
of the street, near the corner of the
Market.

Also having purchased the business hereto-

fore carried on by John Whitson as a butcher
in the shop in Lister's Block, on the south
side of Front Street will carry on the business
in the same place under the firm name of Green
& Curtis, from this date, and hope for the con-
tinuance of public support in both stands.

CHARLES GREEN, & CURTIS.

Dated Belleville, March 5, 1880. dlm

Notice to Creditors.

NOTICE is hereby given, that all creditors
of the late William Clark, deceased, who
are entitled to any share of the assets of the
estate of Eleanor Mary Howard, late wife of
the said William Clark, deceased, who died on
the twenty-seventh day of March, A.D. 1879,
and who have not already received their share
of the same, are hereby notified to present
their claims to the undersigned, at the office of
the said William Clark, deceased, at the
City of Ottawa, in the County of Carleton,
on or before the first day of April, A.D. 1880,
at which time the said estate and effects of the
said deceased, or on or before the nineteenth day
of April, A.D. 1880, at which time the said
estate and effects of the said deceased, or on or

Daily Intelligencer.

GOD IS LOVE.

By FANNY CROSBY.

Poor weary heart, wouldst find repose! I can give thee comfort and repose.

Who feels thy sorrow, shares thy woes, And gives thee comfort and repose.

Thou hast no other friend to dear, In all the world or Heaven above; Oh, lean on Him in faith and love.

For He is God, and God is love.

Through dire temptations vex thy soul, And trials hedge thy pilgrim way.

Though gathering clouds may darkly roll, Look to Him, look to Him, look to Him.

Thy Saviour's love will soothe thy fears, Thy Saviour's hand will wipe thy tears.

Thy Saviour's hand will wipe thy tears, For He is God, and God is love.

As through the crystal drops that shine, Just when the storm is passing by.

In token of His love, He sends the rain, The bow of promise spans the sky.

So through the weary years we shed, His smile will beam on us from above.

Then cling to Him, whose word has said, That He is God, and God is love.

Mr. Beecher's Conversion.

Mr. Beecher, at the Plymouth Church, New York, has recently given an interesting story of his conversion.

"I will be done," was the text of his discourse, and Mr. Beecher, who had been a Unitarian, told the story of his conversion.

"I will be done," was the text of his discourse, and Mr. Beecher, who had been a Unitarian, told the story of his conversion.

looked upon religion but to despise it. But it was not so.

A noble and gentle-hearted man came to see the dying soldier. He addressed him with kind inquiries, talked to him tenderly of life beyond death, and offered spiritual counsel.

But the sick man paid him no attention or respect. He bluntly told him that he did not want any religious conversation.

"You will let me pray with you, will you not?" said the man at length.

"No! I know how to die without the help of religion." And he turned his face to the wall.

Further conversation could do no good, and the man did not attempt. But he was not discouraged. After a moment's silence he began to sing a hymn, so familiar and so dear to every congregation in Scotland:

Mother dear, Jerusalem, When shall I come to thee?

He had a very pleasant voice, and the words and melody were sweet and touching to the heart of the sick man.

He turned his face to the wall, and his eyes were closed. He had not spoken a word since.

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:

STILLING.—At the drug store of Dr. G. H. Boulter, M. P. P.

CAMBERFORD.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.

HASTINGS.—Of Mr. David Morrison, at the Post Office.

MADOC.—At the store of Mr. C. G. Wilson.

Extra copies of each day's issue can be obtained at the above places.

GEORGE P. ROWELL & CO.,
41 PARK ROW, NEW YORK,
AND
J. H. RATES, 41 PARK ROW, NEW YORK,
are our Agents in this city, and are authorized to contract for advertising at our lowest rates.

Daily Intelligencer.

BELLEVILLE, SATURDAY MARCH 6.

"Parity" First.

The utter disregard to the best interests of the country by the Grit press when the "parity" is to be upheld, is manifest in the apology of our Grit contemporaries for the recent decision of the Ontario Government to grant no aid to railways. In its issue of the 4th inst. it says:

"It is doubtful, too, whether Ontario needs any new railway lines for the development of any particular section.

For a journal issued in the County of Hastings, where Government aid is so much needed to develop the mineral region of the north part of the County and to open up the free grant region, such an utterance shows a wanton disregard for the interests of the country when the party requires to be upheld.

The Legislature.

The announcement that the first session of the fourth Legislature of Ontario has been brought to a close, will be received with anything but regret throughout the country generally, not only because much of the legislation which was had during its currency was of a disturbing—some of it even of a positively mischievous—character, but also because a considerable portion of its duration was consumed with that of the Dominion Parliament, the proceedings of which overshadowed those of the Provincial Assembly, and deprived them of nearly all the interest which would otherwise have been attached to them. We have previously urged upon Mr. Mowat a change of policy in this regard, and as the *Globe* takes the same view of the subject, perhaps that unready and time-serving politician may return to the practice of the Sandfield Macdonald Government, and call the Legislature together at an earlier date. Otherwise that body, being deprived of public attention by the Dominion Parliament, will fall in popular estimation, and the project for biennial sessions receive so strong an impetus that by the date of the next election it may have attained an influence which it will be impossible to resist.

The Ministerial programme with which the session was opened promised several important measures, but the provisions of most of them which have been passed are not of a comprehensive or satisfactory character. The amendment made to the Free Grant and Homesteads Act is, as we have previously pointed out, of a mischievous nature and contrary to the public interest, whilst the Exemptions Act is a characteristically timid and halting measure which will please neither the friends nor the opponents of exemptions from taxation. Mr. Mowat's "Act to abolish priority of debt and amongst execution creditors," seems intended to benefit the lawyers only. Even the Hamilton Times, a warm supporter of the Government, is constrained to say of this piece of legislation: "We have so far been unable to find a business man who speaks favorably of the proposed law. The feeling in mercantile circles, so far as we have been able to ascertain, seems to be that it would be better to have no such Act at all, and that the merchants would rather stand their chances of being robbed by dishonest debtors operating through the channels of snap judgments, preferential assignments and that sort of thing, than be enriched out of such bills of costs as are forfeited by the clauses which give sheriffs and bailiffs such scope for clapping heavy items of expense upon estates of struggling defendants. The extension of the jurisdiction of the Division Court is one of the few good acts of the Ministry, but even that does not, in the opinion of many, go far enough. So also is the Game Act, but further alterations will be necessary before the satisfaction is given to sportsmen. The other measures are generally of minor importance, such as might almost as well be left out of the statute books. Altogether, the session is not one in which Ministers have covered themselves with glory, although they seized a little more power by securing to themselves the appointment of Division Court Clerks in cities and towns, and the right of vetoing appointments made by Sheriffs.

The Opposition, small in number though they were, were able to lead and discharged their duties with tact and ability. The revelation which they made of the proceedings of the now famous "Corkcreeper Club," advanced their cause in the country materially, and caused the Government to heat one of the most undignified retreats on record—almost as disastrous as their back-down on the question of aid to railways, in which also they figured most ignominiously. Mr. Meredith deserves to be congratulated on the moderate and yet successful course which he pursued, and the representatives of North and West Hastings, who faithfully supported him, will receive the approval of the large majority of their constituents.

The Opera House.

This place of amusement was well patronized last evening on the occasion of the exhibition in athletics and gymnastics by the pupils of Mr. E. W. Johnston, of the Mechanics' Institute Gymnasium, a considerable number of ladies being present.

In opening the evening's proceedings Mr. Thomas Ritchie said he was greatly pleased to see so many present, as their coming evidenced sympathy towards the Institute. He had to regret the absence of Rev. Mr. McLean, the President of the Institute, but later on he would be with them. He was a Christian man and would do what he could to aid his fellow citizens. With regard to Mechanics' Institute they were a great benefit to society. They tended to the amelioration of mankind generally and assisted us to glorify in spirit and in body. The Belleville Institute was now the third on the list of Mechanics' Institutes, Toronto and Hamilton being alone before it, and he trusted that its progressive spirit would be maintained, and that it yet would attain the front rank. (Cheers.)

Chief McKinnon said the pleasing office of stage manager had been entrusted to him, and from what he knew numbers would regret their absence from the entertainment as its features would surprise many and show that under the tuition of Mr. Johnston, the instructor of the Institute, his pupils had made excellent progress.

The programme was then entered into and afforded great amusement and genuine delight to all. The bell and club exercises were very creditably performed, whilst in the tumbling and acrobatic feats great proficiency was shown. The pyramid ladder and trapeze acts were prominent features of the evening and elicited well-deserved applause. The remaining portion of the programme was well presented and creditably executed, and elicited the approval of the audience.

Rev. Mr. McLean delivered a brief address, in the course of which he said he had been requested by the Directors to speak a few words on behalf of the Institute and the entertainment, which he was pleased to know would be repeated. It was but two months since Mr. Johnston had been engaged as instructor in the gymnasium, and the people could see for themselves the proficiency his pupils displayed, and now all could see that in this city there was a large number of embryo athletes. Organizations such as the Mechanics' Institute Gymnasium assisted the spirit of recreation and drew the young away from places of questionable resort. The Institute in this city had been launched fair and square; it had met a warm long felt, and in efficiency and proficiency it now stood third on the list of the Institutes of the province, with a membership of 460, which was equal to one in every thirty. We should strive to enjoy the life that God gave, and endeavor to improve our physical strength and mental comfort. He was pleased to notice that the ladies of the city had taken an interest in the welfare of the Institute, but as it was for the benefit of the whole community, all could lend a helping hand. In conclusion, he expressed the hope that the Institute would grow more and more useful, and would even be more successful in the future than it had been in the past.

The entertainment concluded with a grand tug of war, in which the several students joined.

The Band of the 15th A. L. I. was present, and added much to the success of the entertainment by the rendition of a number of very pleasing musical selections, which met with great favor from the audience.

Ontario Legislature.

FIRST SESSION—FOURTH LEGISLATURE.

FRIDAY, March 5.

The House met at two o'clock.

In answer to Mr. Morris, Mr. Mowat said the Government would consult architects other than those of the Department of Public Works as to the plans for the Legislative buildings.

Mr. Mowat introduced a Bill respecting assessments and exemptions to correct a mistake in the original Bill respecting personal property of incorporated companies. The measure was put through all its stages and passed.

At 3 p. m. the House was prorogued by the Lieutenant-Governor.

POLITICAL DEMONSTRATIONS.—It is evident from developments that have taken place that the late demonstrations of the Ottawa unemployed were the results of political machinations. An agent for lumber firms writes to *Le Canada*, over his own name, asserting that he has been unable to procure men for his purpose in Ottawa, and has been compelled to telegraph from that city to Sorel, Terrebonne, and other places, for a supply of labor. He adds further, that among the persons who took prominent parts in the demonstrations referred to, were men who refused his offers of employment, and states his willingness to furnish their names if his assertions are contested. *Le Canada*, a moderate and careful journal, whose opinions are of some weight, believes that there is much truth in the observations of its correspondent.

IRISH RELIEF.—A committee at Toronto are collecting food, meal and other provisions to send to Ireland. In addition to free transportation on the Grand Trunk, the Dominion Steamship Line will take contributions free.

MILITIA ACT.—The Bill introduced by Sir Alexander Campbell to amend the Militia Act provides that the next term of the Militia shall be made and completed on or before the 28th day of May, 1882, and such enrolment shall be made and completed on or before the like day in every fifth year thereafter.

—Mrs. Scott Siddons did not read in Kingston, very few reserved seats having been disposed of. It seems the agent who made the arrangement charged \$1.00 for reserved seats, while in Toronto and elsewhere the price was only 75cts.

MORNING DESPATCHES.
AMERICAN.

SAN FRANCISCO, March 6.—E. G. Cottrell, a well-known theatrical manager, suicided at the Atlantic last night. He left a letter to his wife saying there was money due him which he could not collect to pay his debts. Rather than be a defaulter he killed himself.

HONG KONG, March 6.—China is preparing for war in view of frontier disputes with Russia. China is adopting more defiant attitude towards all foreign powers.

READING, Pa., March 6.—It is reported that the Central Railway of New Jersey has been leased by the Reading Railway, which thus obtains a direct route to New York City.

CINCINNATI, March 6.—The Atlantic and Great Western will lay a third rail from Salamanca to Leavittsburg, and to complete a through line of standard gauge, the Erie will lay a third rail on its western division from Hornellsville to Salamanca. When these changes are made, by June next the New York Central will be as well able as the Erie to exchange traffic with the Atlantic and Great Western.

NEW YORK, March 5th.—The "World," Washington special says: "Fry's new resolution asserting the Monroe doctrine, adopted by the House sub-committee yesterday, is even broader and more emphatic than the original resolution. Some extreme Southern men, strict constitutional constructionists, and some Republicans who do not favor aiding foreigners while negroes are suffering at home, will, it is said, oppose the appropriation of \$300,000 for the Irish relief.

NEW YORK, March 6.—Donations to the Herald fund yesterday amounted to \$1,900, including \$1,000 from Wm. L. Scott, a prominent railway man.

Applications for seats were freely made at the Chinese quarter yesterday. A number of San Francisco refugees were hired.

Geo. Wm. Curtis said to a *Tribune* representative yesterday that if Grant is nominated, he will be defeated and the Republican party disorganized.

North Hastings.

(From the Review, March 4th.)

THE WILSON BLOCK.—Messrs. Kern and Walton have secured the contract for the carpenter work of the new block about to be erected by C. G. Wilson. The contract for the mason work has been given to Mr. S. Retalack of Cobourg.

ACCIDENT.—On Tuesday morning the night foreman at the Seymour mine, Wm. Meredith, had the misfortune to lose the ends of three fingers of the left hand, by getting them caught in a pulley. His injuries were attended to by Dr. Loomis.

MINING NEWS.

The shaft of the Seymour mine has reached a depth of about seventy-five feet, and while the hanging wall is evidently maintaining the regular slope, the foot wall is almost perpendicular, causing the vein as a matter of course to widen. This, with the high quality of the ore being still maintained, is the most satisfactory thing we could possibly record of this district. With so many iron mines in an embryo state, and many more just about opening, it is highly satisfactory to know that the oldest and most extensively worked mine is not "playing out," but is assuming a character for permanency that promises well for the whole district.—About forty-five men are at work at this mine.

The Dominion Mine is now assuming large proportions, a force of some thirty men being at work. Three openings on the lead have been prospected, and two are being worked vigorously. The prospects are very good; about 200 tons of ore have been raised, and from present appearances a regular supply of from fifty to a hundred tons daily will shortly be produced. Mining at this place, the same as elsewhere, has required considerable capital and perseverance. At least a couple of thousand dollars will have to be expended before the owners can possibly expect a return. Beside this there is the building of roads, platforms, boarding-houses, etc. This mine, however, has some peculiar advantages. 1st. They have a vein of 1,500 feet, averaging 25 to 45 feet in width. 2nd. There is a continuous descent from the mines to the railway, which is about three and a half miles. 3rd. The iron is of good quality, free from impurities.

We have also to note a discovery of Hematite on Mr. James Keene's land, in the 14th con. of Hastings, close by the Railway, and about three-fourths of a mile from the Madoc Station. The quality of the sample shown is first-class. The quantity is yet to be ascertained. This property has been secured by Messrs. Pusey and Wood.

While on a trip to the north end part of the county a week or two ago, we were presented by Mr. J. B. Clark with a splendid sample of ore from what is known as the Condon mine. We have also been shown good specimens of ore from Carlow and Mayo. We have no doubt of there being vast deposits of iron in the back townships, but it is practically useless until a railway has been built.

PACKING BUTTER.—A Montreal butter exporter writes warning farmers of Western Ontario not to use spruce tubs, as butter packed in them will be worth less by several cents a pound than if packed in white oak. On the Kingston *Whig* severely but justly remarks: "There is much butter made now-a-days as to which it makes little difference how or in what it is packed. It is bad to commence with, and packing cannot injure it. And having said so much we may add that recently a species of butter was imported, of the manufacture of which information would be interesting, since in appearance and taste it is peculiar and most auspicious."

The stuff referred to was probably oleomargarine, the sale of which ought to be regulated, as in the United States, by compelling the seller to label the rubbish as such to prevent its being sold as genuine butter.

—The London *Times* says emigration at Quebec, Ireland, is lively. Many persons from the rural districts are leaving for the United States. The recent revival of trade in America and the reputation of emigration is attracting attention.

News Condensed.

—The Princess Louise is reported much better.

—Kingston harbor is free from ice and the ferry boats are running.

—A movement is on foot to erect a new Baptist church in Kingston.

—It is said the Budget Speech will be delivered on Tuesday next.

—Ottawa's Public Schools will cost this next year \$35,725.

—The winter wheat crop in Wisconsin is reported a failure.

—Ducks are becoming quite plentiful in the vicinity of Montreal.

—A Constantinople despatch says there is a fearful famine in Armenia.

—Trains are still running over the ice bridge at Point Douglas, Manitoba.

—A heavy fall of snow took place in the Ottawa district on the 5th inst.

—Queen Victoria has laid away \$25,000,000 for a rainy day.

—The U. S. Congress will make no change in the tariff this season.

—The Burmese have raided into Manipur territory, and killed forty-five Manipuris.

—Persian letters state that Shah Paz Khan, the Governor appointed by the British, has fled from Kohistan.

—The Ontario Legislature was prorogued on the 5th inst., with the usual ceremonies.

—Robins and porpoises have appeared on the Labrador coast, bemoaning an early spring.

—The Napane River is open half way to Mill Point, and there is no ice to impede navigation.

—By a boiler explosion in Glasgow, on the 5th inst., six persons were killed and thirty severely injured.

—The Chilean fleet has attacked Avica. The commander of the ironclad *Huascar* was killed during the engagement.

—Every one will regret to learn that Chief Justice Moss is dangerously ill, and doubts are entertained of his recovery.

—The Dominion Rifle Association will hold its annual prize meeting at Ottawa on the 5th of September.

—Mr. Hammond's Committee in Montreal have engaged the Theatre Royal in which to hold a mass meeting on Sunday evening.

—The Bishop of Montreal has asked his clergy to offer thanksgiving for the escape of the Governor-General and Princess Louise.

—A burial casket factory and a carriage factory in Rochester, were burned on the 5th inst. They took fire from a stroke of lightning.

—The International Railway and Steam Navigation Guide for March is at hand, and is as usual replete with information important to travellers.

—An effort is being made, now that the Parliament Buildings have been burned at Fredericton, to make St. John the future capital of New Brunswick.

—The Supreme Court has adjourned until the 13th inst., when judgments will be delivered. On the 16th the hearing of the cases on the Ontario list will be resumed.

—The deputations of oil refiners have gone West to consult with other members of the syndicate before conferring with the Minister of inland Revenue.

—Hanlan says if Trickett goes to England, as he announces his intention to do, he (Hanlan) will certainly make the trip too, to meet him on English waters.

—A special despatch from Fort McLeod says that one of the murderers of Mount Allison Grammar has been arrested in Montana Territory, and is confined at Fort Benton.

—Young women should go west and grow up with the country. The *Fargo Argus* says of all the single ladies of that place two years ago, not one remains but is boss of a home and a husband.

LEGAL.—In the Court of Common Pleas,

Toronto, on the 5th, judgment was given in the following local cases:—Coleman v. Robertson.—Verdict for plaintiff as to part of the land in dispute, verdict for the defendant as to the rest of the land. McCann v. Conley.—Judgment delivered by Oaker, J. Rule made absolute for a new trial without costs.

LOST.

LOST, on a Bugy, on the 4th inst., a new dress, wrapped in a newspaper. The finder will be rewarded by leaving it at this office.

March 6, 1880. d3t

For Sale in Madoc,

THAT valuable Building Lot forming part of No. 1, situate on the south-west corner of Durham and St. Lawrence Streets, in the incorporated village of Madoc. Frontage on Durham Street, 75 ft. 6 inches, and on St. Lawrence Street (exclusive of a lane 12 ft. in width) 125 feet 7 inches to Deerpark Creek. This lot is situate in the centre of the business portion of the flourishing Village of Madoc, and peculiarly adapted for its unrivalled position for a first class block of buildings.

For terms, &c., apply to the owner.

Mrs. JANE WRIGHT. d4wt

Notice of Partnership.

THE undersigned have this day entered into partnership as Butchers, and will carry on their business as general Butchers under the firm name and style of Green & Curtis, at Belleville, in the Shop formerly occupied by Charles Green, on the south side of Bridge Street.

Also having purchased the business heretofore carried on by John Whittow as a butcher in the shop in Lister's Block on the south side of Front Street will carry on the business in the same place under the firm name of Green & Curtis, from this date, and hope for a continuance of public support in both stands.

CHARLES GREEN, Wm. C. CURTIS.

Dominion Parliament.

FOURTH PARLIAMENT—SECOND SESSION.

THURSDAY, March 4.

In the House of Commons during routine, Sir Charles Tupper presented the papers relating to the selection of the site for the Beauharnois Canal, and Hon. J. H. Pope the annual report of the Department of Agriculture.

Mr. Haggart introduced the Bill relating to the Credit Valley Railway and the Esplanade difficulty at Toronto.

Mr. Bechard again introduced a Bill proposing certain reductions in the salaries and indemnities of Cabinet Ministers, Senators, and members of Parliament. The present Bill, however, proposes in addition to reduce the Governor-General's salary from \$50,000 to \$35,000.

Sir Charles Tupper informed the House, in reply to Dr. Stranges, that he was unable to give any promise of aid in the construction of the Huron and Ontario Ship Canal.

Mr. Langvin, in reply to queries by Mr. Royal, announced that the Dominion Government would commence erecting the Provincial buildings at Winnipeg this year, but would not at present agree to the extension of the boundaries of Manitoba.

Mr. Colby's Bill repealing the Insolvency law was finally passed, and the Bill to the same effect, introduced by Mr. Bechard, withdrawn.

Mr. Blake moved the second reading of the Bill providing for the more effective prevention of crime.

Mr. Baker moved the six months' leave of absence Bill, which was described as a caricature on the English law, and as an infringement on the liberties of the subject.

Mr. James McDonald, Minister of Justice, spoke in support of the amendment, on the ground that the changes were too sweeping to be adopted by the House without further consideration.

Mr. Blake defended the various features of the Bill, and the Minister of Justice failed to endorse any of the provisions in the Bill introduced by Mr. Robinson (of Hamilton), yet he thought it should be referred to a Select Committee, while his (Mr. Blake's) Bill, with many of the provisions of which he agreed, he wished to be rejected on the second reading.

The debate was continued by Messrs. Plamondon, Mousseau, Royal, and White (Ottawa), against the Bill. Mr. Holton favored sending the Bill to a Committee, while Mr. Anglin hinted that the Bill was opposed merely because it emanated from Mr. Blake, who could expect little courtesy from the other side of the House.

After recess, Dr. Cagran and Mr. Cagran (Huron) both supported the Bill, after which the amendment was carried on a division.

The discussion on the second reading of the Bill by Mr. Groulx (Jacques Cartier) to legalize marriage with a deceased wife's sister was resumed. The arguments advanced pro and con were similar to those urged a few evenings ago. Messrs. Hondo, Wright, Gault, Rice (Dundas), and Groulx spoke favorably to the measure, while Mr. Jones and Mr. McGuire (Prince Edward) opposed it. The vote was taken on the amendment of Mr. Thompson, of Hamilton, that the Bill be read the second time that day six months. The amendment was lost on a vote of 140 yeas to 19 nays, and the second reading carried on the same vote, as follows:

YEAS—Messrs. Charlton, Farrow, Geoffrion, Jones, Keeler, McDonald (Victoria), MacDonald (Inverness), McGuire, McLean, McKee, McQuade, O'Connor, Patterson (Essex), Stephenson, Thompson (Haldimand), Trow, Weldon, Williams—Total, 19.

NAYS—Messrs. Abbott, Allison, Anglin, Arkell, Baby, Baker, Barnard, Beauchamp, Bechard, Benoit, Bergeron, Bergin, Bill, Blake, Bourassa, Bourgeois, Bowell, Brecken, Brown, Boucher, Burpee (St. John), Burpee (Sarnia), Cameron (Victoria), Carling, Caron, Cartwright, Casey, Cagran, Chandler, Cimon, Cockburn (Muskegon), Colby, Connell, Costigan, Coughlin, Coughlin, Currier, Cathbert, Deane, Desautels, Desjardins, Donville, Doull, Dugas, Dumont, Elliott, Felt, Fitzsimmons, Fleming, Fulton, Gault, Giguère, Gillies, Gillmor, Groulx, (Jacques Cartier), Groulx (Kent), Grandbois, Gunn, Hackett, Haddow, Hay, Hesson, Hillyard, Holton, Hooper, Houde, Huntington, Huron, Ives, Kaulbach, Kilvert, King, Krantz, Landry, Law, Levesque, Longley, Macdonald (Kings), MacDonald (Pictou), Macdonnell (Lanark), Mackenzie, Macmillan, McCallum, McInnes, McLennan, McRae, Malcom, Maclean, Masson, Mether, Mills, Monplaisir, Mousseau, Muttart, Ogden, Oliver, Olivier, Orton, Oulton, Paterson (Brant), Pickard, Piquenot, Platt, Plamondon, Pope (Queen's), Richey, Rinfret, Robinson (Huron), Robertson (Shelburne), Rogers, Ross (Dundas), Ross (Middlesex), Ronseau, Carrier, Royal, Ryan (Marquette), Ryan, Scrivner, Skinner, Smith (Selkirk), Snowball, Sproule, Strange, Tasse, Teller, Thompson (Carleton Place), Tupper, Vale, Vanasse, Wallace (North York), Wallace (York), White (Cardwell), White (Hastings), White (Renfrew), Wiser, Wright, Yeo—Total, 140.

The Bill was then read the second time. Sir Charles Tupper moved the adjournment of the House.

The House adjourned at 10.40.

Canadian Girls.

We find the following going the rounds:

The girls in the principal cities and towns in Canada are noted as follows:

Montreal, the best dressed.

Toronto, the tallest and most stylish.

Quebec, the smallest feet. All dummies and lambs.

Ottawa, the most intelligent.

London, the most demure.

Kingston, robust and blooming.

Hamilton, the best musicians.

Halifax, the best complexion.

Port Hope, intellectual and vivacious.

Cobourg, fond of music, the wharf promenade, and flirting.

Brookville, lady-like and graceful.

Prescott, the most amiable.

Brantford, the most intelligent.

Sarnia, the most anxious to be loved.

Bowmanville, the most anxious to be married.

St. Catharines, the wittiest and most refined.

Charlottetown, the most truthful.

St. John, N. B., the prettiest.

St. John, N.B., the most liberal entertainers.

Peterboro, the most unsophisticated, with a weakness for skating.

Belleville, the most freckled.

Lindsay, pretty, sweet tempered, and unassuming.

To which we add:

Collingwood, there aren't any; they died young or grew into boys.

Orillia, anxious but hopeful.—Toronto Telegram.

The Ontario Legislature.

THURSDAY, March 4.

The business of the session was finished at the morning and afternoon sittings, and the House adjourned to meet for prorogation.

The Bills read a third time and passed—several of them by consent—were those respecting municipal taxation, the administration of justice in the northern and western parts of Ontario, priority amongst execution creditors, the Supply Bill, and the bill requiring public officers to make annual returns of their emoluments. The Municipal Taxation Bill was, before being read a third time, considered in Committee. Mr. Olvin succeeded in having inserted in it a clause allowing a person's debts to be used as an offset to his personal property for purposes of assessment. This was carried in the Committee on a division, but on the motion of the Treasurer it was afterwards referred back to Committee of the Whole, with instructions to expand the clause.

Lime-Kin Club.

"What I was going to remark," began Brother Gardner as he rose up, "was to do effectual justice to the bill in order to pass round de lemande."

The janitor took the pail and dipper and passed from man to man, and "yums!" and "ohs!" of gratification have long been heard from the members of the Lime-Kin Club.

When every throat had been cooled, and almost every hand held a slice of squeezed lemon for their benefit, the President again arose and said:

"Let me grow old—let me have children all summer—let me sit in the dark all winter in the cold—let me bury my old wife and daughter in the ground—let me be as fat as Rubeus Spenser, and have her as fat as Rubeus Jackson." (Continued cheers, during which the Bear-Trap fell down.)

The President sat down in an exhausted condition, and Sir Isaac Walpole arose and said:

"Let me grow old—let me have children all summer—let me sit in the dark all winter in the cold—let me bury my old wife and daughter in the ground—let me be as fat as Rubeus Spenser, and have her as fat as Rubeus Jackson." (Continued cheers, during which the Bear-Trap fell down.)

The President sat down in an exhausted condition, and Sir Isaac Walpole arose and said:

"Let me grow old—let me have children all summer—let me sit in the dark all winter in the cold—let me bury my old wife and daughter in the ground—let me be as fat as Rubeus Spenser, and have her as fat as Rubeus Jackson." (Continued cheers, during which the Bear-Trap fell down.)

The President sat down in an exhausted condition, and Sir Isaac Walpole arose and said:

"Let me grow old—let me have children all summer—let me sit in the dark all winter in the cold—let me bury my old wife and daughter in the ground—let me be as fat as Rubeus Spenser, and have her as fat as Rubeus Jackson." (Continued cheers, during which the Bear-Trap fell down.)

The President sat down in an exhausted condition, and Sir Isaac Walpole arose and said:

"Let me grow old—let me have children all summer—let me sit in the dark all winter in the cold—let me bury my old wife and daughter in the ground—let me be as fat as Rubeus Spenser, and have her as fat as Rubeus Jackson." (Continued cheers, during which the Bear-Trap fell down.)

The President sat down in an exhausted condition, and Sir Isaac Walpole arose and said:

DETROIT THROAT & LUNG INSTITUTE.

233 WOODWARD AVENUE,
DETROIT, MICH.

M. Hilton Williams, M. D.
(Graduate of Victoria College at Toronto,
and Member of the College of Physicians and
Surgeons of Ontario.)

PROPRIETOR.

(PERMANENTLY ESTABLISHED SINCE 1870.)

Over 15,000 Persons Successfully Treated
since the establishment of our Institute in
Detroit from all parts of the United States and
Canada, for some of the various diseases of the
throat, chest and lungs. The only institute of the
kind in Michigan specially devoted to the
treatment of Catarrh, Throat Disease, Asthma,
Bronchitis and Consumption, also diseases of
the Eye, Ear and Throat.

Catarrh and Throat Diseases are every year becoming more prevalent and more generally fatal. As prevalent as they are, if left to themselves, their termination is Consumption and death.

A large portion of the deaths from throat and lung diseases are of young people—those who have not reached the meridian of life. Their hold upon life is strong and all the functions of the body active. If they were properly treated the great majority of them would recover. Such is my experience. But I have no faith in their treatment by the stomach. Cold liver oil is good nourishment, but it is not medicine. No medicine given by the stomach exerts a curative influence on the lungs.

We are positive in saying that three-fourths of the vast number who die of Consumption might be saved by the use of our Institute. The sense of danger when the disease first appeared in the head and throat; the best writers, and the ablest physicians of the age have expressed similar opinions.

With these facts before us we feel that we would be recreant to our responsibilities were we to remain silent and see our fellow-creatures pass away like autumn leaves while there is hope for so many.

All diseases of the respiratory organs treated by medical inhalations, combined with proper constitutional and hygienic treatment.

If on account of distance, expense of travel or physical debility, patients cannot visit the office personally for consultation, they may write for "List of Questions," which will be sent free of charge, and when fully answered and returned remedies can be sent per express (duties free) together with full directions for use.

THE BEST PAPER I TRY IT!
BEAUTIFULLY ILLUSTRATED.
35th YEAR.
THE SCIENTIFIC AMERICAN.
First-Class Weekly Newspaper of Sixteen Pages, printed in the most beautiful style, profusely illustrated with splendid engravings, representing the new inventions and the most recent Advances in the Arts and Sciences; including New and Interesting Facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geology, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.
Terms, \$3.50 per year, \$1.00 half year, which includes postage. Single copies, 10 cents. Sold by all News-vendors, by post order to MUNN & CO., Publishers, 37 Park Row, New York.

Patents.
In connection with the Scientific American, Messrs. MUNN & CO. are Solicitors of American and Foreign Patents, have had 25 years experience, and now have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the Scientific American of all inventions patented through the agency, with the name and residence of the Patentee. By the immense circulation thus given, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.
Any person who has made a new discovery or invention, or who is desirous to know whether a patent can properly be obtained, by writing to MUNN & CO. We also send free our Hand Book about the Patent Laws, Patents, Canada, Trade-Marks, their costs, and how prepared, with hints for procuring advances on inventions. Address for the Paper, or concerning Patents.

LAME BACK, WEAK BACK.
BENSON'S CAPSINE POROUS PLASTER.
Overwhelming evidence of their superiority over all other plasters. It is every where recommended by Physicians, Druggists and the Press.
The manufacturers received a special award and the only medal given for porous plasters at the Centennial Exhibition, 1876, at the Paris Exposition, 1878.
Their great merit lies in the fact that they are the only plasters which relieve pain at once.
Every one suffering from RHEUMATISM, LAME BACK, OR WEAK BACK, COLD OR THE CHILLS, COUGHS, OR ANY LOCAL PAIN OR ACHES, should use Benson's Capsine Porous Plaster, and be relieved at once. Price 25c. Sold by all Druggists.

Leave Belleville at 3 p. m. for Madoc and way stations.
Leave Belleville for Stirling, Campbellville, and Hastings, at 3:30 p. m.
Arrive from Madoc and way stations at 10 a. m.
Arrive from Hastings, Campbellville and Stirling, at 11 a. m.
Trains are run by Belleville time.
R. LUTTRELL,
Gen'l Supt.

THE GREAT CAUSE OF HUMAN MISERY.
We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, &c., resulting from
1st. Excess in a sealed envelope, only 6 cents, and two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' experience, a practical, safe, and successful method of curing the most distressing and dangerous cases of Nervous Debility, Mental and Physical Incapacity

from this church. He referred to the various tests put by his converts. The defection of some of them was thereby caused. A similar process followed by similar results is going on in the world to-day and the words of Christ are showing who are the true believers and converts. Some of them cover their retreat with a burst of scientific controversy or abuse of the Christ they have forsaken. Scipionius, abroad everywhere. An article has been published in a magazine on the coming collapse of religious belief. Some writers treated the matter lightly, but it appeared to him to be worthy of serious notice. He believed that the next twenty years would witness the going down of religious belief the world over. He was glad of it, because every belief except the true one would go down. Some of the minds of the young men especially had been shaken with regard to the faith of their fathers, but before leaving it they should squarely answer the question "To whom shall I go?" For man should not give up what was of benefit unless he had a certainty of greater benefit from another source. He considered this branch of his subject of some length, saying the world had never yet got beyond the philosophy of Jesus Christ. Some people said they had got beyond it, but it would be a long time before they got up to it, he opined. He put it to them whether, if the world had adhered to the philosophy of Jesus Christ, there would not have been less suffering and would not the world have been so much the better for it. The world has not yet got to the philosophy of Christ, which showed what the telescope or the microscope had never developed and the chemist had never discovered. Whence came evil? Philosophers gave theories and speculations—ignorant no doubt, but they had the fatal defect that they were mere conjectures. The scientists would say that would be discovered the origin of life in protoplasm and the ultimate of this substance that thence by evolution had been evolved the wonderful complex creature man. He would merely say the teachings of Christ were infinitely more satisfying to his mind than these conjectures. The sceptics spoke of the credulity of Christ, and yet accepted these far fetched conjectures. Why are we in this life? Science and philosophy could only conjecture. Whether an I go to heaven or philosophy conjecture again that there may be another life after this where we may meet again, but have no certainty. So we turn again to the scientific, and are able to indicate a destiny no other than that of the brutes, namely the going back into the darkness whence we came. All that philosophy and science could tell us that was the end of the matter, whence, neither can they tell why we are here or whether we are going. Christ, on the contrary, tells us that we came from God, that we are here, and are to return to Him. This is credible, easily understood and likely to be true. Science had done much for mankind, but when undertaking to pronounce on these great questions it utterly fails and we have a right to demand that it should not try a sacrilegious hand on those sacred matters beyond its sphere and which it does not understand. The Christian religion is able to confine itself to its necessarily restricted sphere, and care to Christ. To whom should we go, if not to Christ? With forcible and eloquent language he spoke of the comfort and consolation of the Christian religion in hours of death and affliction. How unutterable would be the anguish of the soul if it were left to itself. They gave us glorious victory and everlasting joy, and we understood that behind them was a glorious promise with a blessed future by-and-by. To whom would they go in case of the coming of sin, if not to Christ? None could give the peace of which he tells, except himself. To whom would they go when death comes on, if not to Him? Philosophy could tell if a man lived again after death or not, whilst science said boldly that he did not. It could dissolve the body, but could not work the experiment the other way, even although it knew all the constituent parts and the due proportion of each. But Christ could work the experiment both ways. This name of the New Testament was He who had received life to last ages, after being dead for four days, thus restoring the component elements of a dissolving body and making good his words "I am the resurrection and the life." There is a great gulf between this and the other life, and a bridge, built of materials from the other side, must carry us across it. So let philosophy and science conjecture and assert as they will, let us cling to Christ, who hath the words of life. He concluded with a few further eloquent and earnest words to young men, urging them to follow Christ as a leader under whom success is certain.

ST. ANDREW'S CHURCH.
"For other foundation can no man lay than that laid which is Jesus Christ." 1st Cor. 3rd chap. 11th verse.
Rev. Mr. McLean preached from the above text last evening and a synopsis of his remarks is given as under:

Can we suppose there are none in Christendom, surely none in this city of churches, who have not thought of the future—not the future of to-morrow or the day after—but that which extends beyond the grave. How is it to be? Some put away the feeling, some suppose all will be well. There were three classes of men, indifferent, those not indifferent but believing in error, and those on sound foundation. Men were indifferent to the future destiny; their state was unreasonable, and though they might not be inescapable to what was before them, no man of to-morrow was better than the man of to-day. He who persists in a daily or hourly aversion seeks for earthly comforts, takes and puts by little by little so that he may be ready when sickness comes to face it or when old age comes to be independent of the cold charity of the world. Should one gain anything that was valuable, of what profit could it be to him were it accomplished to look us in mental misery; its capitalities for enjoyment or suffering are immeasurable. There is either agony or ecstasy. The soul is immortal and will live forever and its value is inestimable. God's estimate of the soul was seen in giving his Son to die for it, and therefore it is not but be struck with the solemnity of its value. We may be stripped of everything and yet be happy in the gift God has given us. The misery or happiness for eternity depends on character now. If we live, we might experience a sorrow in the dread of the future, for man at times realizes a dark and a bright side; the one we should strive to gain, and we should endeavor to be clear of the other. God's mercy is constant with His holiness, and His mercy gave no encouragement to sin. It was inconceivable that He would not hate sin. His life will be in accordance with his belief. What a man thinks, however sincerely he does so, does not make him right. We should build on a solid basis, and not be in different possibilities, and from underfoot we would have a solid basis. By nothing can we assist ourselves but by God's help. Christ was simpler than the Pharisees, and denuded in His blood, cleansed from sin and we should walk in the way He pointed out for us. Are we indifferent as a matter of course or as a matter of habit? If so, or if not, it is our foundation. I see that this ends our God's promises and

Christ's work, and believing in Him we would strive to walk in the light of God. Our hopes should be founded on Christ, and when life's stormy blow around us as the waves of the ocean we may the better be able to stand fast, for the joy of the Lord is His strength, and God would enable us to see where our foundation was laid.

The Daily Intelligencer.
TRAIN SERVICE.
Subscribers in the villages along the line of the Railway will receive their Daily papers at the following places, instead of at the Post Office:
STIRLING.—At the drug store of Dr. G. H. Boulter, M. P. P.
CANBY.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.
HASTINGS.—Of Mr. David Morrison, at the Post Office.
MADOC.—At the store of Mr. C. G. Wilson.
Extra copies of each day's issue can be obtained at the above places.

GEO. P. ROWELL & CO.,
40 PARK ROW, NEW YORK.
J. H. BATES, 41 PARK ROW, NEW YORK.
All our Agents in this city, and are authorized to contract for advertising at our lowest rates.

BELLEVILLE, MONDAY, MARCH 8.

The License Inspectorship.
The Ontario Government have, during the whole of their tenure of office, been noted for small acts of tyranny in the interest of party, and seem determined to maintain their reputation to the end of their career. The latest instance of this kind of thing is the dismissal of Mr. James Ross from the office of License Inspector for West Hastings. Without any warning, Mr. James Ross has been displaced to make room for Mr. M. J. Grainger, whose friends are the ardent admirers of Mr. C. F. Fraser, the "better half" of the Government, and no explanation has been vouchsafed to that gentleman. Mr. Ross, who was appointed by the present Government, had efficiently discharged his duties in all respects, the best proof of which was that no complaint had ever been lodged against him, or if there was, he was given no notice of it, and consequently no opportunity to meet his accusers was afforded him. Having won the respect and confidence of the public in his official capacity, we have no doubt that his many friends will seek an explanation of the arbitrary action of the Government, which has excited no little indignation amongst many persons on both sides of politics. In the meantime, the motives which actuated the Government can only be matter for conjecture. There is a widespread belief that politics lies at the root of the matter. Mr. Ross was originally a Conservative, but for some years previous to his appointment he had not taken an active part in politics, generally voting on personal grounds and entirely irrespective of party. That he was no partisan is plainly apparent from the fact that many of the most influential members of the Grit party in the Inspectorate were instrumental in recommending him for the position; and better evidence even than this was that a narrowly partisan Ministry appointed him. Since his appointment he has pursued a perfectly neutral course in politics, and has, which has probably led to his dismissal, an active political agent was what was wanted. Mr. Ross failing to comply with this desideratum, a cunningly and secretly work ed intrigue by a party of local wire-pullers has secured his displacement in favor of one who will be expected to meet the views of the Government in this respect. We feel quite assured, however, that Mr. Ross' many friends will not allow the matter to rest where it is, and the public generally will back them in remonstrating against and condemning an action so arbitrary and unjust towards a worthy and thoroughly efficient public servant.

Political Notes.
USURY.
Dr. Orton, Member for Wallington, has introduced a bill into the House of Commons to make illegal the payment of more than seven per cent on mortgages of real estate, under pain of forfeiture of the security. It provides that not only shall the mortgagee lend for no more than seven per cent, but "that notes of hand promising to pay" any difference so as to raise the rate of interest, "or any other device whatsoever intended to raise the rate agreed under the mortgage, or any deduction from the principal, to make good the interest abated, shall be totally null and void. It also provides that the "bulking" of interest and principal in one sum and their repayment by instalment shall be illegal. The judge before whom any action to set aside a mortgage or lien, contracted in contravention of this act, is authorized to discharge the mortgage on the offence being proved. The bill also provides that notwithstanding any contract of mortgage for the payment of principal only at the end of a given term of years, after a mortgage is made, in addition one and one-half per cent, per annum on original stock.

VASSAL PROPERTY.—The Chicago Times, an excellent authority on such matters, says the impression is very general that more money will be made from vessel property this year than ever before. The fall owners were in the very midst of the roughest times they experienced since 1873, when winter closed upon them and forced a cessation of active work in the matter of port trading. But the chilling blast, that stiffened the canvas and rigging, seemed to warm the hearts of the owners and stimulated them to greater effort in preparing for the future. The lookout now is said to be most cheering, and the prospects are that the season will open early.

A LONG INSURANCE FIGHT ENDED.—The London Free Press says:—John Wright, of Windsor, was killed by the cars of the Canada Southern road at Wyandotte station in 1875, and had insurance policies on his life for \$10,000. The company refused to pay, and the case went to the courts, the heirs bringing suit against the Sun Mutual and the London Life Insurance companies to recover. They defended in the first court on the ground that it was a case of suicide, but a verdict was rendered against them. They carried it up to the next court, and then, after several years of litigation, it was tried to the Court of Appeal at Toronto, which has just given judgment approving the company for principal, interest and costs. The claim was for \$10,000, the interest amounting to \$2,500, and the cost of the last resort amounts to nearly \$3,000.

THE INSOLVENT LAW.
The Bill for the repeal of the Insolvent Act has passed the Commons, and it does not seem probable that the Senate will now reject it.

"HONORABLE" TACTICS.
In noticing the decrease in the revenue derived from Customs and Excise during the month of February, as compared with the same month of last year, some of the Grit papers omit to state that the increase in February, 1879, was caused by a rash of importers to take their goods out of

the country. The military correspondence of the Times says the resumption of hostilities in Afghanistan cannot be much longer delayed. We may reasonably expect resistance will quickly collapse.

MORNING DESPATCHES.
EUROPEAN.
AMERICAN.

LONDON, March 8.—The military correspondence of the Times says the resumption of hostilities in Afghanistan cannot be much longer delayed. We may reasonably expect resistance will quickly collapse.

SAN FRANCISCO, March 8.—Inquiries show that the sums of the 2nd regiment of National Guards have been deposited in the old city hall, where a guard is kept over them. The militia companies are distributed among several armories. Gen. McDowell was telegraphed to yesterday from Washington to bring the available troops in his division to San Francisco. It is conjectured these movements are due to the representations made to the Washington authorities by the Chinese Vice-consul. It is understood that the present precautions will be maintained until the settlement of the existing agitation.

PHILADELPHIA, Pa., March 8.—An officer of the Reading Railway states that arrangements have been completed in New York with Gould and the Vanderbilt syndicate, by which the western traffic for Philadelphia and southern points along the coast will be shared by the Reading. Several hundred miles of new road will be built northwest from Williamsport to connect with the Lake Shore and Western system. It is reported the lease of the New Jersey Central by the Reading is denied.

NEW YORK, March 8.—Amelia Beer, a young Polish girl who was betrayed by a false lover, suicided with Paris green on Saturday to hide her shame.

ARRIVED, the Elysia from London.
LOUISVILLE, March 8.—It has leaked out that the Louisville & St. Louis air line has been purchased by Huntington & Co., who will use it in connection with the Great Central Pacific system. The road when completed will connect St. Louis with the Central Pacific interests and at Louisville with the Louisville, Cincinnati & Lexington railroad, and at the terminus of the latter it will join the Chesapeake & Ohio railroad, thus giving the Central Pacific people a line extending from the Pacific to the Atlantic oceans.

Correspondence.
Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be understood that the views so expressed are simply those of the correspondents themselves.

Mechanics' Institute.
To the Editor of the Intelligencer.

SIR,—Would you have the kindness to allow me to announce, through your paper, that the Institute of the services of Mr. E. W. Johnston as teacher of gymnastics in the Mechanics' Institute is largely dependent on the support he receives.

The expenses connected with the Institute are necessarily great, and are defrayed, chiefly, from members' fees. The Directors therefore take the liberty of thus publicly soliciting all who are interested in the good work which it is confessedly accomplishing, to enrol themselves as members, and endeavor to get them to do likewise.

There are at present 600 names on the roll. Why not double that number? If that were done, every department of the Institute could at once be put, and kept in such a condition as would render it even more efficient than has yet been possible.

M. W. MACLEAN,
President.

ST. ANDREW'S MANSE,
March, 8th 1880.

PRINCE EDWARD ISLAND.—The Prince Edward Island Legislature was opened on Thursday, and among the Government measures promised is one to diminish the cost of the administration of justice and one to abolish the Legislative Council.

G. W. RAILWAY.—The earnings of the Great Western Railway for the last half-year have been sufficient to pay off the arrears of dividend on the preference stock of the last and the previous half-years, and in addition one and one-half per cent, per annum on original stock.

VASSAL PROPERTY.—The Chicago Times, an excellent authority on such matters, says the impression is very general that more money will be made from vessel property this year than ever before. The fall owners were in the very midst of the roughest times they experienced since 1873, when winter closed upon them and forced a cessation of active work in the matter of port trading. But the chilling blast, that stiffened the canvas and rigging, seemed to warm the hearts of the owners and stimulated them to greater effort in preparing for the future. MANHOOD RESTORED.

Prescription for the Languid Cur of Seminal Weakness, Loss of Manhood, and all disorders arising from the debility of the system. It has been prepared by
DAVIDSON & CO., 78 Nassau St. N. Y.

THE BEST PAPER! TRY IT!

BEAUTIFULLY ILLUSTRATED.
35th YEAR.
THE SCIENTIFIC AMERICAN.
First-Class Weekly Newspaper of Sixteen Pages, published in the most beautiful style, profusely illustrated with splendid engravings, representing the new inventions and the most recent Advances in the Arts and Sciences, including New and Interesting Facts in Agriculture, Horticulture, the Home, Health, Medical Progress, Social Science, Natural History, Geography, Astronomy. The most valuable practical papers, by eminent writers in all departments of Science, will be found in the Scientific American.
Terms, \$3.20 per year, \$1.60 half year, which includes postage. Discount to Agents. Single copies, ten cents. Sold by all Newsdealers. Sent by post, in advance, to MUNN & CO., Publishers, 37 Park Row, New York.
In connection with the Scientific American, Messrs. Munn & Co. are Solicitors of American and Foreign Patents, have had 35 years experience, and now have the largest establishment in the world. Patents are obtained on the best terms. A special notice is made in the Scientific American, the name of the inventor, through this Agency, with the name and residence of the Patentee. By the immense circulation of this paper, public attention is directed to the merits of the new patent, and sales or introduction often easily effected.
Any person who has made a new discovery or invention, can ascertain, free of charge, what patent can be made thereon, by writing to Munn & Co. We also send our Hand Book about the Patent Laws, Patents, Caveats, Trade-Marks, and how to obtain them, with hints for procuring advances on inventions. Address for a prospectus, or for a copy of the Patent Law, to MUNN & CO., 37 Park Row, New York.

LAME BACK.
WEAK BACK.

BENSON'S CAPSICUM POROUS PLASTER.
Overwhelming evidence of their superiority is furnished by the fact that they are recommended by Physicians, Druggists and the Press.
The manufacturers received a special award medal for their Plaster, at the Centennial Exposition, 1876, at the Paris Exposition, 1878.
Their great merit lies in the fact that they are the only plasters which relieve pain at once.
Every one suffering from RHEUMATISM, LAMBS BACK, OR WEAK BACK, COUD OF THE CHEST, COUGHS, or any local pain or ache, should use Benson's Capsicum Plaster, and be relieved at once. Price 25 cts. Sold by all Druggists.

TOILET OR FOR SALE
THE FOLLOWING CITY PROPERTY.

A COMFORTABLE new 2-story rough-cast house, Moira Street, lately occupied by Mrs. N. Ryan; with hard and soft water, cisterns, outbuildings, &c. The property can be bought or rented very reasonably.

The Great Cause of
HUMAN MISERY.

WE have recently published a new edition of Dr. Oliver's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental Depression, Impediments to Marriage, &c., resulting from excess.
It is a sealed envelope, only 6 cents, or two postage stamps.
The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming cases of Nervous Debility, Mental Depression, &c., may be radically cured without the dangerous use of internal medicine, or the application of the knife; pointing out a mode of cure at once simple, certain and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.
This Lecture should be in the hands of every youth and every man in the land.
THE CULVER-WEED MEDICAL CO., 41 Ann St., New York.

Daily Intelligencer.

For the Intelligencer,
The Gold Fields of North Hastings.

The opening and successful working of the Madoc Mines has again attracted attention to the Gold-bearing rocks of that region, and "a rush for the diggings" once more the order of the day. But unlike the excitement of 1866-7, which brought the capitalists from all over the world, the present operations are proceeding in a careful and systematic manner, and upon advice which certainly need not be recommended to them as acted upon by any previous attempts to develop the gold-bearing rocks of the Madoc region. The Richardson mine was in the hands of the late owner, who, in 1866-7, it was now stated by parties then interested in the Richardson mine, that at least a quarter of a million dollars were sunk in that one mine by some of our townsmen and capitalists from Chicago. The failure can only be attributed to the fact that the mine was worked on a wrong principle.

It is now stated by parties then interested in the Richardson mine, that at least a quarter of a million dollars were sunk in that one mine by some of our townsmen and capitalists from Chicago. The failure can only be attributed to the fact that the mine was worked on a wrong principle.

as substance has, by its reducing scale, played any part in the genesis of the gold is a rhetorical question on which the writer is not prepared to enter; but their intimate association in this mine is at least highly suggestive. Moreover the presence of the carbonaceous matter, not in cavities in the dolomite, but imbedded in the rock itself, is a point of considerable significance to the paleontologist, as indicating the existence of organic remains in rocks which have been referred to as a formation as the Lower Laurentian.

The gold yielded by the pockets of the Richardson mine usually occurred in a finely divided state, in the form of small scales and minute fragments, but never exhibited distinct crystalline forms. It presented a reddish-yellow color, and was remarkably pure. Specimens assayed at Toronto were between 22 and 23 carats fine, the native metal being as pure as the standard gold of this country. The auriferous material extracted from the pockets (consisting of the carbonaceous and dolomite substances) yielded from 21 to 24 worth of gold to the pound. How much of this gold-stuff the mine actually produced is extremely difficult to estimate; for whilst the workings were in the hands of the Richardson mine, considerable quantities were surreptitiously carried off by parties who gained access to the mine, and were distributed to so large an extent that, even at the present time (now more than two years after the discovery), specimens may readily be purchased in the neighborhood. It is said that upwards of 60 lbs. of the auriferous material were sent to the United States by the first purchasers of the mine, and subsequently three barrels of the same material were forwarded to New York. It is not, however, supposed that the total value of the gold yield by the pockets of the Richardson mine was not less than \$100,000.

When, however, the two deposits were exhausted the supply ceased, and attention was then directed to working the surrounding "country," where the gold exists either in a finely divided state as to escape detection by the eye, or in combination with iron-pyrites and other metallic sulphides.

It has been said that the metal was extracted exclusively to the future, and that it could not have been derived from the adjacent rocks, as these, if not entirely destitute of gold, are impregnated with it only to a very limited extent in the immediate neighborhood of the veins. Such a statement, however, is entirely contradicted by a chemical examination of rocks broken at a considerable distance from the pockets. Several assays have been made by Professor T. Bell, of Albert College, who has kindly furnished the following results: Two specimens of dolomite, taken from the Richardson Mine yielded respectively 9 oz. 11 dwts. 16 grs. and 4 oz. 5 dwts. 17 grs. of gold, per ton, of 2000 lbs.; whilst the metallic sulphides, chiefly iron pyrites, washed from these two specimens contained as much as 28 oz. of gold to the ton, and the greater part of the gold-stuff present crushed at the mine is only to be obtained by the use of a fine sieve, and is thus sufficient to cover the working expenses. It should be noted, however, that the gold thus obtained is extracted by amalgamation; and as the rock contains a large percentage of auriferous matter, it is probable that a larger return would be yielded by a metallic treatment better adapted to the character of the ore.

The same township as the Richardson Mine, gold has been recently worked at several localities. The Madoc Gold Mining Company's shaft, on its seventh level, in the section of Madoc was run on a quartz ledge, coursing through Green 15' W. and dipping about 60° W. Very little gold was obtained; but the iron pyrites disseminated through the quartz was apparently auriferous. Samples of vein-stuff from near the shaft yielded about 2 dwts. 10 grs. of gold to the ton, and at a depth of between 30 and 40 feet Professor Chapman found the quartz to contain 3 dwts. 12 grs. of gold, and 1 oz. 12 dwts. 12 grs. of silver per ton, but at a depth of about 60 feet the vein became entirely barren of gold.

At the Empire Mine, also situated in the township of Madoc, both gold and silver have been obtained from a vein-stone containing arsenic, antimony, grey copper ore, together with iron pyrites, and other minerals. The gold, as obtained by Professor Bell's assay, was 8 oz. 4 dwts. of gold and 331 oz. of silver to the ton of 2000 lbs. The silver was found to be 28 dwts. 12 grs. of silver per ton, and at a depth of about 60 feet the vein became entirely barren of gold.

In the adjacent township of (Marmora) auriferous quartz has been worked at the Empire Mine. It is reported that the gold is associated with iron pyrites, and other minerals. The gold is associated with iron pyrites, and other minerals. The gold is associated with iron pyrites, and other minerals.

All the rocks in which gold has recently been discovered in the County of Hastings are comprised within the Laurentian system. The first discovery of the precious metal was made in 1866, during an unsuccessful search for copper ore. Subsequent indications of the occurrence of copper in the township of Madoc had previously led to the prosecution of irregular workings, but no gold was obtained; but none of the explorations had been characterized by any measure of success. At length, however, a specimen was obtained from one of the old workings, which, although at first mistaken for native copper, was soon found to be native gold. Stimulated by this discovery, further search was prosecuted; and at the locality which subsequently became famous as the "Richardson Mine," a considerable quantity of the gold was obtained in two pockets, or irregular cavities, at a depth of about 15 feet below the surface. Considerable interest attaches to this mine, not only on account of the large amount of gold which it yielded within a very short space of time, but more especially on account of the peculiar conditions of association under which the metal occurred.

The Richardson Gold Mine is situated on the eighth level of the fifth concession in the Township of Madoc, and is surrounded by a belt of dolomite and chert, enclosing a bed of stibnite, and associated with a considerable quantity of iron pyrites. A peculiar character is given to this dolomite by the local occurrence of a black carbonaceous substance, which, although in a minute, but considerable resemblance to a lignite, but which is regarded by Dr. Sterry Hunt as probably an altered form of bituminous shale. The carbonaceous substance, which breaks with a conchoidal fracture, and presents a pitch black color, is, in fact, a form of bituminous shale, and it readily ignites, burning with little or no flame, and leaving a residue which, in a specimen examined by Dr. Hunt, was found to consist of lime, with some siliceous and ferruginous matter, including a quantity of gold.

The friable carbonaceous substance, in association with chert, and iron, incrusts the walls of the gold-bearing pockets of the Richardson Mine, and forms the matrix through which the metal was chiefly disseminated. It would appear that these pockets are merely exposures of a fissure running in a general direction of bedding between the highly inclined rocks of the surrounding country. The contents of these cavities have evidently been derived from the decomposition of the surrounding dolomite; for that rock, as seen by the specimens exhibited, is a siliceous, somewhat carbonaceous matter, together with iron gold, whilst it appears to be sufficiently ferruginous to yield the oxide of iron on decomposition. Whether the carbon-

BELLEVILLE, TUESDAY, MARCH 9.

The Estimates.

The estimates for 1880-81 were brought down on Monday, the 8th inst. The amount required for 1880-81 is \$38,230,570, as against \$42,032,519, for 1879-80. The sum of \$200,000 is asked for to meet expenses in connection with the census. The total amount asked for the Canada Pacific is \$8,761,000 as against \$6,910,000 in 1879-80. The sum of \$1,000,000 is asked for the Canada Central Extension, and \$1,000,000 from Keewatin to Selkirk. The supplementary estimates for 1879-80 contain \$12,000 to cover the cost of damage by fire to Parliament buildings, and \$4,200 for improving the ventilation. The total amount asked for in the supplementary estimates is \$1,511,792.

The principal items in the estimates are:

	1879-80	1880-81
Public debt	\$3,184,155	\$8,822,347
Charges of Management	238,505	234,839
Civil Government	874,881	917,431
Administration of Justice	595,885	697,853
Police	12,000	13,000
Penitentiaries	283,908	331,700
Legislation	625,156	534,121
Arts, Agriculture, Statistics	25,200	21,206
Immigration and quarantine	178,116	193,016
Pensions	231,881	247,732
Militia	708,800	686,989
Railways and Canals (chargeable to income)	—	45,500
Public Works and buildings	982,780	1,024,567
Ocean and River Service	434,573	418,583
Lighthouse and Coast Service	467,443	487,271
Fisheries	52,700	53,700
Scientific Institutions	46,400	46,400
Marine Hospitals and sick and distressed seamen	60,000	64,000
Steamboat Inspection	13,600	15,000
Inspection of Immigration Companies	10,000	10,000
Subsidies	3,421,686	3,423,905
Geological Survey	1,710,800	1,855,000
Indians	484,223	610,696
North West Mounted Police	305,300	290,000
Miscellaneous	106,800	98,800
Collection of Revenue	717,629	734,565
Excises	221,740	235,250
Customs	67,500	68,200
Weights and Measures	72,300	72,300
Inspection of Staples	3,000	3,000
Allegation of Food	10,000	10,000
Railways and Canals	2,440,165	1,229,445
Post Office	1,710,800	1,855,000
Domestic Lands	117,500	57,245
Minor Revenue	10,000	10,000
Total Consolidated Fund	23,869,262	25,007,202
Redemption of debt	6,098,257	1,311,966
Public Works and buildings (chargeable to capital)	12,965,000	11,611,800
Railways and Canals do	—	300,000
Domestic Lands do	—	—
Total capital	19,063,257	13,223,366
Total	\$42,932,519	\$38,230,570

For rents, repairs, etc., of the grounds, Ottawa, \$260,800 is asked for as against \$236,800 for 1879-80. The sum of \$5,000 is asked for to meet probable expenditure in connection with the removal of the museum from Montreal to Ottawa. The supplementary material estimates contain items of \$4,000 for organization of force in North West Territory, \$10,500 for converting smooth-bore ordnance into 64-pounder Parrott guns, and \$2,000 for transportation of A and B batteries between Quebec and Kingston. Under the "Miscellaneous" the \$100,000 Irish relief grant appears.

Cheese Market.

The cheese manufacturers of Campbellford district feeling the desirability of establishing a cheese market at Belleville, called a meeting in the City Hall here on the ninth of February, last, for the purpose of considering the propriety of establishing such a market. Correspondence had been opened up with some of the cheesemen of Hastings, and it was expected that the Campbellford deputation would receive the hearty cooperation of the manufacturers of this district. The meeting, however, as our readers are aware, was a failure, only two or three interested parties from this district making their appearance at the Convention. In the interests of the Cheese trade of this district, we regret that the Campbellford and Seymour cheesemen were not met with that cordial and open-handed spirit which should have received. It is clearly to the advantage of producers to have a market here, such as is established in such large cheese districts as those of which Ingersoll and London are the centres, where manufacturers from all the adjoining Counties could come and transact their business. The larger the market the greater number of buyers, the keener the competition, and the consequent prospect of better prices. In this connection it may be mentioned that during the late sitting of the County Council, it was intimated that should a Cheese market be established here, the County Council would give \$100 towards it, or more if necessary. The result of this action on the part of the cheese manufacturers of Hastings is, that the Campbellford and Seymour producers have decided to establish a market of their own in the village of Campbellford.

It is to be hoped that the cheese manufacturers of Hastings will take prompt steps towards establishing a market here, and otherwise will see the wisdom of the example of Campbellford. The following report of the meeting of Dairymen at Campbellford, has been kindly furnished us by Mr. Bedford, Reeve of Seymour:

WINDSOR HOTEL, Campbellford, 2nd March, 1880.

A meeting of Dairymen was held here on the 2nd inst. for the purpose of discussing the advisability of establishing a market for the sale of cheese, and to take such further action as they may deem to their mutual interests.

Mr. Bedford, Reeve, was appointed Chairman, and Mr. Clark, Secretary.

Mr. R. White reported verbally that at the meeting in Belleville on the 9th Feb. there was no business done, owing to those interested in business in the County of Hastings not having given the movement their cooperation.

Moved by Mr. R. White, seconded by Mr. W. Bell, That it is desirable in the opinion of this meeting to establish a cheese market in this village, and with this object in view, we hereby agree to offer our cheese for sale in Campbellford only on one day in the week, say on Tuesdays or some other day to be agreed upon, and that some person be appointed to arrange for cable reports of prices during the season.—Carried.

Moved by Mr. Clark, seconded by Mr. R. White, That Mr. Bedford be and is hereby appointed to make arrangements for providing regular telegraphic reports of the cheese markets during the manufacturing season, and that the same be divided equally amongst the factors interested.—Carried.

Moved by Mr. Clark, seconded by Mr. Macdonald, That Mr. Bedford be and is hereby appointed to correspond with business men in England in order to ascertain on what terms arrangements can be made for the consignment of cheese, should the market proposed not be satisfactorily established.—Carried.

An arrangement having been signed by the Presidents of Cheese Manufacturing Companies present, pledging to sell at Campbellford only, and on the regularly established market days, it was

Moved by Mr. Macdonald, and seconded by Mr. Bell, that this meeting do now adjourn to meet again at the Windsor Hotel, Campbellford, on the 1st Saturday in April, at 2 o'clock P. M.—Carried.

CITY COUNCIL.

MONDAY, March 8.

A regular meeting of the City Council was held this evening at the usual hour.

PRESENT.—His Worship the Mayor, Ald. Brennan, J. Smith, St. Charles, Yurich, Dickson, T. Holden, Vandusen, Ostrom, A. Smith, Hamblay, Petrie, Wallbridge, Grant, T. Holden, Robertson, Proctor, McIsaac and Farley.

The minutes of the last meeting were read and confirmed.

PETITIONS, &c.

The following petitions and original communications were presented and read:

From the Treasurer giving the return of receipts and expenditures for January as follows: Receipts—\$2,561.00; Expenditures—\$6,119.00.

From W. S. Malcolm, in relation to dredging the harbor.

From E. O. Bickford, asking the bonds of the city to be signed by the Mayor and Treasurer at the City Hall, and to be returned to the Trustee, and stating that the work on the road beyond Hastings was now going on.

From Geo. Gibbs, asking what assistance the city would give in the establishment of a nut and bolt factory here.

From the Intelligencer Printing Company, relative to the city printing.

From Louis Marlow, relative to the cutting of ice in the channel for the ferry steamer.

A variety of accounts were handed in and read. The above were appropriately referred.

REPORTS.

The following were handed in:

From the Finance Committee recommending that certain claims be not entertained; that the report of the market and Fire Committee be accepted and that several accounts be paid.

From the Harbor and City Property Committee asking the payment of certain accounts, for approving of furnishing tenders for dredging the harbor, and for selling the new hospital property lot.

From the Fire Committee recommending the erection of a fire tank in rear of Barrell's axe-factory.

From the Poor and Sanitary Committee respecting the payment of sundry accounts.

INQUIRIES.

In response to Ald. Vandusen, Ald. St. Charles said the time imposed under the Snow By-law would be refunded.

Ald. T. Holden said the Treasurer would make a financial statement at the next meeting of the Council. He was not able to do so now, as the books were in the hands of the Auditor.

Ald. Geen came in.

Some inquiries were made relative to the expenditures of the Committee on Poor and Sanitary.

Ald. Lingham inquired relative as to who would furnish stock at \$1.90 for the streets.

It was an easy matter to learn the estimate by looking over the accounts. The appropriation for the purpose had not been exceeded last year and he hoped it would not be this year.

Ald. Ostrom said the appropriation last year was exceeded by \$1,000.

Ald. Holden asked that the Book and Ladder Company's account should be included in the information asked for.

Ald. Dickson approved of keeping a separate account for each department of our fire organizations.

Moved by Ald. Robertson, seconded by Ald. Farley, that the Dominion Government be petitioned for the erection of public buildings here, and that the Mayor name a committee to act as a deputation in the premises. Carried.

Moved by Ald. St. Charles, seconded by Ald. Farley, that the Police magistrate make a return of the names of those fined under the provisions of the Snow By-law. Carried.

The Mayor named Ald. Robertson, T. Holden, and Dickson as the Committee to entertain Ald. Robertson's motion and act thereon.

A motion relative to the drainage of the portion of the city between Moira and Catharine street was passed.

Ald. Dickson moved, seconded by Ald. McIsaac, that William and Pinnac Street be laid out at the earliest convenience of the Board of Works.—Carried.

The several reports were received, and the Council went into Committee of the whole on Ways and means.—Ald. Wallbridge in the chair.

Those portions of the report of the Finance Committee relative to the assessment of Messrs. Harris and Robin were again referred to the Committee.

The request of the innkeepers of the city for a reduction of the license fee was not entertained. A brief discussion on the application of Mr. W. F. Meudell for the return of the license paid by him to the City, was sent to the Finance Committee for re-consideration.

In regard to the clause relative to the purchase of stone for the streets by the Finance Committee, Ald. Lingham said the question should be considered by the Board of Works, and that Committee should attend to such matters. The fact was, however, that new orders were given for work for the city without proper authority, and even the Chairman of the Printing Committee gave out a tender without the sanction of his Committee. The same remarks applied in his case. He would prefer that the Council deal openly with such accounts as that for the supply of stone.

Ald. T. Holden asked for a detailed statement regarding the requirement for \$2,125 for the Police force.

The Mayor said the amount was arrived at by details, and that it was less than the amount asked for last year.

A motion relative to the requirement for the Police force was referred for the consideration of the Finance Committee.

The remaining submissions to the committee were passed as also a number of others.

A committee consisting of His Worship the Mayor, Ald. Dickson, Jellott, Robertson and St. Charles, were appointed a deputation to proceed to Ottawa to urge upon the Government the advisability of aid for the dredging of the harbor, for the erection of public buildings, and the same could act in re the Murray Canal.

The recommendation for the sale of the hospital was approved of.

It was resolved that the Mayor and Treasurer do sign the debentures to the G. J. R. as soon as the taxes due by the Company to the City were paid.

A proposition to engage Henry G. Gillespie to assist the Clerk in committee, &c., was referred to the Finance Committee, and a like request for \$25, for the cutting of the ice in the ferry channel so as to enable the steamer to run by Thursday was referred to the Ferry Committee with power to act.

The committee rose and reported.

The matter of sending the deputation to Ottawa resulted in a brief discussion which ended in the adoption of the report.

Council adjourned.

Annual Missionary Meeting.

BRIDGE STREET C. M. CHURCH.

The annual missionary meeting was held in the Bridge Street church last night, the meeting was opened by singing and prayer by Rev. Mr. Willoughby.

Mr. R. Richardson was called upon to occupy the chair, and made a short address and called upon the choir for a selection, which were rendered very nicely.

Mr. Wm. Johnson, the Secretary of our local branch of the Society, read the annual report of the Society, during which he said that the many Missionaries had not labored in vain. Our own domestic missions have always shared in our sympathies in the past and they shall still, there can be no doubt that money expended on them will show a rich and immediate result. The subscription of the whole of Belleville district was \$3,510.56 an increase of \$531.85 over that of the preceding year, Bridge Street church, with the addition of Kingston Road church, subscribing \$1,020.29. The income was slightly exceeded by the expenditure.

Resolutions were passed: reappointing the Treasurer, Mr. Sawyer, Esq., and Secretary, W. Johnson, Esq., and also reappointing the same collectors for the ensuing year.

Rev. John McDougall was now called upon and said there was a time not many years ago when the missions in the Hudson Bay Territory and the North-West were termed foreign missions, but after living there nearly all my life I come to you, not as a foreigner, but as a fellow citizen, I am glad to say, which I can do from my stay in that North-West Territory which forms part of our great Dominion, that the nation may well be proud of it. It is not the bleak and cold north land that men report it to be. It is a country vast in extent and rich in soil. It is a land that is well watered and drained by its large rivers and their tributaries. It has large coal fields, and is valuable for its minerals. It is a great country, destined to be the home of thousands more in days not far distant. That which was once looked upon as a foreign mission I have felt to day we can look upon as within the circle of our dominion, and we should feel a common interest in these domains. Some

have gone to Manitoba and have come back to Canada saying it is a great fair country with no beauty, but if they were to go on west for 800 miles to the back bone of our continent, the Rocky Mountains, they would be electrified by the grandness and beauty of the scenery. He told of how he first was struck with the grandeur of those mountains when he first saw them, and how he wished that his friends might too behold them. We want the Northwest to be taken up in the name of our Lord, and not by military powers. Look across the line about 200 miles south of where I am situated, into the region of Montana, and see what is going on; see the continual strife and warfare,—those thousands of white men who have been killed, and thousands upon thousands of poor Indians who have been swept away. On this side of the line we want to possess the land by the Gospel. I thank God I am the son of one who gave his life in carrying on this work, and to-night I want you to sustain and to carry on this great work. He said that many instances will prove that our Northwest missions have not been a tax, but on the other hand have been a benefit to the Government of the land, as well as the Christian Church.

Rev. Mr. Sutherland was now called upon, and said it was only once a year we have a missionary meeting, and yet some think that even this is too often. I wish that we might have a missionary meeting every month. I wish here to throw out the statement that perhaps all here will not believe, nevertheless I believe, that there are few blessings that God throws upon his church that can equal the blessing of opportunities to give. I am glad to be associated in this missionary meeting to-night and am always glad to be associated with a real live Missionary. You cannot always tell by the attendance what is going to come out of a meeting. He told of a deputation which was sent out to a certain meeting and whose addresses seemed to be enjoyed very much by the congregation, which had come out in large numbers, when the collection was taken up it amounted to the sum of twelve cents. He was one of a deputation which attended a very slim meeting in Halifax where there was a magnificent sum rolled up at the close of the address, one man giving at the first \$1,000 and shortly after as if by his conscience pricked him he gave another hundred for his wife, we only wish he had two or three more wives. He had very strong hopes of this meeting, but just here he would reserve any strong statements till the meeting was over; we are to talk by faith, but in the light of a missionary collection he would leave the faith until the sight of it; we have reason to thank God for the success of this missionary society during the past 55 years. It is astonishing how many notions people get into their heads. He had noticed a statement in print that Methodism was dying and in fact was dead, but when they began to hunt up the facts they found the Methodist Society was just as lively a corpse as they had ever tried to dissect. He must be a blind man who could not see that God was blessing the land by the civilizing and Christianizing influence of the Gospel. By the blessing of God the success has attended in every degree the efforts of this Society. He said this agency was needed as much as ever to dispel the darkness. The Church must brace herself for this great work, and what we want to get into that great Northwest is free Schools and a free Gospel. There are people who think we have enough to do at home, but in the past, if the Church had not believed in foreign Missions, where would we be in Canada have been tonight!

He concluded a very able address with advice to those who had lately found Christ to begin to give, to consecrate heart and substance to God.

There were present the other local Methodist Ministers who occupied seats on the platform.

The total collection on Sunday and last night amounted to \$63.36, which is more than that of any previous year.

'Prentice Boys.

A FULL attendance of the members of Lodge No. 13 'Prentice Boys is requested for the next regular meeting, on Wednesday evening, March 10th, 1880.

Daily Intelligencer.

BELLEVILLE, TUESDAY, MARCH 9

City and Vicinity

POLICE.—There were three tramps and three prisoners in the cells last night.

BOARD OF EDUCATION.—The Board will hold a regular monthly meeting to-night.

OPERA HOUSE.—Mr. and Mrs. Bandmann, with their dramatic company, will appear to-night in Richard III.

THE HOLMANS.—These old-time favorites will give us one night of opera, namely on Thursday night. The company is a good one, and ought to draw a full house.

FOR CAMPBELLFORD.—The body of the young man George Lawrence, who was drowned on Sunday evening, went out on the Grand Junction this afternoon to the above place, to be interred there.

ICE.—The cold weather of yesterday and to-day has been quite a boon to those who are cutting ice, of which large quantities are still being got from the bay, both for local use and for shipping.

FIRE.—The dwelling house on the old Robin farm in the 3rd concession of Sidney was destroyed by fire last night. The premises were tenanted by Messrs. Alexander and George Johnston.

REVIVAL SERVICES.—The Rev. A. Gordon, of Pickering and wife (D. V.) conduct the special services in the Bible Christian Church at seven evenings this week, commencing this evening at 7 o'clock.

STATISTICAL.—The Registrar-General's report shows during the year 1878, the registration of 40,236 births, 12,729 marriages and 17,898 deaths in the Province of Ontario. Of twin births in the Province, there were 425, as against 411 in 1877; of these 850 twin children, 456 were male and 394 female. The County of York returned 45 cases of twin births, the highest number from any county. Nine cases of triplets are reported. The number of illegitimate births is reported at 575.

NEW CHURCH MILL.—The Trenton Advertiser says:—"Gilmour's cedar mill will be ready for operation in about four weeks. The new boiler was brought from the G. T. Station on a truck drawn by five teams of horses last Tuesday. Also a large portion of the machinery has arrived, two of the wheels being so large that they had considerable difficulty in getting them through the bridge."

ACCIDENT.—Mr. Job Lingham was injured by a runaway this morning, but fortunately not seriously. He was seated in one of Messrs. Lake & Jenkins' hacks at the station at about 3 o'clock this morning, waiting the arrival of the express from the west, when the horses, which had become restless because of the cold, ran away. Just after they passed out of the station yard Mr. Lingham jumped from the carriage, cutting his head slightly and hurting his legs. His injuries will confine him to his home for a few days. The horses, after a lengthy tour, returned to their stables.

ATTENTIVE SUICIDE.—Maggie Bell, an unfortunate who becomes frantic under the influence of liquor, was given some yesterday by a male "friend," and becoming drunk and disorderly, was arrested and placed in a cell. During the night she made four separate attempts to strangle herself by tying cords made from her clothing around her neck. Fortunately the officer on duty discovered her on each occasion and prevented her purpose, though on one of the occasions she very nearly succeeded, her extremities being cold when found, and breathing almost suspended. The same woman, it will be remembered, attempted suicide in the cells by similar means some months ago.

\$6,000 FOR PUBLIC BUILDINGS.—In the estimates brought down yesterday we notice an appropriation of \$6,000 for a site for Public Buildings in Belleville.

A Cold Bath.—Mr. E. Reddick, the well known ferryman, broke through the ice on the bay to-day, and fortunately escaped worse consequences than a thorough wetting.

Police Court.

(Before A. Diamond, P. M.)

TUESDAY, March 9.

The Tyndinaga cases, Smith v. Callery were decided, a fine of \$5.00 and costs being imposed for the assault and a like fine for the abusive language.

Railway Collision.

A Passenger Train runs into a Freight Train at Bowmanville.

NO ONE SERIOUSLY INJURED.

BOWMANVILLE, March 8.—A serious accident occurred at the Grand Trunk Railway station here at 2:25 p. m. to-day. When the down mixed was about a mile west of the station a brakeman was thrown off the car by the breaking of a brake chain. The train being on a down grade and nearing the station, the engineer was unable to stop in time to prevent a collision with a freight train that was crashing and several cars telescoped. Two were thrown completely off the track and rolled down an embankment some twenty feet. The engine and several passenger cars were derailed, but no one was seriously injured. The passengers in the rear car received a shock sufficient to throw them from their seats, but fortunately they all escaped without serious injury. No blame whatever is attached to the officials at the station, the breaking of the chain being the cause of the collision.

News Condensed.

—A number of yachts were sailing on Toronto Bay on the 7th inst.

—The public lands of the City of Toronto cost last year \$45,645.

—Hon. J. C. Pope, who has been ill for some days past, was reported better yesterday.

—It is said that M. O'Brien of Toronto, has been commissioned by the Queen to paint a view of the city of Quebec.

—On the 5th inst., Alexander Doran, contractor, was killed at Welland, by being crushed while coupling cars.

—The combined Northern and Hamilton and Northwestern Railways show an increase of \$11,034.07 for the last half year over the corresponding six months of the previous year.

—Mr. Farns received a great ovation from his countrymen in Montreal last evening. The procession escorting him from the station to his hotel was very large.

—It took five engines to push Patterson's special train through the snow to St. Vincent in Minnesota, and thence to Emerson. The train arrived at Winnipeg yesterday morning.

—STRAW.—A Toronto despatch says:—"At the close of the Parliament meeting on Saturday night the band was hired when it played 'God Save the Queen,' and the National Anthem was not concluded. Mr. Ireland hoped that the next time he came the band would be able to play 'God Save Ireland.'"

ENGLAND

Dissolution of the Commons.

(By Associated Press.)

LONDON, March 8.—In the House of Lords, after the Irish Relief Bill had been read the third time, Lord Beaconsfield stated that when the Chancellor of the Exchequer had made his financial statement in the House of Commons, which he hopes to do immediately, and when arrangements for the dissolution of Parliament were made, the Queen would be advised to dissolve Parliament.

In the House of Commons Sir Stafford Northcote stated that the measures regarding Ireland being now in so forward a state, the question of dissolution of Parliament could be decided upon. They might now, however, consider the pressing Irish difficulties ended, and as a spring dissolution was always better than an autumn one, they had decided to advise Her Majesty to dissolve Parliament at Easter. The date would probably be the 23rd of March, and the new Parliament would probably be in working order in the course of the first week in May. He would introduce the Budget speech on Thursday.

The announcement of the dissolution was received with cheers.

MORNING DESPATCHES.

LONDON, March 9.—It is believed that the immediate cause of dissolution in Parliament is the Government water bill, which has strong opposition. Preponderance of opinion even on the part of earnest Liberals is a fair return of a Conservative house.

CENTRAL CITY, Col., March 9.—Two men were killed and four seriously injured in Kent Co. mine, by the falling of a rock yesterday.

BOSTON, March 9.—The contract between the N. Y. Central and Boston and Albany Railroad is about to be submitted to the directors of the latter road for the practical consolidation of through freight interests. The contract aims to divert traffic from the place-hack tunnel route, and it is believed will go into effect March 25th.

NEW YORK, March 9.—Donations to the Herald fund yesterday, \$841. The contribution of the Catholic churches in Brooklyn exceeds aggregate \$20,000.

LYMAN O'Dell, one of the oldest members of the Exchange, is dead.

NEW YORK, March 9.—The Central Railroad has declared a quarterly dividend of 2 per cent.

The Tribune says that the Elevated Railroad directors intend to resist reduction in the fares in the Courts. Work on the extensions and terminal facilities has stopped until the question is settled.

"TABERNERY," the new power for whitening the teeth, stimulating the mouth and curing the throat, is the earliest, latest, cheapest little toilet gem. Ask your druggist for "Tabernery." Price 35 cents. Adw

Dr. A. R. SCOVILLE, of Cincinnati, says:—"For Coughs and the early stages of Lung complaints, I believe it to be a certain cure, and if every family would keep it by them, ready to administer upon the first appearance of disease about the Lungs, there would be very few cases of fatal consumption."

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by Jas. Clarke & Co. w

From Kingston.

Death of a Prominent Citizen.

(Special to The Intelligencer.)

KINGSTON, March 9.—Mr. John Cunningham, an old resident and prominent contractor, died suddenly last night.

AFTERNOON DISPATCHES.

LONDON, March 9.—The Liberal leaders meet to-day to decide upon the course to be adopted. It is believed by many that the elections will be over by the first week of April.

NEWARK, N. J., March 9.—Rev. R. L. Duane, M. E. missionary Secretary, is dead.

GREENOCK, March 9.—Arrived, the Acadia.

MADRID, March 9.—A decree has been issued prohibiting the importation of pork from the United States and Germany.

ATLANTA, March 9.—Thinking back he landed at Salonia to pursue the brigands who captured Col. Synges and wife. It is believed the landing of the soldiers is a serious mistake.

PARIS, March 9.—Mr. Housier and wife have started for Chislehurst to take leave of the Empress Eugenie prior to her departure for the Cape on the 26th inst. She will stop at St. Helena on her return.

VALPARAISO, March 9.—The Knight Templar, from Liverpool for Atica, was captured while endeavoring to run the blockade.

Atica, March 9.—The steamer "Patriot," Navigation Company's steamer "Transvaal," with the homeward Indian mail, was wrecked at Otranto. Her crew, passengers and mail were saved.

LONDON, March 9.—The following is the full text of Earl Beaconsfield's letter to the Duke of Marlborough:—"The measures respecting the State of Ireland, which Her Majesty's Government have so anxiously considered, are now about to be submitted for the Royal assent and it is a task of the highest importance to the Government to submit them to the sense of her people. The acts of agitators, which represent that England, instead of being a generous sympathizing friend, was indifferent to the dangers and sufferings of Ireland, have been defeated by measures at once liberal and prudent, which the Parliament almost unanimously sanctioned. During the past year the present administration the improvement of Ireland and the content of our fellow-countrymen of that island have much occupied the care of the ministry, and they may remember with satisfaction that in this period they have solved one of the most difficult problems connected with its Government and people, by establishing a system of public education open to all classes and all creeds. Nevertheless, a danger in its ultimate results scarcely less disastrous than pestilence or famine, and which now engages your excellency's anxious attention, distracts that country. A portion of the population is attempting to sever the constitutional tie which unites Great Britain and that bond, which has favored the power and prosperity of both. It is to be hoped all men of light and learning will resist this destructive doctrine. The strength of this nation depends on the unity of feeling which should pervade the United Kingdom and its widespread dependencies. The first duty of an English minister should be to consolidate the co-operation which renders irrevocable a community educated as our own in equal love of liberty and law, and yet there are some who challenge the expediency of the imperial character of this realm. Having attempted and failed to enfeeble our colonies by their policy of decomposition, they may perhaps now recognize in the disintegration of the United Kingdom, a mode which will not only accomplish but precipitate their purpose. The immediate dissolution of Parliament will afford an opportunity to the nation to decide upon the course which will materially influence its future fortune and shape its destiny. Rarely in this country has there been an occasion more critical."

WEATHER REPORTS.

TORONTO, March 9.—Probabilities for the next twenty-four hours: For the lower lakes, frost to break with cloudy weather; snow areas followed to-night or to-morrow, mornning by brisk to light westerly to north-westerly winds, clearing and decidedly colder weather.

WASHINGTON, March 9.—Indications: For lower lakes, cloudy, occasional snow, warmer weather, followed by cold winds.

The Ladies' Favorite.

Among the many thousands of ladies who have used Dr. Pierce's Favorite Prescription, and pronounced it their favorite remedy, because so efficient in the diseases and weakness peculiar to women, are many who are well and favorably known in the world of letters, as artists, musicians, and a whole host of names from the brilliant ranks of wealth and fashion. It is the pre-eminent ladies' Favorite Prescription, its use, while being far more safe and efficient, exempting them from the painful, caustic operations, and the wearing of those mechanical contrivances made like Peter Pinner's, or—seller's razors—to cut, rather than to cure.

KILLMORE, Ind., March 20th, 1878.

Dr. J. C. FARRAR, Favorite Prescription has restored me to perfect health.

Yours truly, GRACE CHATEL.

432 E. 10th St., Buffalo, N. Y.

Dr. R. V. PRINCE, BUFFALO, N. Y.

Dear Sir:—My wife was a hopeless invalid for nearly 20 years. Your Favorite Prescription has cured her.

Thankfully yours, R. T. MCCAY.

The Greatest Remedy Known.

DR. KING'S NEW DISCOVERY for Consumption is certainly the greatest medical remedy ever recorded, and is a sure cure for suffering humanity.

It is a remedy which has been used for over 100 years, and has been found to be a wonderful cure for all kinds of lung disease, whether it be Consumption, Cough, Cold, Asthma, Bronchitis, Hay Fever, Hoarseness and all affections of the Throat, Chest and Lungs, arising from any cause. We do not ask you to buy until you know what it is getting, and therefore earnestly request that you call on your druggist and get a trial bottle free of charge, which will convince the most skeptical of its wonderful merits, and show you what a regular cure for all kinds of lung disease it is. For sale by JAMES CLARKE & CO., BELLEVILLE.

BELLEVILLE MARKETS.

WHEAT, CORN, OATS, &c.

The market for grain is quiet with a downward tendency for Wye, in sympathy with a fall in price in New York. Wye declined yesterday to 75c. Pease 60c to 65c.

Clover seed is purchased at \$3.00 per bush Timothy seed, very little offered. \$3.50 per bush would be paid.

Hides are dull with \$8 offered for No. 1 inspected, \$7.50 for No. 2 and \$6 for No. 3 and bid hides. For farmers' hides from \$7 to \$7.50 is offered.

WHEAT—\$1.25 to \$1.30.

rail all the way from England to Winnipeg. Each person is allowed 200 lbs of baggage. Over that amount, it is better to send it on by freight to Winnipeg, but parties from the Old Country should bring only small articles, and clothes, bedding, &c., as the machinery and heavy articles cost nearly their value for freight, and are not suited to this country,

ROADS.

Emigrants coming in spring will find roads one of the great drawbacks to the country, comparing very unfavorably with the hard, well-made roads of the Old Country, but when it is considered that the roads only remain bad about two months, and that they are in reality the only drawback to the country, and when it is balanced against the numberless advantages to be gained by coming here it sinks altogether into the shade, and after a year or two in the country is never noticed, besides, the highways are being very much improved by each man giving two days labor annually to road work.

TAXES.

Taxes are merely a nominal thing for the support of schools to supplement the Government grant. For 1879 they were in the district about $\frac{1}{4}$ d. to the £, and whatever taxes may be imposed will be paid off immediately in the improvement of roads and schools, being a direct benefit to the settler.

SHEEP.

These are about the most profitable beast on the farm, furnishing food, money and clothes on demand. Mutton is worth about 12½ cents per pound; wool sells the door for 25 cents per pound, or can be made at the St. Paul mill.

ably. Lambs in June or July are worth from four to five dollars each. It has been stated that sheep will not do well here. Such is not the fact. There has as yet been no disease among them, and they sell no trouble except at lambing. A small percent of the lambs will bear off.

objection, but where sheep are kept in flocks of say 60 or 70, they won't allow to grow, clipping it down in the spring, and feeding always on the same pasture.

The winter, the season most dreaded by immigrants, is in reality more a fright than a hurt. While the thermometer falls very low, the atmosphere is so clear and bright that the cold is felt but little. Everybody goes about their work—the same as in other seasons of the year, and what can

endured by one white man can by another. It is a very rare occurrence for a white man to be injured by the frost. Horses suffer out all winter.

FUEL.

There is no difficulty in procuring all

fuel and building logs necessary, and introduction of wire fences will meet requirements; and on the western plan the railroad will, when completed, supply building material and coal, of which there is a seam in the Saskatchewan eight feet thick.

MARKETS.

The demand has been more than equal to the supply, consequently farmers have no trouble in getting a ready market for their produce and at good figures.

FLIES.

The mosquitoes and black flies are a great annoyance during June and July, but it is easy to put up with that when a man has his beautiful crops and his stock improving around him and a home of his own. A small matting on the window keeps them out at night when they are troublesome.

THE FRANCHISE.

Every British subject is entitled to a vote at the general elections when he owns property to the value of \$100. If he goes to the United States he must first become a citizen.

he must swallow the "cast iron oath" which among other provisions, requires him to take up arms for the U. S. Government, and especially to fight against the flag of every English subject is so proud.

PRICES OF CATTLE, ETC.	
Horses (general purposes) per span,	\$250 00 t
Harness, double set.....	35 00
Oxen, per yoke.....	125 00
Cows, to calves.....	30 00

CAPITAL.

The amount of money required to give man a good start on a Government

homestead should not be less than \$
though men have started with nothing,
-20 by working out six months and at home
months have managed by poor living
-06 very hard work in six or seven years
gather a nice little stock and have a
to place comfortable. Land can be bot

from two to five dollars per acre from spring
plows, according to the locality and nat-
ural resources, as flowing springs, creeks, t-
ributaries, etc. Farm laborers are not in much
demand, except in hay and harvest, when
they get from twenty to twenty-five dol-
lars per month for two or three months.

can be bought at reasonable prices in Winnipeg.

GROCERIES

are reasonable in Winnipeg on account

Good black tea, by $\frac{1}{2}$ chest, is worth 65c per lb. Sugar is worth 12c. to 15c. p. lb. Raisins, 1 p. lb. Currants, 10c. p. lb. Dried apples, P, lb.

Every necessary and almost every luxury can be purchased there. Flour can be purchased at 50c. to 55c. per 100 lbs.

Anything about Manitoba would be complete without mention of the thriving city of Winnipeg. In 1870 a small village of 300 inhabitants; now in 1880 a flourishing town of seven to eight thousand inhabitants.

itants, with broad, healthy streets, large public buildings, built of white brick and the very best hotel accommodation and livery stables. Endless lines of shops with every variety of goods at reasonable prices and all appear to do a good business. The town supports two daily papers and churches

—The serious mortality among sheep in Great Britain will prove a source of wealth to American shippers of beef and mutton, for the first experiment has met with such success.

The shipment of live stock from Canada will increase also. Australian mutton fetches London 12s. per lb. and the beef 10s.

By Order, F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS, Ottawa, 11th February, 1880.

J. & W. SUTHERLAND.

WINTER 1880. WE are daily receiving our

FALL AND WINTER STOCK OF FANCY AND STAPLE DRY GOODS, MANTLES, MILLINERY, &c.

To the Editor of the Intelligencer. MR. EDITOR,—Your kindness in publishing the following text, which have been found very beneficial in overcoming the difficulties of anxious ones.

Yours truly, W. H. VAN TASSEL.

WEAPON FOR WORKERS. 1. I fear I shall never stand, or dishonor my name, as a man of honor.

10. I do not feel my guilt as I should, I am waiting for conviction.—Prov. xvi: 13.

11. I have made up my mind to be a Christian, but am not quite ready.—Prov. xxvii: 1.

12. I will be a Christian if (any reservation is fatal).—Luke xiii: 33.

13. I don't know how I believe anything, what shall I do?—John vii: 16 and 26.

14. I don't know how I believe anything, what shall I do?—John vii: 16 and 26.

15. I don't know how I believe anything, what shall I do?—John vii: 16 and 26.

16. I don't know how I believe anything, what shall I do?—John vii: 16 and 26.

17. I don't know how I believe anything, what shall I do?—John vii: 16 and 26.

Daily Intelligencer.

WHERE IS YOUR BOY TO-NIGHT?

Life is teeming with evil snares, the gates of hell are wide, the rays of light of pleasure wave, and beckon the young inside.

Man of the world with open purse, Seeking your own delight, Pause ere reason is wholly gone—Where is your boy to-night?

Sirens are singing on every bank, luring the careless sailor, Gilded falsehood with silver notes, the voice of truth is lost.

Dainty ladies in costly robes, Your parlors filled with light, And your young men are lost—Where is your boy to-night?

Temping whispers of royal spoil, Flattering the youthful soul, Eagerly entering into life, the voice of duty is lost.

Needs many, and duties stern, Crowd on the young man's path, Father, buried in business cares, Where is your boy to-night?

Turn his feet from evil paths, Ere they have entered life, Keep him unspotted while he may; Earth is so stained with sin.

He has learned to follow wrong, Tack him to love's whistly rain—Where is your boy to-night?

ROLL CALL. "Corporal Green" the orderly cried: "Here was the answer, loud and clear, From the ranks of the soldier who stood near—And 'Here' was the word the next replied.

"Cyndy Drew"—then a silence fell—This time no answer followed the call; Only his rear hand then fell, Killed or wounded could not tell.

There they stood in the falling light, These men of battle, with grave, dark looks, As plain to be read as open books, While slowly gathered the shades of night.

The fern on the hillside was splashed with blood, And down in the corn where the poppies grew, Were redmen dyed than the poppies knew; And crimson-stained was the river's flow.

For the foe had crossed from the other side That day, in the face of a murderous fire, From the ranks of the soldier who stood near—And their life-blood went to color the tide.

"Herbert Kline!" at the call there came Two stalwart soldiers into the line, Bearing between them this Herbert Kline, Wounded and bleeding to answer his name.

"Ezra Kerr!" and a voice answered "Here!" "Hiram Kerr"—but no one replied, For the ranks of the soldier who stood near—And a shoulder crept through the cornfield near.

"Ephraim Deane!"—then a soldier spoke: "Deane carried out the regiment's colors," he said, "Where our enemy was shot I left him dead, Just after the enemy wavered and broke.

Close to the roadside his body lies; I passed a moment and gave him a drink; He murmured his thanks, I think, And death came with it and closed his eyes."

"Twas a victory, yes; but it cost us dear—Of a hundred men who went into the fight, Numbered but twenty that answered 'Here!'"

Sunday Reading.

To the Editor of the Intelligencer. MR. EDITOR,—Your kindness in publishing the following text, which have been found very beneficial in overcoming the difficulties of anxious ones.

Yours truly, W. H. VAN TASSEL.

WEAPON FOR WORKERS. 1. I fear I shall never stand, or dishonor my name, as a man of honor.

10. I do not feel my guilt as I should, I am waiting for conviction.—Prov. xvi: 13.

11. I have made up my mind to be a Christian, but am not quite ready.—Prov. xxvii: 1.

Hospitality to the Poor.

Miss C. E. Stephen, in an article on "Receiving strangers," in the January number of the *Norfolk*, strongly advocates what she considers to be the duty of the simplest and most abundantly fruitful of all possible ways of helping the poor; namely, the exercise of simple hospitality toward them. The practice, in the first place, gives unlimited pleasure without the possibility of doing harm to any one. No one can be positively helped by any kindness received in the character of an invited guest.

Secondly, hospitality is essentially *home work*; it can interfere with no duty; on the contrary, it may divide life into equal halves—growth and decline, as nothing else could do. Thirdly, it goes straight to the heart as few other forms of benevolence can. At the same time it is necessary to avoid making the proposed visit a "charity business," or anything more than a simple act of friendship; and it is absolutely essential to the success of the scheme to secure the "willing heart" on operation of the servants. In the latter direction lies the real difficulty. At present, the relations between a mistress and her servants are almost entirely severed. We are apt to look upon our servants as "mere household machines," rather than as "true fellow-creatures."

Miss Stephen believes that by "entering into their work of mercy," and joining hands with them to serve the poor, we should at once awaken their sympathies and break down the unsocial barrier which divides the two classes. The scheme has been successfully tried by a lady who is in the habit of receiving poor visitors (chiefly convalescents from the East End of London) for a fortnight's visit, or longer, if desirable; subject of course to the necessary conditions as to health, etc. The work is of a kind in which the lady and her servants mutually supplement each other, each doing his or her part.

The lady's habit of looking forward and of referring to general principles, her tact and gentleness, and command of various resources, are admirably combined by the plan with the working woman's practical experience, knowledge of details, sharp-sightness, and plainness of speech.

The *Sunday School Times* knows the difference between cheerfulness and levity. In hardly any other way can so shallow a character be more fully made manifest than by an inability to feel and to show a sense of solemnity in the presence of solemn things. Some people go through life with a constant smile, but their hearts are as cold as ice, and their high ambition seems to be to have it said of them, "He kept up in a roar all the time, and never let his face fall."

There is a time to weep and a time to laugh; and there is a right to include the moments which belong to the other. A person to whom the most solemn and sacred things are nothing more than food for jest is worse than a butterfly, for butterflies are silent; and mere empty headedness is a hired clown, for the paid jesters of the circus are at least honest in their trade their mechanical witticisms when the monarch was in no mood for frivolity. And the world would be much the better if, in his never ceasing search for a subject, is very sure to pass from the regions of folly to those of cruelty. If he did nothing more than to play the clown, he might be pitied; but when he wanders into the domain of nature so far above his own that he cannot even perceive the injury he is doing, he is a monster.

The *Congregationalist* points to the divining influence of foreign missions: "One of our recent numbers in the missionary work, seen just now more than ever before, is the numerous inquiries from the countries we are working in, and the simple machinery of various kinds, such as wind-mills, foot-saws, fanning-mills, and machines for making corn, and for grinding flour, and for working by hand with light power, and also for agricultural tools. Letters for information in this line are now received frequently at the rooms of the American Board, and they show most unmistakably the influence which mission work is having upon the civilization of the world."

It is not only in the material point of view alone, the money expended for foreign missions is a most profitable investment, and is one to return many fold in the amount of good which it does. The result of the work of our missionaries is, and is bound to be, already large, and is likely to be of great magnitude in the immediate future.

Poor Work in Sunday-Schools.

The scheme of the Sunday-school is the developing of the moral nature; but the good results do not come proportional to the effort. The work is unsystematic, and the children are not taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it. The interest which the subjects cannot be taught to do it.

Theory of Life.

The late Professor Faraday early in life the theory that the natural age of man is 100 years; the duration of his life he believed to be measured by the time of growth. In the camel the natural age is 100 years, in the horse at five, in the lion at four, in the dog at two, in the rabbit at one. The natural termination is five times from these several points.

Man being twenty years in growing life five times twenty years—that is, 100; the camel is eighty years in growing, and lives to be a hundred years old. In the horse who does not die of sickness lives from 80 to 100 years. The professor divides life into equal halves—growth and decline—and these into infancy, youth, virility, and age. Infancy extends to the twentieth year, youth to the fiftieth, because it is in this period the tissues become firm, virility from fifty to seventy-five, during which the organism remains complete, and at seventy-five old age commences to last a longer or shorter time as the diminution of reserved forces is hastened or retarded.

FARMER'S WIVES.—It is no wonder that farmer's wives break down so early in life. Working late nights, after a day of continuous toil, is one of the main causes. One woman tells me that she has never a stick until the end of the family are asleep, then she runs the sewing machine until almost midnight. She says, "What a blessing a machine is to me!" but I do not quite agree with her, for she is so tired when she retires she cannot rest. She is only dirty, dirty, dirty, and she looks to be fifty. Her husband is not so in the least as she is, if he could only be so tired as she is, he would be a different man. He begins in the morning by keeping breakfast waiting till every possible thing is done outside, no matter how long he must wait, working over the hot stove to keep things hot as he likes them. Next, he must have every boy and girl on the place out helping him to get ready for his day's work; meanwhile the housework waits, and while man cares for baby. He is very particular to request that dinner should be ready at twelve o'clock, and he expects that he never gets ready for it before one. And so it goes.

With washing, ironing, baking, cooking, putting up preserves, and caring for children, she gets no time to sew, and for reading, that is out of the question save a little while on Sunday, and then the farmer generally monopolizes the solitary weekly. Under no consideration will the farmer quit his house, and he is not to be trifled with. He is a man of his word, and he is a man of his word. He is a man of his word, and he is a man of his word.

No Loss of Confidence. A Detroit grocer had a patent money drawer attached to his counter the other day and it was so secure in its construction that the clerk tendered his resignation.

"You going to leave? Why, what's the matter?" asked the grocer.

"I don't want to stay where a person has lost confidence in me."

"Do you refer to that new till?"

"Yes."

"Well, you are very foolish. I haven't lost the least bit of confidence in your honesty. If you don't like it, you may have it for a quarter outside I could have more of your time in the store. Loss of confidence? The idea is absurd."

The satisfied clerk took off his hat and returned to duty.—Detroit Free Press.

A Borrowing Man.

"There goes my best coat," soliloquized Brown, despondently. "That fellow Smith will be the death of

Daily Intelligencer.

Dominion Parliament.
FOURTH PARLIAMENT—SECOND SESSION.

THURSDAY, March 11.

In the Senate the debate on the Bill to repeal the Insolvent Act was continued.

Mr. Filst had been voted for the repeal of the Act last year, and would again, believing it would be in the best interest of the country to remove it from the statute-book. He regarded officials as blood-suckers, who absorbed the estate that fell into their hands.

Mr. Read doubted whether the legislation of Ontario provided a substitute for the Act. The question to be asked was the question of working it. A debtor to pay 50 cents on the dollar should have assets worth three times as much.

The Bill finally passed by 47 to 17.

In the House of Commons the resolution embodied in a report from the Public Accounts Committee, recommending that the Auditor-General be authorized to audit the House of Commons accounts, was considered; also a resolution asking the Senate to permit one of its members to furnish certain information relative to expenditure in connection with that body.

Sir J. Tilley, in reply to a question, stated that the Government was not prepared to pay \$277,100 from the Canada Guarantee Company.

Mr. Masson informed the House that 20,000 members of the army and navy were on the Queen's Birthday to be held at the city of Quebec.

Mr. McCarthy's Bill to amend the Act respecting procedure in criminal cases and other matters relating to criminal law was considered in Committee. Mr. Mills objected to the Bill as ultra vires, because the Provincial Government had no jurisdiction over the jurisdiction of the Courts, and this Bill did minor courts have jurisdiction.

The measure was, however, advanced a stage.

Mr. McCarthy's Bill to amend an Act to provide that persons charged with common assault shall be considered as witnesses was considered in Committee, and one or two verbal amendments made.

The Bill to regulate stock brokers and suppress gambling in stocks was read a second time. Mr. Giguere, (Jacques Cartier), appeared to view unfavorably the Toronto and Montreal Stock Exchanges. Mr. Mackenzie would not oppose the Bill at this stage, but he expressed the opinion that it would be practically inoperative if enacted.

The Bill to amend the Act respecting Joint Stock Companies to construct works to facilitate the transmission of timber down rivers and streams was advanced a stage.

A debate arose on the second reading of the Bill to repeal section 2 of the Maritime Jurisdiction Act, 1877, which, however was not finished when the House adjourned at six o'clock.

The Famous Fifteen.
A PUZZLE THAT IS A PUZZLE.

The "Famous Fifteen" Puzzle, which has already sent a small army of American citizens to premature graves, has struck Canada, and the mania for solving it has become general. The merchant who has business to go to the docks, and who has to grapple with it, the clerk plunges deep into its mysteries, with half a dozen customers waiting patiently for a chance to "make a move" in the "game," the mechanic takes a holiday just to show his wife that he can successfully tackle any puzzle that has ever been invented.

THE GAME
is simple to look at, and ninety-nine persons out of every one hundred will bet you "ten to one" that they can solve the problem at first sight. The arrangement is as follows:—

1	2	3	4
5	6	7	8
9	10	11	12
13	14	15	16

Blocks containing the above numbers are placed in a box, and the difficulty to overcome is the transposition of 13 and 14, which are out of their proper places, without lifting any of the blocks from the box. A space equal to the size of one of the blocks is reserved in the lower right-hand corner, adjoining block 14, which permits of the other blocks being moved. Many are of the opinion that the puzzle cannot be solved and others are confident that it can. The blocks can be arranged in consecutive order for the above position.

IT CAN'T BE SOLVED.
A correspondent writing to a contemporary on the subject, says: "The situation of the fifteen block puzzle depends upon a flaw of mathematics known as the cog. Professor So-and-so to the contrary notwithstanding. Take two cogs (wheels) working in each other, and the cog in the center reverses the motion of the other. So in working the puzzle. Supposing the 14 and 15 to be reversed; in righting them, for almost any shift could arrange them properly. The solution is as follows:—

If an even number of pairs of blocks are reversed it will work out, but if an odd number of pairs are reversed, nobody can work it."

ANOTHER OPINION.
Another correspondent took an entirely different view, and says:—"I have found several ways of bringing the blocks to their proper places, some complicated, others surprisingly simple. I pay no attention to the arrangement of the two upper lines, for almost any shift could arrange them properly. The solution is as follows:—

The difficult to arrange the blocks in the third horizontal row so as to read 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Blocks containing the above numbers are placed in a box, and the difficulty to overcome is the transposition of 13 and 14, which are out of their proper places, without lifting any of the blocks from the box. A space equal to the size of one of the blocks is reserved in the lower right-hand corner, adjoining block 14, which permits of the other blocks being moved. Many are of the opinion that the puzzle cannot be solved and others are confident that it can. The blocks can be arranged in consecutive order for the above position.

IT CAN'T BE SOLVED.
A correspondent writing to a contemporary on the subject, says: "The situation of the fifteen block puzzle depends upon a flaw of mathematics known as the cog. Professor So-and-so to the contrary notwithstanding. Take two cogs (wheels) working in each other, and the cog in the center reverses the motion of the other. So in working the puzzle. Supposing the 14 and 15 to be reversed; in righting them, for almost any shift could arrange them properly. The solution is as follows:—

The difficult to arrange the blocks in the third horizontal row so as to read 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 135, 136, 137, 138, 139, 140, 141, 142, 143, 144, 145, 146, 147, 148, 149, 150, 151, 152, 153, 154, 155, 156, 157, 158, 159, 160, 161, 162, 163, 164, 165, 166, 167, 168, 169, 170, 171, 172, 173, 174, 175, 176, 177, 178, 179, 180, 181, 182, 183, 184, 185, 186, 187, 188, 189, 190, 191, 192, 193, 194, 195, 196, 197, 198, 199, 200, 201, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 220, 221, 222, 223, 224, 225, 226, 227, 228, 229, 230, 231, 232, 233, 234, 235, 236, 237, 238, 239, 240, 241, 242, 243, 244, 245, 246, 247, 248, 249, 250, 251, 252, 253, 254, 255, 256, 257, 258, 259, 260, 261, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000.

Blocks containing the above numbers are placed in a box, and the difficulty to overcome is the transposition of 13 and 14, which are out of their proper places, without lifting any of the blocks from the box. A space equal to the size of one of the blocks is reserved in the lower right-hand corner, adjoining block 14, which permits of the other blocks being moved. Many are of the opinion that the puzzle cannot be solved and others are confident that it can. The blocks can be arranged in consecutive order for the above position.

IT CAN'T BE SOLVED.
A correspondent writing to a contemporary on the subject, says: "The situation of the fifteen block puzzle depends upon a flaw of mathematics known as the cog. Professor So-and-so to the contrary notwithstanding. Take two cogs (wheels) working in each other, and the cog in the center reverses the motion of the other. So in working the puzzle. Supposing the 14 and 15 to be reversed; in righting them, for almost any shift could arrange them properly. The solution is as follows:—

The difficult to arrange the blocks in the third horizontal row so as to read 9, 10, 11, 12, 13, 14, 15, 16, 17, 1

GRAY'S Specific Medicines
The Great
English Remedy
for Seminal
Disorders,
Impotency,
and all
Bleeds from the
Kidneys, &c.
Before taking, read the following:—
I follow as a sequel of Self Abuse, or Loss of
Memory, Universal Lassitude, Pain in the
Back, Dimness of Vision, Premature Old Age,
and many other diseases that lead to Impotency
or Consumption and a Premature Grave.
Full particulars in our pamphlet, which
we send free by mail, to every one who
will send us a recent photograph of \$5,
or will be sent by mail on receipt of the \$5,
by addressing
THE GRAY MEDICINE CO.,
Toronto, O. T. Canada.
N. B.—The demands of our business have
necessitated our removing to Toronto, to
which place please address all future com-
munications.
Sold in Belleville by all druggists, and by
all wholesale and retail druggists in Canada
and the United States. Beware

THE GREAT
CAUSE OF
HUMAN MISERY.
We have recently published a new
and complete treatise on the radical and
permanent cure (without medicine) of Nervous
Debility, Mental and Physical Incapacity,
Impediments to Marriage, &c., resulting from
excesses.
Price, in a sealed envelope, only 6 cents,
or two postage stamps.
The celebrated author, in this admirable
treatise, clearly demonstrates, from thirty years'
successful practice, that alarming con-
ditions may be radically cured without the
dangerous use of internal medicine or the
application of the knife; pointing out a mode
of cure at once simple, certain and effectual,
by means of which every sufferer, no matter
what his condition may be, may cure himself
cheaply, privately and radically.
This Lecture should be in the hands of
every youth and every man in the land.

LAME BACK.
WEAK BACK.
BENSON'S CAPSICUM POROUS PLASTER
Overwhelming evidence of their superior-
ity over all other plasters. It is every-
where recommended by Physicians, Drug-
gists and the Press.
The most famous received a special award
and the only medal given for Porous Plaster
at the Centennial Exposition, 1876, at the
Paris Exposition.
Their great merit lies in the fact that
they are the only plasters which relieve
pain at once.
Every one suffering from
RHEUMATISM, LAME BACK, or WEAK BACK,
COLD ON THE CHEST, COLIC, or any kind of
ache or pain, should use BENSON'S CAPSICUM
Porous Plaster, and be relieved at once.
Price 25 cts. Sold by all Druggists.

HOYT'S
GERMAN COLOGNE.
AN EXQUISITE PERFUME.
FRESH LOT JUST RECEIVED!
BY
L. W. YEOMANS & Co.,
CHEMISTS AND DRUGGISTS,
Front, opp. Hotel St.,
Belleville.

After recess several private Bills
were advanced a stage.
The debate on the budget was continued
by Mr. Rykert, who spoke for a consid-
erable time.
Mr. Ross (Middlesex) spoke next. He
predicted that the present tariff changes
would not result in producing a revenue or
protecting home industries, and notably he
instanced the new tax on wool as an illus-
tration in point.
The debate was adjourned, and the
House arose at midnight.

The immense sale and great popularity of
Green's August Flower in all civilized and
uncivilized lands has caused many im-
itators to adopt similar names, expecting
to reap a harvest for themselves at the
expense of the afflicted. This medicine was
introduced in 1868, and for the cure of Dys-
pepsia and Liver Complaint, with their effects,
such as Sour Stomach, Costiveness, Sick
Stomach, Sick Headache, Indigestion, Palpi-
tation of the Heart, vertigo, &c., it never
has failed to overcome. These diseases will
relieve any case of Dyspepsia. Two million
bottles sold last year. Price 75 cents. Sam-
ples 10 cents.

Uplies the original cause of any given dis-
ease removed, there is no successful way of
obtaining a permanent cure. On the removal
of the original cause, however, the case will
relieve itself. Ladies suffer from a variety
of ailments, resulting from nervousness, which
they will not take sufficient exercise. They
eat offending food and suffer the consequence.
They should remove the original cause of the
trouble, which, in most cases, is the stomach.
By the use of that standard medicine, Dr.
HERBERT'S SUGAR COLORED PILLS, which gives
relief at once. The liver secretions healthily,
the headaches vanish, the system being cleansed,
is built up, and a cure is wrought. Try
them and you will find them all that they
claim to be, the best medicine of the age. They
are to be found everywhere in the Dominion.

—Father Faure and Dr. Langlois, of Gat-
ineau incendiary fame, have both been re-
leased from custody.
—The City Commissioner of Toronto con-
fiscated 310 pounds of light bread during
January.

NO. 261. SUNDAY SERVICES.

Principal Grant at the John Street
Church.
MORNING SERVICE.
The services in this church were con-
ducted by Rev. Principal Grant, of Queen's
College, Kingston, in the absence of the
pastor Rev. Mr. Mitchell.

After singing and prayer the 3rd chap-
ter of Philippians was read as the lesson,
and commented upon, after which
the Rev. gentleman took as his text
14th verse of the last chapter of Galatians,
"But God forbid that I should glory, save
in the cross of our Lord Jesus Christ by
whom the world is crucified unto me and
I unto the world." He said what better
text could Paul glory in than the cross of
Christ, what symbol is more associated with
all that is Godly? What act is more con-
fident in the world's history, and wonder-
ful in the world's history, than the death
of Christ? He said that Paul's glory in the
cross was not a glory in the death of Christ,
but a glory in the resurrection of Christ.
By it men have won to what they would
not under any other circumstances.
He said before we can venture to take
up the cross we must consider what
ideas were conveyed at this time.
The cross meant pain, disgrace, dishonor,
death, hell, everything that is horrible.
Suppose that after one of our dearest
friends had died on the gallows we should
take a piece of the disgraceful garment and
glory in the connection, saying God forbid
that I should glory, save in the cross of
Christ? He said that Paul's glory in the
gallows, what would people think of us? Why,
that we were mad. He said that as we
look over what remains of the history
of that time, we find that the essence of the
Gospel was, Jesus Christ and Him crucified.
He said that the Christians of that time
were always contending with the Jews, who
were throwing in their teeth that they
worshipped a man who was crucified. He
told of a picture or caricature found recent-
ly in the connection, saying God forbid
that I should glory, save in the cross of
Christ? He said that Paul's glory in the
gallows, what would people think of us? Why,
that we were mad. He said that as we
look over what remains of the history
of that time, we find that the essence of the
Gospel was, Jesus Christ and Him crucified.

"Go ye therefore and teach all nations, baptizing them in the name of the Father, and of the Son, and of the Holy Ghost. Teaching them to observe all things whatsoever I have commanded you; and, lo, I am with you always, even unto the end of the world. Amen."

Principal Grant chose the above as his subject in the evening, and the following is a brief synopsis of his remarks: After reading the above words, he said, we would be more astonished if Christ had treated them as we have. Some words were deeply impressed upon our minds from certain circumstances having occurred; these from the source of the authority of their utterance, were of any one of importance, and so are the last; the last words of the Great Ruler on the occasion of the last anniversary were eagerly listened to, as they might possibly have an important bearing on the whole of Europe; so would those of the next year. The first speech of a new monarch would be attentively read, as they would be an indication of Christ were indicative of His nature and His law. His last words on leaving His disciples; words uttered under such circumstances would have felt a remorse in after days of having disobeyed His darling commands had they done so. There was nothing obscure about these words, yet as a rule we wholly ignored them. We preached the relation of Christ, without which no religion enables us to put things in their place. The words were clear, ringing, emphatic, unmistakable and should be repeated at all times, and if we did that we would see our position in God's sight, our ingratitude and rebelliousness. These words settle the question of missionary enterprise. For every one who believes in Christ as his general, these words are sufficient. How should we apply them; what meaning is there in them and have we obeyed them? Considering the circumstances of their utterance our wonder at their increase, yet Christ's mission on earth was an absolute failure as far as the Priests, Scribes and Pharisees thought, as well as His friends. He had risen with the emblem of the sun, and the power was the same as before His arrest. In leaving the world He issued a new constitution, a new Magna Carta for the new kingdom, and promised a strength of joy and happiness at all times. Who but a God could have spoken such words as these? He (the speaker) had at various times visited several lunatic asylums, and although some of the inmates called themselves Kings or Queens, he had not heard one say that he was the King of Heaven and Earth. The disciples were not faithful to Christ's words, and they were told to bring all nations into the same relationship with God. In the opinion of some the only real religion consisted in asking them to do what He has commanded us; that is the law and the statute book. The observance of the ritual is good, and yet though it helps it is not religion. To give our hearts to Him and obey Him is religion. We are His instruments, and in His hands we cannot go astray, and besides we could do something for Him. There was a marvellous difference between His power and our duty. He left work to be done by the Church of Christianity. The church did not do it and had been unfaithful to the last commands of the King, and the last words of the Saviour. After alluding to the work of the Maravian missions, and of the mission in the New South Wales, and by expressing the hope that God would help us to do our duty and obey His commands.

MORNING DESPATCHES. EUROPEAN.

LONDON, March 15.—Henry O'Neill, historical painter, is dead.

AMERICAN.

SAN FRANCISCO, March 15.—At 11 p. m. the steamer City of Sydney is still burning with no immediate prospect of being extinguished. It is probable that the steamer will have to be pretty well flooded. There will likely be a delay of several days in sailing the next steamer.

There was a large attendance at San Diego yesterday. Kearney took an entirely new departure. He said the objects of the Citizens Union had been misapprehended. They intended to use the association for the amelioration condition in the city, and for the good of the laboring classes, and repeated prosperity. Last evening Kalkhoe spoke to a similar effect.

DENVER, March 15.—Many White River men have joined the renegade Indians in southwestern Utah, and are committing trouble with the aid of the New Southern Railway from this city. There will be 1770 plates and the dinner will cost \$15,000.

CINCINNATI, March 15.—A banquet will be given on Wednesday by the city merchants to the business men of the region opened to trade by the New Southern Railway from this city. There will be 1770 plates and the dinner will cost \$15,000.

NEW YORK, March 15.—The Times Washington special says the Pacific Mail Company contract with the Pacific mail steamship line, sources to the Gould & Huntington line of steamers to China full control of the China Trade, and also secure to the Pacific Mail a virtual monopoly over land traffic. It is asserted that freight charges between China and New York, by steamship has been advanced nearly a hundred per cent.

NEW YORK, March 15.—The French residents yesterday voted that Leon Chateau be requested to urge France to participate in the Yorktown Centennial. It is expected that a fleet of two or three regiments of infantry may be sent to this country from France.

Terwilliger A. Co.'s safe foundry was burned this morning. Loss \$50,000.

Dr. Hector Carlos, an eccentric French nobleman, otherwise known as Baron de Maistre, died in poverty at the hospital. He is said to have spent a large fortune in a wild career in Paris and New York.

BETTER TERMS.—A deputation from the Winnipeg Government, composed of the Hon. John Norquay, from the Hon. Mr. Brown, Provincial Secretary, and Mr. McKim, Speaker, is in Ottawa. They intend intervening in the Government in relation to an increase of territory, an increase of subsidy, a cessation of swamp land, and increased representation in the Senate and Commons. They are likely to remain at the capital several weeks.

LOSS OF STOCK.—The stock raisers of British Columbia are meeting with great losses this winter owing to the heavy fall of snow. Cattle, sheep, and horses are dying in large numbers, and the total loss is estimated at a million dollars.

The Daily Intelligencer.

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:

SPRINGBROOK.—At the drug store of Dr. G. H. Boulter, M. P. P.

CAMPBELLFORD.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.

HARTS.—Of Mr. David Morrison, at the Post Office.

MARCO.—At the store of Mr. C. G. Wilson.

Extra copies of each day's issue can be obtained at the above places.

GEO. P. ROWELL & Co.,
40 PARK ROW, NEW YORK,
ADVS.

J. H. BATES, 41 PARK ROW, NEW YORK,
ARE our Agents in that city, and are authorized to contract for advertising at our lowest rates.

BELLEVILLE, MONDAY, MARCH 15.

Political Notes.

THE N.P. AGAIN.—It looks as if we were never to hear the last of the N.P. says the Toronto Telegram. The Reformers are just as hot against it now as they were before the last election, although their stubborn opposition to some such policy was the cause of their summary ejection from office. Yet it is a very serious question if the Reformers would repeat the N.P. if they were back on the Treasury benches to-morrow. The revenue is short of the expenditure, and taxes must be raised in some shape or another. If they were taken off the imported articles that come into competition with articles of the same nature made in Canada, they would have to be imposed on others; so that it would be as broad as it is long. If the N.P. were to be repealed, the taxes necessary to carry on the Government of the country would have to be collected in some other way, so that after all it is only a question as to which pocket you would prefer to pay out of, and whether you would prefer to pay it to a Grit Government or a Government of Tories.

POLITICAL EXAGGERATION.—The Monetary Times says: "Amidst the loud clamor made by certain laborers in Ottawa for work, Mr. Oscar Mackay writes to a local paper to say that, though he has raised the wages of shantymen this year considerably, he has been unable to get all he requires. He has engaged 1,800 men at rates varying from \$12 to \$18 a month, but to get that number he has telegraphed to Sorel, Terrebonne and other places. On the day he wrote his letter, he tried in vain to get five more men; and among them were some of those clamoring for work. It is well that both sides of the medal should be presented. Of course it might be charged that he had gone into the woods for the winter. At the same time it is clear that the distress arising from the want of employment at the capital has been exaggerated."

EXPORT DUTY ON SUGAR.—It will be noticed in the Budget Speech, says the Mail, that the export duty on sugar has been added to the cost of importation in the calculation of duty. This question was discussed last summer at the instance of Halifax merchants, and was settled by the Minister of Customs temporarily in favor of the claim that the export duty ought to be omitted, but the decision was made under a half protest, and was made dependent on further consideration. The question is one that will, perhaps, be again discussed. Meantime, the Government have decided the question by making the export duty a part of the price of importation for Customs purposes. But at the same time "leakage" and other privileges are allowed, which will probably satisfy the importers. The reason for levying the export duty is what was stated last summer, namely, the necessity of preventing a premium being given to importations from Cuba over the importations from the British West Indies.

ADULTERATION OF FOOD.—The report of the Department of Inland Revenue on the adulteration of food, shows that during the year 896 samples were analyzed, of which 235, or a little more than 26 per cent were adulterated, and 42 returned as doubtful. Compared with previous years there is a perceptible improvement. In 1879 the percentage of adulteration was 51.66 per cent, in 1879 it had fallen to 29.22 per cent.

CARS FOR THE CANADA PACIFIC.—The Montreal, N. B. Times says that a Montreal tender, that of Archibald McKay and G. R. Elliott, for the construction of sixty flat and sixty box cars for the Canada Pacific has been accepted. Jonathan Wait and E. A. Record are interested in the contract, and the work will be done at Montreal. The whole value of the work is stated to be between \$80,000 and \$90,000.

THE INCOME TAX.—In the case of the Collector of Customs at Kingston, who sued the city to recover back taxes on his official income for the year 1874 and the three subsequent years, Judge Price decided that inasmuch as the Collector made no protest at the time against the payment for 1874 and 1875, he cannot recover for those years. For 1876 and 1877, he is awarded forty-nine dollars.

BLACK BARLEY.—The Globe says: "Messrs. W. D. Matthews & Co. have samples of a new variety of barley which has been grown to a small extent near Toronto. It is dark colored, almost black, and looks as though it might be a hybrid between rye and barley. It is stated to be very productive, and to possess great value as food for hogs and other stock."

THE BIRCHMURDER.—All the prisoners under arrest in London, charged with the murder of the Donnelly, were committed for trial at the Assizes on Saturday. It is likely that an early application will be made for a charge of venue.

Death of Hon. L. H. Holton.

A telegram from Ottawa conveys the intelligence of the death of the Hon. L. H. Holton, M. P. for Chateaugay, in that city, at 2:30 a. m., on Sunday, the 14th inst., from a stroke of apoplexy. Mr. Holton, who was a brother of the late E. W. Holton, Esq., was one of the oldest and most distinguished of our leading public men. For several years he took a very active part in public affairs, and earned a high position amongst the leading public men of the country, but of late years he had not taken a prominent part in the debates of the House. As a Parliamentarian Mr. Holton was above all the other members of his party, and his utterances on matters relating to Parliamentary practice and rules were always looked for with great interest by both parties.

The people of the Dominion, irrespective of party, will regret Mr. Holton's death, which has occurred at a time when he was in full possession of all his natural powers and abilities which he exercised for the benefit of his country. He leaves a widow, a son and a daughter, the wife of Mr. B. M. Britton, Q. C., of Kingston. The following biographical sketch of the deceased gentleman is taken from the Parliamentary Companion for 1879:

Born in South Leeds, Oct. 1817. Removed to Montreal, 1827, where he entered mercantile life, and was for many years a member of the firm of Hooker & Holton, forwarders. Married Miss Forbes. Is honorary President of the Reform Association of the Parti National of Montreal, and a Governor of McGill University (he being a member of the Royal Institution for the advancement of learning). Was contractor for a portion of the Atlantic and St. Lawrence Railway. Has been President of the Board of Trade (repeatedly); and of the Montreal City and District Savings Bank; a Vice-President of the Free Trade Association; a Harbor Commissioner; a director of the City Bank; and a member of the Corporation of Montreal. Was a member of the E. C. Council, Canada, from 2 to 4 August, 1838 (in the former Dominion Administration); and from May, 1863, to March, 1864 (in the Sandfield Macdonald-Dorion administration); and held the office of Commissioner of Public Works, Canada, on the first occasion; and that of Minister of Finance on the latter. Was a Government director of the Grand Trunk Railway from Nov. 1852 to July, 1857. Sate for Montreal in Canadian Assembly from 1854 till 1857, when defeated. Was member for Victoria division in L. C. Canada from Sept. 1862, to May, 1863, when he resigned (on being appointed Minister of Finance), and was returned for present seat, which he represented until the Union. Returned to Commons at general election 1867, again at general election 1872; again at general election 1874, and again at last general election. Represented Montreal Centre in the Local House (where he led the English opposition), from general election 1871, until 16 Jan. 1874, when he retired from that body in order to confine himself to the House of Commons. Entered Parliament as an advanced Liberal, and has always been in accord with the Liberal party, except on the question of Confederation, which temporarily divided that party.

The following particulars of Mr. Holton's death, we copy from the Ottawa correspondence of the Globe:

Yesterday, a few hours before his decease, he was in cheerful spirits, and apparently in good health, engaging in conversation as usual, with members and friends. Last evening he dined at the Rideau Club as the guest of the Hon. Mackenzie Bowell, Minister of Customs. There the same lightness of spirits noticeable during the day was again apparent. He retired to rest, and was found dead in his bed, at 2:30 a. m., on Sunday, the 14th inst. He was 62 years of age, and had been in the room, and complained to the night porter that he did not feel very well. A second time he retired to rest, but about one o'clock rang for the porter, who immediately answered the summons. He told the attendant that he was very ill indeed, and requested him to procure medical assistance. The porter went to the room allotted to Mr. Holton, and Dr. Berghin, who resided in the hotel during the session, but he discovered that these gentlemen had gone to their homes on the preceding evening to stay over Sunday in accordance with their custom. He then telephoned for Dr. Grant, but that gentleman did not arrive until a few minutes after Mr. Holton breathed his last. The cause of death in this case is doubtful, but the general verdict appears to be that of apoplexy, while others incline to believe that Mr. Holton was disposed to suffer from heart disease.

A special train arrived at Ottawa on Sunday evening from Montreal conveying Mr. Edward Holton, son of deceased, and a number of prominent citizens of Montreal. The same train returned to Montreal with the body about midnight. The funeral is to take place on Wednesday.

Legal.

The following local causes were before the Courts in Toronto on the 12th:

DENISON V. BICKFORD.—McPhillips (Cameron & Appelbe) obtained a summons to refer the case to arbitration.

NOVARS V. ROSS.—Judgment. Upon the railway company's appeal. The case, incidental to this application, within seven days from the issue of the order, and giving security for the plaintiff's costs of the reference back, the report is to be opened up and the railway company to be let in to give evidence as to the value of the land taken by them, and the damages; plaintiffs also to be at liberty to give further evidence.

GOLDING V. MACKIE.—Judgment. Rule made absolute to rescind the order for the writ of capias without costs.

THE ICE TRADE IN NEW YORK.—The mammoth ice-companies of New York, in anticipation of an ice famine during the coming summer, are turning their attention to Rouss's Point, where a vast quantity fifteen inches thick can be obtained. On the Hudson there has been very little ice cut, not more than six or seven inches, and at the lower points on that river, and upon Rockland Lake, none of any account. As the supply on hand now exists, so far as can be seen from the companies on there is less than there was in 1870, yet in that year the prices ran as high as \$16 per ton for delivery at the bridge; butchers paid \$20 per 100 lbs. of ice, and at one time \$25 per ton; and families, buying in small quantities, at the rate of \$30 per ton.

LIFE IN THE POLICE STATION.

Saturday Night's Experience.

MUSIC AND DANCING IN THE CELLS.

The life of the average policeman though to a certain extent one of monotony, yet has its variations and changes at times which is over the lot of the officers of the law. And there are occasional pleasures which assist in covering their existence with a pleasant ripple of pleasure, and tend to lighten the tedium of duty. They are seldom offered on the street, but once in a while one presents itself at the station.

And such was one given in No. 2 cell on Saturday evening, and in a way that astonished the residents of the locality, and created endless wonderment in the minds of the passers by.

Richard Howell, from the second connection of Tyendinag, in company with a friend he visited the city and imbibing immoderately in the overloading bowl, became possessed with a consciousness that he was somewhat more than the ordinary mortal and could exercise privileges which even the average citizen is not permitted to enjoy. With his companion he wandered to the market and there made use of expressions that society does not tolerate and the public generally does not approve of. The remonstrances of Officer Newton were derided and his requests treated with disdain. The result was, Richard, under the preserving arm and tender care of the policeman, was marched to the only hotel in the city which—free of charge provides food for the hungry, drink for the thirsty and rest (on a stiff plank) for the weary. Once there his savage nature asserted itself, and he whooped and yelled like a Comanche Indian on the war-path. Then followed all manner of pleadings and supplications for release, and ultimately demands for his liberation. To show, however, that at some time or other he had been within the pale of civilization and had probably been a member of some travelling variety show or minstrel combination, he gave expression to his possession of vocal attainments by warbling from recently written melodies, such as "The Wandering Refugee," "Jordan is a hard road to travel," "Where's Rosanna gone?" and "We won't go home till morning." It is almost needless to remark that he didn't go home till morning. "St. Patrick's Day," "The Protestant Boys," and "Auld Lang Syne" were given with a vigor which was astonishing almost any one. He also engaged in saltatorial and gymnastic exercises, and displayed great agility. He made no end of short but very expressive speeches of a ridiculous character. At last "tired Nature's sweet restorer, balmy sleep" asserted its sway, and having folded his robe around him, he laid down to rest and slept the sleep of innocence till the dawn of the coming morning. He became himself in the morning and expressing the deepest regret for his misconduct, he was liberated, and sick, sad and sore at heart he walked towards the rising sun and is now once again enjoying the sweets of life and

News Condensed.

Vessels are loading with grain in Toronto at 3c a bushel to Oswego.

—2,600 tons of ice was recently shipped at Montreal for Boston.

—On the 17th of March the House will adjourn, according to custom, at 6 o'clock.

—The drawback allowed on goods manufactured in Canada in 1879, and exported, amounted to \$77,029.93.

—Alexander Dice, foreman in Rogers' hat establishment, Toronto, was found dead in his bed on the morning of the 3rd inst.

—Sitting Bull spent most of the winter with the Teton Sioux one of the southern affluents of the South Saskatchewan.

—Recent information from the North-West announces Louis Riel to be at Fort Assiniboine, in Montana, and Lepine at Fort Benton.

—A mould for casting 25 and 10 cent pieces was found in the partitions of an old building in Montreal on the 13th inst. The date was 1879.

—Kingston ferry boats have been compelled to suspend running, owing to the thickness of the ice between the City and the Island.

—The recent cold weather has made a "bum" in the ice business at Kingston. Fifty more vessels are nearly loaded and several men are employed.

—The act repealing the insolvency law having passed the Senate, only awaits the sanction of His Excellency the Governor-General to become law.

—The imports of sugar into Montreal for the last six months of 1879 were 17,175,025 pounds, as against 43,958,224 pounds for a corresponding period in 1879.

—Charles Goodwin, and wife of St. Thomas were thrown out of their carriage, on the 12th inst. Mrs. Goodwin was instantly killed and Mr. Goodwin so severely injured that he is not expected to live.

—The G. T. R. is now doing about as much business as it is possible to do on a single road to do. Long and heavily laden trains follow each other, east and west, at very short intervals, and empty cars are at a premium.

WANTED.

A Second Hand 5 ton Yacht, EAST SAIL, ER. Address, giving particulars, Box 49, P. O.

TO RENT.

THE HOUSE at present occupied by Mrs. Dr. Higginbotham Hotel Street. Possession given 22nd of April.

MRS. COCHRANE, Treasurer. d24w1f

CHEAP MONEY.

\$100,000. We have received money to loan, private or Company, at seven per cent. straight loan, or 6 1/2 per cent.

FLINT & JELLETT, Belleville, March 12, 1880. d1f

Canadian Pacific Railway.

Tenders for Rolling Stock.

TENDERS are invited for furnishing the

Rolling Stock required to be delivered on

the Canadian Pacific Railway, within the

next four years, comprising the delivery in

each year of about the following, viz:—

20 Locomotive Engines.

16 First-class Cars, proportion being as follows:

3 Second-class Cars.

3 Express and Baggage Cars.

3 Postal and Smoking Cars.

2 Snow Ploughs.

240 Box Freight Cars.

100 Flat Cars.

2 Wing Ploughs.

2 Snow Ploughs.

2 Flangers.

40 Hand Cars.

TENDERS TO BE MANUFACTURED IN THE

DOMINION OF CANADA, and delivered on the

Canadian Pacific Railway, at Fort William,

or in the Province of Manitoba.

Drawings, specifications and other information

may be had on application at the office of

the Engineer-in-Chief, at Ottawa, on and

after the 15th day of MARCH next.

Tenders will be received by the undersigned

up to noon on THURSDAY, the 1st day of

JULY next.

By Order,

F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS,

Ottawa, 11th February, 1880.

240

Canadian Pacific Railway.

Tenders for a second 100 miles section

West of Dry River will be received by

the undersigned until noon on Monday,

the 23rd of March, next.

The section will extend from the end of the

45th Contract—near the western boundary of

Manitoba—to a point on the west side of the

valley of Bird-tail Creek.

Tenders may be obtained by the printed form

which, with all other information, may be

had at the Pacific Railway Engineer's Office,

in Ottawa and Winnipeg, on and after the

1st day of March next.

By Order,

F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS,

Ottawa, 11th February, 1880.

AND
J. H. BATES, 41 PARK ROW, NEW YORK,
are Agents in this city, and are authorized to contract for advertising at our lowest rates.

Daily Intelligencer.

BELLEVILLE, TUESDAY, MARCH 16.

Market Fees.

Mr. J. J. Farley again rushes into print, not with the intention of proving anything, but with the declaration that our assertion that Belleville paid its proportion towards gravel roads was untrue. In a letter to our City contemporary he says:—

Sir,—Yesterday's *Intelligencer* contained another "long and laborious" editorial concerning Market Fees.

Among many other things, the editor asserts that Belleville paid \$2,456.80 a year for the last twenty years towards refunding the money expended in building gravel roads outside of the town.

That assertion is simply untrue. Belleville paid \$2,456.80 a year for the last 20 years towards refunding the money expended in building gravel roads within the town of Belleville.

There are other insinuations in the same editorial that are painted of the same stick.

Thurs., March 12th.

In the first place, Mr. Farley's assertion that we said the Town paid certain money towards gravel roads "outside of the town" misquotes what we said, which was, that in the agreement for the separation of the Town from the County, the Town was arbitrated to pay to the County \$2,456.80 annually for twenty years as the Town's proportion "towards free gravel roads."

Starting with a misrepresentation of what we said, Mr. Farley goes further and says that the amount paid by the Town to the County "was towards building bridges and gravel roads within the Town of Belleville."

As Mr. Farley was one of the arbitrators on the part of the County who agreed to terms of separation between the Town and County, he should know that the latter assertion is incorrect, as the only clause in the agreement for separation between the Town and County which all refers to the matter in question reads, "That the Town agrees to pay to the County annually for twenty years the sum of \$2,456.80, on condition that the roads are free." The italics are our own.

In the agreement referred to, the words "Bridges" and "gravel roads within the Town of Belleville" never occurs, so that Mr. Farley must either be some Rip Van Winkle that has awakened after twenty years slumber with his ideas of what actually occurred twenty years ago befuddled, or he is endeavoring to make the public believe an agreement was made between the Town and County which he should know never was the case. Steer clear of imagination next time, Mr. Farley, and give us some facts.

Smelting Works.

"Canada First" writes to the *Globe*, pointing out that there is a fine opening for a capitalist to invest money in the establishment of smelting works at Madoc. The village itself offers many advantages. It is only twenty-three miles from Belleville and the Grand Trunk Railway (an error—should be 26 miles by highway, 204 by railway.—Ed. Int.) It is in the centre of the mining district, is the chief market town of North Hastings, and will possess railway facilities once the Toronto and Ottawa Railway is an accomplished fact. Such works would find ample employment, as unexampled activity exists in the Madoc mining district. This is undoubtedly true as regards Madoc, and the same remarks apply to Belleville, which is the most favorably situated place in Canada for coal smelting furnaces, as here the coal brought in by water would meet the ore, transported by rail from Madoc, and here limestone for flux is to be had in inexhaustible supply at the very doors of a furnace.

It is beyond doubt that, even with iron and steel much lower in price than they are now, a good profit could be obtained from the manufacture of iron and Bessemer steel in Belleville. The apathy of our own people as well as of capitalists in this matter, is simply astonishing.

The Blairton Mine.

We understand that there is every prospect that mining operations will shortly be resumed at the Blairton Iron Mines in Belmont. Mr. T. P. Pearce, the agent of the Company in Marmora, has during the winter been procuring a quantity of ties to repair the Railway from Blairton to Rice Lake, and also got out a large quantity of wood for use at the mine.

One of the owners of the mines was on a visit to Blairton and vicinity last week, making preparations for the resumption of business, as soon as the season opens. This will be good news to the inhabitants of that section of the country, as it means the employment of a large number of men, and the expenditure of large sums of money.

Rev. J. G. Stearns writes: "I consider Perry David PAIN KILLER the best remedy I ever knew for Dyspepsia."

Madoc Notes.

Preparations are being made for extensive building operations in Madoc during the coming season. Mr. C. G. Wilson, druggist, intends putting up a brick block adjoining his present premises, and from the appearance of the plan it is destined to be one of the most imposing blocks in the village. It is to be three stories high, will contain three fine shops; the second story will be fitted up for offices; and the third story will be converted into a large hall for the use of the Oddfellows, who have already rented it. The mason work is to be done by Mr. Rattelle, of Cobourg, and the carpenter work by Messrs. Kerr & Walton, of Madoc. It is expected to be completed and ready for occupancy by the first of August.

Mrs. Moon intends as soon as the season becomes a little more advanced, to put up a new hotel on the premises they now occupy. The new building will be 63 feet front by 43 feet in depth, and built of brick. It will be three stories high, with mansard roof. The plans drawn by Messrs. Evans & Bolger, show a very imposing front. The main entrance will be in the centre of the building, the hall being fifteen feet wide. On the right will be a large reading room 12x19, and in the rear an office and coat room, with a small room in rear of that. On the left of the hall there will be two large commercial rooms; these rooms will be separated by a hall from the bar which is in the back part of the building. A balcony projects from the hall in the second story, and the second and third stories are divided up into parlors and good sized chambers. The present building is to be moved back and will be used while the new building is in course of erection. Work will be commenced early in April, and it is expected to be ready for occupation about the first of July.

A notice in aid of the paragon fund of the Canada Methodist Church took place at Masonic Hall on Thursday evening the 11th inst., and was very successful. A considerable quantity of goods made up by the ladies of the congregation sold at good prices. The soiree—which by the way was an oyster supper—was very well attended, the proceeds of both netting the handsome sum of \$70. Addresses were delivered by Rev. Mr. Tolson, of Bridgewater, and Rev. Mr. Martin, and readings by Mr. Peterson, while choice vocal music was given by Miss Dale, Miss Giffin, and the Misses Tavers. The entertainment was of a most pleasing character, and financially a success.

Major G. D. Rowe, President of the "Emily Gold Medal Company" has some fine specimens of misspelled ore from that mine. He also has some four gold which he extracted from the ore in Marmora. The ore was first crushed, then pulverized, and sifted through fine muslin, and then roasted. The result shows that the ore is very rich. This mine is situated in Rawdon, being the south half lot 3 in the 13th concession, and like many of the mines which are supposed to be good, has a law suit on hand.

Prospectors are scouring the country about Madoc, and many are the lucky finds reported, though these reports we need hardly say must be taken with considerable allowance. There is no doubt that new iron ore beds are being discovered, and there is also little doubt that other valuable minerals are being found, of which we will hear more anon.

The County Road from Madoc to Marmora at this season of the year is in a wretched condition. As there is a large amount of travel over the road, more work should be done upon it. The County should make a yearly appropriation to assist in travelling the road in the same manner as the two miles east of Marmora has been done. That is a good piece of work, and the whole of the road should be placed in the same condition.

The lumbermen have, notwithstanding the open weather succeeded in getting their logs and timber to the creeks and rivers, and as there is a prospect of an early break-up, we may expect the "drives" to be more numerous than usual. Mr. T. P. Pearce, of Marmora, has just cut this year 500,000 feet of lumber for local use.

MORNING DESPATCHES.

EUROPEAN.

FLORENCE, March 16.—The first day's sale of the Paul Demidoff's collection of old masters yesterday, realized \$20,000. Directors of museums in Berlin, Paris, Brussels and Antwerp were present, also Baron Rothschild and a number of Americans.

AMERICAN.

RICHMOND, Va., March 16.—Heavy rains have swollen all the tributaries of the James river and serious floods are feared.

AUSTIN, Texas, March 16.—Matthew and David Dow, Scotchmen, settled in Bell Co. and commenced teaching the doctrine of sanctification, and thus destroyed the domestic tranquility of a number of families by arraying wives against husbands. A party of men on February 10th flogged the Dows, and ordered them to leave the country. The British Consul at Galveston demanded of the State department what action had been taken to punish this outrage on British subjects. The acting Secretary of State replied that the local authorities were ready to act upon proper affidavits. A writ of *habeas corpus* was issued against Daws. They were taken before the Superintendent of the Asylum at Austin, refused them admission and they moved here and remain quiet.

BROOKFIELD, March 16.—The first Northern train against the flood, arrived on Sunday. It is believed the blockades are over this season.

NANTUCKET, Tenn., March 16.—The entire lowland for 200 miles up the river is flooded. A rise is coming down that will swell the river here at least 4 feet.

NEW YORK, March 16.—The failure of A. Merman & Co., brokers, yesterday, is attributed to their efforts to form a pool to raise the price of *Chalcidone* stock, with which the firm was loaded. Liabilities, \$50,000 to \$200,000.

The steers passengers on a French line from Havre yesterday made a formal complaint, denouncing the quantity and quality of the food served, and charging that there was no separation of the sexes in the sleeping partitions.

RESULTS OF DOMESTIC INFELICITY.

A Scene in the Gaol.

HE TRIED TO CUT HIS THROAT AND COULDN'T.

John McCallum was formerly in Her Majesty's service and served his country well and faithfully, and to such an extent in office that he was adorned with "arm stripes." On the termination of his engagement, he left the scene of his former efforts and sought the occupation of the ordinary citizen and entered humdrum life, which he apparently enjoyed for some years pleasantly, but eventually his wedded career turned out not to be the bed of roses his presumption led him to assume.

A weakness for the cup caused him to commit acts which probably he in a sober moment would not have committed. The police court record embraces many of Jack's visits and fully explains the several instances of his appearances there. The last—though not the least—was this. He had been indulging too freely in the intoxicating cup and on returning home he kicked the stove pipes out of shape, upset the stove, turned over the chairs and made things around the house very lively. As a result he was arrested, brought before the Police Magistrate and ordered to leave the city. He didn't and his incarceration followed. Discharged prisoners conveyed to his character that he was greatly alarmed thereat. Soon after he manifested a morose disposition and was evidently possessed of melancholia. On Sunday he was more uneasy than formerly, and this attracted the attention of his fellow prisoner Howard, who watched him closely. In the afternoon McCallum acted very strangely and going from the ward to his cell, where he had a razor was about in the act of cutting his throat when Howard prevented the commission of the foul deed.

McCallum is now in a sad frame of mind, and though he responds civilly to enquiries, it is evident that his mental faculties are not in proper order. He fancies that his wife will appear against him at the Assizes, and that makes him feel very bad. He attributes his downfall to his wife, whilst those who know him best think otherwise. Further developments are awaited.

Correspondence.

Whilst correspondence will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

DEAR SIR,—I regret that the Editor of the *Free Press*, in his last Saturday's issue, has thought it necessary to express annoyance at my letter in the *Intelligencer* of Wednesday last, and to reply with scant courtesy to a question which was most courteously worded. He says, "We cannot understand why Mr. Adams should make this sudden call upon us to search the Scriptures." In reply I would say there is a very wide spread belief that marriage with a deceased wife's sister is forbidden in the Bible, and it was for the purpose of eliciting a public expression of opinion from some more competent person than myself that I made the enquiry. An Editor is supposed to have a much deeper insight into all things than ordinary persons have, and I am therefore glad to find that the editor of the *Free Press* agrees with me on this subject. It is undoubtedly a fact that the marriage in question are not forbidden in the Scriptures directly or indirectly; the only inference we can reasonably draw being in favor of them, and I cannot imagine how their prohibition has found a place in that inimitable liturgy, the Book of Common Prayer of the Church of England, which is in most respects a very reflex of the inspired volume, itself. The passage of the law in question would undoubtedly result in happiness to many a motherless child, because, if it were the law, a woman who would feel such affection for the bereaved little ones as the sister of their own mother. As it is a matter in which the public feel considerable interest, I would be much pleased, Mr. Editor, to see an expression of your views on the subject.

Hope that additional wrath will not be poured on the devoted head of the Editor of the *Free Press* by "foolish persons," who think his editorial "calculated to undermine all that is good." I remain

Yours truly,
GEO. ADAMS.

[NOTE.—Our opinion, asked for by Mr. Adams, is in behalf of such marriages as are not forbidden by the law of God and ought not to be by those of man. They are in very many cases highly advantageous and desirable, and we hope to see the restrictions imposed in England removed.]

News Condensed.

—Hon. J. C. Pope has recovered from his recent illness.

—A rupture has occurred between France and Madagascar.

—The Utes, assisted by the Mormons, are causing trouble in south-western Utah.

—The 19th regt. of militia attending the night school in the city of Toronto.

—Since the 6th of March 296 horses were shipped from Montreal to the United States.

—It is said the sense of the Biddulph murder cases will be changed from London to Toronto.

—A Tchern despatch says that the Russian fleet for sale with a large quantity of stores have left Lethbridge for China.

—Silas McKellum of Pittsburg, County, Leeds, in an altercation with his son, was killed. The son was arrested.

—At Godrich, Ont., the store and shop of J. Storey burned on Saturday, loss \$8,000, insurance \$3,400.

—Dixon's colliery, near Glasgow is on fire from a gas explosion. One thousand men are out of employment. One death resulted.

—Dr. Hanson has discovered good coal on the Lake of the Woods. The vein is 60 ft. wide. It is a little better than the silver discoveries in the same region has been received.

—A fire occurred in Barrie on the 15th inst. about 10 o'clock, destroying H. C. Bigelow's hotel, the Singer sewing machine office, L. B. Warnock's jewelry store, W. C. Pennington's store, and the store of Messrs. C. and U. H. Clark's Dominion Telegraph and Express office. With the exception of Bigelow's all is a total loss, estimated at \$16,000.

The Spring Assizes.

FIRST DAY.

BRITTON V. HALSTED.—Action of ejectment to recover possession of 1st No. 8, in 5th con. of Tyndings; No defence. Faint for plea, *Noten*. Verdict for defendant.

CHARGE OF SLANDER.

PALMER V. SOLMES.—This was action for slander.

The parties live in Belleville; they have been very intimate friends—in fact are related. The plaintiff claims that for some reason, unaccountable, the defendant circulated a report that the plaintiff had been cohabiting with his daughter, and was and was. The plaintiff brings his action to recover damages for the slander on the ground of loss socially and in his business as an Insurance Agent.

SAMUEL D. FARLEY deposed that he was born in the Township of Sidney; the plaintiff in this case he is known for twenty-five years; he was the father of two children, a son and daughter, the latter of whom had married the late Mr. Jas. F. Meddell and after his death Dr. Palmer, formerly Principal of the Institution for the Deaf and Dumb; on a call at Mr. Bennett's lumber stall, whilst talking with Mr. Bennett about an insurance matter, Mr. Solmes, the defendant, came in and made an accusation against Mr. Palmer and his daughter which cannot here be reproduced; witness told him to say no more, but he did not take it back; witness asked him to be calm and to be careful of what he would say; this was in the summer of 1879; the defendant then did not give any answer; witness under the impression that Bennett could hear all that was said; after Bennett heard Solmes talking he closed the doors; Solmes was annoyed because I showed I did not like to hear his talk; witness talked on his subject at Ottawa, and the defendant then said he had received an Attorney's letter and asked witness to intercede and settle this matter; defendant made use of the names of "Aunt Sally," "Aunt Liddy," and some others as his authors; defendant said he had said as much, and the plaintiff could commence his action as soon as he had a mind to; at a subsequent time defendant was very sorry for what he had taken place; this was about the 24th September last; Solmes had asked witness to use his influence to settle this case; in a conversation witness told Solmes that Palmer was going to Ottawa and Solmes asked him to speak on his behalf, but he subsequently ordered witness not to do so; afterwards Solmes said he had made an acknowledgment; he could not feel contented; he was sick and sore at heart; witness drew into it and was made a cat's paw by Dr. Palmer, who invited me to his place and was fooling me; he was sick at heart for what he had said and was sorry for it; defendant asked witness to settle the matter on several occasions; both were willing to settle when separate, but the defendant refused to do so when called on; witness went to both parties three times to avoid a case, without prejudice; when he visited Solmes or the plaintiff each was willing to settle, but no settlement was made; Solmes said he was willing to have the matter settled so that he could have peace of mind; he (the defendant) named a sum that if you put your finger upon it you could not notch it; the sum was afterwards named at about \$500 or \$600, and that Palmer and the defendant should each pay their own costs; the families of the witness and plaintiff were on good terms; Solmes said he and Dr. Willson had talked about the matter, and that Dr. Willson was his author, but the latter denied this, and as the defendant was short of memory, he accepted the Doctor's statement; witness thought the plaintiff first told the defendant of the witness's house were extended to both the plaintiff's and defendant's families, but the parties followed afterwards; he did not, after he heard of this matter, invite either to his house; both plaintiff and defendant are men of wealth; this report would have a tendency to injure Mr. Palmer.

Cross examined.—On the first blush of scandal alleged against Mr. Palmer he had not forsaken him and did not believe it; Solmes and Palmer are related; and with the witness said he did not believe the story concerning Mr. Palmer and his daughter; defendant said "it is so any way"; witness considered Palmer ought to know it and told him so; after that Solmes asked if Palmer ought not to know it.

Solmes asked that witness should use his influence to have this matter settled; defendant said he was sorry for what had been done, and had made an acknowledgment to Mr. Palmer; defendant said he was sorry he had said anything about the case; defendant had written an ample apology, and thought that was sufficient, as no action was then brought; witness asked a public avowal from the defendant of what he had said before Messrs. Mescham, Wallbridge and others; because this case was not thus settled witness thought there was some one behind; witness was the insurance business with Palmer, but not since last August; witness' anxiety was to get this matter settled.

By Mr. Wallbridge—Mr. Palmer wanted a settlement brought about; witness did not attend the meeting at Bennett's treat Mr. Palmer as he had done before and did not invite him to his house.

Dr. D. S. Peterson, sworn, I know the plaintiff and defendant; Mr. Solmes spoke of this matter several months ago, and he asked if I had heard what had taken place between Dr. Palmer's wife and daughter; I did not say I had heard it; Solmes stated he had heard Mr. Palmer had been intimate with his daughter; I was not the originator of this, and he gave this as a rumor; I was surprised and did not concur in what was said.

JAMES J. FARLEY, sworn.—I know both the plaintiff and Solmes, and both are considered wealthy; I had a talk with Solmes some time before Christmas, and he said he had heard of a report of the plaintiff and his daughter, and he wanted it settled, for he had been on his knees two hours at a stretch, but that it would redound to the glory of God; he blamed this on Dr. Palmer, and had confided in him, that he would get his wife out of the scrape. I did not invite the plaintiff's folks to my house after this story.

AUCTION SALE

OF

Steam Mill and Village Lots in Shannonville.

THERE will be offered for sale by Public Auction, on

Friday, the 19th day of March, 1880, at 12 o'clock, noon, at Chisholm's Hotel in the Village of Shannonville, unless previously disposed of by private sale.

That desirable property, consisting of Lots 47, 48, and 49, on North-west side of Queen Street, in Shannonville, Ont., and Lots 47, 48, and 50, on the North-east side of the same Street, containing in all about one and a half acres.

Upon this property is a valuable STEAM MILL, which cost originally over \$6,000.00, known as the Stevenson or Sexsmith Mill, with machinery complete.

TITLE PERFECT. The Vendors will reserve one bid.

The property may be purchased in one lot or in separate portions, to suit purchasers.

The Daily Intelligencer.

BELEVEILLE, WEDNESDAY, MARCH 17.

A Sad Anniversary.

The anniversary of the good St. Patrick, who died in the year 432 at the extreme age of 123 years, and who became the patron Saint of Ireland, has again come round, but not in its usual guise or with its accustomed joviality. In holiday garb, with bands playing, drums beating, and colors flying, are the sons of Erin wont to celebrate annually their national day, and at the festive board with pardonable pride to dilate, with that eloquence for which the Celtic race is celebrated, upon the past glories of their ancestral land, its heroes, its martyrs, its great men, and the beauties which nature has bestowed upon it. The circumstances of the case, unfortunately, do not warrant such display this year. Famine, or at least want so dire as to be closely akin to it, stalks over whole counties of the Green Isle, and the wall of desolation which reaches us through the recitals of the journals of the day has a terribly depressing effect upon those who claim Ireland either as their native home or the land of their fathers. Hence in many places the annual rejoicings, which entail a large expenditure, have been abandoned, and the beauties of the day, instead of being given to the poor and destitute of the mother land, are sympathizing as we do with the people of Ireland in their hour of distress, and sharing in the sorrow of those who, in other lands, more happily situated themselves, bewail and seek to mitigate the suffering of their kindred, we heartily condemn the course which they have taken as appropriate to the time and born of those mingled feelings of patriotism and charity of which their action on this anniversary of St. Patrick's natal day is the outcome. The charity of the world flows open handed to the stricken people of Ireland. May it suffice to relieve their wants, and may the next recurrence of their national festival be possessed of all the old-time cheerful character.

Political Notes.

BILLIARDS AND BAGATELLE.

The Globe speaks of the game of bagatelle, which it denominates "billiards," while it denominates "billiards," the game of the comfortable classes. A greater piece of nonsense never was written, even by the Globe. We venture to say that there are (taking public rooms alone) twenty billiard tables in Canada for every one of bagatelle. Bagatelle might have been a popular game when Mr. Brown was a youth, but billiards has completely displaced it in popular favor, unless it may be in Toronto, where there is a large English population who adhere to the game which they played before emigrating to the old country. Thus the attack made on the tariff from a bagatelle player's point of view will find very few to sustain it.

A FAYING SPECULATION.

About the best paying speculation we know of for capitalists to speculate in, says the Brantford Courier, would be to invest some small change in buying Sir Richard Cartwright at the value the House placed on him at the conclusion of Sir Charles Tupper's speech, and then selling him at the estimate he placed on himself when he rose to reply to Sir Leonard Tilley. There would be millions in it.

IMPORTS AND EXPORTS.

The Quebec Herald puts the matter in a nutshell when it says: "During the first six months of the current fiscal year, the Dominion imported over \$7,000,000 worth of foreign goods, and for the same period last year, and exported nearly \$8,000,000 worth of our products more than for the same period last year. Thus, for the first half of our first Protected fiscal year, we find ourselves \$15,000,000 better off than we would have been under jug-handle free trade. It will not take very long under this policy, to change the balance of trade in our favor."

BANK STOCKS.

That a "boom" in bank stocks has been caused by the fiscal policy of the Government, is thus shown by the Montreal Shareholder—an able commercial journal—"The announcement of the Government fiscal policy has for the first time been beneficial in its effects on the money and stock markets, as will be seen by a reference to our table of quotations. Bank of Montreal has advanced since 20th ult. from 138 to 141; Merchants from 93 to 95; Commerce from 117 to 119; Toronto from 123 to 129; People from 60 to 67; Molson's from 80 to 81; Federal from 101 to 105; Hamilton from 99 to 101 to 102; Jacques-Cartier from 62 to 63, with a general upward tendency throughout the whole list."

The Anglo-American Cable Company are likely to lay another cable during the coming summer, to meet the largely increasing business.

What is Butyrine?

It is a substance extensively manufactured in New York and Philadelphia under the name of "Glaucoglycerine," and is composed of tallow, rendered out by a mode of heating by steam, after which, instead of being consigned to its natural destination of the candle-mould, is made to undergo a process of "clarifying," with sweet milk, after which it is salted and made up into rolls and packages in imitation of butter, to the great disadvantage of the stomachs of unwary purchasers, who would scarcely like the idea of greasing their mouths or toast with tallow candles. It appears that there is a movement on foot to introduce this article into the diet table of Canada, and Mr. J. Baker Edwards, Public Analyst of Montreal, discourses thus concerning it:

"If an article can be prepared from pure beef fat, having been obtained in this manner, it is 'Glaucoglycerine,' its use, as an economical substitute for 'butter' would rather be encouraged than condemned, as scarcely any article of food is condemned by the public in such an unmitigated and unhesitating manner as butter, and this, as the result of carelessness and uncleanliness on the part of the maker. Moreover, frequent use of Glaucoglycerine (which is salted and sold) no article of food is practically so clear as 'cheap butter.'"

Now Mr. Baker Edwards ought to know that beef-tallow, even when pure from a healthy animal is by no means so digestible as butter, eye even bad butter, and we have seen it recently stated that some manufacturers are not so particular as they should be in the selection of their tallow, and that there is a danger in its use of introducing into the bodily system of its consumers the use of trichina, and the germs of other parasites which are the cause of painful and fatal diseases. The way to avoid which danger is to refrain from its use, and to encourage the establishment of butter factories, from which a good and genuine article might be furnished both for home consumption and for export.

MORNING DESPATCHES.

EUROPEAN.

SHANGHAI, March 17.—It is stated that the Pekin authorities condemned Chung How, the late ambassador, to death. Shrewd judges believe the Emperor has been advised that the Kulji indemnity is too great, and that the best way to avoid paying it is to withhold his ratification of the treaty. Chung How is made a scapegoat. The decision carries with it grave complications, for the Emperor will certainly resent the parricide of the ambassador. A sudden warlike spirit seems to have taken possession of the Chinese.

FLORENCE, March 17.—The San Donato sale of old masters continues. Yesterday there was \$205,000 realized. Verbug's portrait of a man brought \$42,000. Van Dyke's portrait, Anne Cavendish, \$30,000. Turner's "prodigious son" \$19,000.

AMERICAN.

DENVER, March 17.—The bodies of two other prospectors have been found in the Blue Mountains, killed by renegade Indians.

PHILADELPHIA, March 17.—All through the Clearfield region miners are on strike. They are ordered by a most powerful organization of Knights of Labor. The Officers of the Association claim over 80,000 members in Pennsylvania alone.

TOLDO, March 17.—Three vessels have been chartered for the season by the Wahash line to secure the west bound freight by way of the Canadian line for the Wahash Rail way.

NEW YORK, March 17th.—The Herald's Washington special says it is almost certain that a majority of the committee on ways and means will vote to abolish duties upon articles which enter into the manufacture of paper.

The Herald land amounts to \$293,000. W. R. Grace ventured to offer to supply a quarter of a cargo of the relief ship *Comet*. Seven eighth of its cargo have now been furnished.

The Delavan carp mill, in Paterson, fell with a crash yesterday. 500 hands were employed; all escaped.

The ship *Madras* of the Sea, Jan. 26th from Philadelphia for Bremerhaven, was abandoned in a hurricane on Feb. 12th. Four of the crew were blown overboard and drowned.

The ship *Lloyds*, from Panama for Liverpool, encountered the same hurricane, and was also abandoned, sinking.

Arrived, the *Dresden* from Glasgow.

The piano manufacturers' union have prepared a card defending their action in resisting the workmen's demand. Haines Bros. have received an offer from California capitalists to furnish Chinese workmen at 50 cents a day, who could after a month's tuition become skilled workmen. Three to five millions security for the proper fulfillment of the contract is offered. Piano manufacturers yesterday discussed the proposition.

KROKUS, Ia., March 17.—The proposed sale of the Missouri, Iowa & Nebraska railroad to the Wahash Company has been ratified and contracts given out for a branch to Alba.

This branch contemplates a connection with the Iowa Central and the ultimate absorption of this latter road into the Wahash system.

Board of Education.

TUESDAY, March 16.

The Board met at the usual hour.

PRESENT.—Messrs. W. A. Shepard, (Chairman), Chase, Mann, Richards, Van Allen, Hudson, L. Diamond, Tracy, A. Diamond, Haynes, Macoun, McInnis, Doctor and Northcott.

The following parties sent in applications for appointments as teachers: Misses Sarah E. Simpson and Jennie Powell.

The Spring Assizes.

THIRD DAY.

MCCANN vs. COOPER.—Action for malicious arrest. This case has been tried twice. The plaintiff was nonsuited the first time; at the second trial the verdict was for plaintiff. The parties settled; verdict for plaintiff, 20 cents.

PLINT & JOLLETT vs. PLINT. Wallbridge for defendant.

LOSER vs. KETCHUM.—Action of trespass entering and searching plaintiff's premises for stolen property. Plaintiff's own evidence proved the searching to have been done under authority of a magistrate's warrant; plaintiff nonsuited. Clute for plaintiff, Diamond and Diamond for defendant.

SELECTION.

HOWARD vs. PALMER.—Action for seduction; Plaintiff is a colored man. His daughter, a girl of about 16 years old was seduced, as he alleges, by Duff, a young man about the same age. A male child, born on the 28th of November last, was the issue of said seduction.

MARGARET ANN HOWARD, sworn.—I am the plaintiff in the above case. My name is Margaret Ann Howard; I was 15 years old on the 3rd of Feb; the defendant's name is John Palmer; I was working out; worked at several places; I was living at Mr. Wolfer's when the defendant seduced me; I was out skipping with some girls when the defendant came along and took a hand in it; this was the first time I ever met the defendant. I went and got tea, and the defendant remained at it, and he kept his eyes on me; after I got my work done I went up to my room; after being there some little time, the defendant came into the room and shut the door; he got up and he stepped me by putting his hand against the door; he then took hold of me and forced me upon the bed; I tried to get up, but he would not allow me; I was completed his purpose. About a week after I was going home from church in the evening, when the defendant followed me and overtook me at the barn, and the defendant repeated these words to me on both occasions not to tell any one; I did not tell any one; I was afraid to. The first occasion was either the last of February or the last of March, 79. I am mother of a male child, the defendant is the father of the child. It was born on the 28th of Nov. last. I never had intimacy with any one besides the defendant. I know Hannah Wolfer, Willie Garratt and young Overell. I never carnally knew either of them. I am acquainted with Mr. Palmer and his daughter Mrs. Palmer. I never told them that the first time the defendant had any intimacy with me in April, 79.

JOHN PALMER, sworn.—I was sent to Galt to get an education; I returned and had some things to do with the getting of evidence in this case in my behalf; I think when she came out of the house I asked her to go to the barn.

By Mr. Wallbridge.—I did not get the girl to go to the barn; Wolfer got her there and she and he were coming out when I saw them; Wolfer said to me, 'I know you have intimacy with him and she replied in the affirmative; this was about seven in the evening; after Wolfer left her I went with her; I might have been very much excited; I do not remember what was said; I was employed at Sutherland's and left there on account of sickness; last March I was over fourteen years of age; I had no conversation with her prior to our intimacy.

By Mr. Burdett.—Although I swore at a prior examination that I assisted in inducing her to go to the barn, that is not true.

WILLIAM GARRA T, sworn.—I am seventeen years old; I know Margaret Howard and first got acquainted with her at Wellington four or five years ago; I heard her swear she had not had intimacy with any one but Palmer; that statement is untrue; I have been with the girl myself about two years ago.

Cross-examined.—I have known her to go with other boys.

ALBERT OVERELL, sworn.—I am seventeen years of age; I know Margaret Howard; I do not think her statement is true from what I have heard and from my own knowledge know it is not so, though I do not recollect it.

By Mr. Burdett.—Of my own knowledge I do not know of any one having had anything to do with this girl.

PHOEBE COOPER.—I am acquainted with Margaret Howard; I have seen her baby and attended her at the time of her illness; her child was a natural birth; her father lives near my place.

TO BE CONTINUED.

News Continued.

A party of 150 left Ottawa on the 16th inst. for Manitoba and Dakota.

The McDowell Company are expected in Winnipeg by May.

The Welland Canal is not expected to be opened before the first of May.

It is thought that Parliament will adjourn from Wednesday next to the following Easter Monday.

A few days ago, a train consisting of 15 cars laden with horses left Montreal for the United States.

The Iowa Legislature has adopted a constitutional amendment prohibiting the manufacture or sale of intoxicating liquor.

Parliament has adjourned over until tomorrow to allow members to attend the funeral of the late Hon. E. Holt.

The first of the political trials before the chief military tribunal has resulted in the conviction of the prisoner, who was sentenced to death.

The shipments of barley from Oswego by rail since March 1st have been over 85,000 bushels. The stock in store at the present time is about 240,000 bushels.

A quantity of diamonds, valued at \$375,000, have been stolen from the post-office at Cape Town.

Dennis Kearney, the San Francisco agitator, has been sentenced to six months imprisonment and a fine of \$1,000. He will probably appeal to the Supreme Court of California.

Messrs McKay and Co. of Ottawa intend shipping this week to Liverpool 20,000 bush of peas. Quite a large export trade in peas has sprung up at that port during the past year.

Vendor hit the snow storm this time. Here is his prediction: "I forecast a cold term ending in a heavy snowfall on the 15th, 16th and 17th days of March; the 16th and 17th to be the days of snowfall."

FIRE IN STRATFORD.—A serious fire occurred in Stratford on Monday night, the 15th inst., destroying the stores of Messrs. Williams, Welch, McInnis and Miss Byrne. The *Business Office* was injured by water, but the publisher hopes to issue the paper as usual this week. The total loss is estimated at about \$45,000, which is partially covered by insurance.

Correspondence.

While correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in such a manner that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

Sir.—A letter appeared in yesterday's *Intelligencer* respecting the Rev. Mr. McLean and Messrs. Hammond & Co's revival meetings, signed "Presbyterian," which of itself requires no comment; for though it be from a Presbyterian it is undoubtedly not Christian; or the writer would have, if ignorant of the facts of the case, inquired into them, which he admittedly has not done; more than this, he entirely ignores an authoritative communication in the same paper of Saturday's issue, and willfully slanders his eyes to the manifest dishonesty and falsehood of the remarks of the editor annexed thereto.

The paper generally are already fully aware of the circumstances connected with this matter, though the *Intelligencer* tries to make its individual readers think it is news to them. While not connected with his congregation, the writer yet has excellent opportunity of knowing his unwaveringly Mr. McLean relies upon truth, and upon the fact that truth will eventually assert itself. His unflinching integrity, and his readiness as a man and a clergyman to lend his valuable aid and influence to every good work tending to promote the well-being of his fellows, are too well known in this locality to admit of doubt, and for me or any one else to take upon me the defence and vindication of the Rev. Mr. McLean, would seem to be simply a piece of impertinence; but the matter has a wider bearing, and is a subject of general interest.

There can be but one opinion among all sincere and true Christians however their religious views may differ; be they Methodist, Presbyterian, Church of England, Baptist or Roman Catholic, and that is, that this wretched spirit of intolerance which has been manifested by the leaders of this so-called revival is utterly opposed to the very first principles of our religion and that against this sort kindred, resentments and ferocities are equally unavailing. Owing to the light we enjoy in this nineteenth century, it is more detestable than any intolerance exercised by hierarchies or despots in by-gone days, for then it was from an idea, though a mistaken one, of promoting the common weal, but this from a selfish desire of personal and sectarian aggrandizement. The present movement has developed its natural outcrop of "reson and malice," and has at length collapsed in shame on the head of its chief instigators.

The vast majority of those who were led to take part in these meetings were undoubtedly good men and women and desirous only of doing good, and entirely ignorant of this kind of malice and wickedness, and it would be another needless regret to have their good will spoken of even by those who differ most widely as to the wisdom of their methods. Those who went into those meetings with a conscientious conviction that they were doing right are worthy of praise, and that praise shall be accorded them by the Judge of all the earth, and they are glad to say, were many. But for the few who are responsible for the evil of the ring words of the Blasphemy Saviour moved them not but to greater animosity, what would the feeble words of man avail!

SIGMA.
Belleville, March 16th, 1880.

The Rev. E. Payson Hammond's Meetings in Belleville.

(To the Editor of the Kingston Daily News.)

DEAR SIR,—I beg to call your attention to the enclosed pamphlet and resolutions, and respectfully request that you will publish them in your issue after receipt.—I remain, yours very truly

ALEX. TURNBULL.
Sec. Com. of Arrangements.

BELEVEILLE, March 15, 1880.

At a meeting of the Committee of Arrangements representing each of the churches uniting in the revival services, inaugurated under the Rev. E. Payson Hammond, M. A., B. D., in Belleville, the following preamble and resolutions were unanimously passed:

"Whereas, in view of certain reports published in the *Kingston Daily News* and *British Whig*, in which it is deemed desirable to communicate to Mr. Hammond and the public our opinion of the management and of the religious character of the meetings in the city of Belleville; therefore,

"Resolved, first, That we, the representatives of the co-operating churches, hereby express our dissent to the alleged 'wonderful work of Divine grace accomplished in this city through the instrumentality of the Rev. E. Payson Hammond, in which several hundreds of our people have given evidence of sound conversion';

"Resolved, secondly, That we have learned to the highest esteem the Rev. E. Payson Hammond as an honest servant of our Lord, for his faithful and affectionate preaching of the Gospel, for his untiring zeal in 'ceasing not to warn every one night and day with tears,' for his great skill and power in organizing the work, for his prudent and unobjectionable methods of conducting the meetings and for his uniform kindness and courtesy to the ministers and churches of all denominations, by which he endeavored himself to the Christian people of our city.

"(Signed),
"Alex. Turnbull, Pastor of Baptist Church;
"R. W. Willoughby, Pastor Bridge Street Methodist Church; J. R. Jones, President of Albert College and University and member of Committee; John Yorke, Pastor of Methodist Church; R. S. Johnston, John St. Presbyterian Church, Belleville; R. Richardson, Bridge Street Methodist Church; Wm. Connor, Methodist Episcopal Church; William Cunningham, Methodist Episcopal Church; William Reeves, Bridge Street Methodist Church; R. Lane, Pastor Methodist Episcopal Church; E. H. Badgley, Professor in Albert College; E. H. Shank, John St. Presbyterian Church; R. Jones, Pastor Methodist Episcopal Church; W. H. Worth, Superintendent Bridge Street Sunday School; A. O. Connor, Minister Congregational Church; Pastor H. H. Jones, Superintendent Bible Christian Sunday School; J. H. Schuster, Minister Bible Christian Church; O. R. Lamely, Pastor Bleeker Street Methodist Church."

LORD LIEUTENANT OF IRELAND.—The rumor has been revived and industrially circulated, that the Duke of Cambridge is to succeed the Duke of Marlborough as Lord Lieutenant of Ireland, at Dublin.

BELLEVIEW, WEDNESDAY, MARCH 17.

City and Vicinity.

THE STORM.—One effect of the snow

storm was to cause the employment of two

horses on each of the street cars.

CLEARING THE TRACK.—A number of

laborers were employed to-day clearing the

ice from the railway track on Pinnacle

Street.

POLICE.—There were two tramps and

one prisoner in the cells last night. The

officers on duty report that last night the

door of D. Coyle's hotel was found un-

locked.

NORWOOD CHEESE FACTORY.—Mr James

Bird, of Holloway, writes to correct the

statement that he had leased the Norwood

Cheese factory. He has not leased, but

has bought and paid for it. Our infor-

mation was obtained from the columns of

Norwood Register.

VALUABLE PROPERTY.—It will be seen

by advertisement, that some very valuable

mill property in Shannonville will be sold

by public auction on Friday next, the 19th

inst., by Chas. Wilkins. As the property

must be sold, a bargain may be expected.

THE LUMBER BUSINESS.—A despatch from

Mill Point says:—H. B. Rathbun & Sons'

lumber mill made its first start to-day

since closing last fall. This is about a

month earlier than usual. There is every

prospect of there being a very busy

season here in all branches of business.

BELLEVIEW BRANCH BIBLE SOCIETY.—

The anniversary meeting of the local branch

of the Bible Society will be held, as per

advertisement, on Monday evening next,

the 22nd inst., in the City Hall. It is the

duty of Christians of every name to give

public expression to their estimate of the

Bible, and the annual meeting of the Bib-

le Society affords an opportunity to do this.

We hope to see the City Hall crowded on

Monday evening.

KINGSTON ROAD CHURCH.—A most suc-

cessful tea meeting was held in the King-

ston Road Methodist Church yesterday

evening; the attendance was large, the

viands "à la" the music well rendered,

and the addresses interesting. The Rev.

N. R. Willoughby, M. A. occupied the

chair, the music was rendered by the choir

of the church, the addresses were delivered

by Mr. Bradley, Mr. Wm. Wensley, Mr.

Wm. Johnson and Mr. R. Richardson.

Mr. McCammon favored the audience with

a beautiful reading with musical accompan-

iments, which was well rendered by him.

The proceeds of the meeting were some

\$35.

PRESENTATION.—A very pleasant re-

union of the members of Mrs. Elliott's

Bible class, took place last evening at the

residence of their teacher, Bridge Street

West. During the evening one of the most

pleasing events was the presentation of the

sum of \$27.10 to the trustees of the

Church, being the contributions of this

class towards paying off the debt on the

Church. The presentation was made by

Miss Maria Dulmage, the oldest scholar

of the class, being a member ever since its

organization, some six years hence. After

the presentation Rev. Mr. Locke replied

on behalf of the trustees, thanking the

class for the very handsome sum, which

they had so willingly given. Other brief

addresses were made by Mr. John Sher-

man, and Mr. Elliott, and a vote of thanks

was carried unanimously thanking Mrs.

Elliott for the efforts she had made towards

collecting the money and for the very

agreeable, as well as profitable entertain-

ment provided for the class during the

evening.

IN MORNING.—The I. C. B. U. hall

was to-day draped with mourning on

account of the death of Mr. Thomas Hall,

one of its members, who died from that

fall destroyer consumption.

NEW PAPER.—The Emerson News

is the title of a new journal published at

Emerson, Manitoba, by Mr. A. D. Peter-

son (formerly of this city) and others.

The first number, dated March 6th, is

before us. It is a neatly printed sheet of

32 columns, and appears to be conducted

with ability. The News is Reform in

politics, and its leading editorial is couched

in moderate language and expresses broad

views. We wish Messrs. Peterson & Co.

success in their venture in the field of

journalism.

CRICKET.—The cricketers of this city

will be sorry to learn that their old time

worthy and skilled antagonists of the Port

Hop Club are threatened with dissolution.

Thus it is stated by the Times of that

town: "Port Hope Cricket Club, we

fear, will be one of the things of the past.

The lease of the ground has expired, and

cannot be renewed. The club is a good

one, and we should like to see a portion

of our public park levelled and appropriated

solely for the purpose of cricket." It is

to be hoped that the Town Council of Port

Hope will have good sense enough to adopt

the Times' suggestion and save to their

municipality one of its most creditable or-

ganizations—one of the best, we might say,

in the Province.

LITTLE'S LIVING AGE.—The numbers

of the Living Age for the weeks ending March

6th and 13th respectively, contain the fol-

lowing articles: The New Fiction, West-

minster, The Beginnings of Greek Sculp-

ture, Porphyry, The Present Conditions of

Art, The New Fiction, The New Fiction,

Contemporary, A White Rajah, Blackwood,

The Exiles of Siberia, Argosy, My Baby or

My Dog, The Banquet, The Chinese Ban-

quet, The Chinese Banquet, The Chinese

Leisure Hour, How Far is Common sense

attractive? Sermons by Dr. Martineau and

Edison, and The Living Age, The Living

Age, and The Living Age, The Living Age,

with illustrations of "Celia, an Itly," and

"Bash Life in Queensland," and the usual

amount of poetry, Serial stories by Mr. Ol-

iphant and the author of "The Red Book,"

has recently begun, and the publishers pre-

sented to the new subscribers for 1880 the

number of 1879 contain the opening

chapter of both. For fifty-two numbers of

sixty-four large pages each (more than 3,300

pages a year), the subscription price is \$10

while for \$10.50 the subscribers will send

any one of the American \$4 monthly or

weeklies with The Living Age for a year, in-

cluding the extra numbers of the latter, both

postpaid. Little & Co., Boston, are the

publishers.

Police Court.

(Before A. Diamond, P. M.)

WEDNESDAY, MARCH 17.

LEAGUE.

John Genuerous brought up for trial

on the charge of breaking into a building

belonging to Alderman Farley and stealing

therefrom several articles, the property of

that gentleman. Prisoner elected to be

tried summarily and the evidence was very

strong against him, but the Magistrate gave

him until to-morrow to get evidence for his

defense.

Marine Notes.

The following items are condensed from

the Oswego Palladium of Monday:

The Oswego tug association have fixed

their rates for towing during the season of

1880. They are materially lower than last

year.

The tug C. P. Morey, captain James

Pappa, made the first trip from Oswego

harbor for 1880 yesterday, when she went

to Big Sodus with Mr. Geo. Goble to view

the schooner Marquis, ashore at that place.

They boarded the beached vessel and found

her in good condition but were unable to

make soundings in the lake, owing to a

heavy sea running. They will make another

trip to the Marquis to-morrow, weather

permitting.

CORONADO, March 12.—The schooner

Caladonia has been sold by Wm. Haycraft

to Capt. Maitland, and the present owners

of said vessel are Messrs. Matthews &

Maitland of Brighton, Ont. The schooner

Eliza Fisher, Hannah Butler and Caladonia

are chartered to carry from 3,000,000 to

4,000,000 lbs of lumber from Cobourg to

Oswego at private rates. With the above

three schooners, the schooner Nellie Hun-

ter has been wintering at this port. No

others. The yacht Countess of Dufferin is

now undergoing repairs, for what purpose

is not known.

MILL POINT, March 12.—Sales of vessels

here have been good. The schooner

Amie Mulvey is sold at \$6,000. The

Kittie Eccles is sold to Campbell & Ma-

thers at \$7,500. She is loaded with ice

for Charlton and will be commanded by

Capt. H. Mathews. The schooner Edward

Bald, sailed by Capt. D. McDonald, is

repairs here. Her bill will be about

\$6,000. The steam barge Saxon, sailed by

Capt. U. Vanalstine, is being repaired to

the amount of \$600. The schooner F.

Howard is being repaired at a cost of \$4,000.

The bay trading steamers Desoronto and

Pilgrim are being overhauled. They are

building a new tug for Georgian bay, 80

feet long, 16 feet beam and 9 feet depth of

hold.

BATH, March 10.—The schooner Flying

Scud has been sold to Capt. Ostrander of

Sedon and will be ready for service by May 1.

She will make a fine vessel of her class.

The schooner Geo. Sufell is loaded with ice

and the schooner Picton is also laden in

Picton. The schooner Paragon is ice laden

at Button Bay. The schooner Geo. Sufell

has changed captains and will be sailed by

Captain W. Campion. The times look some

brighter than last year.

It is reported that a vessel owner in To-

1891

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:

STILLING.—At the drug store of Dr. G. H. Boulter, M. P. P.

CAMPBELLFORD.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.

HANTON.—Of Mr. David Morrison, at the Post Office.

MARCO.—At the store of Mr. C. G. Wilson.

Extra copies of each day's issue can be obtained at the above places.

GEORGE P. ROWELL & CO.,
4 PARK ROW, NEW YORK.

J. H. BATES, 41 PARK ROW, NEW YORK.

AS our Agents in that city, and are authorized to contract for advertising at our lowest rates.

Daily Intelligencer.

BELLEVILLE, THURSDAY, MARCH 18.

Benefits of the N.P.

Herewith appended are a few more examples of how the country is being reaped under the N. P.

Messrs. C. S. Hyman & Co., of London, report that the N. P. enables them to manufacture a class of children's shoes of which previously the Yankees had a monopoly. Also, they are so crowded with orders that they were unable to obtain a sufficient number of workmen in Canada and so were obliged to import men from the United States. Messrs. J. C. Merritt & Co., of the same place, have a similar experience to relate.

The London furniture manufacturers report business brisker now than for six years past.

Tenders have been asked for the supply of barrels for the Halifax sugar refinery, and work on the refinery at Moncton, plans for which have been prepared and contract let, has commenced.

Messrs. Park's cotton mill at St. John, N. B., is being run 14 hours per day and will continue so during the summer.

Messrs. Goldie & McCulloch, Galt, are erecting new buildings for the manufacture of fire and burglar proof safes.

A dozen people are employed in Hamilton making kegs for the nail factory, which owes its existence to the N. P., and as men are employed in chopping, sawing and shipping the kegs, work is provided for at least half a dozen men, in addition to the coopers.

The site for a new glass factory to be established in that city has been purchased in the east end of Moncton.

The buildings for the Peters Locomotive factory at Moncton, N. B., are progressing rapidly.

Another pottery is being established at St. John's, Quebec.

The knitting factory in the same town has been removed to new premises, and has had its capacity increased.

The St. John Bolt and Nut Company with capital \$60,000, applied for incorporation, works to be at Portland, N. B.

The Barrett woolen mills at Port Hope, which were shut down four years ago because of the impossibility of competing with slaughtered American goods, are to be reopened.

Mr. Richard Davis is at work on a new glass factory at Thord.

The Montreal *Witness* says:—The Coaticook cotton mill, being erected for some time past, it is expected, begin operations early next month. The machinery has all been placed and a large quantity of cotton has this week arrived. The new mill will be of the capacity of 200 looms and will commence with a run of 12,000 spindles.

A new cotton company has been formed in St. Stephen, N. B., capital \$300,000. The mills which are in course of erection will be of capacity sufficient to run 20,000 spindles. A charter has been this week applied for. This will make two first-class cotton mills in New Brunswick.

The Stormont Cotton Company give a good account of the work done in their mills during the past month. Looms continue to run on full time, and orders have been received which will tax the full capacity of the works during the next three months. Some very superior cottons have lately been manufactured at these mills at from seven to nine cents per yard.

The Canada Cotton Company at Cornwall, are this month making important additions to their already extensive dyeing department, the building being enlarged, with facilities for cotton dyeing in colors not heretofore attempted are being introduced. It is the intention of the Company, when the additions are completed, to dye everything in the way of cotton goods that the country may require. It may be added that the stock of this Company has advanced to 40 cents in the dollar, from 10 cents last December.

There are three good-sized pork packing houses in Hamilton, and, according to the *Spectator*, their proprietors are as one in declaring that the new tariff has helped their trade.

The *Mail* says:—"The machinery for a new industry—the manufacture of saddlery hardware—was cleared at the Custom House, Toronto, on Tuesday, Mr. Martin, the proprietor, has removed from Newark, N. J., and will open his factory in Burke's building, corner of Sheppard and Richmond streets. He says the 30 per cent. duty brought him to Canada."

The Berlin News says: Our Knitting factories are kept very busy. They have orders months ahead, and could easily dispose of four times as many goods as they can possibly turn out. Formerly nearly all this kind of goods were imported. Of course the N. P. don't help the country a cent's worth.

The same journal states that a new 60 horse power engine is to be placed in the Dominion button works at Berlin, and that an addition 50 ft. x 60 ft. and five stories in height, is to be made to the present factory buildings. These improvements will cost \$50,000.

Mr. Henry Schuler, of Paris, maker of stone ware, &c., &c., now manufactures mustard jars. A Hamilton firm, Funn & Co., imports mustard seed, grinds it, and fills these jars, which are then sold with their contents, to the wholesale grocers of our various cities.

A new factory for the manufacture of paint, putty, white lead, &c., at Halifax, is nearly completed and will go into operation about the 1st of April.

The shipbuilding trade in New Brunswick and Nova Scotia is quite brisk. And, still, despite the above facts and many hundreds of others of similar import which have been chronicled in the press generally, the Grit newspapers assert that there are fewer men employed now than under the ruinous Cartwright tariff. Let us ask them in what branch of manufacturing are there fewer men employed? Is it in the cotton, woollen, furniture, button, nail, agricultural implement, axe, carriage, boot and shoe, glass, sewing machine, knitting, or other factories?—in the locomotive or machine shops—the foundries, potteries, rolling mills, iron furnaces, pipe yards, or any other of our varied industries which they can name? If so let us have particulars, and we challenge the *Globe*, which is the great organ of the irreconcilable and pro-Yankee free-traders, to give results of inquiries amongst all manufacturers, in the city in which it is published, Hamilton, Montreal and elsewhere in Canada wherever it has regular correspondents to make good its assertion if it can. Let the nation as to number of men now employed in the same branch of industry as was employed in the same branch of the years 1873 or 1879, say for the month of February, and let every manufacturer be particularized, and that the truth will be made clear. There has been plenty of reckless assertion on the part of the Grit organ; let it now give the proof of its statements, or cease to assert what the facts on their face show to be wide of the truth.

MORNING DESPATCHES.

EUROPEAN.

LONDON, March 18.—The *Post* says: Russia and England are striving to foment a war between China and Japan, England backing China in the hope of weakening Russia, and Russia backing Japan as a defence against the aggression of China. There is little doubt but that war would have been precipitated last summer, but for the accidental presence of the ex-President, and for the consels by which he strengthened the peace party. Unless American diplomacy intervenes, and the American Government mediates, there is a prospect of a cruel war between China and Japan.

GRAND RAPIDS, M., March 18.—The failure is reported of Hibbard & Groff, millers, E. H. Randall, President of the Farmers & Merchants' Bank, and H. Hinsdale, capitalist. Liabilities not definitely known, but include nearly \$400,000. Borrowed money the cause, and speculation in grain operations.

LYNCHBURG, Va., March 18.—Wood Bros., Flood & Smith's, and Hancock & Morman's tobacco factories, were burned yesterday; loss \$60,000 to \$100,000.

FLORENCE, March 18.—The demolition sale of pictures by the old masters yesterday realized \$287,000. Rembrandt's *Vannoy Lucretia* brought \$29,000; Van Ostad's *Fete in a Cottage*, \$29,000; Vandyke's *Young Girl*, \$25,000; and his portrait of a young woman, \$25,000.

NEW YORK, March 18.—The Herald's cable says Russia is preparing to fight China in the alliance with Taikien and also for the Loo Choo question. China has raised \$80,000,000 for war purposes. Some attribute China's perverse course to British influence. Japan is reorganizing its army on the European plan.

The Times' Washington special says minister Christian is about to commence divorce proceedings against his young wife, formerly a clerk in the Treasury department. The wife denies that she has been unfaithful and says she intends to claim a divorce and that Christianity commenced to treat her cruelly a month after marriage.

Miss Raymond created a sensation yesterday. She had threatened to Senator Hill did not relieve her distress she would confront him with her child in the Senate Chamber. She appeared at the Capital yesterday. Hill's private Secretary induced her to enter the Committee room on a promise that Hill should be brought to her. Hill then left the capital.

NEW YORK, March 18.—The Herald fund aggregates \$235,000. The Herald announces, this with the proceeds of matinee benefit, held yesterday, will increase the amount to over \$300,000. Thibault & Co. have donated 300 barrels of cornmeal to complete the cargo of the relief ship *Constellation*.

The marine insurance pool organized a year ago by twenty-two companies to divide the earnings has been dissolved, as some of the companies were dissatisfied. Context of the will of the *Comet* Miss Louisiana of St. John, who left a million to a number of relatives in central New York, has been withdrawn.

Rev. Biscoe, pastor of the Arlington, N.S., Methodist Church, is accused of improprieties with young women, and has been suspended from all the functions of the ministry until his trial by the Conference.

NEW YORK, March 18.—The Herald Relief Committee have received nearly 600 applications, and grants of from \$50 to \$125 have been made in about twenty cases.

The Herald's Albany special says that St. Patrick's day was celebrated yesterday by some Assemblymen wearing green neckties. Speaker Sharpe presided with a very obtrusive beam of green on the lapel of his coat, and a piece of green silk wound around his gavel.

FOR THE WEST.—Three passenger trains conveying 1,200 emigrants for the West and North-West, passed over the Grand Trunk Railway yesterday. Half of the emigrants go to Manitoba and the North-West Territories.

The Spring Assizes.

THIRD DAY.—(Continued.)

In the case of Dixon vs. Taylor, the plaintiff found when the case was called on, that one of his witnesses could not find some important papers required for the trial, and rather than go on without them the plaintiff withdrew his account due by the said firm.

Dickson for plaintiff; Denmark & Northrup for the defendant.

FOURTH DAY.

SUIT FOR THE LOSS OF AN EYE.

JONES vs. GRAND TRUNK RAILWAY.—This action was brought by the plaintiff for the loss of an eye occasioned by the explosion of a fog signal at the station in this city on the last Dominion Day.

The plaintiff was at the depot awaiting the arrival of the midday express, on which he expected his father would come from the west. Whilst there, and just as the train approached the platform, a puff of steam exploded and a piece of it entered the left eye of the plaintiff and he lost the sight of that eye. This action was therefore brought to recover damages from the Company for the loss sustained by the plaintiff.

D. GUNN, sworn.—I am the station agent here; I have supplied some fog signals, which are used in foggy weather to notify ships, and in the case of the explosion of a fog signal on that day; they were never considered dangerous, and were put wherever they were wanted; trains are not allowed in the yard unless the track is clear; on that day I did not notice any fog on the track; I had no one on the track to keep the people off; I have been station agent here for five years and have only given fog signals to the employees of the company; I got my signals from the store department in Montreal; I did not order the signals to be put on the rails on the 1st of July; I did not know for what reason they were put on if they were; on that day I heard that Mr. Jones had his eye hurt by a fog signal; Samuel Robinson attends to the semaphores in the signal box and he does not leave it only from dinner until the time he leaves it at night; I have put fog signals on the track; there is a possibility of not fixing the fog signals on the rails; they have clamps on them; they are not considered dangerous.

Cross-examined.—I have been engaged in railway matters for 21 years, and never heard of any one being injured before this; they are supplied to engine men for cautionary purposes; conductors and brakemen are also supplied with them, and they are not given for frolic or fun; there was no order to give these signals on the occasion; no fog signals were put there on the 1st of July for the use of the Company, and on that day they have been put there for a fool's sake purpose.

I have not been in the employ of any other Company; I don't think a railroad could be worked at certain times without them; the signals are used on all occasions when prompt action is necessary.

JOHN MCNEIL, sworn.—The fog signals are useful, but I have never heard of any dangerous results from them before; I was hit on my back by what might have been a fog signal on the 1st of July; on that occasion I heard a report and felt the blow.

Cross-examined.—I have never heard of an accident before this time; I have used these signals.

JAMES GLASS, sworn.—I have never heard of fog signals being kept by hardware men.

H. BOCHER, sworn.—I am in the employ of the G. T. R. and on the 1st of July last I was on the platform before the noon train came in on that day; I saw two fog signals on the south rail; others saw them; I heard the explosion on Jones' eye; I do not know who put the signals on; I saw Jones put his hand to his eye after the explosion; I saw no real necessity for putting signals on the rail at that time.

Cross-examined.—There is no one kept at the station to keep people off the track; Mr. Allan's position is that of baggage-man and he is actively employed prior to the arrival of trains; Jones was standing about ten feet from the rail when the accident occurred; I have not heard of such an accident as this before; I did not see any of the G. T. R. men put them there; had I stepped down to take them off there might have been danger to me, as the train was very near; I apprehended no danger.

SAMUEL ROBINSON, sworn.—I am employed by the G. T. R., and have been in their service for nine years. I was there on the 1st of July last; I had no signals in my possession that day, and did not see any on the rails on that day; I have never used them, but have seen conductors with them; Jones asked me who put them on the track and I could not tell him.

Cross-examined.—I saw no reason for putting the signals on the track on that day.

(TO BE CONTINUED.)

The Late Hon. L. H. Holton.

The funeral of the late Hon. L. H. Holton took place on the 17th inst., and the *Witness* says, "scarcely had there been a larger gathering of people, or a more general representation of the worth and influence of the Dominion than there was present." The Dominion Parliament having adjourned on Wednesday, a special train carried a very large number of the members and Senators to Montreal. It is estimated that not less than four thousand persons were present. The pall bearers were Sir A. T. Galt, Mr. T. Workman, Hon. Mr. Blake, Chief Justice Dorian, Sir Francis Hincks, Mr. Thomas Cramp, Hon. L. S. Huntington, and Hon. A. Macdonald. Amongst the mourners were Messrs. W. E. Holton and C. P. Holton, nephews of the deceased. In the procession were representatives of the Montreal Board of Trade, St. George's Society, St. Andrew's Society, St. Patrick's Society, Le Club National, Irish Protestant Benevolent Society, the leading citizens of Montreal, and a deputation of sixty electors from Chateauguay County, the constituency which the deceased represented in the Dominion Parliament.

CANADA'S CONTRIBUTION.—Sir Michael Hicks-Beech proposes that the \$100,000 voted by the Canadian Government for relief of the distressed Ireland shall be placed in the hands of three members each of the Dublin Mansion House and the Duchess of Marlborough's Relief Committee, and he suggests that the money be applied in reproductive works, such as providing boats, nets, etc., for fishing purposes.

News Condensed.

—H. R. H. the Princess Louise enters on her thirty-third year to-day.

—Joe is being shipped to the United States from Kingston via G. T. R. Railway.

—The brigades who carried off Col. Synges are negotiating for his ransom.

—The Allan mail steamer *Polynesian* arrived at Halifax at 5.30 p. m. yesterday.

—Prof. Nodding, of Berlin, was called to England to assist the British Arctic Commission.

—The Hochalps steel factory at Montreal, is to be rebuilt, and will employ fifty hands.

—M. De Lesseps arrived at San Francisco yesterday. He was welcomed by the French citizens.

—Mr. Barry Sullivan, the actor, is mentioned as a probable candidate for Parliament for Belfast.

—A Brockville gentleman, named Dingley, was robbed of \$310 at the Bonaventure Station, Montreal, on the 16th inst.

—A special train for Manitoba left Ottawa yesterday morning. There were three passenger cars and ten freight cars.

—New emigrant ships are ordered at St. Boniface, Emerson, and Turtle Mountain, Manitoba.

—The *Polynesian*, which arrived at Halifax on the 16th inst., brought 118 immigrants all of the better class, who will make excellent settlers and citizens.

—In the wrestling match at Kingston on the 15th inst., between D. C. Ross and J. C. Daly, the former won the match, throwing Daly four out of five times.

—A party of workmen had a torch-light procession in Ottawa last night. They waited on Mayor Mackintosh and presented him with an address.

—At a second entertainment in the village of Weston for the relief of Irish distress \$130 were realized. Oatmeal will be purchased with the money.

—The salary of the Rev. Dr. John Hall, of New York, has been raised from \$10,000 to \$12,000 a year. Dr. Hall was at the time a leading Presbyterian minister in Ireland, as he is now in the United States.

COMMERCIAL REVIVAL.—The Toronto *Telegram* takes a hopeful view of the future. It says:—"The outlook for a general, commercial revival, which will set the wheels of trade spinning at a lively rate, is said to be excellent, and to give promise of a chance for tradesmen and persons engaged in industrial pursuits making money hand over fist. Every thing seems to be favorable to the good spring trade, and if the pessimists will only cease their complaining for a little while, and give business a fair chance to revive, we shall soon hear the last of the talk about commercial depression and hard times. From all over the continent come promises of a revival of trade, and if no unforeseen accident intervenes, it is likely that the whole of the official agencies will be compelled to emigrate and the bull will be as extinct a species of bird as the Dodo."

AFTERNOON DISPATCHES.

BERLIN, March 18.—The Emperor William's 83rd birthday, which occurs on the 22nd inst., will be celebrated by the presence of a number of royal visitors.

Under the operation of the new protective tariff, foreign goods are being gradually ousted from the German markets.

LONDON, March 18.—A St. Petersburg correspondent says the Hartmann affair is likely to lead to the displacement of the diplomatic relations responsible for raising the issue between Russia and France without being sure of succeeding.

If Melikov can maintain his position against the intrigues of the corrupt officials surrounding the Emperor, he will abolish the 3rd section of the police department and its evil system of repressive secret persecution. Melikov's appointment as virtual dictator, really means conciliation in the end. A compromise is being tried under terms of no surrender. The problem is how to yield with dignity.

Representatives of the nobility, clergy and communal and municipal Councils are to be associated with the supreme executive Commission.

HAMBURG, Pa., March 18.—One man was killed and three injured last night at Anville by being struck by an express train.

WASHINGTON, March 18.—It is expected that the official returns for February will show that the balance of trade is against the United States for the first time in five years.

MR. DOTA, Ill., March 18.—The Chicago ivory button manufactory, with the adjoining soda water factory and two dwellings, were burned. Loss \$20,000.

PROVIDENCE, R. I., March 18.—The Republican State Convention nominated Alfred H. Lytle for Governor.

WEATHER REPORTS.

TORONTO, March 18.—Probabilities for the next twenty-four hours: For the lower lakes, fresh to brisk winds, mostly from south and east; partly cloudy to cloudy weather, with areas of snow or rain.

WASHINGTON, March 18.—Indications: For lower lakes, increasing cloudiness, rain or snow warmer temperature followed by colder winds.

ANNUAL MEETING OF THE BELLEVILLE BRANCH BIBLE SOCIETY.

Monday Evening next, the 22nd inst.

The Committee respectfully request the attendance of the Christian people of the city, to mark their esteem at once for the BIBLE, and the wonderful work being done by the present Society for its dissemination.

Addressers will be delivered by resident Ministers and others.

There will be no collection at the meeting.

W. JOHNSON, Secy.
March 18, 1880.

M. SAWYER, President.

Notice.

THE public are hereby notified that the two dwelling houses belonging to Mr. Northrup near the G. T. R. Station, where the small-pox first broke out, have been disinfected and thoroughly cleaned, so that the houses are now tenable.

DR. CULLETT, Health Officer.
Belleville, 18th March, 1880.

AUCTION SALE

OF
Steam Mill and Village Lots in
Shannonville.

THE sale will be offered for sale by Public Auction, on

Friday, the 19th day of March, 1880, at 12 o'clock, noon, at Chisholm's Hotel in the Village of Shannonville, unless previously disposed of by private sale.

That desirable property, consisting of Lots 47, 48, and 49, on North-west side of Queen Street, in Shannonville, Ont., and Lots 47, 48, 49 and 50, on the North-east side of the same Street, containing in all about one and a half acres.

Upon this property is a valuable STEAM MILL, which cost originally over \$6,000, known as the Stevenson or Saxmuth Mill, with machinery complete.

TITLE PERFECT. The Vendor will reserve one bid.

The property may be purchased in one lot or in separate portions, to suit purchasers.

For further particulars apply to Chas. Wilkins, Auctioneer, Belleville.

Chas. WILKINS, Auctioneer.

THE ICE BOOM.

HOW IT SHOWS ITSELF HERE.

What has been Done and What is Doing.

PERSONAL.—Judge Dean, of Lindsay, is in the city.

INSPECTING.—The Grand Jury are inspecting the Deaf and Dumb Institute this afternoon.

NEW TELEGRAPH OFFICE.—The Dominion Telegraph Company have opened an office at Everett, Ontario.

PERSONAL.—Mr. R. M. Britton, Q. C., who conducts the criminal business at the present Assizes, arrived here this morning.

DRAMATIC.—The Belleville Historical Association have had the tragedy of "Othello" in preparation for several months, and will perform it in the Opera House on Easter Monday, the 29th inst.

THE FREE PRESS.—It is said that the machinery of the Mary Ethel is now being put in order and if this weather continues she will be able to cross to this side on Friday night. The ice, however, in that locality, is as yet hard and people cross it as usual.

A NARROW ESCAPE.—Shortly after one this afternoon as Mr. Norval Bonestell, of Sidney, was passing over the crossing in front of the INTELLIGENCER building, westward, a rideless horse came down Front Street and narrowly avoided throwing him down. The horse galloped around the market and was eventually caught near the hay scales without a bridle.

RUPTURE.—As Mr. Gibson, of Tyndal, was proceeding down Front Street yesterday afternoon, he was assaulted, when in the vicinity of Campbell's elevator, by two men. These parties threw their arms around him in a manner more affectionate than agreeable, but being a powerful man, Mr. Gibson easily freed himself from their embrace. The men, who are yet unknown, appeared to have been drinking, and their object seemed to be to procure money to purchase liquor with. They got nothing, and are likely to be found out and punished as they deserve.

EXTENSION FUND.—The Relief Extension Fund of the Methodist Church of Canada, which was commenced last July, has now reached the large amount of \$100,000, of which \$60,000 has been paid in cash. This amount has been subscribed by 499 circuits and 937 ministers. There are yet 294 circuits to hear from, and the amount of \$150,000 is expected to be collected. The returns from circuits to date are as follows: Toronto, \$21,898; London, \$23,932; Montreal, \$10,146; Nova Scotia, \$5,172; New Brunswick, \$4,136; Newfoundland, \$2,233.

RATS.—The amount of destruction caused by these rodents during the winter is very great, especially in elevators and grain storerooms. They seem to be particularly numerous in town at present, as forty of them have been killed within a few days on the premises of one firm, and a short time ago a much greater number were destroyed in one of the elevators. A first class rat catcher ought to be able to secure a profitable job in Belleville for a week or two.

MORE ACCOMMODATION REQUIRED.—We again call the attention of the authorities to the lack of sufficient accommodation in the Court room for the representatives of the press. Frequently reporters find the two restrained quarters at present occupied by them on sufferance tenanted by lawyers' clerks or counsel, who occasionally—though to their credit be it said, only occasionally—refuse to make room for the reporters, who in this matter may fairly be said to represent the public at large. This is highly annoying and very inconvenient when all the other desks are occupied, and ought no longer to be the case. We therefore ask that accommodation be provided for the special use of the press, and feel confident that so reasonable a request will be acceded to without delay. The Sheriff and the Clerk of the Court, we may add, are always obliging, but they cannot in all cases prevent the one desk usually occupied by journalists from being usurped. Perhaps the County Council, if the matter lies within the province of that body—and it probably does—will deal with the subject at their June session.

POLICE COURT.—(Before A. Diamond, P. M.)

THURSDAY, March 18, 1880.

DEUNK.—John Brown—not the original—put in his first appearance at this court to-day and was dismissed.

LARCENY.—John Gero appeared on remand charged with the larceny of some goods, the property of Alfred Papp. He was convicted and sent to goal for two months at hard labor, and he says he isn't guilty.

MARINE NOTES.—The propeller Indian, recently purchased by Messrs. Gilmore & Co., will be converted into a steam barge and will tow lumber boats from Trenton to Oswego. She will be commanded by Capt. Alexander Cuthbert.

The following will be of interest to some owners of vessels as may contemplate carrying iron ore from Belleville to Buffalo:—The Buffalo builders and dockmen have agreed on the following rates for dockage: Twenty-five cents per ton for vessels of 10 tons and upwards to 500 tons; all tonnage in excess of 500 to be ten cents for the excess, but in no case to exceed \$175; propellers to pay dockage only upon measurement below the tonnage deck.

Capt. Thomas Blanchard of Toronto, who sailed the steamer Kincardine last year, has been from schooner Canadian.

The schooner Dominion, which has lain sunk at Kingston five years, is to be raised and put in commission.

A boy two years and a half old, son of Chas. White, living near St. Mary's, wandered away from home on the 15th inst., and was found dead the next day in the woods, about three miles away, having perished in the snow from fatigue and cold.

THE HARBOR.

What is Being Done There.

A few days since a gang of men under the direction of Captain Jellett went to work for the purpose of making a channel 100 feet wide for the ferry steamer Prince Edward to pass through. The task at first was apparently an easy one, as the work was begun at the edge of the ice where the bay has broken up. Good progress was made up to yesterday, and the dock on which the light house stands had been reached, when another ice manifested its presence and greatly delayed the efforts of the men. Large blocks were cut and separated, but they for a time resisted all efforts to move them, as the ice underneath hung tenaciously to them and almost defied all the exertions of the men to remove them. Persistent effort, however, gradually resulted in success, and by one of the large sections of ice was put away to float off under the influence of the wind and the action of the current southward. The work is still going on, and it is expected that the steamer will commence running on Saturday.

The boat is now ready to move, and as soon as the channel is open will begin the season's work. A great deal of the ice was cut by Captain Jellett for his efforts to open up communication between the north and south shores of the bay.

"TELEGRAPH," the new powder for whitening the teeth, stimulating the mouth and purifying the breath; the brightest, safest, costliest toilet gem extant. Ask your druggist for "Telegraph." Price 35 cents.

"Old Reliable." There are many reputed remedies for that very prevalent disease, Chronic Nasal Catarrh but none which have given general satisfaction and become acknowledged standard preparations except Dr. Sargent's Catarrh Remedy. It continues to enjoy an unprecedented popularity. This reputation has been earned through the permanent cures which it has wrought, having proved itself a specific in the worst forms of the disease. In fact so reliable is it that it former proprietor offered through all the newspapers a reward of \$500 for the name of a Catarrh that it would not cure. Sold by druggists.

The Hunter! A hunter's life is one of patience and hardships. Going into outlying and uncivilized regions, he must watch and resort to subtlety to secure his prey. But his life is one of great attraction. He is usually very methodical, putting up with the coarseness of the camp. Sometimes his camp is enlivened by the presence of an enthusiastic, when expenses are ignored and every possible adjunct to comfort is provided. Old "Sharp Eye," the leader, knows the favorite spots where game may be expected, and he plants himself thereabouts. Then comes the rude chase, the excitement attending the pursuit, the hallooing ringing through the air, the gathering of the game, and the return to the camp, amidst with feasting and the stories of the hunter. It is splendid to have a good hunt. It is a good thing, also, to hunt for diseases in the human system, to drive them away. And for this commend me to Dr. H. H. Smith's Skin and Blood Pills. They are the most experienced hunters after diseases known.

Many young persons from 16 to 30 years of age are greatly annoyed with roughness of the face, the skin being covered with unsightly pimples, blotches, discolorations, and flesh worms. To all such we advise the use of BERTHO'S SARAPAMILLA and PILLS, which, if persevered in, will so thoroughly cleanse and purify the humors of the system that the skin will become smooth, soft, and beautiful.

Rev. J. G. Stearns writes, "I consider Perry Davis' Pain Killer the best remedy I ever knew for Dyspepsia."

AFRONIA CURE.—FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES.—Aphonia or loss of voice, is remedied in a short time, no matter whether the cause be from inflammation of the lining membrane, from cold, or from nervous derangement.

Other odorous waters undergo many variations of aroma as they fade into insipidity, but MURRAY & LARSEN'S Florida Water passes through no such gradations. As it is when sprinkled upon the handkerchief or handkerchief, so it remains in its full, refreshing, and delightful to the last.

ADAM WALKER, of Tavistock, Ontario, writes,

In February, 1868, that after trying many Cough and Lung remedies for a severe cold which he has suffered with for 3 years he procured ALLEN'S LUNG BALM and was cured much benefited by it. In a letter still later, he said his night sweats were all gone and he was rapidly recovering—his appetite was much better and he felt like a new man.

Mrs. Partington says: Don't take any of the quick nostrums, as they are detrimental to the human system; but put your trust in Hop Bitters, which will cure general debility, restore vitality and all chronic diseases. They saved Isaac from a severe attack of tropical fever. They are the best of all medicines.

Bucklen's Arnica Salve. The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. Price 25 cents per box. For sale by J. C. Clark & Co.

A CARD. To all who are suffering from the errors and weaknesses of youth, nervous debility, early decay, loss of manhood, &c., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. Tenny, Station 7, New York City, N. Y.

Commercial. BELLEVILLE MARKETS. INTELLIGENCER OFFICE. Belleville, March 18, 1880.

A large quantity of wheat was offered to-day, the price has dropped to 75c.

BELLEVILLE, FRIDAY, MARCH 19.

Grit Efficiency vs. Tory Incapacity.

Mr. Mackenzie, shortly after assuming office as Premier of Canada, it will be remembered made a speech in which he promised an honest, economical and efficient administration of public affairs. There was to be no more corruption or inefficiency in the Cabinet such as (he stated) had become notorious under Tory rule, but there was to be a revolution, and capacity, honesty and efficiency, were to replace Tory stupidity, jobbery and incapacity. What the result of this vainglorious assumption of the ex-Premier resulted in every school boy knows, or ought to know by this time, though there yet remains a chapter to be added to the miserable record of the Mackenzie administration, which it would have been well for the country had the same never existed. The matter to which we refer is perhaps best explained by the following report of a very brief discussion in Parliament which took place during the present session, and which is given by a contemporary as follows:

Mr. Paterson (South Brant) moved for a statement showing the amount of the defalcations in the Customs House at Toronto, together with all reports, correspondence, orders-in-Council, and other papers respecting the same.

Mr. Bowell said he quite agreed to the production of all the papers asked for, and when brought down they would show that the attention of the late Government was called to the fact of a defalcation having existed in 1875 by one of the Inspectors, and the country would then come to the conclusion that had the matter then been investigated, as it should have been, the present large defalcation would never have existed.

Mr. Burpee (St. John) said that was the first information he had received of the defalcation having taken place in the Toronto Customs House while he was head of the Department.

Mr. Bowell said that Inspector Kavanagh had made such a report in 1875, and if the hon. gentleman did not know that reports were made to his department it was his own fault.

The motion was adopted.

As the sequel to this, the papers moved for have been brought down, and the following summary of their contents will show how just was the reflection of the present Minister of Customs upon his predecessor in that Department, and how Mr. Burpee's irreparable inefficiency and lack of decision caused a heavy loss to the country. The first paper is an extract from the report of H. Kavanagh, Inspector of Ports, dated September 14th, 1875, in which he says that he "found the cashier, Mr. McKay, was in the habit of retaining in his hands sums of money without the knowledge of his superiors. The excuse was that it might be required for refunds, which was a poor one, as return duties could be paid out of daily receipts. At the end of each quarter he made the deficiencies good, after being perhaps two or three months behind hand; a few weeks after he would be in arrears again; these deposits were so arranged that there was an average running deficit of \$841."

He called the collector's attention to the serious irregularity, and arranged with him that the chief clerk was to compare once a week each day's collections with bank certificate and that all collections were to be deposited at the bank in full daily. Following the Inspector's extract is a letter from the Commissioner of Customs dated November 14th, 1879, addressed confidentially to the Minister of Customs. He details at length his visit to Toronto to investigate into the alleged deficiencies and found that there was a delay of from four to five days in the collector depositing the custom receipts, and from his examination into the affairs of the office he considered that Mr. Smith was a defaulter to the extent of \$16,334. On the 28th of the same month he made a further and more minute examination and found that the whole amount should be liquidated in a few weeks. During that visit to Mr. Johnston, Commissioner of Customs, arranged the officers of the office temporarily till a new collector could be appointed. The last paper in the collection is a minute of the report of the Privy Council, dated 10th July, 1880, dispensing with the services of Mr. James E. Smith, Collector, and Mr. Chas. B. Mackay, Chief Clerk, of the Toronto Customs House.

Comment on the above would be superfluous, further than to say, let the people of the Dominion contrast "Tory incapacity" with "Reform efficiency" in this instance, and say which they prefer.

Setting in Manitoba.

A very well-written letter appears in the Liverpool Daily Courier of the 2nd March, dated Rapid City, N. W. Territory, Jan. 29, 1880. The writer gives a description of the climate, quality of the soil, condition of the settlers, &c., and tenders some very good advice to those intending emigrating to Manitoba. Speaking of the soil, the writer says: "It is the best I have ever seen for cereals and roots; the latter are marvellous both in quantity and quality, and in both respects, rather open the eyes of an old country farmer." The writer makes the following reference to Mr. Dyke, the able representative of the Dominion Government at Liverpool:

"As this will reach you about the time when people will be thinking of making arrangements to come out in spring, and having no interest to serve, I take the liberty of giving such the results of my experience for their guidance in some small matters. To everyone coming here the first duty is to see Mr. Dyke, Water-street (I use his name without his knowledge), and state to him fully and frankly what he would like to be at, and approximately how many dollars he has available. Mr. Dyke, who is the representative of the Dominion Government, is thoroughly to be relied on in anything relative to Canada. I have found this true of every one of the Dominion officials with whom I have come in contact from Liverpool to our local land agent on the Little Saskatchewan. I have also found a courtesy and a general disposition to take any amount of trouble of the Interior to the district agent, of which I cannot speak too highly. Whenever the stranger finds himself in Canada let him get into immediate communication with the nearest Government agent, explain his position frankly, and do as he is bidden."

MORNING DESPATCHES.

EUROPEAN.

Russia and China.

RUSSIA ALARMED.
A New Soprano.

St. Petersburg, March 19.—It is authoritatively stated that Russia will decline to hold communications with the new Chinese Ambassador until his Government ratifies the Livadia Treaty. It is also stated that the Chinese are already making incursions into Russian territory. The embargo grows daily more complicated. The Russian Government is becoming alarmed at the recently developed friendship between Lehong Chang and the Beasans Administration. The indications are that Russian encroachment in Central Asia is to suffer a serious check.

Paris, March 19th.—Marie Van Zandt, a young American soprano, aged 19, made a brilliant debut in Mignon at the opera comique last night. Adeline Patti, Clara Louise Kellogg, and Christine Nilsson were present.

AMERICAN.

NEGRO STRIKES.

A Woman's Story.

Prosecuting a Minister.

GOD SPEED THE SHIP.

RELIEF FOR IRELAND.

A Lucky "Corner."

New Orleans, March 19.—There is a strike among the negro laborers in St. Charles parish. The Governor has ordered the military out. It is reported the negroes threaten to burn the sugar houses.

New York, March 19.—The Times, Washington special says that Mrs. Christianity says the trouble with her husband arose from Christianity's son overhearing "Zachariah Chandler make a bargain for Christianity's seat in the Senate. When the latter learned his son had overheard the details and reported them to his stepmother, he was in great rage and gave her no peace, though his ill-treatment commenced earlier in their married life. Mrs. Christianity charges her husband with using opium and stimulants freely. Her mother figures in her story on her side.

New York, March 19.—Donations to the Herald fund yesterday amounted to \$5,400, including \$1,000 from an anonymous "Resident Spaniard." Total now reaches \$300,300. The person who recently caused much annoyance to the Rev. Morgan Dix by sending out forged postal cards, writes to the Tribune that he will resume his persecutions to-day.

The ship Constellation, for the Irish relief, was yesterday put in commission at Brooklyn Navy yard, and is expected to sail on Thursday. All the large gunboats have been taken out to make room for seed potatoes, canned meats, barrels of cornmeal and oatmeal, and other articles.

Cyrus W. Field has resigned the presidency of the New York Elevated Railroad, and Wash. St. Louis and Pacific Railroad. Solon Humphreys will probably be his successor in the latter Co. Field contemplates a pleasure trip around the world.

The Tribune says, the Standard Oil company has a corner in turpentine, and now holds 39,000 bbls., and has forced an advance of 100 per cent since October.

DEATH OF THOMAS KERHAW.—Mr. Thomas Kerhaw, the well-known grain broker of Montreal, and well-known in this city, having been connected with mining operations during the gold excitement of 1867-68, died suddenly in Chicago, on the 18th inst., from congestion in the stomach, just as he was about leaving on his return to Montreal. Mr. Kerhaw was highly esteemed wherever known, and his sudden death cast a gloom among the Corn Exchange when the announcement of his death was made.

A SCENE IN THE STATION.

How it Worked in This Case.

About four o'clock yesterday afternoon, Officer Down brought to the police station an aged woman, who gave the name whilst there of Mary Morrison. She was in the severe and yellow lead—evidently overworked, rather infirm and weakened by old age. Her hair was silvered, her brow wrinkled and her general appearance that of one who had not gone through life's journey without trouble and care. She was ordinarily though comfortably clad, and it is something astonishing to think a woman of her age could be guilty of the charge alleged against her.

The causes which led to her arrest are these: She had visited the Albion Hotel, and whilst there appropriated a pair of kid mitts and a woolen necktie the property of Mrs. John Graham, of Hungerford. She at first asserted her innocence, but ultimately made an acknowledgment of her offence. She was brought to the station, and on being interrogated by Mr. Down and the Chief gave the above name, though she had formerly given others; she disliked disclosing anything relative to her home or residence. Bitterly did she bewail her sad lot, with tears and lamentations similar to that exhibited in the "wake scene" in the Shaughraun she bewailed her condition. Enquiry failed to reveal anything about her, and amid her sad protests such as "why did you bring me here after I gave the things back," she was taken to a cell. The lady to whom the property belonged being anxious to return home, her property was restored to her and she shortly after left town, whilst Mary Morrison, who it is said comes from Tyndings, was held for examination.

The old woman was brought before the Court this morning, and as no one appeared to prosecute, she was letured and discharged. Her excuse, when questioned by the Magistrate as to why she stole the goods, was a very funny one, namely, that so many people were present she did not know whether she stole the goods or not.

The Spring Assizes.

FIFTH DAY.

GORDON vs. PIERSON.—This was an action on acceptance. The defendant had accepted for Wm. Jeffs of Trenton. The defence was that the defendant was in insolvency when the Bill was accepted and should belong to the estate of Jeffs. A verdict was returned for the plaintiff for \$235.34. Dickson and Ostrom for plaintiff; Henderson and Titus for defendant.

HAMELY vs. ROBERTSON.—This was an action on promise to recover the value of some plate glass furnished by the plaintiff for the defendant's block of buildings on Front Street. The glass was ordered from England through Ramsey, Drake & Dole, of Montreal. The glass reached Belleville station, the bill of lading was endorsed by Ramsey & Co. to the plaintiff and by him to the defendant, and by him to one Wensley the contractor for the building. When the glass reached the defendant it was found damaged, so much so, it could not be used and the defendant would not accept it. The plaintiff brings his action to recover the value of the plate. The defence was that the defendant was not liable, that the glass was injured in transit, and that the plaintiff had not filled his contract.

News Condensed.

—The Senate has adjourned until the 30th inst.

—A deputation of bankers are in Ottawa to confer with the Finance Minister.

—The 18th inst. was the birthday of H. R. H. Princess Louise.

—Chinamen have made their appearance at Ottawa, and have opened a laundry.

—Vennor predicts a heavy fall of snow between the 21st and the 26th inst.

—In the 18th inst., Oliver Belfore, was killed in Gloucester while falling a tree.

—Ross and Daly are to have another wrestling match in Kingston—on a few days.

—The Union Pacific Railroad is going to provide additional sleeping cars, without increase of rates.

—Calvin Presbyterian Church, Pembroke, has decided, by vote of 41 to 29, to use instrumental music during divine service.

—White fishing is being very generally engaged in along the Lake Huron shore—earlier than ever known before.

—Mr. J. P. Sexton, Recorder of Montreal, died on the 15th inst., aged 72 years. He had filled the office of Recorder since 1859.

—The London Daily News estimates a gain of fifty-six seats by the Liberals in the coming British elections.

—An illicit malting establishment was seized in Egremond township yesterday by the Collector of Inland Revenue at Stratford.

—Hartmann acknowledges that he was chosen by the Nihilists to assassinate the Czar, and he gives a detailed account of the attempt made at Moscow.

—The inquest on the body of Mr. McMullen of Seely's Bay, resulted in a verdict that he came to his death by a blow from a source unknown to the jury.

—Whist Michael Hickey was crossing the railway track at Brampton with his wife on the 18th inst., the engine caught him, killing him instantly.

—The train of emigrants which started from Ottawa on the 15th inst., swelled to 450 persons by the time it reached Toronto. Most of the parties were bound for Dakota.

—There are 51 furnaces in blast in the Lehigh Valley, with an annual capacity of over 600,000 tons of iron. The valley is perhaps making more pig-iron than ever before.

—The St. John's, Newfoundland, steam fleet of sealers got off the 10th inst., but with few exceptions did not get far. Several of the fleet were compelled to return, the ice being too heavy for them.

—There are 60,000 locomotives in the United States, and each contains 2.8 different pieces requiring renewal every ten or twelve years. This converts a nation of industries which railroads foster.

PRIMITIVE METHODIST JOURNAL.—The Kingston News says:—"Fifty years ago, a lay preacher from England preached the first sermon in the interest of the above named body, in Little York (now Toronto). The work has grown until the 'Convention has a list of 224 churches, and nearly 100 additional preaching appointments. It is proposed to celebrate its twenty-fifth anniversary by a special extension fund of 10,000, and the prospects are that it will be done."

TO HIS WORSHIP, THE MAYOR OF THE CITY OF BELLEVILLE.—We the undersigned ratepayers of the City of Belleville respectfully request you to call a Public Meeting of the Citizens of this City, at which they may take into consideration the subject of a suitable site for the proposed Government buildings.

Traubach, D. E. Burdett, W. R. McRae, Nathan Jones, J. Lockhart, S. B. Smith, M. B. Robin, C. F. Smith, Thos. Muir, G. W. Bartman.

IN compliance with the above requisition, I hereby call a Public Meeting of the Citizens of Belleville to be held at the

CITY HALL,
ON
Wednesday, March 24th,
at 7:30 p. m.

R. S. PATTERSON, Mayor.

FIRE IN MONTREAL.

THE RECORDER'S REMAINS.

Drapery Catches Fire.

THE BODY SAVED.

NARROW ESCAPE.

Lowered by Ropes 50 Feet.

HANDS LACERATED.

MONTREAL, March 19.

A fire broke out this morning in the house occupied by the late Recorder. Section through the drapery in the room where his remains were laid out, catching fire from the burning tapers around the catafalque. Although two policemen were in the room at the time yet the flames bore down all their efforts to subdue them, and the whole interior of the dwelling, which is situated on Elizabeth Street, is completely gutted. Mrs. Sexton, Mrs. Fair, Mrs. Bellechasse and a servant girl who were sleeping in the upper story, were lowered from a balcony in the rear, fifty feet, in their night dresses by means of a rope, their hands being much lacerated in the operation. Mr. Gagnon, a boarder in the house, ascended to the roof and was rescued by the firemen. Mr. Sexton's remains were saved by the salvage corps with only a slight injury. The house was owned by Mr. Danvers. Police Magistrate, whose loss will probably amount to \$4,000; the furniture and effects were the property of Mrs. Bellechasse, who kept a boarding house; her loss will exceed \$5,000. Both landlord and tenant are insured.

Correspondence.

Willst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.

DEAR SIR,—I was pleased to notice in a recent issue of your paper that the Blairton iron mines were about to be reopened, which will indeed be good news to the inhabitants of that part of the country. This, in my opinion, is another practical argument in favor of the N. P. When Mr. Mackenzie came into power in 1873 these mines were in full blast, but in the spring of 1875, as soon as the evil effects of non-policy and misgovernment began to be felt, a number of the hands employed were discharged, and later in the same year the mines shut down altogether. And now, as soon as the beneficial effects of the N. P. begin to appear, we hear that work is about to be resumed. These are facts which should be noted by the voters of Belmont and the Dominion.

Yours truly, B. N.

PERA HOUSE.

Special Engagement
Of the Eminent Artists,
Mr. and Mrs. Daniel E. BAND MANN,
SUPPORTED by their great English Company, for
ONE NIGHT ONLY.
Thursday, March 25th.
SHERIDAN'S BEAUTIFUL COMEDY IN FIVE ACTS, ENTITLED
SCHOOL FOR SCANDAL,
will be put upon the boards in a style never before equalled in Belleville.

N. B.—As Mr. Bandmann's time is fully engaged for the rest of this season, this is positively the last opportunity the people of Belleville will have of seeing him; and in order to accommodate everybody, the prices have been reduced to the following scale:

PRICES OF ADMISION.—50c, 40c, and 35c.
Reserved Seats at Reynolds.
Come One, Come All.

BELLEVILLE, MONDAY, MARCH 22.

Immigration.

Mr. Lowe, of the Department of Agriculture, in furnishing to the Committee on Immigration and Colonization statistics regarding immigration matters gave the following satisfactory statement: He said that last year the arrivals were 61,000. The class that came were almost all agricultural, the number of mechanics and clerks being very small. Since 1872 there have been assisted passages granted to laborers, servants girls and such like, in the spring of the year the order was changed altogether to embrace agricultural classes. It was the amount that the persons paid for the steamship company, and 24 by the Government. There was no provision made to keep the persons in the country who embraced the advantages of the Government assistance except their declarations that they intended to remain in Canada. There had been a general decrease in the expenditure of the department in the expenditure of the assistance offered from Quebec to the west. Of that sum Ontario paid two-thirds and the Dominion one-third of the total sum. That arrangement had continued since 1872. Ontario looked very sharply after the placing of the persons whom that Government assisted from Quebec to Toronto. He believed that after the immigrants arrived at Toronto, the Ontario Government always paid the full passage of that person from that point to their final destination in the province. The total number that took advantage of the 25 rate last year was 7,125. The tenant farmers' delegates had all reported very favorably of the country. Mr. Bruce, who remained over to report on the Maritime Provinces of New Brunswick and Nova Scotia, and they were only received from England that morning. By glancing at the report hurriedly, he saw that Mr. Bruce had spoken very favorably of the adaptability of the Lower Provinces for stock raising. The effect of the tenant farmers' delegates' reports had been marvellous, and he thought there would be a large influx of that class coming to Canada during the present year.

The reports had been very generally circulated in England, and Mr. Annand was now receiving daily from fifty to one hundred letters from persons in those sections. The delegates were chosen by meetings of the tenant farmers and the Government paid their expenses. The cost of the delegation was about ten thousand dollars. Of the 7,125 who came out to follow agricultural life, the great bulk had shown that they had followed some kind of farm life in the old country; only about two hundred had never been on farms before. The greatest number of immigrants had come by the Allan steamers, the organization being most complete among the officers of the line. There were 10,000 immigrants to Canada from the United States last year. The Canadian Government had no machinery whereby they could tell how many had come from Canada to the United States.

HANLAN AND TRICKETT.—The Mail of Saturday says: "Yesterday morning Hanlan received the following cablegram from Australia: 'Will go to England if you will meet me there in July, August, Edward Trickett.' Hanlan replied, 'Can not, will write.' This matter has been referred to in the Mail before, on the occasion of Hanlan receiving a letter from Trickett a few weeks ago to the same purport as the cablegram. The reasons were that they stated why the champion finds it impossible to accommodate his Australian rival until late in the fall or during next winter. Those reasons remain the same now as they were then, and consequently there is no chance of Hanlan and Trickett coming together the ensuing summer. It may be stated that Hanlan on Thursday received a letter from Mr. Soule, embodying the understanding arrived at on Saturday last, but with some material additions. Mr. Soule gives Hanlan ten days to consider whether he will accept, and for a day or two the matter will remain in abeyance."

THE BANKING BILL.—It is said that by the new Government Banking Bill the circulation will be made the first charge upon the assets of the bank, that the Government's issue will be confined to denominations under five, and that only some \$3,000,000 will be issued this year.

\$4,000 REWARD.—The Ontario Government has offered a reward of \$4,000 for information that will lead to the conviction of the Donnelly murderers. If this had been done the day after the horrible butchery, there would have been some likelihood of the real murderers being arrested, but at this late date it is very questionable whether the offer of the large reward will have the effect desired.

FROM CONSECON.

Mills Burned.

LOSS \$12,000.

(By Dominion Line.)

CONSECON. March 21.

The Consecon grist and saw mill, owned by Mr. W. H. Marsh, of this place, was burned to the ground about one o'clock this morning. The origin of the fire is unknown. Loss about \$12,000, partly covered by insurance. Owing to the central position the mill occupied in the place and the heavy gate that was raged, it was with great difficulty that several other buildings were kept from burning.

Marmora.

(From a Correspondent.)

The new organ in the Episcopal and Canada Methodist churches here having arrived give great satisfaction to their respective congregations, both with regard to their size and appearance, and also their sweet melody of tone, and as the Rev. S. Macaulay, pastor of the latter church, truly remarked regarding the one his people have purchased, it "encompasses everything they have had so far."

Miss H. Pearce, a leading amateur, has been appointed organist in the U. M. church, and Miss Bleeker of the Anglican church.

For the last week Aris as usual has proved boisterous. The genial sunshine, slush and premature warm weather of the previous weeks is now rare. Vendor's predictions at last seem to be verified to some extent at least.

Mr. W. Irwin, who was for a number of years a resident of Marmora, but who now resides in Douro, was through here last week. He describes the destitution of the people at Allan's Mills in harrowing details. One woman, a widow, has to make shingles for a living in order to support herself and family. However, necessity knows no law, and honor be to the brave woman who, unaided, successfully battles with adversity. He also humorously describes an Irish wedding which took place lately in his township, at which whiskey enough was provided for a "Shen" been ship in Enniskillen, instead of a private party, and poultry enough consumed by the hungry guests to start a poultryer's shop.

It seems gold has been discovered on the farm of P. Van Vesterhof, Mathew, lat. 40, No. 1, which promises to be remunerative. It is certainly to be hoped it may, as settlers there certainly need something of the kind in that remote and not very fertile township.

The people in the northern and poorest portion of Marmora at present are suffering considerably from the stern visitations of "chill penury," and our own poor seem frequently to be forgotten, amidst the universal sympathy for those of "Erin's green isle."

Mr. Mackintosh seems to have got at last him, as well as the reprobates. The new method of teaching is now generally practiced here. A refractory teacher, however, a short time since in the rear of this township, gave the stern and thorough Inspector some trouble, by obstinately refusing to conform to the present improved mode of "teaching the young idea how to shoot," and he actually went so far as to follow his Inspector to another school house, with the intention of either abusing or attacking him, but Mr. Mackintosh had left, so the enraged teacher was foiled of his object.

Not much sugar has yet been made in this vicinity, the weather lately having been unfavorable for the flow of the sap.

It appears that D. D. Johns has been appointed Treasurer for Marmora and Lake, and meets with some trouble from the Amazonian ladies of the north, who in the absence of their lords and masters object vehemently to give particulars of personal or landed property, and often give only a partial account.

FRITZ.

"Birds of Prey."

UNEXPECTED DEMAND FOR POULTRY.

A sudden and unperceivable demand for poultry manifested itself very unexpectedly in the 5th concession of Thurlow, in the vicinity of Fairfield's bridge, at an early hour on Sunday morning.

William Henry Davis is a farmer, and lives in the locality above named. He it was who, on the 9th December, was the victim of the "jack-knife game," in which he was pecuniarily interested to the extent of \$40. And now he mourns the loss of 40 hens.

On Saturday evening he returned home after having served on the jury during the week. He had a great deal to do, and it took some time to do it; in fact before he got through with his labors the hour of eleven had passed. He retired to rest from his labors and in the morning went to his barn only to discover that forty hens belonging to him had been appropriated by some one whom he thinks he knows. He gave information to the police and is confident the arrest of the guilty one will result.

Marine Notes

Port Hope light-house was lit up for the first time this season on Friday night last. For the carriage of lumber from Brockville to Oswego \$1 per m. is offered.

Prospects for the opening of navigation at Port Hope are that for the first month matters will be dull, but after that there will be plenty of lumber to carry.

Owing to considerable receipts by road and rail, the elevators here are filling up rapidly, and there will be a considerable quantity of grain for shipment as soon as navigation opens.

The life saving stations at Big Sandy Creek, Mexico Bay, Oswego, Charlotte, Buffalo, Erie, Fairport, Cleveland and Marquette have been put in commission on Saturday. The service saved 600 lives last season.

YACHTING.

ITS PROSPECTS HEREABOUTS.

As the season advances the thoughts of yachtsmen here are expressed, and ideas of what they will do promulgated. When the weather permits their craft will be put in shape for the season and placed again in their element. It is probable the *Gracie* will be lengthened after that others may undergo slight alterations. In Trenton, Mr. Alex. Coudert has made excellent progress, as he has three yachts under the brush of the painter, two of which will be sailing craft and one steam. The larger one, which is an improvement on the model of the *Annie Outthorpe*, and which has already been alluded to in these columns, will be called the *Robert D. Cunningham*, the gentleman after whom it is named being an enthusiastic yachtsman. When the season permits the *Danities*, which flies the champion pennant of the Bay of Quinte yachting fleet, will be challenged for the possession of that trophy and a match will be arranged for that purpose. Mr. C. has already procured the necessary material for a six ton cutter, the construction of which will be pushed forward with rapidity. A steam yacht 45 feet long, 7 1/2 feet beam, to be fitted with a double engine, and the guaranteed speed of which will be sixteen miles per hour, will also be shortly put in frame by the same party. She is for a gentleman resident in Belleville. The boiler and engine will be furnished by the Martin Brothers of this city.

Altogether the prospects for yachting are as favorable here now, as formerly, and the coming season will doubtless witness some excellent contests on the waters of the Bay of Quinte.

News Condensed.

—Poplar wood is \$6 per cord in Winnipeg.

—The river is open at St. John, Quebec.

—The price of brick in Winnipeg is \$15 per thousand.

—There are 225 patients in the general Hospital, Toronto.

—The Montreal police force will cost this year \$124,717.

—A number of engineers left Ottawa for British Columbia on the 20th inst.

—The office of the *Boston Herald* was burned on the 21st inst. Loss over \$200,000.

—It is said that the Commons will adjourn from Wednesday next until Tuesday of the following week.

—Mrs. Hatch, mother of C. H. Hatch, the popular steamboat agent, Kingston, died on the 20th inst., aged 76 years.

—An ox weighing 2480 lbs was sold in Kingston on the 20th inst., for \$155. It is to be shipped to England.

—By a railway collision at Halle, in Saxony, on Saturday, seven passengers were killed and a large number injured.

—Another of the San Francisco agitators was sentenced on Saturday to six months' imprisonment and a fine of \$1,000.

—The contract for the pile bridge at Winnipeg has been given to Messrs. Chas. Whitehead & Rutan, who will commence the work immediately.

—Sir Charles Tupper has given notice of *Bill for the better regulation of the Canadian Academy of Arts* attended on Saturday evening, before the first time she was out since her entry.

—During a school entertainment at Lincoln, Pa., on the evening of the 20th inst., the floor gave way, precipitating 150 persons to the floor below. Thirty persons were seriously injured.

—The Government returns show an increase of 127 insolvencies in 1879 as compared with 1878. There was a decrease in Ontario, but an increase in all the other provinces.

—Within the past few weeks nearly 300 cars of ice have been shipped from Montreal to Chicago, Cincinnati, Sarina, Toronto and other cities per Grand Trunk Railway.

—The Winchester Arms Company has received an order from the Chinese Government for fifteen or twenty millions of cartridges.

—Parnell arrived in Ireland on Saturday. The demonstration in his honor was smaller than was anticipated, and was marked by the absence of persons of local influence.

—A gentleman has come from Belleville to Montreal to supervise the shipment of St. Lawrence ice to the former city. He requires as much as 400 cars full.

—Messrs. J. G. Baker & Co. have been awarded the contract for supplying provisions and forage for the North-West Mounted Police; their tender was the lowest by \$1,600.

—Hanlan's new hotel, now building on the Island, Toronto, was blown down on Saturday afternoon, and fourteen men who were on the building were buried in the ruins. Some of them had their shoulders dislocated, legs hurt, faces cut, and otherwise injured.

THOMAS A. HAINES,
Secretary, pro tem.

March 20, 1880.

TENDERS.

TENDERS will be received up to TUESDAY, the 30th inst., for the construction of a

HOWE TRUSS BRIDGE, WITH A DRAW,

across the Trent River, at Hastings. Plans and specifications may be seen at the Grand Junction Railway Company's office, Belleville, and at the office of F. Shanly, Esq., C. E., Toronto, on and after Tuesday, 23rd inst.

The lowest or any tender not necessarily accepted.

E. O. BICKFORD,
Belleville, March 20th, 1880.

\$66 a week in your own town. Terms and conditions on application. Address H. H. HALL, Belleville, Ontario, Maine.

WANTED.

A SERVANT GIRL wanted at once. Apply to
MRS. ALEX. HART,
Kingston Road,
Belleville, March 20, 1880.

MIDDLEMEN.

It is absolutely necessary in meeting the greater part of our wants, that the Merchant intervene between the producer and consumer. Every one who wants a pound of tea cannot send to China for it, nor can the Chinese tea grower come to our door. The young lady who wants a silk dress cannot go to Lyons for it, nor will the Lyons silk maker come to her. But while this is the case, it is still true that the fewer hands the goods pass through between the producer and consumer, the better it is for both. The high price the consumer has often to pay, is generally owing to the goods passing through the hands of an unnecessary number of dealers before they reach him, each having made a profit. Owing to our business connections in Great Britain, and by combining with fifteen to eighteen Merchants throughout Canada, we are enabled, by making all our purchases together and paying cash, to buy from first hands at the source of production, namely, the Manufacturers of England and the Continent of Europe, and thus save to ourselves and to our customers the profits of the Middlemen or Wholesale dealers. This reduces the cost of our Goods very materially, and it is in this way that we can sell goods at a lower price than others, as well as give a better assortment. More than 200,000 Stockholders who have not the same advantages.

Coughs and diseases of the throat and lungs. Dr. HULL'S HONEYED BALM is one of the most potent cough syrups ever introduced, it is very pleasant to take and is very effective. Albert L. GEN has been appointed agent. Try it.

Daily Intelligencer.

BELLEVILLE, MONDAY, MARCH 22

City and Vicinity.

ARRIVED.—The steamship *Sarnation* arrived at Halifax at 9:15 p. m. on Sunday.

MEMORANDUM.—The meetings which are to be held to-night are of the Bible Society and of the City Council.

ICE FOR THE SOUTH.—Fifty car loads of ice, from Montreal for Louisville, Kentucky, passed over the Grand Trunk yesterday.

CHEESE PROSPECTS.—Cheese making will soon commence. Manufacturers say the prospects this year are better now than they were at this time last year.

THE ARMORIES.—An inspection, by the proper officer, of the armories of the 15th and 40th Battalions will take place shortly. They are in first-class order, and will not doubt be favorably reported upon.

MINING.—The *Tamworth Echo* reports highly encouraging prospects from the Thornton gold mine, in that locality, the vein being reported to be of an extraordinary width and the rock rich in gold. Numbers of new discoveries of gold and silver bearing rock and of phosphates are said to have been made in the same vicinity.

VISIT TO MADOC.—On Friday evening last Prof. E. W. Johnston, instructor in the gymnasium of the Mechanics' Institute, accompanied by a number of his pupils, gave a gymnastic, athletic and acrobatic exhibition at Madoc. Their entertainment was very largely attended and gave the greatest satisfaction. They will repeat the exhibition on Thursday evening next at Campbellford.

THE BAY.—Although the area of open water is rapidly widening, there is still an ice bridge over the bay in the vicinity of Buck's mill, but it is very narrow and must soon be swept away. Local dealers have not yet ceased to cut and store ice, which, however is secured with much difficulty. A horse engaged in the work broke through the ice near the southern point of the Island on Saturday, but was rescued.

FAT CATTLE.—Four head of cattle—three steers and one cow—purchased by Mr. George Gibson, of this city, from Joseph and John Nightingale, of Prince Edward, were brought to this city this afternoon and weighed on the market scales. Their total weight was 5,310 lbs., an average of 1,327 1/2 lbs. All the animals, which were of the Durham breed, were in fine condition and were excellent specimens of the bovine creation.

RUNAWAY.—A team of horses belonging to Mr. Vandewater of Sidney ran away this morning and succeeded in smashing the wagon to which they were attached and cutting themselves badly. Their owner was dragged for a considerable distance, but was not seriously hurt. Opposite Walker & Co's foundry they collided with a single horse and cart and all three horses came to the ground together, the runaways being here secured.

ATHLETICS.—Remember the entertainment by the members of the Mechanics' Institute gymnasium, in the Opera House to-morrow night. A first class performance is certain. The Oddfellows' band will be in attendance. Seats can be secured at the library of the Institute, where the plan is to be found. Mr. Thomas Ritchie will present a handsome prize to the best general athlete in the infant class. The judges will be the Mayor, Mr. W. H. Ponton and Chief McKinnon.

13-14-15.—The universal puzzle has taken a firm hold in Belleville. A few are said to have hit upon a solution, but without method, as none so far are reported to be able to work it out with certainty.

NOV OPENED KEY.—The Montreal mechanic having proved unequal to the task of opening Mr. Angus McPeck's safe, that gentleman, as a final resort before having the doors of the safe destroyed, has employed a Hamilton expert to make another trial. It is to be hoped that this final attempt will succeed, as otherwise a loss of from \$300 to \$400 will be entailed on Mr. McPeck.

BODY SNATCHING.—The *Tamworth Echo* says:—"The practice of robbing graves is becoming alarming in many parts of the country. In this County it is permitted to too great an extent. We say permitted, by which we mean that the officers of the law, and the Municipal authorities give little or no attention towards stopping it. While in Clark's Mills, week before last, we were told that the citizens were keeping watch every night over a body lately interred. It is an awful state of affairs when in a rural village so distant as that village from a Medical College that the dead have to be guarded. We understood that persons near that place were suspected of being engaged in the outrageous work of robbing graves."

"To the Victors belong the Spoils." Alex. Robertson, Esq., M.P.P., had a pleasant realization of this adage at 8 a. m., day, when he was presented by Mrs. D. R. Murphy, of Trenton, with a very pretty banner screen, accompanied by the following brief explanatory address:

To Alex. Robertson, Esq., M.P.P.: Allow me, sir, on behalf of the Ladies' Building Committee of Canterbury Hall, Trenton, the pleasure of presenting you with this banner screen, which you have taken in me and my election, that I not only esteem their kindness and consideration, but I also esteem it a privilege to be the recipient of the confidence reposed in me.

I have the honor to remain, Yours faithfully, ALEX. ROBERTSON.

The screen can be seen in the south window of Messrs. Barber & Brignall's dry goods store.

Honors to our Poet.

A poet, it is said, is not without honor in his own country, and when becomes to be a bright particular star in the firmament of poetry, he becomes very prominent in his own locality and is feted and treated handsomely.

Longfellow and Tennyson have received great honors from their friends, and now another has been added to the proud array of those who have received Queenly favors, and that honored individual is no less a personage than James Gay, the master poet to this day.

The following is a copy of a letter received by him last Friday evening.

WHITEHALL, 2nd March, 1880.

Sir—I am directed by Mr. Secretary Cross to acknowledge the receipt of verses composed by you and dedicated to the Queen, Princess and the Marquis of Lorne, on the life and death of the late Prince Consort. And I am to inform you that Mr. Cross has caused your verses to be forwarded to Lieutenant General Sir Henry Ponsonby, K. C. B., keeper of Her Majesty's Privy Purse.

I am, sir, your obedient servant, A. F. O. LIDDELL.

Police Court.

(Before A. Diamond, P. M.)

MONDAY, March 22.

LARCENY.

Patrick Murphy and William Harris, charged with stealing a shirt from a fellow tramp, were ordered to leave the city.

Stirling and Vicinity.

(From the *News-Army*.)

As we go to press a message received from our Harold correspondent stating that last evening, about 6 p. m., Mr. Daniel Holcomb, postmaster at Harold, was taken with a violent attack of bleeding at the lungs, and died this (Friday) morning at 10:30 o'clock.

On the 10th inst., as Mr. Norman Stiles was driving along the 12th line of Rawdon, his horse ran away, breaking the rig badly, and throwing Mr. Stiles out. Mr. Stiles was found about midnight lying in a pool of blood, and nearly dead. Dr. Payne found the patient in a very critical state, the nose being badly broken, and several cuts on the head. Yesterday (Thursday) Mr. Stiles was not considered out of danger.

An opening has been made on lot 2, in the 13th concession of Rawdon, out of which has been taken one of the most fertile varieties, which contains gold to a considerable extent; indeed it is said to resemble the ore of the Galtling mines. If this "find" should turn out to be as stated, it will go a great way to prove the existence of a gold-bearing belt of great extent, following the course of the river Moira from Bannockburn to Hog Lake.

How they LIE.—The *Ottawa Citizen* thus shows how little confidence is to be placed in the statements of the leading journal of the Galt party:—"The statement of the *Globe* that Mr. Martin McDonald, son of the Minister of Justice, owns 3,000 acres of land in the Northwest, is made, no doubt, with the intention of imputing favoritism. But is not true, it is simply one of the silly stories palmed off on a foolish correspondent. Mr. Martin McDonald has only some four hundred or five hundred acres of land, and his first homestead was obtained when the old Government was in power, and his land has been bought and paid for without any favor at all from any quarter."

—The rate at which several cases of furniture have been sent from Parkville to Manitoba is \$250 per car.

The University Boat Race. OXFORD WINS EASILY.

LONDON, March 22.

The annual race between eight oared crews representing the universities of Oxford and Cambridge took place on the Thames this morning, after being postponed from Saturday on account of a dense fog. The course was the usual one, from Putney to the Ship at Mortlake, and the race resulted in an easy victory for the Oxford crew. The betting was largely in favor of the winners.

EXPORTS FOR FEBRUARY.—The Canada *Gazette* of Saturday contains the following statement of the exports for February: Produce of the mine, \$37,251; produce of the fisheries, \$330,931; produce of the forest, \$833,860; animals and their produce, \$839,621; agricultural products, \$1,077,701; manufactures, \$367,152; miscellaneous articles, \$43,962. Total, \$3,059,478. Coin and bullion, \$107,348. Grand total, \$3,166,826. Of this amount \$2,904,522 was the produce of Canada.

Too much LEGISLATION.—It is evident the Prince Edward Islanders believe they have too much Legislative machinery, for in their Legislature they have passed the second reading of the Bill to abolish the Legislative Council.

—There is considerable excitement in London, Ont., among oil men respecting the reports of crooked oil being sent from there.

—Large as is the number of new buildings erected in Trenton this year, the population has increased faster than the house room. There are 116 new houses vacant now than there were a year ago.

—According to the *Chicago Tribune*, the first clearance of grain cargoes from that port will be made about the 20th inst. The Straits of Mackinac are reported open, ice having given way, but we doubt if insurance companies will assume any risks yet.

AFTERNOON DISPATCHES.

QUEENSTOWN, March 22.—Arrived, the *Parthia*.

LONDON, March 12.—The thirty-seventh race between Oxford and Cambridge university crews to-day was won by Oxford easily by three seconds. The race lasted 21 minutes, 23 seconds. Cambridge started at 40 strokes to the minute, and Oxford at 37 or 39. Cambridge first gained a slight advantage from rowing a quicker stroke, but Oxford drew to a level with them by the time a half mile had been traversed and at 38 minutes from the start had a lead of a few feet. When a mile had been traversed a splendid struggle took place. Cambridge again recovered the lead, and a mile and a quarter from the start it seemed as if they would row right away, but the spurt had told upon the Cambridge crew, who began to row short; they, however, maintained the lead to Hamersmith bridge, half a mile further on, partly because of bad steering by Oxford. The boats were level very shortly after passing the bridge, and the exciting struggle was maintained to Chiswick Ezyot. The irregularity of the Cambridge crew was, however, perceptibly increasing, while the Oxford crew were rowing like machines. When half way up Chiswick Ezyot, Oxford led by half a length. At Chiswick Church, about two miles and five furlongs from the start, the race was virtually over, Oxford leading by two lengths. The crowd present was less than usual.

QUEENSTOWN, March 22.—In a collision between two freight trains on the Grand Rapids and Indiana railroad south of Victoria, Mich., yesterday, one engine was badly wrecked and one car burned. Loss \$12,000.

ANTWERP, March 22.—Petroleum 18 1/2.

QUEENSTOWN, March 22.—Arrived, the City of Richmond.

WEATHER REPORTS.

TORONTO, March 22.—Probabilities for the next twenty-four hours: For the lower lakes, westerly to southerly winds, mild weather for day, followed to-morrow by increasing cloudiness and rain areas.

WASHINGTON, March 22.—Indications for Lower lakes, partly cloudy, occasional rain or snow, warmer.

"TEABERRY," the new powder for whitening the teeth, stimulates the gums, and purifying the breath; the brightest, neatest, cleanest toilet gem extant. Ask your druggist for "Teaberry." Price 35 cents. dailly

THE HUNTER! A hunter's life is one of patience and hardships. Going into outlying and uncivilized regions, he must watch and resort to subtlety to secure his prey. But his life is one of great attraction. He is usually very methodical, putting up with the coarseness of the camp. Sometimes his camp is enlivened by the presence of an enthusiastic, when expenses are ignored and every possible adjunct to comfort is provided. Old "Sharp Eye," the leader, knows the favorite spots where game may be expected, and he plants himself there. Then comes the rude chase, the excitement attending the pursuit, the fatal shots ringing through the air, the plunging of the game, and the return to the camp, animate with feasting and the stories of the hunters. It is splendid to see a good hunter. It is a good thing, also, to hunt for diseases in the human system, to drive them away. And for this commend me to DR. HENRIK'S SMOKE CATHARTIC PILLS. They are the most experienced hunters after diseases known.

ADAM WALKER, of Tavistock, Ontario, writes, in February, 1868, that after trying many Cough and Lung remedies for a severe cold which he had suffered with 3 years he procured ALLEN'S LUNG BALM and was being much benefited by it. In a letter still later, he said his cough was cured, and he was being rapidly recovering, and he was being much benefited by it. He said his cough was cured, and he was being rapidly recovering, and he was being much benefited by it.

APHONIA CURED.—FELLOW'S COMPOUND SYRUP OF HYPOPHOSPHITES.—Aphonia or loss of voice, is remedied in a short time, no matter whether the cause be cold, or inflammation of the lining membrane, from cold, or from nervous derangement.

Buckley's Arnica Salve. The Best Salve in the world for Cuts, Bruises, Sprains, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chills, Corns, and all kinds of Skin Eruptions. This salve is guaranteed to give perfect satisfaction in every case or money refunded. 25 cents per box. For sale by J. A. Clarke & Co.

Mrs. Partington says. Don't take any of the quack nostrums, as they are detrimental to the human system; but put your trust in Hop Bitters, which will cure general indigestion, and all other ailments. They saved Isaac from a severe attack of tripe fever. They are the *non plus ultra* of medicines.

A CARD. To all who are suffering from the errors and indications of youth, nervous weakness, early decay, loss of manhood, &c., I will send a copy of my book, *FREE* BY CHARGE. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to Rev. J. Rogers, T. LEMAY, Station 22, New York City, 1y

COMMERCIAL NOTES.

ICE.—291 car loads of ice were shipped west from Montreal up to the 10th.

BARLEY.—There is a good demand for barley in New York. 10,000 bushels of barley was sold in that city on the 17th at 88c.

DRIED APPLES.—About 20,000 lbs. of dried apples have been sold west at 7 1/2 cts. per lb., laid down in Montreal.

THE TIE TRADE.—The Cornish smelters, according to latest mail advices, have reduced the tin standards 22 per cent. The standards now are: superior common, 93 1/2; superior fine, 94 1/2; per cent.

DEATH.—The daughter of Thomas Earle, Esq., aged 17 years, 3 months and 9 days.

Commercial.

The Daily Intelligencer.

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:

STELLING.—At the drug store of Dr. G. H. Boulter, M. P. P.

CANFLETON.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.

HARTING.—At the store of Mr. G. G. Wilson.

Extra copies of each day's issue can be obtained at the above places.

GEO. P. ROWELL & Co.,
40 PARK ROW, NEW YORK,
AND
J. H. BATES,
41 PARK ROW, NEW YORK,
are Agents in this city, and are authorized to contract for advertising at our lowest rates.

Daily Intelligencer.

BELLEVILLE, TUESDAY, MARCH 23.
The St. Lawrence Route.

The statement that the Canadian route for the transportation of the produce of the West to Europe has been of late years falling behind that through the United States has lately been attracting, and deservedly so, for the matter is one of the first importance—a good deal of attention from the press.

"The question of the advantages and disadvantages of the St. Lawrence route for the shipment of grain is one of the most vital importance to the prosperity of Canada, which cannot be too fully, seriously or energetically considered. Of the past few years we have anything but a satisfactory record, when plain facts are searched into and comparisons instituted. The reason for this is the keen competition of the railway routes in the West, and also of the rival water highway via Buffalo, the Erie Canal and the Hudson River to New York. Canadian vessels owned by complain that while tolls on the Erie Canal have been reduced to a low level, they remain much the same on the Welland and St. Lawrence Canals, and that rates of freight to Kingston and Montreal have been forced so low in order to get business at all, as to leave little margin for profit and frequently to entail positive loss. This is certainly a gloomy picture, and it is rendered more so by the statement that "No increase of Canadian inland tonnage is taking place, and that it has been impossible to make provision from surplus earnings to replace vessels that have become worn out and useless." The St. Catharines Board of Trade has made a petition to the Hon. the Governor-General in Council and both Houses of the Dominion Parliament, in which the grievances of ship owners, manufacturers, merchants, ship builders, and all others interested are stated at length. As showing the small proportion of the entire produce of the country transported by the St. Lawrence route, it is claimed that the quantity of grain and flour (reduced to bushels) exported from New York, Philadelphia, Boston and Baltimore, were in 1878, 127,481,600 bushels, and in 1879, 134,984,000 bushels, while the same exported from Montreal in 1878, were 16,611,622 bushels, and in 1879, 18,138,973 bushels.

"Thus the grain and flour received at Montreal in 1878 was only 7.12, and in 1879 only 6.80 per cent of the aggregate received at Atlantic cities. The petition states that on more than one occasion last fall, for twenty-four consecutive hours lock-tenders were not required to turn a day winch. At the same time the resources of the Erie Canal were taxed to their utmost to more produce forward."

One point suggests itself to us in this connection, and that is, that by the construction of the Murray Canal the grievance of vessel owners would be greatly mitigated if not altogether removed. If this work were built, river navigation would be extended to the head of the Bay of Quinte which is its natural commencement. The vessels which now carry grain, &c., to Kingston, would discharge into barges there, and thus shorten their voyage by nearly 100 miles, or on the average about three days' run. This, including one day's halt for working up the lake opposite Waller's Bay, and half a day on the wharf at Kingston, would be a saving of about a week in the time for the grain to reach the head of the lake, which would be a great advantage to the trade of the St. Lawrence route as in supplying the "missing link," namely the Murray Canal.

WOODWORTH TRADE.—It is said that several St. Louis and other American firms have contracted with Mr. E. B. Eddy for large quantities of matches, pails, tubs, &c., and that for the next three years it will keep his large establishment running night and day to supply the demand.

EMIGRANTS.—The *Sarnation* which arrived at Halifax on the 21st, brought 300 passengers, 250 of whom were emigrants of a more than usually superior class. They had a large quantity of luggage, and a number had considerable means. They were despatched on the English mail train.

THE WELLAND CANAL.—Petitions are being numerously signed by commercial men in the Dominion, asking the Department of Canals and Railways to make an effort to have the Welland Canal opened by the 15th of April.

CITY COUNCIL.

Monday, March 20.

PRESENT.—His Worship the Mayor, Messrs. Brennan, Jas. Smith, Foster, Vanhousen, Pettie, A. Smith, Costello, Jellett, Ostrom, D. Holden, T. Holden, Wallbridge, Grant, St. Charles, Lingham, Robertson, McIntosh.

The minutes of the last meeting were read and approved.

PETITIONS, &c.
The following petitions, &c., were presented:

From the Treasurer, monthly report for February, showing cash on hand \$64, also statement showing amount of liabilities up to January 1st, 1880, to be \$24,163.34, paid on January 1st, 1880, by bank \$437.56 in the last three years.

From Dr. Gunn, Station Master, stating that the same, the Canifion road, crossing interferes with the safe working of the line, is being taken for a switch lamp.

A petition was presented asking the Council to join in a petition against the exemption of Dominion officials from local taxation.

From Dr. Pettie stating that all the small-pox patients had been cured and discharged, and advising that a watch be kept on the hospital building to prevent incumbrance.

From the Police Commissioners, giving details of the amount asked for in their request.

From Hunter, Murray & Co., regarding dredging.

From H. Cameron, Q. C., asking for the immediate issue of the debentures for the St. Lawrence route, and their being placed in the hands of the trustees, and offering to pay taxes due by the Company when that is done.

From Mrs. Lister, asking for remission of a portion of taxes on her premises assessed to other parties, who had not paid them.

From John J. Ostrom, asking for the stationing of the Chemical fire engine in Coleman Ward, and offering to get up a company to run it.

From Jos. Earton, asking the Council to bear part of the expenses (\$25) incurred in keeping a girl who was taken ill at his house.

Several accounts were presented.

From the Police Magistrate, furnishing a return of the fines of those fined under the Snow By-law, of whom 27 had paid their fines and 21 had not. The fine in each case was \$1, and costs \$2.75.

From C. V. Bogart, for relief from taxation on premises from which he had received no rent.

From W. Pearce, asking for information as to dredging.

From Joseph Hanna, regarding taxes.

REPORTS.
Ald. Jellett stated that he had called the Finance Committee together but there was no quorum.

Ald. Robertson stated that Ald. Pettie had been unable to get the reports for hospital in proper shape. A report was, however, presented from the Committee recommending the payment of sundry accounts in that behalf.

Of the Public Works Committee recommending the painting of the bridges, and recommending the acceptance of the offer of R. Lee to break hard head stone with a stone breaking machine, at \$1 per cord, furnishing 400 to 500 cords per annum.

INQUIRIES.
Ald. D. Holden valued for details of expenditure, as called for by resolution, on the hospital.

Ald. Pettie said he had been unable to get the accounts, and wishing to get all details before making a report, he had not reported to-night. He would promise, on the word of a Bay of Quinte man, to have a report for the next regular meeting.

Ald. D. Holden said some of the accounts were not in the proper shape, and he depended on the accounts of doing business.

Dr. Curlett, medical officer, was heard on suggestion of Ald. Jellett, and stated that small pox had been stamped out and the place where it first broke out had been well thoroughly disinfected. In answer to Ald. Pettie, he said the patients had fared well, and reports to the contrary were untrue.

In answer to Ald. Ostrom, Ald. Jellett said he had not given instructions to the Collector to stay proceedings for the collection of taxes.

NOTICES.
Ald. Jellett gave notice of a By-law to enable the City to borrow \$20,000 to meet current expenditure. He explained that the \$65,000 By-law, formerly passed, had been acted on by the Bank Solicitor doubting its validity, and the Bank holding a note for \$43,000, this made the necessary amount to be raised, and he passed to-night, in order to wipe out the indebtedness to the County, on which we are paying 7 per cent interest.

Ald. Ostrom gave notice of a resolution requiring the Chairman of Committees to report every two weeks.

The notices given by Ald. T. Holden, Pettie and A. L. Smith were allowed to stand.

BY-LAW.
Ald. Jellett's By-law after referred to was introduced and read a first time, and the By-law regarding the assessment and appointment of Collector were allowed to stand.

MOTIONS.
On motion of Ald. Ostrom, the Market Committee were requested to report on the erection of a public slaughter house and report at next meeting.

Ald. Ostrom moved, seconded by Ald. D. Holden, for the reduction of the number of Wards, and to appoint Ald. T. Holden, Jellett, Lingham and the mover and seconder to consider and report on the subject.

Ald. Pettie moved to offer a reward of \$25 for the arrest of the parties who fired the building which was being erected on the hospital site, and a further reward of \$25 for the conviction of any of the parties.

Ald. Jellett considered that the small amount of reward offered was useless.

Ald. Dickinson came in.

The motion was allowed to stand as a notice, no notice having been given.

Ald. St. Charles moved, seconded by Ald. Jas. Smith, to grant the request of Mr. O. A. R. Lee to have the lamp on the Canifion road removed.

—Carried.

Ald. Proctor pressed the claims of Coleman Ward for the cremated fire engine.

Ald. St. Charles said the matter should go before the Fire Committee, who had several in the ward, and had made a temporary disposal of the engine, which he believed would be found to be satisfactory.

Ald. Brennan said he had no knowledge of the engine having been disposed of.

The matter was allowed to go to the Committee.

BY-LAWS.
Council went into Committee on By-laws, Ald. T. Holden in the Chair.

The By-law to amend the rules of the Council was brought up for a second reading.

After some remarks by Ald. D. Holden, Robertson, T. Holden and Jellett, the By-law was read a second time, and the By-law to borrow \$20,000.

Committee rose and reported.

Ald. T. Holden confirmed a statement made by Ald. Dickinson that he had stated that, before and after the election that he would not again accept the position of Chairman of Finance, and he did not feel obliged to be appointed. He had believed the Committee improperly constituted under the By-law as it stood, and consequently he had not attended the meeting. He felt obliged to those who had supported the amendment on his account while holding a contrary view.

The report was then adopted, and the By-laws were read a third time and passed.

WAYS AND MEANS.
Council went into Committee on Ways and Means, Ald. Grant in the chair.

News Condensed.

—Andrew Robertson, Q. C., a distinguished lawyer, Montreal, died on the 22nd inst. —Ex-Mayor McDuff, Toronto, is dangerously ill.

—Senator Macpherson is convalescent, and is able to go.

—Mr. Charles Hafford, of Ottawa, is seriously indisposed.

—200,000 dozen eggs were shipped from Guelph on Thursday for the States.

—The trade of Buffalo during the past season has been very small.

—Four thousand in Connecticut make in a year \$34,000 h'te, valued at \$4,000,000.

—Over five tons of mails arrived at Winnipeg on the 4th inst. So says the *Times*.

—Mr. H. B. Smith, C. E., of the Canadian Pacific Railway, has left for British Columbia.

—The schooner *Provincetown* sailed from Toronto for Oswego on the 20th inst., with a cargo of malt.

—A good deal of interest is being taken in the gold mines of Nova Scotia by Americans just now.

—Ottawa lumbermen just down from the shipping report a successful winter's work, with prospects of a successful drive.

—Mr. F. C. Caprol, is to interview the Ottawa Government in connection with the Huron and Ontario Ship Canal.

—It is understood that the Imperial Government has decided to fit out a large men-of-war with electric light on board.

—The steamship *Saltwater* left Toronto for New York with 300 passengers 23 days ago, and fears for her safety are entertained.

—The large woolen-ware factory of Mr. McLaren, and woolen factory of T. Potras, Lacerte, Quebec, were burned on the 22nd inst.

—Great Britain exported in 1878, hats to the value of \$5,408,249; in 1879 the exports were \$4,487,445; showing a decrease of \$900,000.

—During last year 383,034 freight cars crossed Detroit River and from Canada. These cars, if placed in line, would make a train 2,466 miles in length.

—The vessels ordered out to Canada in H. M. ship Woodlark, which is being got ready with all possible despatch at Davenport dockyard.

—The New York Commercial Advertiser says it is among the probabilities that Jay Gould may capture the entire telegraph business of Canada.

—A telegram received to-day from Newfoundland says the *Walrus* arrived on the 14th inst., with 30,000 seals. Ten steamers are off Bonaville taking seals.

—Secretary Evans is endeavoring to impress on leading Democrats his fears that the official assertion of the Monroe doctrine in regard to the inter-oceanic canal, may lead to a war with Great Britain.

—It is reported in Parsloah that an Indian has discovered the wreck of the steamer *Washington* through a hole which he had cut in the ice for fishing. A reward is expected before the boat will be shown.

—Among the new enterprises set on foot in England we see the Canadian Salmon Company, with a capital of \$50,000 in 10,000 shares of £5 each. Objects: The acquisition of, and dealing in certain fish, poultry and other food produced in Newfoundland and Canada, and also ice refrigerators.

—Ald. St. Charles agreed with the last speaker, and urged that they have their work done by tender, then there could be no reason for complaint. Mr. Ostrom's personal grievances should not be allowed to stand in the way of the business of the Corporation. Tenders should be called for and at once.

Ald. Ostrom said he would not get down on his knees to the Mayor, but he would, as Chairman of the Printing Committee, call the Committee together for every job, but to let their work in bulk at the beginning of the year, by tender.

Ald. Ostrom said this had been done last year, and the contract for posters had not yet expired. D. Holden wanted all the papers to have fair play, and Ald. Ostrom had not treated the *Ontario* fairly in not getting prices from that office.

Ald. St. Charles agreed with the last speaker, and urged that they have their work done by tender, then there could be no reason for complaint. Mr. Ostrom's personal grievances should not be allowed to stand in the way of the business of the Corporation. Tenders should be called for and at once.

Ald. Ostrom said this had been done last year, and the contract for posters had not yet expired. D. Holden wanted all the papers to have fair play, and Ald. Ostrom had not treated the *Ontario* fairly in not getting prices from that office.

Ald. St. Charles agreed with the last speaker, and urged that they have their work done by tender, then there could be no reason for complaint. Mr. Ostrom's personal grievances should not be allowed to stand in the way of the business of the Corporation. Tenders should be called for and at once.

Ald. Ostrom said he would not get down on his knees to the Mayor, but he would, as Chairman of the Printing Committee, call the Committee together for every job, but to let their work in bulk at the beginning of the year, by tender.

Ald. Ostrom

BELLEVILLE, THURSDAY, MARCH 25.

Political Notes.

TOO MUCH PUZZLE.

This fifteen puzzle business has developed into a craze, the latest instance of which is its appearance in the editorial columns of the *Star*, sober and conservative (in management) *Globe*. The *Globe* organ, not to be outdone in enterprise by any Tory rival, gives a 36 square puzzle, but with the figures so mixed that a year's time at least would be required to set the tangled maze in order. This is done under the disguise of representing the puzzle as the diagram of a township in the Northwest, as projected by the Government, but the puzzle will none the less agitate the brains of the faithful on that account, as it beats "fifteen" all hollow.

THE COAL TRADE.

The Halifax Herald thus clearly explains the effect of the coal duty on the production of that mineral in Nova Scotia in 1879: "Had it not been for the National Policy, the year 1879 would have seen the closing of most of our coal mines. The unequal struggle which they were waging with the American coal mines—every year becoming more unequal—would have compelled them, had no succor been afforded, to follow the course of many others, and stop work. As it was, the National Policy when introduced last March found them paralyzed, and except in some few instances, unable to take immediate advantage of the protection afforded them. The price of coal in the United States, during last summer, went down lower than it ever before reached in that country, with the effect of greatly reducing our sales there, and had it not been for the duty, would also have driven our coal completely out of the Canadian market. As it was the abnormally low price of American coal joined to the weak and disheartened condition of many of our Coal Companies, and the scarcity of shipping during the Autumn, had the effect of seriously neutralizing the good effects of the duty. Had it not been for the duty however, these causes would have virtually put an end to our coal mining industry. As it is we have been enabled to hold our own, and with the removal of these causes we should be able to make a large advance during the present year."

POSTAL REVENUE.

It is of considerable interest to know the amount of revenue received by the Post Office Department at Ottawa, for the several cities and towns in the Province of Ontario. The following is the list as taken from the returns made by the Postmaster-General: Guelph, \$12,392; Brantford, \$12,008; Belleville, \$11,183; St. Catharines, \$10,872; Brockville, \$8,254; St. Thomas, \$8,197; Chatham, \$7,793; Stratford, \$7,408; Peterboro, \$7,408; Woodstock, \$7,046; Galt, \$6,179; Ingersoll, \$6,150; Port Hope, \$6,019; Barrie, \$5,933; Cobourg, \$5,476; Windsor, \$5,294; Lindsay, \$5,234; Napanee, \$5,026; Sarnia, \$5,001; Owen Sound, \$4,361; Watkinson, \$4,207; Collingwood, \$4,078; Orillia, Simcoe, \$4,013; Bowmanville, \$3,947; Seaford, \$3,809; St. Marys, \$3,676; Whitby, \$3,633; Berlin, \$3,612; Perth, \$3,540. The revenue derived from the other cities is: Toronto, \$154,563; Hamilton, \$49,150; London, \$32,913; Ottawa, \$28,025; Kingston, \$15,331.

ANY TIME FOR FREE-TRADERS.

The Toronto Telegram says: "The opponents of the National Policy would not note with a feeling of pleasure a brief despatch from Berlin which says that the German National Policy is having the effect of largely supplanting articles formerly imported with those of native manufacture, a result which is the experience of Canada, though there are those who are so wilfully blind

that they will not see any improvement in condition of the Dominion within the last year. The success of the German tariff should lead support to the framers of the Canadian Policy, for the positions of these two countries are more nearly analogous than those of Canada and the United States. The success of protection in the Republic has often been attributed to three things within the United States: practically so many countries, enjoying between each other the benefits of free trade. The advocates of protection have claimed that it is the only policy which can foster a nation, and they will rejoice that facts are bearing out their theories."

THE GOVERNMENT BUILDING.

The Question of Location at Issue.

NO DECISION ARRIVED AT.

A public meeting to take into consideration the selection of a suitable site for the erection of the contemplated Government buildings was held in the City Hall last evening at eight o'clock.

Attendance was but meagre at the opening, and yet it comprised many of our prominent citizens.

At eight o'clock His Worship the Mayor took the Chair, and on motion Mr. Wm. L. Hamilton was declared to act as Secretary, but he declined, and Mr. Jeremiah Thompson was appointed to fill the position.

The Secretary then read the requisition calling the meeting, after which the Mayor said the requisition explained itself and he hoped the promoters of the meeting would have a definite place of action to work on, and he would therefore call upon them.

Mr. Thomas Ritchie said, doubtless the Cabinet would like to hear an expression of opinion in regard to the location of the proposed buildings, but he would desire that the Government would not be embarrassed by any action that might be taken. What he desired was a central location for the contemplated buildings.

Mr. M. A. Dixon said the public buildings should be situated in the central portion of the city, equidistant between the wharf and the station. It was a good thing in his opinion to have the public buildings easily accessible to all. He was satisfied it made no difference where the Custom House or Post-office was, as they would have to go where the business was done.

There was considerable stamping indulged in about this time, which was only quieted by the speaker taking the platform.

Mr. Dixon continuing, said he was going to move his resolution if he took an hour to do so. He moved that the locality on the corner of Front and Hotel streets or in the vicinity of the Bank of Montreal should be the site selected for the location of the proposed Government buildings. In furtherance of his motion the speaker said Belleville was to become a central point, and in two or three years would have a grand union depot and refreshment rooms and become a centre of trade.

Here there was considerable noise and stamping of feet, and the result was the speaker left the platform.

Mr. Dixon again came on the platform and urged, amid noise, that the site chosen should be the corner of Hotel and Front Streets, the former of which would become the Wall Street of Belleville. (Cries of "No time" caused the speaker to sit down.)

By this time the audience had considerably increased, and all appeared to manifest an interest in the proceedings.

Calls for Dr. Hope brought that gentleman forward. He said he never hesitated to express his views on any subject, and now if the Government of the day had expressed a wish to locate the public buildings, he had no desire to say anything in the premises, particularly as the Minister of Public Works had been here. There were two locations named for the site of the proposed buildings, and notwithstanding the resolutions the matter should be left to the Government, who would be held accountable for the selection. He knew of two places suitable for the purpose proposed, and the site chosen, the Government should be held responsible. He had never heard that the Government had asked that we should select a site. Our city now had a representative in the Cabinet; he knew our requirements, and if a suitable location was not chosen we would know upon whom the blame should be thrown.

Mr. James Meagher said a certain amount had been put in the estimates for the erection of public buildings in this city. It is not likely the Government will do as we say, but they will hear of our action. The buildings should be put up in a place where they will give the most accommodation to the public.

He moved, seconded by Thomas Ritchie, that the buildings be centrally located. In furtherance of his resolution, the speaker said he had nothing to do with the selection of a site, but he would assert that the more central the location the more advantageous would the buildings be to the people at large.

Mr. Ritchie favored a centrally selected site for the proposed buildings, and considered that the Government were desirous of meeting the wishes of our people and would be glad to have them express their views on this matter.

Mr. Dixon rose to speak, but was met by a series of interruptions until he took the platform.

Mr. C. V. BOUQUET—How many times can one person speak?

Mr. Dixon said he could not see how a motion could be put subsequent to his motion without being an amendment. (Here there was considerable noise, amid which Mr. Dixon's point of order was declared proper.)

Mr. A. DIAMOND said we desired such buildings long ago, and now we were in need of an old citizen for their erection—a gentleman who was now Minister of Customs, and for whom we entertained a

proper regard. The Government intend to put in one building the public offices, and it would be unwise and uneconomical to put up separate buildings. The place nearest the market and city buildings is where the people come, and it is the most convenient place. The principal public business houses, three or four, are on Bridge Street, which was now a central business street. In expressing his own views he would favor either corner of Pinnacle and Bridge Streets, but he had every confidence that Hon. Mr. Bowell would act in his best discretion and he was confident, would act to the best of his ability in this regard. He favored leaving this question to the Government, who would be held accountable for their selection. He concluded by moving in amendment to the amendment, that it is inexpedient to interfere with the Government in their selection of a site for the proposed buildings.

Mr. E. R. FRALECK said he was confident the Government would select a proper site for the proposed public buildings. The Government, however, he had no doubt, would pay proper attention to any resolution this meeting might deem fit to pass. As citizens we should either leave this matter to the Government, or name a site for them. He favored the leaving of the matter to the Government, who, he was confident, would deal liberally with us. If the selection of the site were left with the Government, it would be as graceful an act as we could do.

Mr. HANFORD ASHLEY considered that the Government should not be blamed unless the people showed where they wished the proposed buildings located; he favored the location of the Post Office at least one block further north than it is at present situated. He had confidence in the Hon. Mr. Bowell, and was sure if the people wanted the Post Office and Custom House further north, he would comply with their wishes. Hotel and Front Streets should, in his opinion, be the locality in which, for convenience, the public buildings should be erected. If a site can be selected north of Bridge Street as cheap as another place, the preference should be given to the former.

Mr. A. DIAMOND favored the leaving of the selection of a site to the Government.

Mr. RITCHIE again spoke in support of the amendment he had seconded.

Dr. Hope again spoke, and his remarks were uttered amid considerable confusion.

Mr. Dixon again took the floor. Stamping of feet followed, which drew from him "I'm going to stay here for 24 hours."

Mr. D. continued to speak, but stamping and talking and whistling prevented his being distinctly heard.

Mr. W. R. BARNER—"I move this meeting adjourn."

Mr. J. B. FLINT said it was impossible to arrive at a decision, as the members of those favoring certain sites were here in force. He approved of the drawing up of a petition setting forth the views of those who favored a particular location.

Mr. Meagher wished to add a rider to his motion, but in so proceeding Mr. Diamond objected.

Mr. Dixon got up to speak but could not be heard.

Cries of "Kelso," "Kelso," brought Mr. Thos. Kelso to the front. He said no faint had ever been found with the present location of the public offices, and he was satisfied the Government would do what was right in the premises. The matter of location should, in his opinion, be left to the Government, and it looked like a piece of arrogance and absurdity to ask the Government to locate these buildings where we wanted them.

On the motion being put there was considerable disorder and the Chairman was unable to give a decision.

Mr. ASHLEY got up to speak, but such was the commotion that he could not be heard.

Commotion and disorder were now the rule, and the Mayor asked a division of the house. On the vote being called, some held up both hands, and others made demonstrations of a character that were not in keeping with the proceedings. Confusion of a high order prevailed, and the result was that nothing of a definite character was determined upon. The meeting, in the opinion of the Mayor, was about equally divided.

The meeting closed with the usual cheers.

News Condensed.

—The Supreme Court has adjourned until the 9th of April.

—Hon. Mr. McPherson has gone to Toronto.

—A shock of earthquake was felt in Montreal yesterday morning.

—It is understood that there will be no division on the tariff question this session.

—Prince Louis, recovered, but will not appear in public till the Queen's birthday.

—A shocking accident occurred near Odessa a few days ago, the effects of which Thomas Rayworth, aged 70 years, lost his life.

—Several gentlemen representing the Grand Junction Railway have recently held interviews with members of the Government.

—A St. Petersburg despatch says, on account of the Russian correspondence with the American, the British at Lubeck, will shortly be published.

—The Beaver Line SS. *Lake Nepigon* arrived at Liverpool on Wednesday, and landed all her cattle alive but the exception of two which died on the passage.

—A Montreal dentist has been caught in the act of attempting to smuggle \$125 worth of gold leaf from New York, by concealing it on his person.

—The SS. *Quebec* from Halifax, 10th inst., with 250 cattle, arrived at Liverpool on Monday, and her live stock in good condition, except 50, which were lost on the passage.

—A Paris despatch says the Jesuits, with a view to a decision against them by the Government, have purchased several buildings in Monaco and Jersey, whether they will withdraw in case of expulsion.

—John Quinn, aged 60, a leader in the Fenian invasion of Canada in 1866, hanged himself in the police station at Buffalo on Monday. He served six years in the Kingston penitentiary.

MORNING DESPATCHES. EUROPEAN.

PARIS, March 23.—A billiard match between Gussard and Slosson, will probably come off on April 12th. Slosson is at practice and yesterday made an astonishing run, scoring 955 without a "freeze," and without using the rest.

VIENNA, March 23.—At the ninth day of the Austro-Serbian war, three Serbs, Jadinieres brought \$18,400. Total sales to date \$335,000.

VIENNA, March 23.—It is reported that Russia is seeking alliances with Japan against China. Tientsin, Victoria, has received two million dollars from the Peking Government to purchase eight gunboats in England or the United States, to defend the coast against Russia.

PANAMA, Ill., March 23.—In Clay County, Illinois, the famous Edwards family, who owned the famous Edwards farm, died yesterday.

ST. LOUIS, Mo., March 23.—The construction train on the Western and North Carolina Railroad with the convicts for work on the railroad, jumped the track yesterday and two colored convicts and one white stand were killed.

GOVERNMENT, Wis., March 23.—Rasmus Larker was tarred and feathered last night by masked citizens. Larker had been the lover of Miss Foran. She married Albert Shilow, it is alleged for his money, and then deserted him and lived with Larker, hence the summary justice.

NEW YORK, March 23.—The Sun's Washington special says Miss Raymond swears that at the time Senator Hill was intimate with her she was attending the extra session in Washington, and hence could not have been in Georgia.

PHILADELPHIA, March 23.—Prof. Barker, Professor of Physics at the University of Pennsylvania, who with other scientists have been experimenting at Menlo Park recently with Edison's electric light, during a lecture last night gave an unusual and unusual amount of light, and said it was cheaper than gas at 20 cents per thousand.

NEW YORK, March 23.—A number of Protestant clergymen at a meeting last night prepared articles of incorporation for an American Independent Catholic Church to be conducted by ex-clergymen of the Church of Rome.

The clerk who led to the arrest of Dr. Dix's persecutor came from a clergyman who said Williams might possibly be the culprit, as he had lived in New York eight or ten years ago and had a good deal with the boys of Trinity Chapel. Through his connection with the Sunday school, Williams soon obtained a footing in society, but his career came to a close about a year ago, when he was expelled from the church on account of a suspicion that fell on him of infamous conduct.

John Bullen jr., a well known lawyer, sent a note to his wife last night that he was about to drown himself. He is missing and the police are investigating.

May Agnes Fleming, the novelist, died at her home in Brooklyn yesterday, aged 40.

THE SENATE'S EXPENDITURES.—From the official returns it appears that the Senate was in session fifty-six days last year, the mileage cost \$10,455 and the indemnity \$73,300. The highest mileage paid was to the Senator from Ohio, of British Columbia, who received \$104.55. The Senator least in attendance was the Hon. Mr. Brown, who was only present eight days.

THE RAILWAY DISPUTE.—A despatch from Ottawa on the 24th says:—"The Railway Committee met this morning, when the *Wendell Valley Railway Bill* was taken up. A discussion arose as to whether or not the Company had power under the General Railway Act to give under the City of Toronto, after which the bill was referred to a sub-committee to confer with the representatives of the different roads and see if some satisfactory arrangement cannot be arrived at."

EMIGRATION TO DAKOTA.—In the House of Commons on the 24th, says the *Mail* Ottawa correspondent, Mr. Robertson, Hamilton, roused a discussion on the subject of the alleged emigration from Canada into Dakota. He read a paragraph from the *Globe*, in which it was stated that a great number of passengers had gone from Ottawa to Dakota, but Mr. Jones, of London, pointed out that most of the passengers on the train in question were Americans who had come over from Ogdenburg to Prescott to take the Grand Trunk west for Dakota. Dr. Schiltz also confirmed this statement, and declared that many of the Americans who started for Dakota stayed in Manitoba.

DINNER TO SIR A. T. GALT.—A public dinner to Sir A. T. Galt, who is to sail for England on Saturday, was given in Montreal on the night of the 24th inst. The attendance numbered about 200 of the principal commercial men of the city, representing both sides in politics, together with several members of Parliament. Sir Charles Tupper, having spoken strongly in eulogy of Sir Alexander, that gentlemen made an able speech in which he defined the nature of his duties. He said that hereafter the representative of Canada would be associated with the British diplomatists in negotiating treaties which concerned the Empire, and he intimated his expectation that the Imperial Government would assist in the construction of the Pacific Railway.

Parties wishing to purchase any of the above lots will be able to make payments to suit themselves, as the whole must be disposed of at once.

Early application will secure choice of Lots or will sell *ex bloc*.

Wm. J. TAYLOR, dit

Belleville, 23d March, 1880.

CARPETS.

1 O-DAY we are in receipt of the last shipment of Carpets IMPORTED for this Season's trade.

OUR STOCK

is now complete, and we have no hesitation in saying that there are few stocks of Carpets in the Dominion equal to it.

THE NEW PATTERNS

which we are showing are unusually attractive, and include designs specially suited for

PARLORES, SITTING ROOMS, DINING ROOMS, LIBRARIES, SMOKE ROOMS, OFFICES, BED ROOMS, HALLS, STAIRS, &c.

OUR ORDERS FOR CARPETS

were placed last November, when the prices in Britain were at the lowest point touched in many years. Since then there has been an extraordinary advance, and to-day the figures are from 15 to 20 per cent. higher than they were at that date.

WE INTEND SELLING

all our new Carpets at the old prices. A more favorable opportunity for purchasing a new carpet at an extremely moderate price, is not likely to occur in many years.

WILTON CARPETS, BRUSSELS CARPETS, TWO PLY CARPETS, TAPESTRY CARPETS, HEAVY CARPETS, and MATTINGS of various kinds.

BARBER, BRIGNALL & CO., IMPORTERS.

FARM FOR SALE.

THE undersigned offer for sale part Lot 26, 8th Con. Thurlow. Known as the Cadman farm.

The farm consists of 100 acres of land under a good state of cultivation. There is a good frame barn and dwelling on the premises. A large orchard and never failing spring of water on the premises. The farm is about a mile from the village of Bedford.

For further particulars apply to W. P. HUDSON, or W. A. CHAPMAN, Rolin, P. O., Executors Estate of the late Wm. Cadman, Thurlow, March 11, 1880. 26433, wif

Local Notices.

Notice under this head, for a time each insertion. After six insertions 5 cts. a line.

Coughs and diseases of the throat and lungs. Dr. Hall's Horehound Balm is one of the most potent Cough Syrups ever introduced, it is very pleasant to take and is very efficacious. Albert L. Geen has been appointed agent. Try it. 24841w

Daily Intelligencer.

RELLEVILLE, THURSDAY, MARCH 25

City and Vicinity.

RIDER CHRISTIAN CHURCH.—Service to-morrow morning at 11 o'clock and administration of the Lord's Supper.

MAUNDY THURSDAY.—This day, which is known as Maundy or Holy Thursday, is strictly observed in the Roman Catholic and English churches.

PERSONAL.—Alex. Robertson, M.P.P., Dr. Stewart, and Dr. Wilson, went to Port Hope this morning to attend the funeral of the late Hon. B. Seymour.

THE STEPHENSON MILLS.—The above mills at Shannonville not having been sold Mr. Wilkins is prepared to negotiate for the sale of the property on private terms. The mills are in good working order and are offered cheap.

ACCIDENT.—On Wednesday evening, the 24th inst., a Mr. McTaggart, living about a mile east from the village of Madoc got thrown from his horse, dislocating his shoulder, and being otherwise slightly injured. The injured limb was set by Dr. Dafeo.

FIRE.—On Wednesday evening, the 24th inst., about eight o'clock, a small dwelling owned by John White Esq., M.P., in Madoc, near the foundry, was burned. The furniture was all saved, except the cook stove. We have not learned whether there was any insurance on the building.

AGRICULTURAL ASSOCIATION.—Mr. J. C. Rykert, M. P., has been elected President of the Agricultural and Arts Association, and Mr. J. B. Aylsworth Vice President. Prof. Bell was elected Chairman of the Printing Committee and Mr. C. Graham Chairman of the Committee on Dairy Products.

NEW GRIST MILL.—The old rough-cast storehouse, just north of the Harbor Master's office, has been stripped of its outer covering and nothing remains but the frame, which has been sold to Mr. Sprung, of Ameliasburg, for the frame for a barn. On the site vacated Mr. Lee, of Newcastle, will erect a stone grist mill, a large quantity of the material for which has been delivered.

A GREAT CALF.—Messrs. Green & Curtis, butchers, showed in their Front Street shop this morning a magnificent calf, one of the finest ever killed in Belleville. This animal, which was bred and fed by Mr. Denyes, lot 7, 2d concession of Sidney, was eight months old and weighed 670 lbs. It was skillfully dressed and neatly decorated with flowers.

THE STAGE.—Mrs. Scott Siddons will return to Canada in October next with a dramatic company of her own selection. The plays to be produced are: "The Queen and Cardinal," "Ordeal by Touch," "King Rene's Daughter," and "Valerie." Those who have listened with pleasure to this gifted lady's readings will long to see her in a play, and supported by a good company. She says she is a born actress, but that when travelling with a company, her husband always insisted on assuming the helm, and in managing affairs he knew nothing about. The company required looking after, and all of its members could not be depended upon. It was to rid herself of these cares that she assumed the task of the reader. She found it very difficult to leave the green room with a grievous heart and distressed mind to appear fresh and smiling before an audience. Her physician predicted serious consequences if she did not abandon the stage while her husband rendered it so unpleasant to her.

THE CURE.—There were only three tramps in the cells last night. No arrests were made.

BOARD OF EDUCATION.—An adjourned meeting of the Board will be held to-night.

THE GRAND TRUNK.—The cause of the recent delay of trains was the heavy snow storm in the east.

HOLIDAY.—Good Friday being a public holiday, the Intelligencer will not be published to-morrow.

TO-NIGHT.—The Bandmanns will appear at the Opera House to-night in "The School for Scandal."

COLD.—Boreas did his best last night, and the result was a temperature which was low enough for January, the wind being strong and the cold very penetrating.

CHANGE IN THE LAW.—By an amendment to the Municipal Act no bonus may now be given by a municipality unless a majority of all the ratepayers entitled to vote shall have voted in favor of the bonus.

TRAFFIC RECEIPTS GRAND TRUNK RAILWAY.—Traffic for week ending 20th March, 1880, and 22nd March, 1879:—Passengers \$17,507; mails, \$3,001; freight, \$148,740; total, \$189,248. For corresponding week of 1879:—Passengers \$14,886; mails, \$2,102; freight, \$104,886; total, \$127,874. Increase, \$61,374. The Riviere du Loup receipts for 1879, \$17,000, and in 1880, adding them, \$21,200, the week's increase is \$4,200, and the aggregate increase for twelve weeks is \$27,201.

THE FERRY.—After a good deal of action, the large cake of ice which yesterday morning impeded the progress of the ferry steamer was got rid of and the boat resumed her trips. During the night ice about one inch thick formed on the bay, and the steamer had some difficulty in making her way through it. She is now, however, making regular trips.

BOAT BUILDING.—Messrs. Tisdale have nearly completed for a gentleman in town a catamaran with hulls 20 feet long and 9 ft. 5 in. spread. They have turned out thirteen new skiffs during the winter. Mr. W. H. Carter has completed two light single scull boats, and will furnish three or four more of the same class, besides turning out six new skiffs. The boat-building trade is certainly looking up in Belleville.

Marine Notes.

The schooner Ontario, which froze in at the Narrows, and wintered there, has been taken below Massena Point and loaded with ice.

The schooner Florence, which loaded with ice at Bleeker's mill, has been hauled out to the middle of the bay and lies at anchor there.

The schooner Mary Foster, also ice-laden, lies at the Grand Junction dock, and the British Queen (ice laden) and David Anderson with rye on board lie at Downey & Preston's wharf, and the Wm. Elgin at Campbell's.

The schooner John Wesley has been given new top sides and will also have new decks. The snow Finnie is receiving general repairs, and the schooner Belle is being painted and touched up generally.

Messrs. Monaghan & Maxon's new wood scow is nearly completed.

Chicago and Montreal are to be connected by a new through line. Eight line steamers of the Merchants' Line (Canadian) will ply from Chicago through to Montreal, and en route, calling at points on the St. Lawrence, the Welland, and the Niagara River, Windsor, Detroit, Sarnia and Milwaukee.

The steamer Kincaid will probably run from Belleville to Oswego as she did last year.

The schooner Nellie P. Downey is loaded with ice at Bath, and will be commanded by Capt. Allen, of Amherst Island.

There is a small steamship building at South Bay, to run from South Bay to Kingston.

A correspondent writes from Trenton to the Intelligencer, Belleville, I. E. that 7,000,000 ft. of lumber have been sold here. There is quite a lot of poplar wood and bolts to be shipped. Also 3,000 tons of ice besides the cargo in the schooner Nellie P. Downey.

There is a small steamship building at South Bay, to run from South Bay to Kingston.

The first vessel to arrive at Oswego this season was the schooner Perseus, with 15,000 bushels of malt. She left Trenton at 10 a. m. on Saturday and reached Oswego at 8:30 a. m. on Sunday. This is the earliest arrival ever reported at Oswego.

AFTERNOON DISPATCHES.

VIENNA, March 25.—The Emperor of Russia has presented to Prince Alexander of Bulgaria, a war steamer, 400 rifles and several Krupp guns.

LIVERPOOL, March 25.—The cotton market will be closed from this evening until Tuesday for the Easter holidays.

LONDON, March 25.—The ex-Emperor Eugenie, travelling incognito, accompanied by Col. Sir Henry Evelyn and Lady Wood, the Marquis de Sano and a small suite will embark at Southampton to-day for South Africa.

DUBLIN, March 25.—Parry and Biggar have decided that, conjointly with John O'Connor Power, member for Mayo, there shall be in the County Mayo one of the prisoners recently sentenced at the Castlebar assizes to imprisonment for assaulting persons.

ST. PETERSBURG, March 24.—The departure of Skobelev, commander of the expedition against the Turcomans, has been postponed until Friday. A railway will be commenced simultaneously at two points from Krasnodar to Tiflis and from the latter to Chate.

Skobelev does not undertake the Turcomans. He is largely supplied with artillery. It is believed that no newspaper correspondents will be allowed to accompany him. The press has been notified to refrain from publishing anything referring to the expedition.

PORTLAND, Me., March 25.—A large fire is in progress at Hallowell. The American House and the bank and the Masonic Hall are reported burned.

ROME, March 25.—The French ambassador has been instructed to prepare the Pope for a revision of the Concordat with France. Revision of the principal points has already begun.

QUEENSTOWN, March 25.—Arrived, the Arizona.

LONDON, March 25.—Northern rail's steamer Vega, from Lisbon, has arrived.

LONDON, March 25.—A Ministerial crisis has occurred in Brazil. Dom Saravia has replaced Dom Comandante Simbu as President of the Council and Minister of Public Works and Agriculture.

PARIS, March 25.—The semi-official Pays says the departure of Prince Orloff, the Russian Ambassador without portfolio, as President or Premier, is the best proof that he was neither recalled nor gone on leave of absence. Orloff was followed by Peterburg to give explanations of a particular matter. Diplomatic etiquette did not require visits before this temporary absence.

WEATHER REPORTS.

TORONTO, March 25.—Probabilities for the next twenty-four hours: For the lower lakes winds gradually shifting to the southeast and south, clear to foggy, followed by increasing cloudiness and milder weather.

COMMERCIAL NOTES.

The United States Consul at Paris states that cattle may be exported from America to some parts of France at a profit.

BARLEY.—Sales of 100,000 bushels of No. 1 bright Canada barley are reported New York at \$1.05.

RYE.—An active enquiry for rye in New York has set in for export, and several large sales are reported, among which one of 40,000 bushels sold at \$1.05, and a lot of Western at \$1.05.

LITTLE FALLS, March 25.—Cheese.—There have been few transactions in cheese here to-day. One lot of about 50 boxes factory new cheese, sold at \$1.15. Five lots of farm dairy cheese, amounting to about 30 boxes, sold at range of \$1.10 to \$1.15.

LONDON, Monday, March 8.—Cattle at market, 2,790; sheep at market, 14,570. Best beef, \$1. to \$1.4; inferior and second, 6d. to 7d. per lb.; best mutton, 9d. to 10d. per lb.; inferior and second, 6d. to 7d. per lb. The cattle trade was quiet in tone, and without feature.

RETIROUQUE WITH CANADA.—The Boston Board of Trade has received a communication from the need of a reciprocal treaty with Canada, and adopted a resolution urging Congress at the present session to appoint a committee to meet a like one from Canada with a view to the removal of obstacles and disabilities by treaty as far as practicable and immediately attainable.

"TEABERRY," the new powder for whitening the teeth, stimulating the mouth and purifying the breath; the brightest, nearest, and most delicate tooth extant. Ask your druggist for "Teaberry." Price 35 cents. Beware of cheap imitations.

BIRTH.

On the 22nd inst., the wife of Mr. Stuart Hooley, of a son.

Facts that we know.

If you are suffering with a severe cough, cold, asthma, bronchitis, or any affection of the throat or lungs, or know that Dr. Knap's New Discovery will give you immediate relief. We know of hundreds of cases it has completely cured, and that where all other remedies have failed, no other remedy can show one half as many permanent cures. Now to give you satisfactory proof that Dr. Knap's New Discovery will cure you of Asthma, Bronchitis, Hay Fever, Consumption, severe Coughs and Colds, Hoarseness, or any Throat or Lung disease, if you will call at JAMES CLARKE & CO.'S Drug Store, we will give you a trial bottle free of cost, or a regular size bottle for \$1.00.

"Old Reliable."

There are many reputed remedies for that very prevalent disease, Chronic Nasal Catarrh, but none which have given general satisfaction and become acknowledged standard preparations. Hence except Dr. Knap's Catarrh Remedy, it continues to enjoy an unprecedented popularity. This reputation has been earned through the permanent cures which it has wrought, having proved itself a specific in the worst forms of the disease. In fact so reliable is it that it former proprietor offered through all the newspapers of the land a reward of \$500 for a case of Catarrh that it would not cure. Sold by druggists.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Tetter, Chapped Hands, Chilblains, Corns, and all kinds of Skin Eruptions. This salve will cure general dilapidation, costive habits and all curable diseases. They saved Isaac from a severe attack of triple fever. They are the *plus* of medicines.

A CARD.

To all who are suffering from the errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a copy of my book, *FREE OF CHARGE*. This great remedy was discovered by a missionary in South America. Send a self-addressed envelope to the Rev. Joseph T. INMAN, Station D, New York City. 1y

Mrs. Jastrow says

Don't take any of the quack nostrums, as they are injurious to the human system; but put your trust in Hop Bitters, which will cure general dilapidation, costive habits and all curable diseases. They saved Isaac from a severe attack of triple fever. They are the *plus* of medicines.

able information, press by mail to applicants.

The Great Cause of HUMAN MISERY.

We have recently published a new edition of Dr. Culverwell's Celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excess.

Price, in a sealed envelope, only 60 cents, or two postage stamps.

The celebrated author, in this admirable Essay, clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure so simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately, and radically.

This Lecture should be in the hands of every youth and every man in the land.

THE CULVERWELL MEDICAL CO., 41 Ann St., New York.

BELLEVILLE, MONDAY, MARCH 29.

The License Inspectorship.

Having learned that a number of prominent members of the Grit party had addressed a joint letter to the Attorney General on the subject of the dismissal of Mr. James Ross, from the office of License Inspector for West Hastings, we have refrained from further comment on the matter up to the present, in the hope that no utterance of ours might be made an excuse for any refusal to do justice in the premises.

The letter in question set forth, we believe, the facts in the case, and without any intimation to the Reform Association of the Riding, or to the signers. As this letter has not been acted upon, and as it seems probable that no action will be taken upon it, we resume the subject at the point where it was temporarily laid aside.

The local Grit organ of the 9th inst., makes a very lame attempt to justify the Ontario Government in the dismissal of Mr. Ross, which was foreboded in an editorial in the same journal some time since, wherein it was threatened that except appointments in this city under the Ontario Government were made in the interests of the "party," a large number of Reformers would withdraw their support from the Mowat Administration.

The only excuse offered is that Mr. Ross was employed by the year and his year was up, and so the Government gave the position to Mr. Granger.

Even this excuse, flimsy as it is, is not correct, as License Inspectors were notified officially that they were thereafter to hold office during pleasure, which fact destroys the only apology for the act which our contemporary dares to advance.

A more dangerous or damaging system could not be introduced, as it puts a premium on rascality—in other words, it says to an honest, faithful man, "Your honesty and faithfulness are of no account; make the best of your time; take all the bribes that may be offered and provide for the future, when your position is wanted by some one who has influential friends."

Although we have no faith in Mr. Mowat or his Government, yet we have more respect for some of our leading local Reformers than to think that they would acquiesce in so degrading a system as the one inaugurated in this instance. We know the opinion of many honest Reformers, and it is this, that if this matter is not remedied, Mr. Mowat will learn that there are men in the Reform ranks who will not countenance such tyrannical proceedings, but will show him that the patronage of this constituency should not rest in the hands of a petty clique, whose only use for a party is the abuse of it.

Douglas as they generally are, we can hardly believe it possible that the party in this division will quietly submit to see an efficient officer—one of the Government's own appointees—dismissed without any cause being assigned and without his being given an opportunity to defend himself, if a secret accusation had been made against him.

Who is the real head of the Ontario Government? Is it Mr. Mowat or Mr. Fraser? The latter would appear to be the ruler, for he seems to ignore the Attorney General and to deal out the patronage as he wishes. A Government is supposed to manage the affairs of the country in a business-like way, and should be a model of business. But suppose our business men treated their most faithful clerks or other employees as Mr. Ross has been, could they expect them to take the interest in their calling that

they otherwise would? Of course not, as they would feel themselves liable to be dismissed without cause at the caprice of their employers. We have said it is a dangerous system, and if continued it will bear bitter fruits.

Marine Notes.

The bay and harbor are now reported clear of ice, but Big Bay and the Reach are not yet considered open.

The schooner *Florence*, ice laden, is expected to leave to-morrow for St. Catharines.

The *British Queen*, similarly laden, bent her sails to-day.

The *John Wesley* has been taken to the eastern side of the island, where her repairs will be completed, after which she will be thoroughly painted. A month will pass before that work will be done.

The *Mary Foster*, ice laden, has received a new bowsprit and will soon be ready for work.

The *scow Fannie* has been taken to the lower end of the G. J. R. dock.

The new wood scow belonging to Monaghan & Maxson is now in the water and in a short time will be ready for business.

It will require \$700 to complete the alterations and improvements in the City of Belleville, now lying at Portsmouth, and she is expected to be ready for work in about a week, though she will not start until the Welland Canal has been reopened for traffic.

She will ply between Collingwood and Parry Sound and will be under the command of one well acquainted with the waters of that locality. Captain H. Bogart will remain on the steamer.

The steamer *Hastings*, it is stated, will during the coming season make daily trips between Picton and Kingston, calling at Belleville once a week only, namely on each Saturday night, remaining in Belleville over Sunday and leaving for Kingston every Monday morning.

The steamer *Utica* will during the summer season ply between Wellington and the Sand Banks.

A new steamer of 50 feet keel and 10 feet beam has been built at Milford and is to be out by the 15th of May. She is to be called the *Silver Spray* and will ply between Belleville and Massawassa Point.

The schooners *O. S. Storrs* and *M. O'Gorman*, the property of Captain Yott and now lying at Rednersville, are being put into commission and will be ready for work in a few days.

WOLFE ISLAND, March 25.—The following vessels have loaded ice for western ports: *Schrs. Oriental*, *Bismarck*, *J. H. Breck*, *Norway*, *Bavaria*, for Toledo; *Schrs. Singapore*, *Riverside*, *White Oak*, *A. J. Ryan*, *Florida*, *Oliver Branch*, *Benedict*, *Niagara*, *W. R. Taylor*, *Allacore*, *Anna Falconer*, *Paragon*, *Brooklyn*, *Polly Rogers*, *I. S. Hammond*, *Forest Queen*, *B. W. Folger*, *Eureka*, *Sylvester Nelson* are also loaded in bays adjacent to this port.

The barque *Arabia* and barque *Robert Gaslin*, are also loaded with ice and have been sold to a party in Buffalo. The masts will be removed from them and they will be towed as barges in the lumber trade in the ice is also piced on the banks in several places on Wolfe Island and Collins' Bay in large quantities, to be shipped on opening of navigation.

The steamer *Princess Louise* has been chartered to run on the river St. Lawrence for the entire season by Messrs. Folger Bros.

The schooner *New Dominion*, which has been lying at anchor in Kingston Bay since 1876, is being pumped out and being put in commission, and refitted. The steamer *Watertown* will come out as good as new, she having been rebuilt during the winter. She will be kept for excursion business this season.

The propeller *Indian* has been sold and will be pumped out and put in commission on the opening of navigation. Her purchasers are said to be Messrs. Gilmour, of Trenton. Large quantities of lumber are expected to be brought up the Rideau Canal to be shipped to Oswego this season, also large quantities of iron ore are to come over the Kingston and Pembroke Railway for shipment to American ports.

Messrs. Calvin & Breck will launch in a few days a barge that will carry thirty thousand bushels to Montreal at present draft of water.

The schooner *Acacia* is having a large amount of work done to her this spring at this port.

The schooners *B. W. Folger* and *Eureka* are fitted out and ready to leave on the opening of navigation for Charlotte, where they are consigned with ice, sold at \$1.50 per ton.

The new steamer *Varuna*, launched at Davis' yard, Wolfe Island, last fall, is being painted and finished off. She is to be towed to Kingston on opening to have her engine put in her. She is a beautiful model and makes a splendid appearance on the water and will be the fastest boat on the river or Bay of Quinte. She is owned by Capt. Porte, of Trenton.

Large quantities of hay are being pressed on Wolfe Island for western markets. It will be shipped on the opening of navigation on vessels for Toronto and other ports.

The water in the river St. Lawrence is very low, but is rising quite fast lately.

The following Captains will command the vessels as noted below: *Bismarck*, Capt. Milligan; *J. H. Breck*, C. Booth; *Oriental*, C. Malin; *Prussia*, C. Donnelly; *Norway*, C. Dix; *Bavaria*, C. Crawford; *Denmark*, C. Julien; *Siberia*, C. O'Brien; *Florida*, C. Smith; *Bangalore*, C. McCarthy; *Hyderabad*, C. Gormly; *Acacia*, C. Phillips; *Forest Queen*, C. Tye; *White Oak*, C. Dix; *Benedict*, C. Webster; *Anna M. Foster*, C. Allan; *Anna Falconer*, C. Taylor; *Julia*, C. Hortnett; *A. G. Ryan*, C. Ryan; *B. W. Folger*, C. Ryan; *Eureka*, C. Sanders; *Brooklyn*, C. Fraser; *Richardson*, C. McKee; *Canadian*, C. Blanchard; *(late of)* *Cardinal*, L. D. Eyles; *C. Eccles*, C. Philo; *Bennett*, C. D. Eccles; *W. R. Taylor*, C. Sullivan; *Oliver Mowat*, C. Beaupre; *the Oliver Branch*, C. Minaker; and the *George Sullivan*, C. Minaker; *N. P. Downey*, C. Allen; *Paragon*, C. Doherty.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

The Public Buildings.

To the Editor of the Intelligencer.

Sir.—The situation of the proposed public buildings is a matter in respect to which I am divided the Government, and especially the Hon. M. Bowell, would not only be willing but anxious to consult the interests of the citizens of Belleville where these interests do not conflict with the Department. The writer is satisfied that instead of being out of place or regarded as being a piece of uncalled for interference, as has been represented, a public expression of opinion would be felt as a relief by the Government and would be welcomed by the citizens.

The opinion being given before the site was purchased and notwithstanding, as one of the speakers the other night suggested. Indeed the Government had asked for this opinion, for the Ministers of Customs and of Public Works, were here a few weeks ago and sent for me, representative of the March 29, to consult with him in the matter. So that the opposition to making our wishes known, on the proposed ground that it would be intruding ourselves, may be simply taken for what it is worth. The fact is, opposition of this kind speaks volumes against the site the parties urging it would favor.

An impression is abroad that influence is being used to induce the Government to select a certain site on the south side of Bridge Street, and it may be remarked as a singular phenomenon that the people who assume this modest and retiring air are those in the neighborhood of Bridge Street. Let a man be made towards endeavoring to have these buildings erected near the Upper Bridge, and we are afraid that this modest and retiring disposition would be turned to something else.

Further than that the offices have been on Bridge Street for some time, there is no shadow of reason why these buildings should be placed there for the future, which would not equally apply to having them at the upper bridge, indeed the latter ought to have the preference as being nearer the centre of the city, both as to extension and population. One reason which has been advanced, namely that the market is to the south of Bridge Street, might be strongly urged and justly too, to the contrary because if both the market and the public buildings are advantages to a locality, then in fairness distribute these advantages.

Leaving out of view the convenience of the citizens and others, it is evident that on the part of the Government what it requires is simply a position suitable for transacting the business of the departments here of Customs, Post Office, Excise, &c., and if this object of the Government can be attained and at the same time meet the wishes and convenience of the citizens as a whole, it is not to be doubted.

The Hon. M. Bowell, although he does not represent the city in Parliament, still takes a deep interest in its welfare, and I am confident that he at all events would be very happy to have it in his power to bring about what is fair for the whole people.

There is little doubt of what the candidate for the city would have to do in the buildings ought to occupy as nearly as possible a central position for the business people and for the general population of the city, at the same time having consideration for the future as to the probable growth of the city in that direction.

"CITIZEN."

To the Editor of the Intelligencer.

Sir.—I trust you will not object to give publicity to the following in reference to emigration from Canada to New Zealand. I am sure you will agree with me that it is far better to direct the exodus of our young people to such a prosperous, healthful and salubrious colony as New Zealand, where they have the same flag, the same laws to protect them and the same Queen to rule over them, than that they should leave Canada in such large numbers for the United States, where they are absorbed and become lost for ever as British subjects, viz:

Three to five hundred young men, newly married young people, agriculturists, etc., acquainted with the process of clearing of forest and timber lands, and good mechanics, who desire to settle in one of the most fertile, most prosperous and most promising of all the colonies of Great Britain, are requested to communicate immediately with Dr. Potts, P. O. Drawer 325, Belleville, Ontario. None need apply under 18 years or over 35 years of age.

Further particulars in due time.
I am, Sir,
Yours truly,
Belleville, 29th March, 1880.
S. G. RETALLICK.

THE AFGHAN SITUATION.

LAHORE, March 28.—Fort Battle, situated beyond Gudumak, was attacked on Friday. A Lieutenant and twelve men were killed, and nineteen Sepoys were wounded. The enemy was repulsed.

JELLALABAD, March 28.—A large body of men are reported preparing to cross the Cabul River to raid on the British outposts. A force has been sent to disperse them. The Hazardahs of the district of Jan, inflicting on him a loss of 70 killed, including his brother. It is believed Mohammed will yet attack the British line of communication, avoiding Shipur on account of its strength.

PAYING OFF.—A Toronto paper says: "The Canadian Bank has not only paid in full its ordinary creditors, but several large ones who have agreed to wait 12 months, have been notified to apply for their money before the third of the time has expired. The assets are realizing far better than anticipated."

Sir Alexander Galt sails from Halifax for England to-day.

There are 33 witnesses summoned to give evidence in the Donnelly murder trial.

The Bill to abolish the Legislative Council of Prince Edward Island has been defeated in that Chamber by the casting vote of the President.

The position of the Jews in Russia is becoming insupportable, in consequence of the persecutions to which they are exposed from the Government.

A. E.

MORNING DESPATCHES.

EUROPEAN.

LONDON, March 29.—The *Pall Mall Gazette* commenting on the appointment of Commissioners in the Chinese American treaty, says the Americans threaten to become England's most formidable competitors in the far east. There is a desire in the Atlantic countries to use America as a foil against Europe. A very slight gain in the shape of a reciprocity treaty would give American traders a decided advantage at Chinese ports.

AMERICAN.

NEW YORK, March 29.—The Herald's cable special gives details of Parnell's ill treatment at Ennisberrry yesterday at a meeting of select candidates for Wexford's Parliamentary representation. Parnell and two of the three candidates, Byrne and Barry, travelled from Dublin by train. At several railway stations large crowds assembled to cheer them. At Farmham they were met by O'Clery, who is the third candidate for Ennisberrry. The reception was lukewarm. The meeting was a ranged for two o'clock. The point of vantage was already occupied by O'Clery and six priests. Parnell's party had decided that the Rev. Mr. Kenny should preside, but the meeting selected Rev. Mr. O'Gorman, who was assisted by a man named Murphy. A scuffle ensued and the priest flung his assailant off the platform. At this moment Parnell and Barry were seen advancing at the head of a large crowd with a band and green banners. The assembly numbered not less than 15,000 men. Amid great disorder Parnell struggled to the front of the stand. Green and cheers filled the air. Rotten eggs were thrown at the speaker and one struck him on the head. The Chairman said: "We will hear Parnell but we will not allow him to be our dictator. A rush was made for Parnell but he clung to the railing, and the priests protected him. The crowd gained him by the legs, endeavoring to drag him down. In the struggle he was battered, and his trousers split up to the knees. At this stage the police armed with rifles advanced. There was a lull. Parnell tried to speak but was interrupted by cries of 'You went to America to beg for Ireland but not for Wexford.' 'Go mend your trousers.' Amid much confusion Parnell retired. Byrne, Parnell's candidate, was rejected.

NEW YORK, March 29.—The Herald says Edison discovered his new process for extracting gold from worked out refuse or tailings while examining tailings to be placed in his agents have secured the control of immense quantities of tailings in California, and extensive works will be erected by a new company at Orville, California, where Edison claims \$50,000,000 can be extracted from tailings in that vicinity alone.

News Condensed.

—Vanderbilt is said to be worth \$130,000,000.

—The ice in the Mackinac Straits is breaking up.

—The lumber business is looking up at Ottawa.

—Queen Victoria and Princess Beatrice are in Germany.

—The *Claremont* with the mails arrived at Montreal, St. Lawrence, and Montreal.

—Thomas Cooper, of Prince Albert, has been committed for trial for causing the death of his wife by kicking her.

—Mr. Schreiber, Superintendent of the Manitoba Government Railways, has left Winnipeg on his way to Ottawa.

—Toronto will have to raise \$1,210,901 this year, being an increase of \$81,776 on the estimate of last year.

—On the 27th inst., the mast of a derrick at Humberton fell and struck Robert Bush causing his death.

—On Good Friday Montreal and Kingston had a curling match at Kingston. The score was Kingston, 26; Montreal, 19.

—In the wrestling match between Ross and Daly, which occurred at Kingston on the 26th, Ross was again victorious.

—On the 28th inst., two boys named Price and Rainor went out in a skiff at Toronto, and drifted out into the Lake. They are supposed to be lost.

—On the 27th inst., the Cust. ms authorities at Toronto seized 6,065 half chests of tea, valued at \$90,000. It was claimed as a direct importation from China, but the authorities contended the tea was re-shipped from New York.

—An engineer well known in St. Lawrence is preparing plans for tunnelling the St. Lawrence at Montreal. They will be published shortly, and are said to have cheapness and feasibility as their basis.

—Mr. Murdoch, engineer of the second hundred miles of the Canada Pacific Railroad west of Winnipeg, is on his way to Ottawa, having been summoned to give evidence before the Boundary Commission in relation to the northern boundary of Manitoba.

REMOVAL.

HAVING removed to our new premises in ROBERTSON'S BLOCK,

Daily Intelligencer.
CAST ON THE WORLD:The Border Marriage.
A STORY OF THE GREAT GLASGOW BANK ROBBERY.CONTINUED.
She flew to the preparations, and the doctor returned to the coach, Charles was carefully lifted out and tenderly carried up the gravel walk. In the hall, a light, slender man, with a white face, and led the way to the room which was being prepared."Bless me, doctor, what's this?" he asked, with a look of anxious concern.
"A serious business, Mr. Woodford—a very serious business. The young gentleman has got a dreadful blow—a blow from the blood which ran down one side of his face. His eyes were closed, and the whiteness and stiffness of death, were on his face."The girl gave a low cry of anguish when she beheld the sight, for she thought he was surely dead.
"No, he is not dead," said the doctor, who understood her fear. "Bring me some hot water."

It was brought in a moment, and while the doctor was removing the bandage, the guard entered with the youth's travelling bag, and, reaching the room, laid it on the bed. "This is his," he remarked. "Mr. Charles Ravensworth, passenger to Singleton Hall."

"Bless my life, he must be the son of the new proprietor," cried the doctor.
"Oh, yes," exclaimed the girl, "Mrs. Ravensworth told me yesterday that they expected him soon. What a terrible blow to her!"

"Here, guard," called the doctor, after that retreating functionary; "when you get to the inn tell the ostler to go up to my laboratory, and bid my boy come along here immediately with lint and plaster and my forceps."

"All right, doctor," replied the guard, and in half a minute the coach was heard rolling away towards the village.
The bandage was now removed, and the frightful gash beneath made visible. At sight of it the fair girl trembled and turned pale."Mary, darling," said her father, "you had better go to the parlor. This may be too much for you."
"Oh, no, no, father. I may be of some use here."

"Of course she will," observed the doctor. "I know Miss Woodford is a brave little woman, and she won't be upset at the sight of blood more than you, my good girl. It is the selfish and useless people only who faint away when they see a thing of this kind—the kind and tender heart seldom fail to stand it. Ah, we are getting now to see the extent of the mischief. The wound is not so deep as I feared, but I am glad to see that the girl is so brave. The pressing on the brain. Confound the brutal villain! I hope they'll catch him. Hold the light closer my dear."

Mary Woodford held the lamp forward, and the doctor gazed raising one of the closed eyelids, examined beneath.
"Ah," he ejaculated, "better than I thought here too. The free flow of blood means that the arteries are not cut. We won't want leeches. I wish that boy would come."

"Shall I go and hurry him?" asked the elderly man, but he was a reply could give the garden gate was heard to creak. In his hand the doctor's boy came bustling in at the door with the things his master had sent for.

Charles groaned more than once while the doctor was raising the pieces of bone which the weapon had cut into the skull, and the sound made Mary shudder and her father wince. The effect on the doctor was different. He regarded it as a hopeful sign, and greeted the groans with distinct notes of approval.

The surgical operation was skillfully and successfully performed, and a profusion of lint being applied to the wound it was covered up with plaster, and the flow of blood was effectively stayed—so effectively that when the snow-white cloth which Mary brought was bandaged round the youth's head, no speck came through to stain it.

Mary was now despatched to the kitchen to make a basin of barley-water, and by the time she returned to the bedroom, the other had got Charles's head and snuggly deposited under the blanket.

TO BE CONTINUED.

A Good Thing.
German Syrup is the special prescription of Dr. A. Boushka, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Croup, Croup, and all troubles of the severest nature, removing, as it does, the affection and leaving the parts in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction in every case, which its rapidity increasing every season.

Two bottles sold annually. Beware of imitations of similar names. Introduced in the United States in 1845, and now sold in every town and village in the civilized world. Three doses will relieve any cough. Price 75 cents. Sample bottle, 10 cents.

Lecithic & Perkins Mfg. Co., Limited, Philadelphia, Pa., 1877.

Mrs. M. GILES, Esq.—Dear Sir: Your favor of Jan. 20th, '77 just received, and I thank you for the information therein. I have been giving the same tonic powder in the morning and a little salt petre, pulverized in a mash, at night, and using Liniment freely down her back, loins and limbs. I procured one quart bottle from John H. Holloway & Co., and am satisfied that Holloway's tonic and kidneys is fast disappearing. The skin and complexion are now healthy, and has been done for me. I shall give her the purge-bath, (which I know how to do), and then with the powder put her in good condition, and then try your Liniment on the stiff trouble, or in the loins and hip, which I may be. To rest and the rest are doing her good—a week ago she was "all gone" behind on Saturday night, while sitting her, she broke away, took a trot up and down a large lot, equal to about a three-mile trot, and she was a better line for her old home. Her former owner was surprised to find her so well as she had improved, and said, "Darned if I don't think you will get that mare all right, and if you do, why I'm struck dead, thank you for your prompt reply. I am respectfully yours, Geo. K. CHURCHACK."

P. S.—If the mare gets all right, you will hear from me—G. K. C.

Sold by all druggists. Send for pamphlet. Dr. GILES, 120 West Broadway, N. Y.

ADAM WALKER, of Tavistock, Ontario, writes, in February, 1868, that after trying many Cough and Lung remedies for a severe cold which he has suffered with for 3 years he was cured by ALLEN'S LUNG BALM and was being made rapidly recovering his appetite was much better and he felt like a new man.

AFRONIA CURE—FOLLOWERS' COMPOUND SYRUP OF HYPOPHOSPHITES.

The Windsor Hotel.

It is one of the finest hotels in this continent. It is a credit to the liberality of Montreal friends and an ornament to our city. The corridors are wide and beautiful. The parlors and dining rooms, with their costly embellishments, and the reception rooms, are "chefs d'œuvre." Its "menus" are unequalled. It is a luxurious home for Montreal families who prefer to relieve themselves from the care of a household, and a caravansary which cannot be surpassed for visitors. Still, here is elsewhere, man is subject to the laws of health. Sickness will follow where indigestion lags. An unseasonable carousal tells as badly upon the occupant of this house as upon the dweller in a cottage. Men are apt to over-indulge where food is very tempting, and ignore the results. Happily the remedy for such indiscretions may be had in every drug store in the Dominion, in the shape of FELLOW'S'S SYRUP OF HYPOPHOSPHITES.

DEPT. OF RAILWAYS & CANALS, Ottawa, 11th February, 1880.

The reception of the above Tenders is postponed until noon on FRIDAY, 4th April, next.

By Order, F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS, Ottawa, 22nd March, 1880.

For Sale in Madoc, THAT valuable Building Lot forming part of No. 1, situate on the south-west corner of Durham and St. Lawrence Streets, in the incorporated village of Madoc. Frontages on Durham Street, 73 ft. 6 inches, and on St. Lawrence Street, exclusive of a 12 ft. 6 inches, 218 feet 7 inches to Deer Creek.

This Lot is situate in the centre of the business portion of the village of Madoc, and is peculiarly adapted for an unrivalled position for a first class block of buildings.

For terms, &c., apply to the owner, MRS. JANE WRIGHT, Madoc, 5th March, 1880. d&w

CREDIT SALE

THE undersigned, being desirous of returning to California, has decided to sell all his vacant lands on Taylor's Hill, comprising the most desirable building lots in the most pleasant and beautiful portion of the City, as follows:

Lot Letter D, on Dundas Street, known as the Homestead.

1880. THE REPRINTS OF THE FOUR LEADING QUARTERLY REVIEWS

THE EDINBURGH REVIEW (Whig), THE WESTMINSTER REVIEW (Liberal), THE LONDON QUARTERLY REVIEW (Conservative), THE BRITISH QUARTERLY REVIEW (Evangelical)

AND Blackwood's Edinburgh Magazine which have been established in this country for nearly half a century, are regularly published by the LEONARD SCOTT PUBLISHING CO., 41 Barclay Street, New York. These publications present the best foreign periodicals in a convenient form and at a reasonable price without abridgment or alteration. The latest advances and discoveries in the arts and sciences, the recent additions to knowledge in every department of literature, and all the new publications worthy of notice, are duly reported and ably discussed.

Terms for 1880 (including Postage) PAYABLE STRICTLY IN ADVANCE. For any one Review, \$4.00 per an. For any two Reviews, 10.00 " For any three Reviews, 12.00 " For any four Reviews, 12.00 " For Blackwood's Magazine, 4.00 " For Blackwood and one Review, 7.00 " For Blackwood and two Reviews, 10.00 " For Blackwood and three Reviews, 12.00 " For Blackwood and the four Reviews, 15.00 "

POSTAGE. This item of expense borne by the publishers, is equivalent to a reduction of 20 per cent. on the cost to subscribers in former years.

CLUBS. A discount of ten per cent will be allowed to clubs of four or more persons. Three copies of Blackwood or of one Review will be sent to one address for \$12.00; four copies of the four Reviews and Blackwood for \$48, and so on.

PREMIUMS. New subscribers (applying early) for the year 1880 may have, without charge, the numbers for the last quarter of 1879 of such periodicals as they may subscribe for.

In addition, new subscribers to any two, three, or four of the above periodicals, may have one of the "Four Reviews" for 1879, subscribers to all five may have two of the "Four Reviews" or one set of Blackwood's Magazine for 1879.

Neither premiums to subscribers nor discounts to clubs can be allowed, unless the money is remitted direct to the publishers. No premiums given to Clubs.

To secure premiums it will be necessary to make early application, as the stock of numbers for that purpose is limited. Reprinted by THE LEONARD SCOTT PUBLISHING CO., 41 Barclay St., New York.

CANADIAN PACIFIC RAILWAY.

TENDERS for a second 100 miles section of West of Red River will be received by the undersigned until noon on Monday, the 29th of March, next.

The section will extend from the end of the 1st Contract—near the western boundary of Manitoba—to a point on the west side of the valley of Bird-Lake Creek.

Tenders must be on the printed form, which, with all other information, may be had at the Pacific Railway Engineer's Office, in Ottawa and Winnipeg, on and after the 1st day of March, next.

By Order, F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS, Ottawa, 11th February, 1880.

The reception of the above Tenders is postponed until noon on FRIDAY, 4th April, next.

By Order, F. BRAUN, Secretary.

DEPT. OF RAILWAYS & CANALS, Ottawa, 22nd March, 1880.

For Sale in Madoc, THAT valuable Building Lot forming part of No. 1, situate on the south-west corner of Durham and St. Lawrence Streets, in the incorporated village of Madoc. Frontages on Durham Street, 73 ft. 6 inches, and on St. Lawrence Street, exclusive of a 12 ft. 6 inches, 218 feet 7 inches to Deer Creek.

This Lot is situate in the centre of the business portion of the village of Madoc, and is peculiarly adapted for an unrivalled position for a first class block of buildings.

For terms, &c., apply to the owner, MRS. JANE WRIGHT, Madoc, 5th March, 1880. d&w

GRAVEYARDS.

One car of peas and one car of

rye were received at Campbell's elevator

this morning, also one car of rye and one

car of peas at Downey & Preston's.

STREET.

The report that Walter Martin,

who was injured by a runaway at

Stirling on the 24th inst. had died from

the effects of his injuries is, we are happy

to say, untrue. Mr. Martin was not even

seriously hurt, and is now in his usual

health.

ORRILL.

This great tragedy, which

seems to be a favorite with our local

Theatricals, will be produced by the

Belleville Historic Association on Friday

evening next. A very good cast has been

made, rehearsals have been numerous, and

as every attention to scenery and costumes

is promised, an enjoyable evening may be

expected. The amateurs have gone to a

great deal of trouble and expense in their

preparations, and ought to be rewarded by

an overflowing house. Let local talent be

given a fair share of encouragement by its

means.

MEDICAL EXAMINATIONS.

At the recent examinations in connection with the

Royal College of Physicians and Surgeons at

Kingston, amongst the passmen in the

primary examination with an oral, were

J. S. McGurn, Lonsdale, and J. E. O'Shea,

Norwood. Amongst those who passed with

an oral were Messrs. R. Conklin, Hastings;

A. W. Herrington, Mountain View; and

D. R. Rutherford, Belleville, and W. T. McCarthy,

Norwood, received special prizes for best dis-

sections in practical anatomy. Mr. McGurn

is to become the demonstrator in anatomy,

and Mr. O'Shea will be demonstrator of

anatomy for ladies, if one be required.

A FAREWELL PARTY.

A very friendly and

social party, composed of the guests of

the Dominion House, assembled last

evening to do honor to one of its number,

who is about to remove to Kingston—his

former home. Mr. Walter Stephenson,

who is about to leave the city, was for some

years employed in the store of Mr. John

Sutherland and in his station there made

for himself a host of friends and became

very popular with the patrons of the estab-

lishment. On the occasion of his leaving

Belleville, his friends determined to tender

him a supper, which was done last

evening. Mine host Mackie, of the

popular hostelry above named, provided

for the wants of the inner man in the style,

character and manner which has made his

hotel so justly popular, and it is almost

needless to add that the dainty articles

served up had ample justice done to them.

The chair was filled by Mr. James

Edgar, who acceptably assigned him. After

the usual routine of toasts, speeches of the

usual congratulatory character followed, and

songs and recitations interspersed with

them made the evening's enjoyment a very

pleasant and enjoyable one. The feast of

reason, the flow of soul, the utterance of

sentiment, which prevailed must certainly

have been pleasing to the guest of the

evening. He had endeavored himself to his

friends and was agreeable, kind and affable

to his associates, who will greatly miss him

as the time rolls on. The evening's enjoy-

ment came to a close at an hour "ayont

the twal," and all who were present regret-

ted its occasion, though pleased with its

result.

ONTARIO CRICKET UNION.

From the 29th inst. we learn that a

convention of cricketers was held on Saturday

afternoon in the Rosin House, Toronto,

for the purpose of forming an Association

with the object of promoting the interests

of cricket throughout the Province. The

clubs represented were the Toronto, the

Carlton, and the Asylum clubs, Toronto;

Hamilton, Whitby, Port Hope, Oshawa,

Medford, Peterborough, Victoria, Owen Sound,

Collingwood, Kingston, Oakville, Brantford,

Paris, Cobourg, Barrie, and St. Cathar-

ines. The attendance was large and fairly

representative as could possibly have been

expected at an inaugural meeting. Mr.

Totten was called to the chair, and Mr.

Lowrey appointed acting-secretary. It

having been resolved to form an Associa-

tion to be called, "The Ontario Cricket

Association," it was decided that the rep-

resentation of the Committee should be

divided as follows:—Toronto, Hamilton,

and Ottawa, two members each; Port Hope,

Cobourg, Whitby, Chatham, St. Catharines,

and Lindsay, one; and from the north, two. It

was resolved to request his Excellency the

Governor-General to become President of

the Association. Col. Cameron and Mr.

Seaward were elected Vice-Presidents and

Mr. Merritt, Secretary-Treasurer. The

drafting of a constitution was left to a

Special Committee, and the meeting ad-

joined. We should like to see the Belle-

ville Club affiliate with this Association,

which cannot but prove beneficial to all

concerned.

Police Court.

(Before A. Diamond, P. M.)

TUESDAY, March 30.

DRUNK AND DISORDERLY.

Thos. Kelly was fined \$1 and costs and

George East, first offence, was discharg-

ed.

SENTENCED.

William Bass and Andrew Stephenson

who pleaded guilty of stealing fowls from

Mr. W. Davis, were sentenced to six

months each in the Central Prison.

ROBBERY.

The case of Michael Degan, against John

Cockins was continued. Prisoner was

acquitted.

Mr. HAMMOND IN MONTREAL.—The

Marine Notes.

The ice still holds in Big Bay and it is

not likely that any of the schooners will

leave here before Monday next. Mr.

Rathbun's tug tried to force a passage

yesterday, but without success.

The schooner *Wm. Edin* is said to have

been labelled for a claim against the vessel

held by Mr. Danaham Ockerman.

The first vessel called this year, the

Chicout and Kingston, was made on

Saturday. The schooner *Mananila*

carries a load of corn at 10c per bushel.

She also has the privilege of transhipping

at Port Colborne at 6c. The freight this

year is far in advance of that at the same

date last year.—*Whig*

MORE VANDALISM.—On Saturday night

last Robert Donnelly, of Biddulph, bor-

rowed William Donnelly's horse and

buggy to drive to the Kennedy home

stead, where old Mrs. Kennedy, William's

mother-in-law, was lying dead. He left

the buggy some distance off while he made

his visit, but on coming out found the

buggy had been maliciously broken to

pieces by some enemy.

Daily Intelligence.

Beet Sugar in Maine.

The past year's work of the Maine Beet Sugar Company in Portland, was a bad one for a beginning. In a report to the 1,700 farmers who raised the beet the company says that the average crop from 100 acres was 49 tons; in some cases the return was not enough to pay cost of seed and fertilizer; the other extreme was 30 tons per acre. For 9,000 tons delivered at the factory, \$56,000 was paid; for storing and pitting, \$8,000; fuel, \$10,000; labor and other expenses, \$37,000; total, \$101,000. The product, 900 tons of sugar and molasses, brought \$110,000, leaving \$8,000 toward machinery and fixtures in the State bounty. The company wish to continue the experiment, and invite the growers to renew their contracts for at least one year each. They say, however, that they cannot afford to increase the price per ton except for early deliveries, which can be worked up before the weather, and thus save expense of pitting.

A Good Thing.
German Syrup, the prescription of Dr. A. Beecher, a celebrated German Physician, and is acknowledged to be one of the most fortunate discoveries in Medicine. It quickly cures Coughs, Colds and all Lung troubles of the severest nature, removing, as it does, the inflammation, and leaving the throat in a strong and healthy condition. It is not an experimental medicine, but has stood the test of years, giving satisfaction to every one who has used it. Beecher's German Syrup was introduced in the United States in 1818, and is now sold in every town and village in the United States. Three doses will relieve any ordinary cough. Price 75 cents Sample bottle, 10 cents.

PRINCIPAL OFFICE.

MM. M. GILES, Esq., Dear Sir: Your favor of Jan. 20th, 77 just received, and I thank you for the information. I have been giving the same a good deal of thought in the morning and a little salt petre, pulverized in a mortar, and then mixed with a little oil of sweet almond, and then down her back, loins and limbs. I procured one quart bottle from Johnston, Holloway & Co., and am satisfied that it will cross the loins and kidneys is fast disappearing. The little medicine, I am pretty well satisfied, has been done for some time. I shall give her the purgative (which I know how to do), and then with the powder put her in good condition—meanwhile trying your Liniment. I have been told, or in the loins and hip, which ever it may be. To prove that your Liniment and the rest are doing her good, I shall give her the "all gone" behind Saturday night, while walking her, she broke away, took a trot up and down a large lot, equal to about a three-mile trot, and then struck a bee-line for her old home. Her former owner was surprised on Sunday to see how she had improved, and said: "I don't think you will get that mare all right, and if you do, why, I'm struck!" Again thanking you for your prompt reply. I am respectfully yours,
Geo. K. CRUMBAK.

P. S.—If the mare gets all right, you will hear from me—E. C. G.
Sold by all druggists. Send for pamphlet.
Dr. GILES.
120 West Broadway, N. Y.
Trial size 25 cents.

ANAM WALKER, of Tavistock, Ontario, writes, in February, 1868, that after trying many Cough and Lung remedies, he was cured by which he has suffered for 3 years he being much benefited by it. "It is a letter that he said his night sweats were all gone and he was rapidly recovering, his appetite was much better and he felt like a new man."

The Windsor Hotel
is one of the finest hotels on this continent. It is a credit to the liberality of our Montreal friends and an ornament to our city. Its corridors are wide and beautiful. The parlors and dining rooms, with their costly embellishments, and the reception rooms, are "chefs d'œuvre." Its "all gone" behind Saturday night, while walking her, she broke away, took a trot up and down a large lot, equal to about a three-mile trot, and then struck a bee-line for her old home. Her former owner was surprised on Sunday to see how she had improved, and said: "I don't think you will get that mare all right, and if you do, why, I'm struck!" Again thanking you for your prompt reply. I am respectfully yours,
Geo. K. CRUMBAK.

CREDIT SALE
OF
BOOKS.
THE undersigned being desirous of returning to California, has decided to sell all his vacant lands on Taylor's Hill, comprising the most desirable real estate in the most pleasant and beautiful portion of the City, as follows:
Lot Letter D, on Dundas Street, known as the Homestead.
Lots Nos. 2, 3, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 262, 263, 264, 265, 266, 267, 268, 269, 270, 271, 272, 273, 274, 275, 276, 277, 278, 279, 280, 281, 282, 283, 284, 285, 286, 287, 288, 289, 290, 291, 292, 293, 294, 295, 296, 297, 298, 299, 300, 301, 302, 303, 304, 305, 306, 307, 308, 309, 310, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 323, 324, 325, 326, 327, 328, 329, 330, 331, 332, 333, 334, 335, 336, 337, 338, 339, 340, 341, 342, 343, 344, 345, 346, 347, 348, 349, 350, 351, 352, 353, 354, 355, 356, 357, 358, 359, 360, 361, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 372, 373, 374, 375, 376, 377, 378, 379, 380, 381, 382, 383, 384, 385, 386, 387, 388, 389, 390, 391, 392, 393, 394, 395, 396, 397, 398, 399, 400, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 430, 431, 432, 433, 434, 435, 436, 437, 438, 439, 440, 441, 442, 443, 444, 445, 446, 447, 448, 449, 450, 451, 452, 453, 454, 455, 456, 457, 458, 459, 460, 461, 462, 463, 464, 465, 466, 467, 468, 469, 470, 471, 472, 473, 474, 475, 476, 477, 478, 479, 480, 481, 482, 483, 484, 485, 486, 487, 488, 489, 490, 491, 492, 493, 494, 495, 496, 497, 498, 499, 500, 501, 502, 503, 504, 505, 506, 507, 508, 509, 510, 511, 512, 513, 514, 515, 516, 517, 518, 519, 520, 521, 522, 523, 524, 525, 526, 527, 528, 529, 530, 531, 532, 533, 534, 535, 536, 537, 538, 539, 540, 541, 542, 543, 544, 545, 546, 547, 548, 549, 550, 551, 552, 553, 554, 555, 556, 557, 558, 559, 560, 561, 562, 563, 564, 565, 566, 567, 568, 569, 570, 571, 572, 573, 574, 575, 576, 577, 578, 579, 580, 581, 582, 583, 584, 585, 586, 587, 588, 589, 590, 591, 592, 593, 594, 595, 596, 597, 598, 599, 600, 601, 602, 603, 604, 605, 606, 607, 608, 609, 610, 611, 612, 613, 614, 615, 616, 617, 618, 619, 620, 621, 622, 623, 624, 625, 626, 627, 628, 629, 630, 631, 632, 633, 634, 635, 636, 637, 638, 639, 640, 641, 642, 643, 644, 645, 646, 647, 648, 649, 650, 651, 652, 653, 654, 655, 656, 657, 658, 659, 660, 661, 662, 663, 664, 665, 666, 667, 668, 669, 670, 671, 672, 673, 674, 675, 676, 677, 678, 679, 680, 681, 682, 683, 684, 685, 686, 687, 688, 689, 690, 691, 692, 693, 694, 695, 696, 697, 698, 699, 700, 701, 702, 703, 704, 705, 706, 707, 708, 709, 710, 711, 712, 713, 714, 715, 716, 717, 718, 719, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, 739, 740, 741, 742, 743, 744, 745, 746, 747, 748, 749, 750, 751, 752, 753, 754, 755, 756, 757, 758, 759, 760, 761, 762, 763, 764, 765, 766, 767, 768, 769, 770, 771, 772, 773, 774, 775, 776, 777, 778, 779, 780, 781, 782, 783, 784, 785, 786, 787, 788, 789, 790, 791, 792, 793, 794, 795, 796, 797, 798, 799, 800, 801, 802, 803, 804, 805, 806, 807, 808, 809, 810, 811, 812, 813, 814, 815, 816, 817, 818, 819, 820, 821, 822, 823, 824, 825, 826, 827, 828, 829, 830, 831, 832, 833, 834, 835, 836, 837, 838, 839, 840, 841, 842, 843, 844, 845, 846, 847, 848, 849, 850, 851, 852, 853, 854, 855, 856, 857, 858, 859, 860, 861, 862, 863, 864, 865, 866, 867, 868, 869, 870, 871, 872, 873, 874, 875, 876, 877, 878, 879, 880, 881, 882, 883, 884, 885, 886, 887, 888, 889, 890, 891, 892, 893, 894, 895, 896, 897, 898, 899, 900, 901, 902, 903, 904, 905, 906, 907, 908, 909, 910, 911, 912, 913, 914, 915, 916, 917, 918, 919, 920, 921, 922, 923, 924, 925, 926, 927, 928, 929, 930, 931, 932, 933, 934, 935, 936, 937, 938, 939, 940, 941, 942, 943, 944, 945, 946, 947, 948, 949, 950, 951, 952, 953, 954, 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969, 970, 971, 972, 973, 974, 975, 976, 977, 978, 979, 980, 981, 982, 983, 984, 985, 986, 987, 988, 989, 990, 991, 992, 993, 994, 995, 996, 997, 998, 999, 1000, 1001, 1002, 1003, 1004, 1005, 1006, 1007, 1008, 1009, 1010, 1011, 1012, 1013, 1014, 1015, 1016, 1017, 1018, 1019, 1020, 1021, 1022, 1023, 1024, 1025, 1026, 1027, 1028, 1029, 1030, 1031, 1032, 1033, 1034, 1035, 1036, 1037, 1038, 1039, 1040, 1041, 1042, 1043, 1044, 1045, 1046, 1047, 1048, 1049, 1050, 1051, 1052, 1053, 1054, 1055, 1056, 1057, 1058, 1059, 1060, 1061, 1062, 1063, 1064, 1065, 1066, 1067, 1068, 1069, 1070, 1071, 1072, 1073, 1074, 1075, 1076, 1077, 1078, 1079, 1080, 1081, 1082, 1083, 1084, 1085, 1086, 1087, 1088, 1089, 1090, 1091, 1092, 1093, 1094, 1095, 1096, 1097, 1098, 1099, 1100, 1101, 1102, 1103, 1104, 1105, 1106, 1107, 1108, 1109, 1110, 1111, 1112, 1113, 1114, 1115, 1116, 1117, 1118, 1119, 1120, 1121, 1122, 1123, 1124, 1125, 1126, 1127, 1128, 1129, 1130, 1131, 1132, 1133, 1134, 1135, 1136, 1137, 1138, 1139, 1140, 1141, 1142, 1143, 1144, 1145, 1146, 1147, 1148, 1149, 1150, 1151, 1152, 1153, 1154, 1155, 1156, 1157, 1158, 1159, 1160, 1161, 1162, 1163, 1164, 1165, 1166, 1167, 1168, 1169, 1170, 1171, 1172, 1173, 1174, 1175, 1176, 1177, 1178, 1179, 1180, 1181, 1182, 1183, 1184, 1185, 1186, 1187, 1188, 1189, 1190, 1191, 1192, 1193, 1194, 1195, 1196, 1197, 1198, 1199, 1200, 1201, 1202, 1203, 1204, 1205, 1206, 1207, 1208, 1209, 1210, 1211, 1212, 1213, 1214, 1215, 1216, 1217, 1218, 1219, 1220, 1221, 1222, 1223, 1224, 1225, 1226, 1227, 1228, 1229, 1230, 1231, 1232, 1233, 1234, 1235, 1236, 1237, 1238, 1239, 1240, 1241, 1242, 1243, 1244, 1245, 1246, 1247, 1248, 1249, 1250, 1251, 1252, 1253, 1254, 1255, 1256, 1257, 1258, 1259, 1260, 1261, 1262, 1263, 1264, 1265, 1266, 1267, 1268, 1269, 1270, 1271, 1272, 1273, 1274, 1275, 1276, 1277, 1278, 1279, 1280, 1281, 1282, 1283, 1284, 1285, 1286, 1287, 1288, 1289, 1290, 1291, 1292, 1293, 1294, 1295, 1296, 1297, 1298, 1299, 1300, 1301, 1302, 1303, 1304, 1305, 1306, 1307, 1308, 1309, 1310, 1311, 1312, 1313, 1314, 1315, 1316, 1317, 1318, 1319, 1320, 1321, 1322, 1323, 1324, 1325, 1326, 1327, 1328, 1329, 1330, 1331, 1332, 1333, 1334, 1335, 1336, 1337, 1338, 1339, 1340, 1341, 1342, 1343, 1344, 1345, 1346, 1347, 1348, 1349, 1350, 1351, 1352, 1353, 1354, 1355, 1356, 1357, 1358, 1359, 1360, 1361, 1362, 1363, 1364, 1365, 1366, 1367, 1368, 1369, 1370, 1371, 1372, 1373, 1374, 1375, 1376, 1377, 1378, 1379, 1380, 1381, 1382, 1383, 1384, 1385, 1386, 1387, 1388, 1389, 1390, 1391, 1392, 1393, 1394, 1395, 1396, 1397, 1398, 1399, 1400, 1401, 1402, 1403, 1404, 1405, 1406, 1407, 1408, 1409, 1410, 1411, 1412, 1413, 1414, 1415, 1416, 1417, 1418, 1419, 1420, 1421, 1422, 1423, 1424, 1425, 1426, 1427, 1428, 1429, 1430, 1431, 1432, 1433, 1434, 1435, 1436, 1437, 1438, 1439, 1440, 1441, 1442, 1443, 1444, 1445, 1446, 1447, 1448, 1449, 1450, 1451, 1452, 1453, 1454, 1455, 1456, 1457, 1458, 1459, 1460, 1461, 1462, 1463, 1464, 1465, 1466, 1467, 1468, 1469, 1470, 1471, 1472, 1473, 1474, 1475, 1476, 1477, 1478, 1479, 1480, 1481, 1482, 1483, 1484, 1485, 1486, 1487, 1488, 1489, 1490, 1491, 1492, 1493, 1494, 1495, 1496, 1497, 1498, 1499, 1500, 1501, 1502, 1503, 1504, 1505, 1506, 1507, 1508, 1509, 1510, 1511, 1512, 1513, 1514, 1515, 1516, 1517, 1518, 1519, 1520, 1521, 1522, 1523, 1524, 1525, 1526, 1527, 1528, 1529, 1530, 1531, 1532, 1533, 1534, 1535, 1536, 1537, 1538, 1539, 1540, 1541, 1542, 1543, 1544, 1545, 1546, 1547, 1548, 1549, 1550, 1551, 1552, 1553, 1554, 1555, 1556, 1557, 1558, 1559, 1560, 1561, 1562, 1563, 1564, 1565, 1566, 1567, 1568, 1569, 1570, 1571, 1572, 1573, 1574, 1575, 1576, 1577, 1578, 1579, 1580, 1581, 1582, 1583, 1584, 1585, 1586, 1587, 1588, 1589, 1590, 1591, 1592, 1593, 1594, 1595, 1596, 1597, 1598, 1599, 1600, 1601, 1602, 1603, 1604, 1605, 1606, 1607, 1608, 1609, 1610, 1611, 1612, 1613, 1614, 1615, 1616, 1617, 1618, 1619, 1620, 1621, 1622, 1623, 1624, 1625, 1626, 1627, 1628, 1629, 1630, 1631, 1632, 1633, 1634, 1635, 1636, 1637, 1638, 1639, 1640, 1641, 1642, 1643, 1644, 1645, 1646, 1647, 1648, 1649, 1650, 1651, 1652, 1653, 1654, 1655, 1656, 1657, 1658, 1659, 1660, 1661, 1662, 1663, 1664, 1665, 1666, 1667, 1668, 1669, 1670, 1671, 1672, 1673, 1674, 1675, 1676, 1677, 1678, 1679, 1680, 1681, 1682, 1683, 1684, 1685, 1686, 1687, 1688, 1689, 1690, 1691, 1692, 1693, 1694, 1695, 1696, 1697, 1698, 1699, 1700, 1701, 1702, 1703, 1704, 1705, 1706, 1707, 1708, 1709, 1710, 1711, 1712, 1713, 1714, 1715, 1716, 1717, 1718, 1719, 1720, 1721, 1722, 1723, 1724, 1725, 1726, 1727, 1728, 1729, 1730, 1731, 1732, 1733, 1734, 1735, 1736, 1737, 1738, 1739, 1740, 1741, 1742, 1743, 1744, 1745, 1746, 1747, 1748, 1749, 1750, 1751, 1752, 1753, 1754, 1755, 1756, 1757, 1758, 1759, 1760, 1761, 1762, 1763, 1764, 1765, 1766, 1767, 1768, 1769, 1770, 1771, 1772, 1773, 1774, 1775, 1776, 1777, 1778, 1779, 1780, 1781, 1782, 1783, 1784, 1785, 1786, 1787, 1788, 1789, 1790, 1791, 1792, 1793, 1794, 1795, 1796, 1797, 1798, 1799, 1800, 1801, 1802, 1803, 1804, 1805, 1806, 1807, 1808, 1809, 1810, 1811, 1812, 1813, 1814, 1815, 1816, 1817, 1818, 1819, 1820, 1821, 1822, 1823, 1824, 1825, 1826, 1827, 1828, 1829, 1830, 1831, 1832, 1833, 1834, 1835, 1836, 1837, 1838, 1839, 1840, 1841, 1842, 1843, 1844, 1845, 1846, 1847, 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858, 1859, 1860, 1861, 1862, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, 1955, 1956, 1957, 1958, 1959, 1960, 1961, 1962, 1963, 1964, 1965, 1966, 1967, 1968, 1969, 1970, 1971, 1972, 1973, 1974, 1975, 1976, 1977, 1978, 1979, 1980, 1981, 1982, 1983, 1984,

Daily Intelligencer.

Copies of the Evening INTELLIGENCER can be procured at the stores of Messrs. A. Robinson, J. C. Overall and M. O. Dempsey.

Weekly Intelligencer.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 5 cents.

Our New Office.

To afford accommodation for the rapidly increasing business of the INTELLIGENCER, the business office has been removed to the front part of the building (second floor) in that portion formerly occupied by Mr. John Laster, which has been fitted up with all the modern improvements. Entrance from Front Street.

The Daily Intelligencer.

TRAIN SERVICE.

Subscribers in the villages along the line of Railway will hereafter receive their Daily papers at the following places, instead of at the Post Office:

STIRLING.—At the drug store of Dr. G. H. Boulter, M. P. P.

CAMPBELLFORD.—At the office of Mr. Thomas Oliver, who will also act as our agent for the Weekly Intelligencer.

HATINGS.—Of Mr. David Morrison, at the Post Office.

MADOC.—At the store of Mr. C. G. Wilson.

Extra copies of each day's issue can be obtained at the above places.

J. H. BATES, NEWSPAPER ADVERTISING AGENT, 41 PARK ROW, (Times Building), NEW YORK.

I am authorized to contract for advertisements in the DAILY and WEEKLY INTELLIGENCER at our best rates.

THE DAILY INTELLIGENCER.

BEHAVIOR, WEDNESDAY MARCH 31.

The License Inspectorship.

It took some days after the dismissal of Mr. Ross from the position of License Inspector, for the Government organ to invent the lame excuse that the dismissal was justifiable on the ground that the appointment was an annual one. But that delay could easily be accounted for on the ground that a joint letter, signed by some of the leading Reformers, had been sent to Toronto, remonstrating with the Government on the subject, and no doubt it would not have been prudent for the organ of the party to attempt to justify the dismissal until it was certain that Mr. Ross would not be reinstated; yet it now coolly in the face of this memorial, informs the public in its issue of the 30th March, that "there is no disagreement with regard to the License Inspectorship."

On December 30th last, a circular was issued to the License Inspectors in Ontario from the Provincial Secretary's office, stating that their appointments were hereafter not to be annual, as formerly, but during pleasure; and as these appointments date from the commencement of the year, this circular, which directed License Inspectors to continue in the discharge of their duties, was in fact a reappointment of every one of those officials to whom it was addressed.

Every appointment under a Government not made annually is during pleasure, which has always been understood to mean, until it has been proved that the official has done some act deserving of dismissal; and in this case no charge has even been brought, much less proven, against Mr. Ross. But Ontario is now governed by a "Reform" Government, which required that these old British rules of fair play should be "reformed" and right royalty the party have set to work to carry out the un-British doctrine "To the victors belong the spoils."

The editorial in question has given us the reason for Mr. Ross' dismissal when it says: "Mr. Ross has been forced to recognize the necessity of looking after the interests of his friends," which does not claim that Mr. Ross was dismissed on account of his inability to fill the position, nor because his appointment was a yearly one, but simply because Mr. Ross has been forced to look after friends of the party. "Tommy, make room for your uncle," seems to be the battle cry of those pure Grits, whose accession to power has resulted in the formation of a corkscrew form of a Government that has squandered the surplus left them by their predecessors, and now that the surplus can no longer be drawn on any Ontario officials suspected of having Tory proclivities, no matter how well they may have filled their positions, are to be summarily dismissed to make room for the needy office seekers of the Grit party.

THE CIRCASSIAN'S IMMIGRANTS.—The immigrants by the steamer *Circassian* which arrived at Halifax on the 28th inst. are nearly all bound for Manitoba and the North-West. They left by special train on the 29th and number about 180. They were well provided with baggage.

THE RIFLE.—The first rifle match of the Prince Edward Rifle Association took place at Pictou on the 29th inst. The match was between the military and civilians of the Association, the military winning by 14 points.

THE IRISH ELECTIONS.—The London *Truth* is told that if Mr. Parnell is elected to obtain about £10,000 for electoral purposes his adherents will carry about 40 seats in Ireland at the general election. To do this money alone is required, in order to pay the expenses of the candidate. (Some Big Push about that.)

The Election in England.

Since the dissolution of the British Parliament the election contest has been waged with bitter warfare.

Perhaps never in the history of England has an election contest been carried on with greater exertion on both sides than the present.

The Conservative party, under the leadership of Lord Beaconsfield, seem confident of success and a return to power, but the Opposition, emboldened by the withdrawal of Lord Derby from his party, are appealing to the sympathy of the House of Commons and hope through the assistance of that party, to gain the balance of power. A very significant sign of the times, however, is the fact that Baroness Burdett Coutts, herself naturally an adherent of the Gladstone party, in answer to a request for a contribution toward the election of Mr. Gladstone's son to Parliament, replied declining. She asserts under the present circumstances of the world the country needs a strong Government, and since the dissolution of Parliament by Mr. Gladstone the Liberals have been too disorganized to offer such Government.

Gray Earl, a statesman of great influence has also withdrawn his support from the Liberals and hopes for the success of the Conservatives. The fact that but ten or twelve out of 652 members have been elected by acclamation shows how determinedly the electoral battle is being contested.

Marmora.

(From a Correspondent.)

Mr. R. Campion it is said has lately fallen heir to a large fortune, some \$15,000 from a lady relative in England.

Lieut. S. Johns, for many years a resident of Marmora, has for some time been residing in Morris, Manitoba with his wife, and sends home glowing accounts of that fertile Province. J. and G. Irwin and J. Boddome also have for about a year been living in the North-West, and the following extracts from their private letters show how desirable a country it is for emigrants to look to:

FROM THE MESSRS. IRWIN:—"We are at present residing at Portage La Prairie, and have found not only this neighborhood but all other portions of this Province to be a glorious home. We have secured a most desirable home on the Souris river near those important coal beds you may have seen an account of in the papers. They have been worked this winter. The soil is generally of a limestone nature, with a clay sub-soil and from one to three feet deep of muck, more or less. A large quantity of oak and elm grow on the banks of the river, which rise from the height of from 150 to 200 feet from the bed of the stream. Three men from Thorlow are coming here to locate farms for 100 families. Wild ducks, prairie chickens, deer, and wild cats are here in abundance. If a sportsman set for a few minutes at a crook in the river he could shoot about a large quantity of ducks. As many as eight have been killed at two shots."

FROM MR. J. BODDOME:—"Settlements in the vicinity of the Little Saskatchewan are going ahead very rapidly. Ontario never saw such developments on so gigantic a scale. You can form some idea of the progress of this country when I tell you that where I travelled in 1877 for days together without seeing a single house, there are now hundreds of families settled, towns, villages, blocks, saw and grist mills. The Assiniboine, near its confluence with the Little Saskatchewan, is a most desirable place to live. Filled with numerous and beautiful lakes, with white fish and pickerel, are all to be found there."

Mr. Jas. Wiggins, formerly a resident of Marmora, has for some months been living in Michigan, but having heard since of the extraordinary fertility of the land on the banks of the Souris river, has resolved upon leaving the domain of "Uncle Sam" and in future to reside in Manitoba. It is a lamentable fact that so many loyal subjects of Her Majesty should prefer the land where the "star spangled banner waves" for a home and not the wonderful prairies of the N. W. All true Liberal Conservatives ought surely to prefer taking up their abode in some part of the British Empire, where the "red cross flag" is a welcome sight to gladden the hearts of all those who love and honor our good Queen Victoria.

AMOR PATRIE.

Marmora, March 24, 1880.

[Our Marmora correspondent having been accused by a writer in the *Stirling* of making incorrect statements in his budget of news items, occupies considerable space in denying them. We have room for his letter, but give him the benefit of this general denial. And while upon this subject we urge upon our correspondents to condense their letters, and state facts in the briefest possible manner. We are anxious for news from all parts of the County, and are thankful to those who furnish it. But in order to give publicity to their contributions they must be boiled down.]

A HALF CENTURY MASON.—A Montreal paper says: "The English Masons have decided to give a fine banquet next month to their Provincial Grand Master, Judge Badgley, on the anniversary of his 50th year as a Mason, he being, perhaps, the oldest one in Montreal. The banquet is to be one of the largest ever held in the city, and the Windsor Hotel is spoken of as the place where the dinner will be given, the tickets to be sold at \$10 each. Delegates are expected from various points in the United States and Canada."

When King James the first wrote his "counterblast to tobacco" the royal pedant knew nothing of the "Myrtle Navy." If he had, instead of wasting his time in his curious production, he would have filled his royal pipe with it, and would have taken a royal smoke, he would then have been prepared to admit that with regard to the injurious effects of tobacco, it all depended on what tobacco you smoked.

AN INVENTION INDEED.—The Montreal *Witness* writes: "Mr. G. B. Brown, of Lancaster, has just been 'invented' a new way to sail a vessel or ship on any ocean or in any point of the compass with a head wind." It makes no difference which way the wind blows, and there is no need of masts, sails, ropes or spars. He says the model can be seen at Lancaster after the patent is got out.

THE LATE BURGLARY AT STIRLING.

RESTORATION OF PART OF THE STOLEN MONEY.

On Monday morning, the 29th inst., Mr. Jesse Barlow, of Stirling, found a letter on his door addressed to Mr. Thomas McKee, the party who had been robbed the week before. On opening the letter it was found to contain \$187 in cash, and being \$83 less than the sum which was taken. This last amount no doubt was kept by the thief to compensate himself for his trouble and the annoyance he had been put to. The letter reads as follows:—"It is with a view of clearing the accused from suspicion your money is returned. He knows nothing about the money; you left the safe unlocked; it was found out; no matter how, and to clear him it is returned. 'Twill be placed where you will be sure to get it.—*News Agency please copy.*"

FIFTEEN SOLVERS.—Many solutions of the famous puzzle 13-14-15 have been published, but the following is the simplest we have yet seen:—"The puzzle can be done in fourteen moves from the famous 13, 15, 14 position as follows: Turn the box (diagram, if on paper) so that the left hand side is at the bottom. Then move 4 to the right, 1 up, 13 to the left, 12 down, 2 to the right, 14 up, 13 to the left, 8 down, 2 to the right, 5 up, 13 to the left, 11 down, 6 to the right, 9 up and 10 to the left. Very simple."

MORNING DESPATCHES.

EUROPEAN.

LONDON, March 31.—The Russian journals for the most part urge that in case of war, Russia should depend upon the seaboard of China, in conjunction with the Japanese.

AMERICAN.

SAN FRANCISCO, March 31.—At 11 p.m. the vote in the city was about two-thirds counted. Citizens' ticket 11,769; workingmen's, 7,900; for joint senator, Byrnes, republican, 11,612; French, workingman, 7,635. This may be considered fairly indicative of the result.

LOGAN, O., March 31.—Albert Guess, charged with murdering Wm. Conly a month ago, has confessed implicating Harvey Nixon, a saloon keeper, and Wm. J. Thom, a school teacher, who have been arrested.

SAN ANTONIO, March 31.—Two men named Poe and Marsh quarrelled while playing cards in Bander County recently. They shot at each other and both were wounded fatally.

KANSAS CITY, March 31.—Chief Douglas has given O'urray the names of all the Indians engaged in the Meeker massacre. O'urray will endeavor to arrest them.

NEW YORK, March 31.—DeLesseps sails on Thursday and expects to address the residents of Liverpool on April 11th. He will visit Manchester and London for the same purpose arriving in Paris April 14.

President Palmer, of Broadway bank, has purchased the 34th Street Methodist Church for \$75,000 and will make it a free church in every respect.

NEW YORK, March 31.—The *Herald's* Madrid special says the present Cabinet have decided upon a vigorous policy in Colonial matters. The Government will admit a reduction of the expenditure and import duties in the West Indies, and will also lower the taxes on sugar estates. The Cuban estimates include the authorization of an issue of eighty million dollars in bonds guaranteed by revenue. Gen. Blanco has been provided with \$90,000,000 to continue operations until the arrival of relief of eighteen men in autumn. The Government has instructed the General to do his utmost to stamp out the insurrection before the prorogation of the Cortes in July.

One thousand emigrants landed yesterday. The New York Central have withdrawn all their shares from the market. They claim that only 50,000 or 60,000 shares remain of 250,000 purchased from Vanderbilt. It is reported that Vanderbilt has offered the syndicate another 100,000 shares at \$125, he to receive half profits from their sale.

Rev. Mr. Bischoff, charged with immorality in Garapigny, N. J., was summarily expelled from the ministry yesterday by the Newark Conference.

Arrived, the *Seythia* from Liverpool.

Correspondence.

Whilst correspondents will be accorded space for the expression of their ideas on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

For the Intelligencer.

DEAR MR. EDITOR:—In your issue of last week I noticed a letter from some kind friend, giving commendations to a few of the dexterous young people, who took part in the "Grand Exhibition" given at the Town Hall, Sydney, and I must say that I affirm his statements; but not without commending others, whose names have not been mentioned. Firstly, Miss Petty needs great praise for the eloquent recitation that she gave, and also for the active part that she took in three dialogues. Miss Hattie Bleeker, who took part in three dialogues, singing in two of them, did admirably well. In one play she represented an old drunkard's ragged daughter in search of her father, who was represented by Mason Lockwood; the father had shot a man while intoxicated, and was put in prison. The poor little creature sang her pitiful songs to the policeman and jailer until she melted their hard hearts, and they let him go home with her amid showers of bouquets and peals of laughter. Miss Nell Lockwood should receive her share of congratulations for accomplishing her part so well; she represented an old maid about fifty, who painted, primed, powdered her cheeks and wore false hair, &c., &c. Many times she brought the house to a laugh that would almost confuse the actors. To Miss Bertha Reddick, Mr. Frank White, Mr. William and Charles Ketcheson and Wesley Bradley, and others, are due many thanks for their efforts. It is not necessary to mention any more about the music as nothing more could be said; and I hope when the young folks have another such entertainment they will go off as well.

Kind sir, I hope that you will insert the above in your next issue, and oblige an old friend to all such entertainments.

ANOTHER SPECTATOR.

Wallbridge, March 22, 1880.

News Condensed.

The weather is spring-like in Manitoba.
—There are now 25 Chinese in Toronto.
—Hon. Geo. Brown was out riding on the 29th inst.
—Lieut. Gov. Wilmet's health is much improved.
—A new oatmeal mill is to be erected at London.
—Rev. Newman Hall has been married again.
—There has been a change of Ministry in Brazil.
—The Montreal Gas Company made a net profit of \$187,813, last year.
—Carleton's silk factory will be in full operation at Montreal in three months.
—Only 1,100 chests of tea were seized at Montreal of the Lambie consignment.
—Mr. E. Hilton has accepted the nomination as Liberal candidate for Chateaugay.
—On the 29th a gang of 30 men were engaged in Montreal to work on the Manitoba Railways.
—It is said that Hon. T. N. Gibbs will be Senator in place of the late Hon. Mr. Seymour.
—There is no explosive gasoline in Canadian oil, so it requires 10° less fire heat than American.
—From the fresh ridings in Afghanistan it is feared that a new edition of the Afghan war is about to confront the British Empire.
—It is reported that Mr. D. R. Murphy is likely to receive the appointment of Senator to fill the vacancy caused by the death of Hon. Mr. Seymour.
—The boys found frozen to death in a boat near Niagara were named Price and Raynor, and belonged to Toronto. They are the same that went adrift on Sunday.
—Ship laborers, who have been south, are returning to Quebec and Montreal to work for the spring fleet. Merchants look forward to an active spring business.
—Rye straw, put up in bales, is passing over the New Brunswick railway to Boston, where it is said to be worth more than hay. It is used for beds and packing purposes.
—The telephone has been cut off from the Dominion Methodist Church, Ottawa. The *Herald* says those who want to hear the Rev. Mr. Stafford will have to go to church.

Marine Notes.

It is the intention of Capt. Porto to put the new steamer *Varna* on the route run by the *Ulton* last season. The *Ulton* will run her old route until the *Varna* is ready, which will be some time about the 15th or 20th of April. It is the intention to put the *Ulton* on West Lake, between Wellington and the Sand Banks, if there is depth of water to admit of doing so.

The repairs to the schooner *Edward Blake* at Mill Point have been completed and the vessel is now being painted.

The steam barge *Saxon* is also about finished, and work on the *Deseronto* is still going on.

ANNUAL

SPRING EXHIBITION

—OF—

IMPORTED PATTERN HATS, BONNETS, MANTLES,

AND OTHER SEASONABLE NOVELTIES IN

FANCY DRY GOODS

AT

BARBER, BRIGNALL & CO'S,

BEHAVIOR, WEDNESDAY MARCH 31.

Tuesday, March 30th, 1880.

On and after the above date we will be prepared to show the newest and most fashionable designs in Spring and Summer Millinery, including an unusually large variety of Imported Pattern Bonnets and Hats.

We invite the special attention of the Ladies of Belleville and vicinity to the extremely low prices of our Pattern Bonnets and Hats this season.

In addition to our magnificent assortment of Millinery, we are in receipt of large shipments of New Goods for all Departments, including Novelties in New Dress Goods, Silks, Satins, Kid Gloves, Silk and Cotton Hosiery, Parasols, Fringes, Ribbons, Laces, Embroideries, Prints, Lace Curtains, Carpets, and other Fancy and Staple Dry Goods, making our Stock one of the largest and most attractive in the Dominion.

OUR PRICES are such as will ensure the continuance of that liberal patronage extended to us by the public for the past seven years.

P. S.—In consequence of our being so very busy, we have been unable to issue our usual "Opening" Circular.

Our friends will please accept the above notice.
